**HICKORY CREEK ROAD REALIGNMENT, RAILROAD GRADE SEPARATION
PROJECT NUMBER _____
DENTON COUNTY, TEXAS**

STATE OF TEXAS

COUNTY OF DENTON

This CONTRACT is made and entered into by and between the CITY OF DENTON, a political subdivision of State of Texas (the "**CITY**"), acting by and through the City Council, and The Kansas City Southern Railway Company d/b/a CPKC, (the "**RAILROAD**"), duly registered to do business in the State of Missouri, whose address for mailing is 427 West 12th Street, Kansas City, MO 64105, sometimes both referred to herein as "Parties", effective as of the date of latest execution below.

WITNESSETH:

WHEREAS, the CITY has laid out and proposes to construct a section of that certain public roadway which has been designated as Hickory Creek Road, which as proposed, will pass over the track and across the right of way of the RAILROAD at a point designated as Railroad Mile Post MM99.54 on the RAILROAD's Alliance Subdivision, which point is the intersection of the proposed centerline of Hickory Creek Road with the centerline of the RAILROAD's track, near Denton, Texas, herein referenced to as "**PROJECT**"; and,

WHEREAS, the CITY is currently reconstructing Hickory Creek Road outside the RAILROAD's right of way which requires existing utilities to be removed which will impact the RAILROAD's existing grade crossing warning devices, herein referenced to as "**SIGNALS**";

WHEREAS, the parties hereto deem it necessary to keep the SIGNALS operational during the PROJECT;

WHEREAS, the parties hereto deem it necessary for the Railroad to temporarily relocate utility services for a portion of the PROJECT that affects the Railroad.

NOW, THEREFORE, in consideration of the premises and of the covenants and agreements of the parties hereto contained, to be kept and performed by the parties hereto, it is hereby agreed as follows:

A. The CITY has requested that the RAILROAD proceed with certain necessary temporary utility relocation services for the PROJECT to facilitate the parties' considerations of the PROJECT and shall be undertaken by the parties hereto upon and in accordance with the following terms, conditions and provisions.

1. The work to be done by the RAILROAD under this Contract shall consist of:

- i. Review and approval of preliminary and final engineering and design plans, specifications, drawings, contracts and other documents pertaining to the temporary utility relocation,
 - ii. Preparation of cost estimates for the RAILROAD's work in connection with the temporary utility relocation,
2. Nothing contained in this Contract shall be deemed to constitute the RAILROAD's approval of or consent to the construction of the PROJECT, which approval or consent may be withheld for any reason directly or indirectly related to safety of the RAILROAD's operations, property, or facilities. The PROJECT, if constructed, is to be constructed, under a separate Crossing Contract to be executed by the Parties at a future date.
4. The estimated cost of work to be performed by the RAILROAD for engineering services for the account of the CITY is **\$22,470.86**, as shown on the attached estimate attached hereto as **Exhibit A** and made a part hereof. It is clearly understood by the parties hereto that this is an estimate only; the CITY agrees to pay for all reimbursable charges necessitated by its work in the vicinity of the track and the RAILROAD agrees to furnish the services required. Approval of charges will require supporting documents verifying hours charged from the RAILROAD. The supporting documents must be in the form of approved time sheets or time reports. Documentation for expense charges will include signed copies of the expense accounts showing the days worked, charges for meals, accommodations and miles traveled.
5. For all items of work and expense authorized by this Contract, the RAILROAD shall invoice the CITY in care of:
