RE: FP25-0013 FINAL PLAT LOTS 7 & 13, BLOCK 1 LANDMARK ADDITION: EXTENSION REQUEST

To whom it may concern,

We respectfully request a second extension of the 30-day review period for the referenced plat case (FP25-0013) to allow time for addressing CEP and plat comments. This extension request is should be disregarded, if conditional approval action is granted at planning and zoning commission on April 9th, 2025

Please let me know if you have any questions or require any additional information at this time.
