

## **MEMORANDUM**

**DATE:** April 25, 2025  
**TO:** Sustainability Framework Advisory Committee  
**FROM:** Katherine Barnett, Sustainability Manager  
**SUBJECT:** Sustainability Framework Advisory Committee Matrix Follow-up

At the February 28<sup>th</sup> Sustainability Framework Advisory Committee Meeting, Chair Soph requested to know if there are any potential plans to execute our own risk assessment of the City's infrastructure.

Staff will work with Risk Management to deliver a response.

At the same meeting, Chair Soph stated that there is a need for increased educational outreach and community information on climate change, a Climate Action Plan, and a review of the City's website including content and links in reference to climate change.

Staff is increasing frequency of water and energy conservation classes and workshops and implementing new transportation classes and activities. Staff is focusing on promoting behavior change in the areas that the Climate Action Plan identified as needing the most action.

Staff has reviewed website and included additional links to climate change information on the Air Quality and Greenhouse Gases page: [Air Quality & Greenhouse Gases | Denton, TX](#). Staff will continue to follow City policies and best management practices when it comes to information listed on the public website.

## **OUR CORE VALUES**

Inclusion • Collaboration • Quality Service • Strategic Focus • Fiscal Responsibility
