- 2.8.6** The CM@Risk will cooperate with the selected testing laboratory and all others responsible for testing and inspecting the work and shall provide them access to the Work at all times.
- 2.8.7** At the option of the City, materials may be approved at the source of supply before delivery is started.
- 2.8.8** Code compliance testing and inspections required by codes or ordinances, or by a plan approval authority, and which are made by a legally constituted authority, shall be the responsibility of and shall be paid by the CM@Risk as a Cost of the Work, unless otherwise provided in the Contract Documents or unless required by Chapter 2269 of the Texas Government Code.

- 2.9.4** The submittal shall state any required changes in the Contract Documents to adapt the design to the proposed substitution.
- 2.9.5** The submittal shall contain an itemized estimate of all costs and credits that will result directly and indirectly from the acceptance of such substitution, including cost of design, license fees, royalties, and testing. Also, the submittal shall include any adjustment in the Contract Time created by the substitution.
- 2.9.6** The CM@Risk if requested by the City shall submit Samples or any additional information that may be necessary to evaluate the acceptability of the substitution.
- 2.9.7** The City will make the final decision and will notify the CM@Risk in writing as to whether the substitution has been accepted or rejected. Where Shop Drawings are marked, show cross-reference to the Shop Drawings on the appropriate Construction Documents location.
- 2.10.1.3** Note RFI Numbers, ASI Numbers and Change Order numbers, etc., as required to identify the source of the change to the Construction Documents.
- 2.10.1.4** The CM@Risk shall as a condition of Substantial Completion, submit Project Record Drawing and Shop Drawings prints to the City or its representative for review and comment.
- 2.10.2.** Upon receipt of the reviewed Project Record Drawings from the City, the CM@Risk shall correct any deficiencies and/or omissions to the drawings and prepare for submission to the City within 14 Days.

- 2.12.3. CM@Risk's warranty obligation shall be for two years.
- 2.12.4. Nothing in this warranty is intended to limit any manufacturer's warranty which provides City with greater warranty rights than set forth in this Section or the Contract Documents. CM@Risk will provide City with all manufacturers' warranties upon Substantial Completion.

2.13 Correction of Defective Work

- 2.13.2.** CM@Risk agrees to correct any Work that is found to not be in conformance with the Contract Documents, including that part of the Work subject to Section 2.12 above, within a period of two years from the date of Substantial Completion of the Work or any portion of the Work, or within such longer period to the extent required by the Contract Documents. A progress payment, or partial or entire use or occupancy of the Project by the City, shall not constitute acceptance of Work not in accordance with the Contract Documents.
- 2.13.3.** During the Work, CM@Risk shall take meaningful steps to commence correction of such nonconforming Work as notified by the City. This includes the correction, removal or replacement of the nonconforming Work and any damage caused to other parts of the Work affected by the nonconforming Work. If CM@Risk fails to commence the necessary steps during the Work, City, in addition to any other remedies provided under the Contract Documents, may provide CM@Risk, and its surety, with written notice that City will commence correction of such nonconforming Work with its own forces.

- 2.13.7.** The two-year period referenced in Subsection 2.12.1 above applies only to CM@Risk's obligation to correct nonconforming Work and is not intended to constitute a period of limitations for any other rights or remedies City may have regarding CM@Risk's other obligations under the Contract Documents.

Article 3 - City's Services and Responsibilities

3.1 Duty to Cooperate.

3.1.1 City shall, throughout the performance of the Work, cooperate with CM@Risk and perform its responsibilities, obligations, and services in a timely manner to facilitate CM@Risk's timely and efficient performance of the Work and so as not to delay or interfere with CM@Risk's performance of its obligations under the Contract Documents.

3.1.2 City shall furnish at the CM@Risk's request, at no cost to the CM@Risk, a CADD file of the Construction Documents in AutoCAD format compatible with City of Denton Engineering and Architectural Services Department CADD technology.

3.1.3 The City will, if needed, provide training in the use and operation of the Procore system.

3.2 City's Representative

3.2.1 City's Representative shall be responsible for providing City-supplied information and approvals in a timely manner to permit CM@Risk to fulfill its obligations under the Contract Documents.

3.2.3 The City may utilize its own or a third party's field staff to assist the City's Representative during construction in observing performance of the CM@Risk and performing other City functions. This field staff is for the purpose of assisting the City's Representative and should not be confused with an inspector with a City regulatory agency or with an inspector from a City laboratory or materials testing and special inspections firm contracted to the City pursuant to Subsection 2.8.5.

3.2.3.1 Through onsite observation of the Work in progress and field checks of materials and equipment, the field staff shall endeavor to provide protection against defects and deficiencies in the Work.

3.2.3.2 The field staff will be authorized to review all Work and materials furnished. Such review may extend to all or part of the Work and to the preparation, fabrication or manufacture of the materials to be used.

3.2.3.3 The field staff will not be authorized to issue instructions contrary to the Construction Documents or to act as a supervisor for the CM@Risk.

3.2.3.4 The field staff shall have the authority to reject work or materials until any questions at issue can be decided by the City's Representative.

3.2.3.5 The furnishing of such services for the City shall not make the City responsible for or give the City control over construction means, methods, techniques, sequence or procedures, or for safety precautions or programs or responsibility for the CM@Risk's failure to perform the work in accordance with Contract Documents.

3.3 Design Professional Services

3.3.1 The City may contract separately with one or more Design Professionals to provide services for

the project. The Design Professional's contract(s) as well as other firms hired by the City to provide services on the project shall be furnished to the CM@Risk. The CM@Risk shall not have any right however, to limit or restrict any contract modifications that are mutually acceptable to the City and Design Professional.

3.3.2.1 Provide oversight of the Work. The City and CM@Risk shall endeavor to communicate through the Design Professional or designated third party. Communications by and with the Design Professional's consultants shall be through the Design Professional.

3.3.2.2 Make visits to the Site at intervals appropriate to the stage of construction to become generally familiar with the progress and quality of the completed Work and work in progress and to determine in general if the Work is being performed in accordance with the Contract Documents. The Design Professional will keep the City informed of progress of the Work and will endeavor to guard the City against defects and deficiencies in the Work. The Design Professional may have authority, but not the responsibility to reject construction which does not conform to the Construction Documents; and may require additional inspection or testing of the construction in accordance with Section 2.8.

3.3.2.3 Review and approve or take other appropriate action upon the CM@Risk's submittals such as Shop Drawings, Product Data and Samples in accordance with Section 2.7.

3.3.2.4 Interpret and decide matters concerning performance under and requirements of the Contract Documents on written request of either the City or CM@Risk. The Design Professional's or designated third party's response to such requests will be made with reasonable promptness and within any time limits agreed upon.

3.3.2.5 Prepare Change Orders and may authorize minor changes in the Work as provided in Subsection 6.6.1.

3.3.2.6 Conduct reviews to determine Substantial Completion and Final Acceptance.

3.3.2.7 Receive and forward to the City for the City's review and records written warranties and related documents required by the Contract Documents and assembled by the CM@Risk.

3.4 **City's Separate Contractors.** City is responsible for all work performed on the Project or at the Site by separate contractors under City's control. City shall contractually require its separate contractors to cooperate with and coordinate their activities so as not to interfere with, CM@Risk in order to enable CM@Risk to timely complete the Work consistent with the Contract Documents. Any City separate contractors will be subject to City insurance and subrogation requirements.

3.5 **Permit Review and Inspections.**

3.5.1 If requested by the CM@Risk, the City's Representative will provide assistance and guidance in obtaining necessary reviews, permits and inspections.

3.5.2 Regulating agencies of the City, such as Developmental Services, Fire and Planning Departments, enforce Legal Requirements. These enforcement activities are not subject to the responsibilities of the City under this Agreement.

Article 4 - Contract Time

4.0. Contract Time.

- 4.0.1.** Contract Time shall start with the commencement date established in the Notice to Proceed for the first Approved GMP and end with Substantial Completion.
- 4.0.2.** Each GMP will establish a separate commencement date and a date of Substantial Completion and a Performance Period. The Performance Periods may not be sequential and may run concurrently. The Performance Period to achieve Substantial Completion for each GMP shall be set forth in each GMP submission.
- 4.0.3.** CM@Risk agrees that it will commence performance of the Work and achieve the Performance Periods and Contract Time.
- 4.0.4.** All of the times set forth in this Article 4 shall be subject to adjustment in accordance Article 6.

4.1. Substantial Completion

- 4.1.1.** Substantial Completion shall be for the entire Project unless a partial Substantial Completion is identified in the approved GMP schedule and stated in the Notice to Proceed letter. Substantial Completion shall be in accordance with its definition in Article 1. and with the criteria set forth in the Notice to Proceed.
- 4.1.2.** Prior to notifying the City in accordance with Subsection 4.1.3 below, the CM@Risk shall inspect the Work and prepare and submit to the City a comprehensive list of items to be completed or corrected. The CM@Risk shall proceed promptly to complete and correct items on the list. Failure to include an item on such list does not alter the responsibility of the CM@Risk to complete all Work in accordance with the Contract Documents.
- 4.1.3.** CM@Risk shall notify City when it believes the Work, or to the extent permitted in the Contract Documents, a portion of the Work, is substantially complete.
- 4.1.4.** Within five (5) days of City's receipt of CM@Risk's notice, City and CM@Risk will jointly inspect such Work to verify that it is substantially complete in accordance with the requirements of the Contract Documents.
- 4.1.5.** If such Work is substantially complete, City shall prepare and issue a Certificate of Substantial Completion that will set forth (i) the date of Substantial Completion of the Work or portion thereof, (ii) the remaining items of Work that have to be completed within thirty (30) calendar days before Final Acceptance, (iii) provisions (to the extent not already provided in the Contract Documents) establishing City's and CM@Risk's responsibility for the Project's security, maintenance, utilities, and insurance pending Final Acceptance, and (iv) an acknowledgment that warranties commence to run on the date of Substantial Completion, except as may otherwise be noted in the Certificate of Substantial Completion.
- 4.1.6.** City, at its option, may use a portion of the Work which has been determined to be substantially complete, provided, however, that (i) a Certificate of Substantial Completion has been issued for the portion of Work addressing the items set forth in Subsection 4.1.5 above, (ii) CM@Risk and City have obtained the consent of their sureties and insurers, and to the extent applicable, the appropriate government authorities having jurisdiction over the Project, and (iii) City and CM@Risk agree that City's use or occupancy will not interfere with CM@Risk's completion of the remaining Work.

4.2. Final Acceptance. Upon receipt of written notice that the Work or identified portions of the Work is ready for final acceptance, City, Design Professional and CM@Risk will jointly verify that the remaining items of Work have been completed as set forth in Subsection 4.1.5. The City will issue a Final Acceptance Letter and payment pursuant to Section 7.5.

4.3. Liquidated Damages.

4.3.1. CM@Risk recognizes that ***TIME IS OF THE ESSENCE*** for the CM@Risk to achieve Substantial Completion and City will suffer financial loss if the Work is not completed within the Contract Time. The Contractor also recognizes the delays, expense and difficulties involved in proving in a legal proceeding, the actual loss suffered by the City if the Work is not completed on time. Accordingly, instead of requiring any such proof, Contractor agrees that as liquidated damages for delay (but not as a penalty), Contractor shall pay City One Thousand Dollars (\$1,000.00) for each day that expires after the Contract Time, as adjusted in accordance with this Contract, until the Day that Substantial Completion occurs. Contractor shall pay City \$1,000.00 for each day that expires after the contract time, as adjusted in accordance with this Contract, until the day that Final Acceptance occurs.

4.3.2. The City may at its sole discretion deduct from any monies due or which may become due the CM@Risk, a sum as specified herein, for each and every calendar day that the Work shall remain uncompleted. This sum shall be considered, not as penalty, but as the cost(s) for substantial losses suffered by the public and the City. Liquidated damages are intended to compensate the City for the CM@Risk's failure to meet the deadlines set forth herein, and shall not excuse the CM@Risk from liability from any other breach of requirements of the Contract Documents, including any failure of the Work to conform to applicable requirements. The CM@Risk agrees that the sums in Section 4.3.1 are reasonable in light of the anticipated or actual harm caused by the delay and breach, the difficulties of the proof of loss, and the inconvenience or nonfeasibility of otherwise obtaining an adequate remedy.

4.3.3. The parties acknowledge, covenant, and agree that the daily basis and the amount set forth above for liquidated damages are reasonable because of the unique nature of the Project as a benefit to the public; the fact that inconvenience to the public will be one of the significant impacts of any failure by the CM@Risk to timely complete the Work; and that it is impracticable and extremely difficult to ascertain and determine the actual losses which would accrue to the City and the public. Permitting the CM@Risk to continue and finish the Work, or any portion thereof, after the time fixed for its completion, shall in no way operate as a waiver on the part of the City of any of its rights under the Contract.

4.3.4. The City and CM@Risk agree to waive all claims against each other for any consequential damages that may arise out of or relate to this Agreement. The City agrees to waive damages including but not limited to the City's loss of use of the Project, any rental expenses incurred, loss of income, profit or financing related to the Project, as well as the loss of business, loss of financing, principal office overhead and expenses, loss of profits not related to this project, or loss of reputation. CM@Risk agrees to waive damages including but not limited to loss of business, loss of financing, principal office overhead and expenses, loss of profits not related to this Project, loss of bonding capacity or loss of reputation

4.4. Project Schedule

4.4.1. The Project Schedule approved as part of a GMP shall be updated and maintained throughout the Work.

4.4.2. The Project Schedule shall be revised as required by conditions and progress of the Work, but such revisions shall not relieve CM@Risk of its obligations to complete the Work within the Contract Time, as such dates may be adjusted in accordance with the Contract Documents.

- 4.4.3.** Updated Project Schedules shall be submitted monthly in electronic forms to the City as part of the Payment Request.
- 4.4.4.** CM@Risk shall provide City with a monthly status report with each Project Schedule detailing the progress of the Work, including: (i) if the Work is proceeding according to Project Schedule, (ii) any discrepancies, conflicts, or ambiguities found to exist in the Contract Documents that require resolution, and (iii) other items that require resolution so as not to jeopardize ability to complete the Work as presented in the GMP proposal and within the Contract Time. Each status report shall also include the following:
- Description of problem tasks (referenced to field instructions, requests for information (RFI's), as appropriate.
 - Current and anticipated delays including:
 - Cause of the delay;
 - Corrective action and schedule adjustments to correct the delay;
 - Known or potential impact of the delay on other activities, Milestones, and the date of Substantial Completion.
 - Changes in construction sequence
 - Pending items and status thereof including but not limited to:
 - Time Extension requests;
 - Other items.
 - Substantial Completion date status:
 - If ahead of schedule, the number of calendar Days ahead;
 - If behind schedule, the number of calendar Days behind.
 - Other project or scheduling concerns
- 4.4.5.** City's review of and response to the Project Schedule is only for general conformance with the scheduling requirements of the Contract Documents. The review shall not relieve the CM@Risk from compliance with the requirements of the Contract Documents or be construed as relieving the CM@Risk of its complete and exclusive control over the means, methods, sequences, and techniques for executing the Work.
- 4.4.6.** The Project Schedule shall include a Critical Path Method (CPM) diagram schedule that shall show the sequence of activities, the interdependence of each activity and indicate the Critical Path.
- 4.4.6.1.** The CPM diagram schedule shall be in Days and indicate duration, earliest and latest start and finish dates for all activities, and total Float times for all activities except critical activities. The CPM diagram shall be presented in a time scaled graphical format for the Project as a whole.
- 4.4.6.2.** The CPM diagram schedule shall indicate all relationships between activities.
- 4.4.6.3.** The activities making up the schedule shall be sufficient detail to assure that adequate planning has been done for proper execution of the Work and such that it provides an appropriate basis for monitoring and evaluating the progress of the Work. Further, activities shall be included for, without limitation, any and all City franchised or private utilities required to be temporarily or permanently demolished, relocated or installed; design, procurement, furnishing and installing of equipment, information technology systems, security systems, furnishings, and other City improvements (whether installed by the CM@Risk or the City) required for the Work to be completely functional as intended. These Owner Activities will be shown in the schedule with the appropriate precursor and successor activities necessary for monitoring and evaluating the progress of the Owner Activities.
- 4.4.6.4.** The CPM diagram schedule shall be based upon activities, which would coincide with the schedule of values, but the Project Schedule is not required to be **cost-loaded**.

- 4.4.6.5.** The CPM diagram schedule shall show all critical submittals associated with each work activity and the review time for each submittal.
- 4.4.6.6.** The Project Schedule shall show Milestones, including Milestones for Owner-furnished information, utilities and improvements when those Milestones are interrelated with the CM@Risk activities.
- 4.4.6.7.** The Project Schedule shall include a Critical Path activity that reflects anticipated rain delay during the performance of the Contract. The duration shall reflect the average climatic range and usual industrial conditions prevailing in the locality of the site. Weather data shall be based on information provided by the National Weather Services or other approved source.
- 4.4.7.** The Project Schedule shall consider the City's and the other stakeholder occupancy requirements showing portions of the Project having occupancy priority, and Contract Time.
- 4.4.8.** Float time shall be as prescribed below.
- 4.4.8.1.** The total Float within the overall Project Schedule, is not for the exclusive use of either the City or the CM@Risk but is jointly owned by both and is a resource available to and shared by both parties as needed to meet contract Milestones and the Project contract time.
- 4.4.8.2.** The CM@Risk shall not sequester shared Float through such strategies as extending activity duration estimates to consume available Float, using preferential logic, or using extensive crew/resource sequencing, etc. Since Float time within the Project Schedule is jointly owned, no time extensions will be granted nor delay damages paid until a delay occurs which extends the Work beyond the Substantial Completion date.
- 4.4.8.3.** Since Float time within the Project Schedule is jointly owned, it is acknowledged that City-caused delays on the Project may be offset by City-caused time savings (i.e., critical path submittals returned in less time than allowed by the Contract, approval of substitution requests and credit changes which result in savings of time to the CM@Risk, etc.). In such an event, the CM@Risk shall not be entitled to receive a time extension or delay damages until all City-caused time savings are exceeded, and the Substantial Completion date is also exceeded.

Article 5- Contract Price

- 5.0.** The CM@Risk agrees at his own proper cost and expense, to do all Work as aforesaid for the construction of said improvements and to completely construct the same and install the material therein, as called for by this Agreement free and clear of all claims, liens, and charges whatsoever, in the manner and under the conditions specified within the time, or times, stated in the approved GMP proposal.
- 5.1. Contract Price.**
- 5.1.1.** The Contract Price will be as approved in the Guaranteed Maximum Price proposal attached as an Exhibit including an amount for Owner's Contingency.
- 5.1.2.** Guaranteed Maximum Price is composed of the following not-to-exceed lump sum amounts defined below. The CM@Risk is at risk to cover any additional Project costs. Any amounts in excess of the Allowances and/or CM@Risk's Contingency shall revert to the City.
- 5.1.2.1** The Cost of the Work is a fixed lump sum.
- 5.1.2.2** The General Conditions Costs and the Construction Fee are firm fixed lump sums, but subject to adjustments as permitted in the Contract Documents.
- 5.1.3** CM@Risk's Contingency is an amount the CM@Risk may be used under the following conditions: (1) at its discretion for increases in the Cost of the Work, or (2) with written approval of the City for increases in General Condition Costs. CM@Risk's Contingency is assumed to be a direct project cost so will have received all markups at the time of GMP submission.
- 5.1.5.1** When the CM@Risk utilize CM@Risk's Contingency funds, the CM@Risk shall make the appropriate changes to the schedule of values with the next regular progress payment request. The CM@Risk shall deduct the amount of CM@Risk's Contingency funds used from the CM@Risk's Contingency line item and adding the same amount to the line item on the schedule of values where the funds were used. If the CM@Risk's Contingency funds are used for a new line item that was not given with the original schedule of values, that will be so indicated.
- 5.1.6** Owner's Contingency are funds to be used at the discretion of the Owner to cover any increases in Project costs that result from Owner directed changes or unforeseen site conditions. Owner's Contingency will be added to the GMP amount provided by the CM@Risk, the sum of which will be the total contract price for construction. Markups for Construction Fee and taxes will be applied by the CM@Risk at the time that Owner's Contingency is used.
- 5.1.7** As a City public procurement project this Project is tax exempt. Appropriate tax exemption forms shall be provided to the CM@Risk.
- 5.1.8** The GMP is subject to adjustments made in accordance with Article 6 and by GMP Amendments to this Agreement.
- 5.1.9** GMP Amendments are cumulative not including CM@Risk Contingency. The amount of CM@Risk Contingency for each GMP amendment will be negotiated separately and shall reflect the CM@Risk's risk from that point in the project forward.
- 5.1.9.1** If the GMP requires an adjustment due to changes in the Work or other causes as allowed in the Contract Documents, the cost of such changes is determined subject to Article 6. The markups that shall be allowed on such changes shall be no greater than the markups delineated in Article 6.

Article 6 - Changes to the Contract Price and Time

6.1. Delays to the Work

- 6.1.1.** If CM@Risk is delayed in the performance of the Work that will cause a change in the date of Substantial Completion due to acts, omissions, conditions, events, or circumstances beyond its control and due to no fault of its own or those for whom CM@Risk is responsible, the Contract Times for performance shall be reasonably extended by Change Order.
- 6.1.2.** The CM@Risk shall request an increase in the Contract Time by written notice including an estimate of probable effect of delay on progress of the Work. In the case of a continuing delay only one request is necessary. Such notice shall not be later than fourteen (14) Days after such condition or event has been encountered.
- 6.1.3.** By way of example, events that will entitle CM@Risk to an extension of the Contract Time include acts or omissions of City or anyone under City's control (including separate contractors), changes in the Work, Differing Site Conditions, delays by regulating agencies, wars, floods, labor disputes, unusual delay in transportation, epidemics, earthquakes, adverse weather conditions not reasonably anticipated, and other acts of God.
- 6.1.4.** If adverse weather conditions are the basis for a request for additional Contract Time, such requests shall be documented by data substantiating that weather conditions were abnormal for the period of time and that weather conditions had an adverse effect on the scheduled Substantial Completion.
- 6.1.4.1.** In allowing delays for weather, the City will be entitled to consider weather conditions prevailing throughout the entire Contract period. The City and CM@Risk will together reconcile actual working days lost and gained over the entire Contract period every ninety (90) days. The CM@Risk shall then adjust the activities for the schedule's Float reserves where those activities are carried in the CM@Risk's Project Schedule (if any).
- 6.1.5.** It is understood, however, that permitting the CM@Risk to proceed to complete any Work, or any part of the Work, after the date to which the time of completion may have been extended, shall in no way act as a waiver on the part of the City of any of its legal rights herein.
- 6.1.6.** In addition to CM@Risk's right to a time extension for those events set forth in this Section, CM@Risk shall also be entitled to an appropriate adjustment of the Contract Price provided, however, that the Contract Price shall not be adjusted for those events set forth in this Section that are beyond the control of both CM@Risk and City, including the events of war, floods, labor disputes, earthquakes, epidemics, adverse weather conditions not reasonably anticipated, and other acts of God. In the event of an occurrence under this Section, the CM@Risk and any Subcontractors will be excused from any further performance or observance of the requirements so affected for as long as such circumstances prevail, and the CM@Risk and any Subcontractors continues to use commercially reasonable efforts to recommence performance or observance whenever and to whatever extent possible without delay. Any Subcontractors of the CM@Risk shall immediately notify the CM@Risk, who shall then immediately notify the City Project Manager by telephone of any such circumstances or event (to be confirmed in writing within five (5) calendar days of the inception of such occurrence) and describe at a sufficient level of detail the circumstances causing the non-performance or delay in performance.
- 6.1.7.** If either the Work actually in place falls behind as reflected by the currently updated Project Schedule, or it becomes apparent or likely in the reasonable opinion of the City that the Work will not be completed within the Contract Time or in accordance with the CM@Risk's Project Schedule, due to delays caused by the CM@Risk or its subcontractors, the CM@Risk agrees it shall, as necessary, take some or all of the following actions (hereinafter referred to collectively as "Extraordinary Measures") at no additional cost to the City or their consultants, as required

to substantially eliminate, in the judgment of the City, the backlog of CM@Risk's Work on the Project:

- 6.1.7.1. Increase quantities of, without limitation, labor, supervision, material deliveries, equipment on site, and crafts as necessary;
- 6.1.7.2. Increase the number of working hours per shift, shifts per working day, working days per week, or any combination of the foregoing;
- 6.1.7.3. Reschedule activities to achieve maximum practical concurrence of accomplishment; and
- 6.1.7.4. Do whatever else is reasonably required by the City.
- 6.1.8. These Extraordinary Measures shall continue until the progress of the Work complies with the stage of completion required by the Contract Documents. The City's right to require Extraordinary Measures is solely for the purpose of ensuring the CM@Risk's compliance with the CM@Risk's Schedule.
- 6.1.9. In the event of such a delay, the City may also require the CM@Risk to immediately submit a Proposed Recovery Schedule for its review and approval, demonstrating to the City's satisfaction the effect of applying the necessary and continuing Extraordinary Measures required to recover the Substantial Completion date shown in the most currently approved Project Schedule.

6.2 Differing Site Conditions

- 6.2.1 If CM@Risk encounters a Differing Site Condition, CM@Risk will be entitled to an adjustment in the Contract Price and/or Contract Times to the extent CM@Risk's cost and/or time of performance are adversely impacted by the Differing Site Condition.
- 6.2.2 Upon encountering a Differing Site Condition, CM@Risk shall provide prompt written notice to City of such condition, which notice shall not be later than seven (7) days after such condition has been encountered. CM@Risk shall, to the extent reasonably possible, provide such notice before the Differing Site Condition has been further or substantially disturbed or altered.

6.3 Errors, Ambiguities, Discrepancies and Omissions.

- 6.3.1 If the CM@Risk observes errors, ambiguities, discrepancies, or omissions in the Contract Documents, they shall promptly notify the Design Professional and request clarification.
- 6.3.2 If the CM@Risk proceeds with the Work affected by such known errors, ambiguities, discrepancies, or omissions, without receiving such clarifications, they do so at their own risk. Adjustments involving such circumstances made by the CM@Risk prior to clarification by the Design Professional shall be at the CM@Risk's risk.

6.4 City Requested Change in Work.

- 6.4.1 The City reserves the right to make, at any time during the progress of the Work, such alterations as may be found necessary or in the City's best interest.
- 6.4.2 Such alterations and changes shall not invalidate this Agreement nor release the surety and the CM@Risk agrees to perform the Work as altered, the same as if it has been a part of the

original Contract Documents.

6.4.3 The City will request a proposal for a change in Work from CM@Risk, and an equitable adjustment in the Contract Price and/or Contract Times shall be made based on a mutual agreed upon cost and time.

6.5. Legal Requirements.

6.5.1. The Contract Price and/or Contract Times shall be adjusted to compensate CM@Risk for the effects of any changes in the Legal Requirements enacted after the date of the Agreement or the date of the GMP proposal, affecting the performance of the Work.

6.6. Change Directives and Change Orders.

6.6.1. City and CM@Risk shall negotiate in good faith and as expeditiously as possible the appropriate adjustments for a Change Directive. Upon reaching an agreement, the parties shall prepare and execute an appropriate Change Order reflecting the terms of the adjustment.

6.6.2. All changes in Work authorized by Change Orders shall be performed under the conditions of the Contract Documents

6.7. Minor Changes in the Work

6.7.1. The City has authority to order minor changes in Work that do not materially and adversely affect the Work, including the design, quality, performance, and workmanship required by the Contract Documents. Such changes shall be affected by written order and shall be binding on the City and CM@Risk. The CM@Risk shall carry out such written orders promptly.

6.7.2. CM@Risk may make minor changes in Work, provided, however that CM@Risk shall promptly inform City, in writing, of any such changes and record such changes, if appropriate, on the Project Record Documents maintained by CM@Risk.

6.7.3. Minor changes in Work will not involve an adjustment in the Contract Price and/or Contract Times.

6.8. Contract Price Adjustments

6.8.1. The increase or decrease in Contract Price resulting from a change in the Work shall be handled in accordance with the provisions of Section 2251.0521 of the Texas Government Code and determined by one or more of the following methods:

6.8.1.1. Unit prices set forth in the Agreement or as subsequently agreed to between the parties;

6.8.1.2. A mutually accepted, lump sum, properly itemized and supported by sufficient substantiating data to permit evaluation by City; or

6.8.1.3. Estimated cost of the Work, General Conditions Costs, if applicable, Construction Fee and tax.

6.8.2. The markups for overhead and profit that shall be allowed on the Cost of the Work driven by each change shall be no greater than that specified in Section 6.8.5 below.

6.8.3. If an increase or decrease cannot be agreed to as set forth in Subsections 6.8.1.1 through 6.8.1.3 above and City issues a Change Directive, the cost of the change of the Work shall be determined by the verifiable, actual expenses and savings in the performance of the Work resulting from the change, including a reasonable overhead and profit as shown in Section 6.8.5 below. CM@Risk shall maintain a documented, itemized accounting evidencing the expenses and savings associated with such changes.

- 6.8.4.** Cost of the Work for the purposes of this Section 6.8, and in calculating overhead and profit shall be limited to the following:
 - 6.8.4.1.** Costs of labor, including applicable and verifiable payroll taxes, fringe benefits required by agreement, workers' compensation insurance, and other employee costs approved by the City;
 - 6.8.4.2.** Costs of materials, supplies, and equipment, including cost of transportation, whether incorporated or consumed;
 - 6.8.4.3.** Rental costs of machinery and equipment, exclusive of hand tools, whether rented from the CM@Risk or others;
 - 6.8.4.4.** Costs of premiums for all bonds and insurance, permit fees, and sales, use, or similar taxes, directly related to the change; and
 - 6.8.4.5.** Additional, verifiable payroll and subsistence costs incurred by the CM@Risk, Subcontractor, and Sub-subcontractor of field personnel directly attributable to the change.
- 6.8.5.** The allowance for the combined total of onsite and offsite overhead and profit included in the total cost to the City for proposed Change Orders shall be based on the following schedule
 - 6.8.5.1.** For the CM@Risk, for Work performed by the CM@Risk's own forces, CM@Risk's fee percentage shown in the GMP plus actual direct jobsite costs associated with the additional work, if any;
 - 6.8.5.2.** For the CM@Risk, for Work performed by the CM@Risk's Subcontractor, CM@Risk's fee percentage shown in the GMP plus actual direct jobsite costs associated with the additional work, if any;
 - 6.8.5.3.** For each Subcontractor or sub-Subcontractor involved, for Work performed by that Subcontractor or Sub-subcontractor's own forces, ten percent (10%) of the cost;
 - 6.8.5.4.** For each Subcontractor, for Work performed by the Subcontractor's sub-Subcontractors, five percent (5%) of the amount due the sub-Subcontractor;
 - 6.8.5.5.** Under no circumstance shall costs of the CM@Risk's supervisory, management, administrative or other office personnel, regardless of where stationed, be paid as cost of the Work for such a change. Conversely, the CM@Risk shall be compensated for such personnel within the overhead and profit percentage specified in this Section 6.8.4.
 - 6.8.5.6.** In order to facilitate checking of quotations for extras or credits, all proposals, except those so minor that their propriety can immediately be seen by inspection, shall be accomplished by a complete itemization of quantities and costs including labor, materials, and subcontracts. Labor and materials shall be itemized in the manner prescribed above. Where major cost items are subcontracts, they shall be itemized also;
 - 6.8.5.7.** When both additions and credits are involved in any change, the allowance for overhead and profit shall be figured on the basis of the net increase or decrease, if any; and
 - 6.8.5.8.** Overtime, when specifically authorized by the City and not as a requirement for the CM@Risk to fulfill its obligations under this Agreement, shall be paid for by the City on the basis of premium payment only, plus the cost of insurance and taxes based on the premium payment period. Overhead and profit will not be paid by the City for overtime.

- 6.8.6.** If unit prices are set forth in the Contract Documents or are subsequently agreed to by the parties, but application of such unit prices will cause substantial inequity to City or CM@Risk because of differences in the character or quantity of such unit items as originally contemplated, such unit prices shall be equitably adjusted.
- 6.8.7.** If City and CM@Risk disagree upon whether CM@Risk is entitled to be paid for any services required by City, or if there are any other disagreements over the scope of Work or proposed changes to the Work, City and CM@Risk shall resolve the disagreement pursuant to Article 8 hereof.
- 6.8.7.1.** As part of the negotiation process, CM@Risk shall furnish City with a good faith estimate of the costs to perform the disputed services in accordance with City's interpretations.
- 6.8.7.2.** If the parties are unable to agree and City expects the CM@Risk to perform the services in accordance with City's interpretations, CM@Risk shall proceed to perform the disputed services, conditioned upon City issuing a written order to CM@Risk (i) directing CM@Risk to proceed and (ii) specifying City's interpretation of the services that are to be performed unless otherwise prohibited under Section 2251.0521 of the Texas Government Code.
- 6.8.8. Emergencies.** In any emergency affecting the safety of persons and/or property, CM@Risk shall act, at its discretion, to prevent threatened damage, injury or loss. Any change in the Contract Price and/or Contract Time resulting from emergency work under this Section shall be determined as provided in this Article.

Article 7- Procedure for Payment

- 7.0.** For and in consideration of the faithful performance of the Work herein embraced as set forth in the Contract Documents, which are a part hereof and in accordance with the directions of the City and to its satisfaction, the City agrees to pay the said CM@Risk the actual Cost of the Work and any applicable General Conditions Costs including, insurance and bonding, taxes, if any, and the CM@Risk's Construction Fee, but no more than the GMP as adjusted by any Change Orders. Payment for the specific work under this Agreement will be made in accordance with payment provisions detailed below.
- 7.1. GMP Payment Request**
- 7.1.1.** At the pre-construction conference prescribed in Section 2.4, CM@Risk shall submit for City's review and approval a schedule of values. The schedule of values will serve as the basis for monthly progress payments made to CM@Risk throughout the Work.
- 7.1.2.** At least five (5) working days prior to the date established for a Payment Request, the CM@Risk shall submit an updated Project Schedule and meet with the City's Representative to review the progress of the Work as it will be reflected on the Payment Request.
- 7.1.3.** The Payment Request shall constitute CM@Risk's representation that the Work has been performed consistent with the Contract Documents, has progressed to the point indicated in the Payment Request, and that all Work will pass to City free and clear of all claims, liens, encumbrances, and security interests upon the incorporation of the Work into the Project and payment, therefore.
- 7.1.4.** The Payment Request may request payment for stored equipment and materials if construction progress is in reasonable conformance with the approved Project Schedule.
- 7.1.4.1.** For equipment and materials suitably stored at the Site, the equipment and materials shall be protected by suitable insurance and City shall receive the equipment and materials free and clear of all liens and encumbrances upon payment, therefore.
- 7.1.4.2.** For materials and equipment stored off the Site and included in Payment Request, the City must approve the storage. The material and equipment must be stored within Denton County and be accessible for City's inspection. The CM@Risk must protect the City's interest and shall include applicable insurance, bonding, storage, and transportation to the Site.
- 7.1.4.3.** All bonds and insurance required for stored materials shall name the City as the loss payee to the extent of its interest in the stored materials.
- 7.1.5.** CM@Risk shall submit payment requests to the City at the beginning of each month beginning with the first month after the construction Notice to Proceed.
- 7.1.6.** With every Payment Request for the Work, CM@Risk will submit an affidavit stating that the CM@Risk has complied with the requirements of Chapter 2258, Texas Government Code. The parties hereto agree that any electronic copy of such affidavit shall be treated as an original for all intents and purposes.
- 7.2. Payment of GMP**
- 7.2.1.** City shall make payment in accordance with the provisions of this Contract and Chapter 2251 of the Texas Government Code. Payment will be made no later than thirty (30) Days after the Payment Request is received by the City, but in each case less the total of payments previously made, and less amounts properly retained under Section 7.3 below.

7.2.2. City shall pay CM@Risk all amounts properly due. If City determines that there is an error in the Payment Request and the CM@Risk is not entitled to all or part of a Payment Request, it will notify CM@Risk in writing within twenty-one (21) Days after the date Payment Request is received by the City. The notice shall indicate the specific amounts City intends to withhold, the reasons and contractual basis for the withholding, and the specific measures CM@Risk must take to rectify City's concerns. CM@Risk and City will attempt to resolve City's concerns. If the parties cannot resolve such concerns, CM@Risk may pursue its rights under the Contract Documents, including those under Article 8 hereof.

7.3. Retention on GMP

7.3.1. City will retain five percent (5%) of each Payment Request amount provided.

7.4. Substantial Completion. Upon Substantial Completion of the entire Work or, if applicable, any portion of the Work, City shall release to CM@Risk all retained amounts relating, as applicable, to the entire Work or substantially completed portion of the Work, less an amount of the reasonable value of all remaining or incomplete items of Work as noted in the Certificate of Substantial Completion.

7.5. Final Payment

7.5.1. After receipt of a final Payment Request, City shall make final payment 30 days after the receipt by the City, provided that CM@Risk has completed all of the Work in conformance with the Contract Documents and a Final Acceptance Letter has been issued by the City.

7.5.2. At the time of submission of its final Payment Request, CM@Risk shall provide the following information:

7.5.2.1. An affidavit that there are no claims, obligations, or liens outstanding or unsatisfied for labor, services, material, equipment, taxes, or other items performed, furnished or incurred for or in connection with the Work which will in any way affect City's interests;

7.5.2.3. Conditional waivers and releases executed by all Subcontractors; and

7.5.2.4. Consent of CM@Risk's surety, if any, to final payment (original with raised seal).

7.6. Payments to Subcontractors or Suppliers

7.6.1. CM@Risk shall pay its Subcontractors or suppliers within ten (10) Days of receipt of each progress payment from the City. The CM@Risk shall pay for the amount of Work performed or materials supplied by each Subcontractor or supplier as accepted and approved by the City with each progress payment. In addition, any reduction of retention by the City to the CM@Risk shall result in a corresponding reduction to Subcontractors or suppliers who have performed satisfactory work. CM@Risk shall pay Subcontractors or suppliers the reduced retention within ten (10) Days of the payment of the reduction of the retention to the CM@Risk. No contract between CM@Risk and its Subcontractors and suppliers may materially alter the rights of any Subcontractor or supplier to receive prompt payment and retention reduction as provided herein.

7.6.2. If the CM@Risk fails to make payments in accordance with these provisions, the City may take any one or more of the following actions and CM@Risk agrees that the City may take such actions:

7.6.2.1. To hold the CM@Risk in default under this Agreement;

- 7.6.2.2. Withhold future payments including retention until proper payment has been made to Subcontractors or suppliers in accordance with these provisions;
- 7.6.2.3. Reject all future offers to perform work for the City from the CM@Risk for a period not to exceed one year from Substantial Completion date of this Project; or
- 7.6.2.4. Terminate this Agreement.
- 7.6.3. All funds paid to the CM@Risk are paid in trust and shall be used for payment of the Subcontractors and Suppliers who have performed work on the Project before the CM@Risk may use any of the funds for any other purpose. Nothing in this provision shall prohibit the CM@Risk from withholding any funds in dispute or back charges or offsets under the provisions of the Subcontract. The CM@Risk shall include a trust fund provision in each subcontract requiring the subcontractor to hold any payment its receives in trust and to use them for payment of its subcontractors and suppliers who have performed work on the Project before Subcontractor may use the funds for any other purpose.
- 7.6.4. Should the City fail or delay in exercising or enforcing any right, power, privilege, or remedy under this Section, such failure or delay shall not be deemed a waiver, release, or modification of the requirements of this Section or of any of the terms or provisions thereof.
- 7.6.5. CM@Risk shall include these prompt payment provisions in every subcontract, including procurement of materials and leases of equipment for this Agreement.

7.7. Record Keeping, Audits and Finance Controls

- 7.7.1. Full and detailed records of the CM@Risk's direct personnel payroll, reimbursable expenses pertaining to the Cost of the Work for this Project and records of accounts between the City and CM@Risk shall be kept on a generally recognized accounting basis consistently applied, and shall be available for five years after Final Acceptance of the Project, or for such longer period as may be required by law. The accounting and control systems shall be as necessary for proper financial management under this Agreement; and as required to substantiate all costs incurred to the satisfaction of the City.
- 7.7.2. The City, its authorized representative, and/or the appropriate federal agency (if any), reserve the right to audit the CM@Risk's records to verify the accuracy and appropriateness of all pricing data, including data used to negotiate Contract Documents and any Change Orders.
 - 7.7.2.1. Specifically, the City and the City's authorized auditors shall, during regular business hours and upon reasonable notice, be afforded access to electronically or within 50 miles of Denton, and shall be permitted to audit, inspect and copy, the CM@Risk's records and accounts, including complete documentation supporting actual, direct and "bare" labor costs, job-cost coded labor reports, accounting entries, books, job cost reports, correspondence, instructions, drawings, receipts, subcontracts, Subcontractor's proposals, Subcontractor's invoices, purchase orders, vouchers, memoranda, and other information or data relating to this Agreement.
- 7.7.3. The City reserves the right to decrease Contract Price and/or payments made on this Agreement if, upon audit of the CM@Risk's records, the audit discloses the CM@Risk has provided false, misleading, or inaccurate cost and pricing data.
- 7.7.4. The CM@Risk shall include a similar provision in all of its agreements with Subconsultants and Subcontractors providing services under the Contract Documents to ensure the City, its authorized representative, and/or the appropriate federal agency, has access to the Subconsultants' and Subcontractors' records to verify the accuracy of cost and pricing data.
- 7.7.5. The City reserves the right to decrease Contract Price and/or payments made on this Agreement if the above provision is not included in Subconsultant's and Subcontractor's contracts, and one or more Subconsultants and/or Subcontractors do not allow the City to audit their records to verify the accuracy and appropriateness of pricing data.

Article 8- Claims and Disputes

8.0. Requests for Contract Adjustments and Relief.

- 8.0.1.** If either CM@Risk or City believes that it is entitled to relief against the other for any event arising out of or related to the Contract, such party shall provide written notice to the other party of the basis for its claim for relief.
- 8.0.2.** Such notice shall, if possible, be made prior to incurring any cost or expense and in accordance with any specific notice requirements contained in applicable sections of the Agreement.
- 8.0.3.** In the absence of any specific notice requirement, written notice shall be given within a reasonable time, not to exceed twenty-one (21) Days, after the occurrence giving rise to the claim for relief or after the claiming party reasonably should have recognized the event or condition giving rise to the request, whichever is later.
- 8.0.4.** Such notice shall include sufficient information to advise the other party of the circumstances giving rise to the claim for relief, the specific contractual adjustment or relief requested and the basis of such request.

8.1. Dispute Avoidance and Resolution

- 8.1.1.** The parties are fully committed to working with each other throughout the Project and agree to always communicate regularly with each other so as to avoid or minimize disputes or disagreements. If disputes or disagreements do arise, CM@Risk and City each commit to resolving such disputes or disagreements in an amicable, professional, and expeditious manner so as to avoid unnecessary losses, delays, and disruptions to the Work.
- 8.1.2.** CM@Risk and City will first attempt to resolve disputes or disagreements at the field level through discussions between CM@Risk's Representative and City's Representative.
- 8.1.3.** If a dispute or disagreement cannot be resolved through CM@Risk's Representative and City's Representative, CM@Risk's Senior Representative and City's Senior Representative, upon the request of either party, shall meet as soon as conveniently possible, but in no case later than thirty (30) days after such a request is made, to attempt to resolve such dispute or disagreement. Prior to any meetings between the Senior Representatives, the parties will exchange relevant information that will assist the parties in resolving their dispute or disagreement. Should this effort be unsuccessful then the parties may proceed to take appropriate action to enforce any rights or obligations pursuant to the provisions of the Contract.

- 8.2. Duty to Continue Performance** Unless provided to the contrary in the Contract Documents or as provided by statute, CM@Risk shall continue to perform the Work and City shall continue to satisfy its payment obligations to CM@Risk, pending the final resolution of any dispute or disagreement between CM@Risk and City.

9.1. Termination for Convenience

- 9.1.1.** Upon receipt of written notice to CM@Risk, City may, at its discretion and without cause, elect to terminate this Agreement. In such event, City shall pay CM@Risk only the direct value of its completed Work and materials supplied as of the date of termination and the reasonable costs and expenses attributable to such termination. CM@Risk shall be entitled to profit and overhead on completed Work only but shall not be entitled to anticipated profit or anticipated overhead.
- 9.1.2.** If the City suspends the Work for 181 consecutive Days or more, such suspension shall be deemed a termination for convenience.

Neither shall the CM@Risk be entitled to any costs for lost opportunity, or any other similar, consequential damages. If it appears the CM@Risk would have sustained a loss on the entire Work had it been completed, the CM@Risk shall not be allowed profit and the City shall reduce the settlement to reflect the indicated rate of loss.
- 9.1.6** The CM@Risk shall maintain all records and documents for five years after final settlement. These shall be maintained and subject to auditing as prescribed in Section 7.7.

9.2. City's Right to Perform and Terminate for Cause

- 9.2.1.** If the City provides the CM@Risk with a written order to provide adequate maintenance of traffic, adequate cleanup, adequate dust control or to correct deficiencies or damage resulting from abnormal weather conditions, and the CM@Risk fails to comply in a time frame specified, the City may have a portion of the Work included in the written order accomplished by other sources.
- 9.2.2.** If CM@Risk persistently fails to: (i) provide a sufficient number of skilled workers; (ii) supply the materials required by the Contract Documents; (iii) comply with applicable Legal Requirements; (iv) timely pay, without cause, Subconsultants and/or Subcontractors; (v) prosecute the Work with promptness and diligence to ensure that the Work is completed within the Contract Times, as such times may be adjusted; or (vi) perform material obligations under the Contract Documents, then City, in addition to any other rights and remedies provided in the Contract Documents or by law, shall have the rights set forth in Subsections 9.2.3 and 9.2.4 below.
- 9.2.3.** Upon the occurrence of an event set forth in Subsection 9.2.2 above, City may provide written notice to CM@Risk, with a copy to the surety, if any, that it intends to terminate the Agreement unless the problem cited is cured, or commenced to be cured, within seven (7) Days of CM@Risk's receipt of such notice.

At such time, the CM@Risk will only be entitled to be paid for Work performed and accepted by the City prior to its default.
- 9.2.6.** If City's cost and expense of completing the Work exceeds the unpaid balance of the Contract Price, then CM@Risk shall be obligated to pay the difference to City. Such costs and expense shall include not only the cost of completing the Work, but also losses, damages, costs and expense, including attorneys' fees and expenses, incurred by City in connection with the procurement and defense of claims arising from CM@Risk's default.

ARTICLE 3 – CONTRACT DOCUMENTS: INTENT, REQUIREMENTS, REUSE

3.01 *Intent*

- A. The Contract Documents are complementary; what is required by one Contract Document is as binding as if required by all.
- B. It is the intent of the Contract to describe a functionally complete Project to be constructed in accordance with the Contract Documents. Any labor, documentation, services, materials, or equipment that reasonably may be inferred from the Contract Documents or from prevailing custom or trade usage as being required to produce the indicated result will be provided whether or not specifically called for, at no additional cost to City.
- C. City will issue clarifications and interpretations of the Contract Documents as provided herein.
- D. The Specifications may vary in form, forma and style. Some Specification sections may be written in varying degrees of streamlined or declarative style, and some sections may be relatively narrative by comparison. Omission of such words and phrases as “the Contractor shall,” “in conformity with,” “as shown,” or “as specified” are intentional in streamlined sections. Omitted words and phrases shall be supplied by inference. Similar types of provisions may appear in various parts of a section or articles within a part depending on the format of the section. The Contractor shall not take advantage of any variation of form, format or style in making Contract Claims or Damage Claims.

- E. The cross-referencing of Specification sections under the subparagraph heading “Related Sections include but are not necessarily limited to:” and elsewhere within each Specification section is provided as an aid and convenience to the Contractor. The Contractor shall not rely on the cross-referencing provided and shall be responsible to coordinate the entire Work under the Contract Documents and provide a complete Project whether or not cross-referencing is provided in each section or whether the cross-referencing is complete or accurate.

3.02 *Reference Standards*

A. Standards Specifications, Codes, Laws and Regulations

1. Reference in the Contract Documents to standard specifications, manuals, reference standards, or codes of any technical society, organization, or association, or to Laws or Regulations, whether such reference be specific or by implication, means the standard specification, manual, reference standard, code, or Laws or Regulations in effect at the time of opening of Bids (or on the Effective Date of the Agreement if there were no Bids), except as may be otherwise specifically stated in the Contract Documents.
2. No provision of any such standard specification, manual, reference standard, or code, and no instruction of a Supplier, will be effective to change the duties or responsibilities of City, Contractor, or any of their subcontractors, consultants, agents, or employees from those set forth in the Contract Documents. No such provision or instruction shall be effective to assign to City or any of its officers, elected or appointed officials, directors, members, partners, employees, agents, consultants, or subcontractors, any duty or authority to supervise or direct the performance of the Work or any duty or authority to undertake responsibility inconsistent with the provisions of the Contract Documents.

3.03 *Reporting and Resolving Discrepancies*

A. Reporting Discrepancies

1. *Contractor’s Verification of Figures and Field Measurements:* Before undertaking each part of the Work, Contractor shall carefully study the Contract Documents, and check and verify pertinent figures and dimensions therein, particularly with respect to applicable field measurements, and conditions. Contractor shall promptly report in writing to City any conflict, error, ambiguity, or discrepancy that Contractor discovers, or has actual knowledge of, and shall obtain a written interpretation or clarification from City before proceeding with any Work affected thereby.
2. *Contractor’s Review of Contract Documents:* If, before or during the performance of the Work, Contractor discovers any conflict, error, ambiguity, or discrepancy within the Contract Documents, or between the Contract Documents and (a) any applicable Law or Regulation, (b) actual field conditions, (c) any standard specification, manual, reference standard, or code, or (d) any instruction of any Supplier, then Contractor shall promptly report it to City in writing. Contractor shall not proceed with the Work affected thereby (except in an emergency as required by Paragraph 7.1717) until the conflict, error, ambiguity, or discrepancy is resolved, by a clarification or interpretation by City, or by an amendment or supplement to the Contract issued pursuant to Paragraph 11.01.
3. Contractor shall not be liable to City for failure to report any conflict, error, ambiguity, or discrepancy in the Contract Documents unless Contractor had actual knowledge thereof.

B. Resolving Discrepancies

1. Except as may be otherwise specifically stated in the Contract Documents, the provisions of the Contract Documents take precedence in resolving any conflict, error, ambiguity, or discrepancy between such provisions of the Contract Documents and:
 - a. the provisions of any standard specification, manual, reference standard, or code, or the instruction of any Supplier; or
 - b. the provisions of any Laws or Regulations applicable to the performance of the Work (unless such an interpretation of the provisions of the Contract Documents would result in violation of such Law or Regulation).
2. In case of discrepancies, figured dimensions shall govern over scaled dimensions, Drawings shall govern over Specifications, and Supplementary Conditions shall govern over General Conditions and Specifications.

3.04 Requirements of the Contract Documents

- A. During the performance of the Work and until final payment, Contractor shall submit to the City in writing all matters in question concerning the requirements of the Contract Documents (sometimes referred to as requests for information or interpretation—RFIs), or relating to the acceptability of the Work under the Contract Documents, as soon as possible after such matters arise. City will be the interpreter of the requirements of the Contract Documents, and judge of the acceptability of the Work.
- B. City will, with reasonable promptness, render a written clarification, interpretation, or decision on the issue submitted, or initiate an amendment or supplement to the Contract Documents. City's written clarification, interpretation, or decision will be final and binding on Contractor, unless Contractor appeals by filing a Contract Claim.

3.05 Reuse of Documents

- A. Contractor and its Subcontractors and Suppliers shall not:
 1. have or acquire any title to or ownership rights in any of the Drawings, Specifications, or other documents (or copies of any thereof) prepared by or bearing the seal of Engineer or its consultants, including electronic media versions, or reuse any such Drawings, Specifications, other documents, or copies thereof on extensions of the Project or any other project without written consent of CityCity and specific written verification or adaptation by Engineer; or
 2. have or acquire any title or ownership rights in any other Contract Documents, reuse any such Contract Documents for any purpose without City's express written consent, or violate any copyrights pertaining to such Contract Documents.
- B. The prohibitions of this Paragraph 3.05 05 will survive final payment, or termination of the Contract. Nothing herein precludes Contractor from retaining copies of the Contract Documents for record purposes.

ARTICLE 4 – COMMENCEMENT AND PROGRESS OF THE WORK**4.01** *Commencement of Contract Time; Notice to Proceed*

Delay, disruption, and interference attributable to and within the control of a Subcontractor or Supplier shall be deemed to be within the control of Contractor.
- C. The Contractor shall receive no compensation for delays or hindrances to the Work, except when direct and unavoidable extra cost to the Contractor is caused by the failure of the City to provide information or material, if any, that the Contract specifies is to be furnished by the City.
- D. If Contractor's performance or progress is delayed, disrupted, or interfered with by unanticipated causes not the fault of and beyond the control of City, Contractor, and those for whom they are responsible, then Contractor shall be entitled to an equitable adjustment in Contract Time. Such an adjustment will be Contractor's sole and exclusive remedy for the delays, disruption, and interference described in this Paragraph 4.03. D. The Contractor is responsible for the prompt submission of a request for an adjustment to the Contract Time under this Paragraph to the City. Causes of delay, disruption, or interference that may give rise to an adjustment in Contract Time under this Paragraph include but are not limited to the following:
 - 1. Severe and unavoidable natural catastrophes such as fires, floods, epidemics, and earthquakes;
 - 2. Abnormal weather conditions;
 - 3. Acts or failures to act of third-party utility owners or other third-party entities (other than those third-party utility owners or other third-party entities performing other work at or adjacent to the Site as arranged by or under contract with City, as contemplated in Article 8); and

4. Acts of war or terrorism.
- E. Contractor's entitlement to an adjustment of Contract Time or Contract Price is limited as follows:
1. Contractor's entitlement to an adjustment of the Contract Time is conditioned on the delay, disruption, or interference adversely affecting an activity on the critical path to completion of the Work, as of the time of the delay, disruption, or interference.
 2. Contractor shall not be entitled to an adjustment in Contract Price for any delay, disruption, or interference if such delay is concurrent with a delay, disruption, or interference caused by or within the control of Contractor. Such a concurrent delay by Contractor shall not preclude an adjustment of Contract Time to which Contractor is otherwise entitled.
 3. Adjustments of Contract Time or Contract Price are subject to the provisions of Article 11.
- F. Each Contractor request or Change Order seeking an increase in Contract Time or Contract Price must be supplemented by supporting data that sets forth in detail the following:
1. The circumstances that form the basis for the requested adjustment;
 2. The date upon which each cause of delay, disruption, or interference began to affect the progress of the Work;

 6. Contractor shall also furnish such additional supporting documentation as City may require including, where appropriate, a revised Project Schedule indicating all the activities affected by the delay, disruption, or interference, and an explanation of the effect of the delay, disruption, or interference on the critical path to completion of the Work.
- G. Delays, disruption, and interference to the performance or progress of the Work resulting from the existence of a differing subsurface or physical condition, an Underground Facility that was not shown or indicated by the Contract Documents, or not shown or indicated with reasonable accuracy, and those resulting from undisclosed Hazardous Environmental Conditions, are governed by Article 5, together with the provisions of Paragraphs 4.03.F and 4.03.G.

 2. At any time when, in the judgment of the City, the Contractor has obstructed, closed, or is carrying on operations in a portion of a street, right-of-way, or easement greater than is necessary for proper execution of the Work, the City may require the Contractor to reduce the area impacted to only that necessary for proper execution of the Work and/or to finish the section on which operations are in progress before work is commenced on any additional area of the Site.

The specification or description of such an item is intended to establish the type, function, appearance, and quality required. Unless the specification or description contains or is followed by words reading that no like, equivalent, or “or equal” item is permitted, Contractor may request that City permit the use of other items of equipment or material, or items from other proposed Suppliers, under the circumstances described below.
1. If City in its sole discretion determines that an item of equipment or material proposed by Contractor is functionally equal to that named and sufficiently similar so that no change in related Work will be required, it may be considered by City as an “or equal” item. For the purposes of this Paragraph, a proposed item of equipment or material will be considered functionally equal to an item so named if:

- E. *Treatment as a Substitution Request*: If City determines that an item of equipment or material proposed by Contractor does not qualify as an "or-equal" item, Contractor may request that City consider the item a proposed substitution pursuant to Paragraph 7.07.

7.07 Substitutions

- A. *Contractor's Request; Governing Criteria*: Unless the specification or description of an item of equipment or material required to be furnished under the Contract Documents contains or is followed by words reading that no substitution is permitted, Contractor may request that City permit the use of other items of equipment or material under the circumstances described below. To the extent possible such requests must be made before commencement of related Work at the Site.

 - 2) be substantially similar in substance to the item specified; and

- 3) be well-suited to the same use as the item specified.
- b. will state:
 - 1) the extent, if any, to which the use of the proposed substitute item will adversely impact Contractor's achievement of Final Acceptance on or before the Contract Time;
 - 2) whether use of the proposed substitute item in the Work will require a change in any of the Contract Documents (or in the provisions of any other direct contract with City for other work on the Project) to adapt the design to the proposed substitute item; and
 - 3) whether incorporation or use of the proposed substitute item in connection with the Work is subject to payment of any license fee or royalty.

- F. *Costs and Damages:* In addition to its correction, removal, and replacement obligations with respect to defective Work, Contractor shall pay all claims, costs, losses, and damages arising out of or relating to defective Work, including but not limited to the cost of the inspection, testing, correction, removal, replacement, or reconstruction of such defective Work, fines levied against Contractor or City by governmental authorities because the Work is defective, and the costs of repair, replacement or reconstruction of work of others resulting from defective Work.

13.04 *Rejecting Defective Work*

- A. - B. In connection with such corrective or remedial action, City may exclude Contractor from all or part of the Site, take possession of all or part of the Work and suspend Contractor's services related thereto, and incorporate in the Work all materials and equipment stored at the Site or for which City has paid Contractor but which are stored elsewhere.  - b. there are no other matters or issues between the parties that might entitle Contractor to be paid additionally by City or entitle City to withhold payment to Contractor; or

E. *Liquidated Damages*: For each calendar day that any work shall remain uncompleted after the time specified in the Contract Documents, the sum per day specified in the Agreement will be paid by the Contractor to the City, not as a penalty, but as liquidated damages suffered by the City. If feasible, the parties may agree to have the liquidated damages deducted from any amounts owned to Contractor by City instead of being paid directly to City by Contractor.

- A. If within two (2) years after the date of Final Acceptance (or such longer period of time as may be prescribed by the Contract Documents) any Work has been found to be defective, or Contractor's repair of any damages to the Site, adjacent areas, or areas made available for Contractor's use by City has been found to be defective, then after receipt of City's written notice of defect, Contractor shall promptly, without cost to City and in accordance with City's written instructions:
 1. correct the defective repairs to the Site or such adjacent areas, or areas made available for Contractor's use by City;
 2. correct such defective Work;
 3. remove the defective Work from the Project and replace it with Work that is not defective, if the defective Work has been rejected by City, and

4. satisfactorily correct or repair or remove and replace any damage to other Work, to the work of others, or to other land or areas resulting from the corrective measures.
- B. If Contractor does not promptly comply with the terms of City's written instructions, or in an emergency where delay would cause serious risk of loss or damage, City may have the defective Work corrected or repaired or may have the rejected Work removed and replaced. Contractor shall pay all costs, losses, and damages (including but not limited to all fees and charges of engineers, architects, attorneys, and other professionals and all court or arbitration or other dispute resolution costs) arising out of or relating to such correction or repair or such removal and replacement (including but not limited to all costs of repair or replacement of work of others).
- C. In special circumstances where a particular item of equipment is placed in continuous service before Final Acceptance of all the Work, the correction period for that item may start to run from an earlier date if so provided in the Specifications.
- D. Where defective Work (and damage to other Work resulting therefrom) has been corrected, repaired or removed and replaced under this Paragraph 14.09, the correction period hereunder with respect to such Work may be extended for an additional period of one year after the end of the initial correction period.
- E. Contractor's obligations under this paragraph are in addition to all other obligations and warranties. The provisions of this Paragraph 14.09 are not to be construed as a substitute for, or a waiver of, the provisions of any applicable statute of limitation or repose.

ARTICLE 15 – SUSPENSION OF WORK AND TERMINATION

15.01 *City May Suspend Work*

- A. At any time and without cause, City may suspend the Work or any portion thereof by written notice to Contractor. City may fix the date on which Work will be resumed in such notice, and Contractor shall resume the Work on the date so fixed. During a temporary suspension of the Work covered by these Contract Documents, for any reason, the City will make no extra payment for stand-by time of construction equipment and/or construction crews.
- B. Should the Contractor not be able to complete a portion of the Project due to causes beyond the control of and without the fault or negligence of the Contractor, and should it be determined by mutual consent of the Contractor and City that a solution to allow construction to proceed is not available within a reasonable period of time, Contractor may request an extension in Contract Time, directly attributable to any such suspension.
- C. If it should become necessary to suspend the Work for an indefinite period, the Contractor shall store all materials in such a manner that they will not obstruct or impede the public unnecessarily nor become damaged in any way; Contractor shall take every precaution to prevent damage or deterioration of the work performed; and Contractor shall provide suitable drainage about the work, and erect temporary structures where necessary.
- D. Contractor may be reimbursed for the cost of moving its equipment off the job and returning the necessary equipment to the job when it is determined by the City that construction may be resumed. Such reimbursement shall be based on actual cost to the Contractor of moving the

equipment and no profit or overhead will be allowed. Reimbursement may not be allowed if the equipment is moved to another construction project for the City.

15.02 *City May Terminate for Cause*

- A. The occurrence of any one or more of the following events by way of example, but not of limitation, may justify termination for cause:
1. Contractor's persistent failure to perform the Work in accordance with the Contract Documents (including, but not limited to, failure to supply sufficient skilled workers or suitable materials or equipment, or failure to adhere to the Project Schedule established under Paragraph 2.06 as adjusted from time to time pursuant to Paragraph 7.05);
 2. Failure of Contractor to perform or otherwise to comply with a material term of the Contract; or
 3. Contractor's disregard of Laws and Regulations of any public body having jurisdiction; or
 4. Contractor's repeated disregard of the authority of City; or
 5. Contractor's failure to promptly make good any defect in materials or workmanship, or defects of any nature, the correction of which has been directed in writing by the City; or
 6. Substantial indication that the Contractor has made an unauthorized assignment of the Contract or any funds due therefrom for the benefit of any creditor or for any other purpose; or
 7. Substantial indication that the Contractor has become insolvent or bankrupt, or otherwise financially unable to perform the Work satisfactorily; or
 8. Contractor commences legal action in a court of competent jurisdiction against the City.
- B. If one or more of the events identified in Paragraph 15.02.A occurs, City will provide written notice to Contractor and Surety to arrange a conference with Contractor and Surety to address Contractor's failure to perform the Work. The conference shall be held not later than 15 days after receipt of notice. by both Contractor and surety.
1. If the City, the Contractor, and the Surety do not agree to allow the Contractor to proceed to perform the Contract, the City may, to the extent permitted by Laws and Regulations, declare a Contractor default and formally terminate the Contractor's right to complete the Contract. Contractor default shall not be declared earlier than 20 days after the Contractor and Surety have received notice of the conference to address Contractor's failure to perform the Work.
 2. If Contractor's services are terminated, Surety shall be obligated to take over and perform the Work. If Surety does not commence performance thereof within 15 consecutive calendar days after date of an additional written notice demanding Surety's performance of its obligations, then City, without process or action at law, may take over any portion of the Work and complete it as described below.
 - a. If City completes the Work, City may exclude Contractor and Surety from the Site and take possession of the Work, and all materials and equipment stored at the Site

or for which City has paid Contractor, but which are stored elsewhere, and the Work as City may deem expedient.

3. Whether City or Surety completes the Work, Contractor shall not be entitled to receive any further payment until the Work is completed. If the unpaid balance of the Contract Price exceeds the cost to complete the Work, including all related claims, costs, losses, and damages (including but not limited to all fees and charges of engineers, architects, attorneys, and other professionals) sustained by City, such excess will be paid to Contractor. If the cost to complete the Work including such related claims, costs, losses, and damages exceeds such unpaid balance, Contractor shall pay the difference to City. Such claims, costs, losses, and damages incurred by City will be incorporated in a Change Order, provided that when exercising any rights or remedies under this Paragraph 15.02, City shall not be required to obtain the lowest price for the Work performed.
 4. Neither City, nor any of its respective consultants, agents, officers, elected or appointed officials, directors or employees shall be in any way liable or accountable to Contractor or Surety for the method by which the completion of the said Work, or any portion thereof, may be accomplished or for the price paid therefor.
 5. City, notwithstanding the method used in completing the Contract, shall not forfeit the right to recover damages from Contractor or Surety for Contractor's failure to timely complete the entire Contract. Contractor shall not be entitled to any claim, counterclaim or offset on account of the method used by City in completing the Contract.
 6. Maintenance of the Work shall continue to be Contractor's and Surety's responsibilities as provided for in the bond requirements of the Contract Documents or any special guarantees provided for under the Contract Documents or any other obligations otherwise under the Contract or prescribed by law.
- C. Notwithstanding Paragraph 15.02.B, Contractor's services will not be terminated if Contractor begins within seven days of receipt of notice of intent to terminate to correct its failure to perform and proceeds diligently to cure such failure within no more than 30 days of receipt of said notice.
- D. Where Contractor's services have been so terminated by City, the termination will not affect any rights or remedies of City against Contractor then existing or which may thereafter accrue, or any rights or remedies of City against Contractor or Surety. Any retention or payment of money due Contractor by City will not release Contractor from liability.
- E. If and to the extent that Contractor has provided a performance bond under the provisions of Paragraph 6.02, the termination procedures of that bond shall not supersede the provisions of this Article 15.

15.03 *City May Terminate for Convenience*

- A. City may, without cause and without prejudice to any other right or remedy of City, terminate the Contract, in whole or in part. Any termination shall be affected by giving notice of the termination to the Contractor specifying the extent to which performance of Work under the contract is terminated, and the date upon which such termination becomes effective. Notice shall be deemed validly given if given in accordance with Paragraph 17.01.A.

- B. After a notice of termination, has been given, and except as otherwise directed by the City, the Contractor shall:
1. stop work under the Contract on the date and to the extent specified in the notice of termination;
 2. place no further orders or subcontracts for materials, services or facilities except as may be necessary for completion of such portion of the Work under the Contract as is not terminated;
 3. terminate all orders and subcontracts to the extent that they relate to the performance of the Work terminated by notice of termination;
 4. transfer title to the City and deliver in the manner, at the times, and to the extent, if any, directed by the City:
 - a. the fabricated or unfabricated parts, Work in progress, completed Work, supplies and other material produced as a part of, or acquired in connection with the performance of, the Work terminated by the notice of the termination; and
 - b. the completed, or partially completed plans, drawings, information and other property which, if the Contract had been completed, would have been required to be furnished to the City.
 5. complete performance of such Work as shall not have been terminated by the notice of termination; and
 6. take such action as may be necessary, or as the City may direct, for the protection and preservation of the property related to the Contract that is in the possession of the Contractor and in which the City has or may acquire the rest.
- C. At a time not later than 30 days after the termination date specified in the notice of termination, the Contractor may submit to the City a list, certified as to quantity and quality, of any or all items of termination inventory not previously disposed of in accordance with the Contract, exclusive of items the disposition of which has been directed or authorized by City.
- D. Not later than 15 days after Contractor's submission of the certified list to City pursuant to Paragraph 15.03.C, the City shall accept title to such items, subject to verification of the list by the City upon removal of the items or, If the items are stored, then City shall have 45 days after submission of the list, to verify the list submitted and accept title to such items. Any necessary adjustments to correct the list as submitted, shall be made prior to final settlement.
- E. Not later than 60 days after the notice of termination has been given, the Contractor shall submit a termination claim to the City in the form and with the certification prescribed by the City. Unless an extension request is made in writing within such 60-day period by the Contractor, and granted by the City, any and all such claims of Contractor that are not submitted to City within such 60-day period shall be conclusively deemed waived.
- F. Should a termination claim be timely submitted to the City, Contractor shall be paid for (without duplication of any items):
1. completed and acceptable Work executed in accordance with the Contract Documents prior to the effective date of termination, including fair and reasonable sums for overhead

- and profit on such Work calculated and determined in accordance with the Contract Documents;
2. expenses sustained prior to the effective date of termination in performing services and furnishing labor, materials, or equipment as required by the Contract Documents in connection with uncompleted Work, plus fair and reasonable sums for overhead and profit on such expenses calculated and determined in accordance with the Contract Documents; and
 3. reasonable expenses directly attributable to reasonable and necessary wind-down and termination activities, without any overhead or profit.
- G. In the event of the failure of the Contractor and City to agree upon the whole amount to be paid to the Contractor by reason of the termination of the Work, the City shall determine, on the basis of information submitted and available to it, the amount, if any, due to the Contractor by reason of the termination and City shall pay to the Contractor the amounts so determined. Contractor shall not be paid on account of loss of anticipated profits or revenue or other economic loss arising out of, related to or resulting from such termination.

ARTICLE 16 – RESOLUTION OF DISPUTES

16.01 *Methods and Procedures*

- A. Either City or Contractor may request mediation of any Contract Claim submitted for a decision under Paragraph 11.07 before such decision becomes final and binding. The request for mediation shall be submitted to the other party to the Contract. Timely submission of the request shall stay the effect of Paragraph 11.07.E.
- B. City and Contractor shall participate in the mediation process in good faith. The process shall be commenced within 60 calendar days of filing of the request.
- C. The parties shall agree on a mediator; however, if they cannot agree within 14 calendar days then the Denton County Alternative Dispute Resolution Program (“DCAP”) shall appoint a mediator. The mediation session shall be held within 45 days of the retention of the mediator, and last for at least one full mediation day, before any party has the option to withdraw from the process. The parties may agree to continue the mediation process beyond one day, until there is a settlement agreement, or one party, or the mediator, states that there is no reason to continue because of an impasse that cannot be overcome and sends a “notice of termination of mediation.” All reasonable efforts will be made to complete the mediation within 30 days of the first mediation session. All costs of mediation shall be borne equally by the parties.
- D. All communications, both written and oral, during Phases A and B are confidential and shall be treated as settlement negotiations for purposes of applicable rules of evidence; however, documents generated in the ordinary course of business prior to the Dispute, that would otherwise be discoverable, do not become confidential simply because they are used in the Negotiation and/or Mediation process.
- E. The process shall be confidential based on terms acceptable to the mediator and/or mediation service provider.

- F. If the Contract Claim is not resolved by mediation, City's action under Paragraph 11.07.C or a denial pursuant to Paragraphs 11.07.C.3 or 11.07.D shall become final and binding 30 days after termination of the mediation unless, within that time period, City or Contractor:
1. elects in writing to invoke any other dispute resolution process provided for in the Supplementary Conditions; or
 2. agrees with the other party to submit the Contract Claim to another dispute resolution process; or
 3. gives written notice to the other party of the intent to submit the Contract Claim to a court of competent jurisdiction as set forth within the Contract Documents.

** Workers in this classification may be entitled to a higher minimum wage under Executive Order 14026 (\$17.75) or 13658 (\$13.30). Please see the Note at the top of the wage determination for more information. Please also note that the minimum wage requirements of Executive Order 14026 are not currently being enforced as to any contract or subcontract to which the states of Texas, Louisiana, or Mississippi, including their agencies, are a party.

Note: Executive Order (EO) 13706, Establishing Paid Sick Leave for Federal Contractors applies to all contracts subject to the Davis-Bacon Act for which the contract is awarded (and any solicitation was issued) on or after January 1, 2017. If this contract is covered by the EO, the contractor must provide employees with 1 hour of paid sick leave for every 30 hours they work, up to 56 hours of paid sick leave each year. Employees must be permitted to use paid sick leave for their own illness, injury or other health-related needs, including preventive care; to assist a family member (or person who is like family to the employee) who is ill, injured, or has other health-related needs, including preventive care; or for reasons resulting from, or to assist a family member (or person who is like family to the employee) who is a victim of, domestic violence, sexual assault, or stalking. Additional information on contractor requirements and worker protections under the EO is available at <https://www.dol.gov/agencies/whd/government-contracts>.

Unlisted classifications needed for work not included within the scope of the classifications listed may be added after award only as provided in the labor standards contract clauses (29CFR 5.5 (a) (1) (iii)).

The body of each wage determination lists the classifications and wage rates that have been found to be prevailing for the type(s) of construction and geographic area covered by the wage determination. The classifications are listed in alphabetical order under rate identifiers indicating whether the particular rate is a union rate (current union negotiated rate), a survey

rate, a weighted union average rate, a state adopted rate, or a supplemental classification rate.

Union Rate Identifiers

A four-letter identifier beginning with characters other than ""SU"", ""UAVG"", ?SA?, or ?SC? denotes that a union rate was prevailing for that classification in the survey. Example: PLUM0198-005 07/01/2024. PLUM is an identifier of the union whose collectively bargained rate prevailed in the survey for this classification, which in this example would be Plumbers. 0198 indicates the local union number or district council number where applicable, i.e., Plumbers Local 0198. The next number, 005 in the example, is an internal number used in processing the wage determination. The date, 07/01/2024 in the example, is the effective date of the most current negotiated rate.

Union prevailing wage rates are updated to reflect all changes over time that are reported to WHD in the rates in the collective bargaining agreement (CBA) governing the classification.

Union Average Rate Identifiers

The UAVG identifier indicates that no single rate prevailed for those classifications, but that 100% of the data reported for the classifications reflected union rates. EXAMPLE: UAVG-OH-0010 01/01/2024. UAVG indicates that the rate is a weighted union average rate. OH indicates the State of Ohio. The next number, 0010 in the example, is an internal number used in producing the wage determination. The date, 01/01/2024 in the example, indicates the date the wage determination was updated to reflect the most current union average rate.

A UAVG rate will be updated once a year, usually in January, to reflect a weighted average of the current rates in the collective bargaining agreements on which the rate is based.

Survey Rate Identifiers

The ""SU"" identifier indicates that either a single non-union rate prevailed (as defined in 29 CFR 1.2) for this classification in the survey or that the rate was derived by computing a weighted average rate based on all the rates reported in the survey for that classification. As a weighted average rate includes all rates reported in the survey, it may include both union and non-union rates. Example: SUFL2022-007 6/27/2024. SU indicates the rate is a single non-union prevailing rate or a weighted average of survey data for that classification. FL indicates the State of Florida. 2022 is the year of the survey on which these classifications and rates are based. The next number, 007 in the example, is an internal number used in producing the wage determination. The date, 6/27/2024 in the example, indicates the survey completion date for the classifications and rates under that identifier.

?SU? wage rates typically remain in effect until a new survey is conducted. However, the Wage and Hour Division (WHD) has the discretion to update such rates under 29 CFR 1.6(c)(1).

State Adopted Rate Identifiers

The ""SA"" identifier indicates that the classifications and prevailing wage rates set by a state (or local) government were

adopted under 29 C.F.R 1.3(g)-(h). Example: SAME2023-007 01/03/2024. SA reflects that the rates are state adopted. ME refers to the State of Maine. 2023 is the year during which the state completed the survey on which the listed classifications and rates are based. The next number, 007 in the example, is an internal number used in producing the wage determination. The date, 01/03/2024 in the example, reflects the date on which the classifications and rates under the ?SA? identifier took effect under state law in the state from which the rates were adopted.

WAGE DETERMINATION APPEALS PROCESS

1) Has there been an initial decision in the matter? This can be:

- a) a survey underlying a wage determination
- b) an existing published wage determination
- c) an initial WHD letter setting forth a position on a wage determination matter
- d) an initial conformance (additional classification and rate) determination

On survey related matters, initial contact, including requests for summaries of surveys, should be directed to the WHD Branch of Wage Surveys. Requests can be submitted via email to davisbaconinfo@dol.gov or by mail to:

Branch of Wage Surveys
Wage and Hour Division
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

Regarding any other wage determination matter such as conformance decisions, requests for initial decisions should be directed to the WHD Branch of Construction Wage Determinations. Requests can be submitted via email to BCWD-Office@dol.gov or by mail to:

Branch of Construction Wage Determinations
Wage and Hour Division
U.S. Department of Labor
200 Constitution Avenue, N.W.

2) If an initial decision has been issued, then any interested party (those affected by the action) that disagrees with the decision can request review and reconsideration from the Wage and Hour Administrator (See 29 CFR Part 1.8 and 29 CFR Part 7). Requests for review and reconsideration can be submitted via email to dba.reconsideration@dol.gov or by mail to:

 ** Workers in this classification may be entitled to a higher minimum wage under Executive Order 14026 (\$17.75) or 13658 (\$13.30). Please see the Note at the top of the wage determination for more information. Please also note that the minimum wage requirements of Executive Order 14026 are not currently being enforced as to any contract or subcontract to which the states of Texas, Louisiana, or Mississippi, including their agencies, are a party.

Note: Executive Order (EO) 13706, Establishing Paid Sick Leave for Federal Contractors applies to all contracts subject to the Davis-Bacon Act for which the contract is awarded (and any solicitation was issued) on or after January 1, 2017. If this contract is covered by the EO, the contractor must provide employees with 1 hour of paid sick leave for every 30 hours they work, up to 56 hours of paid sick leave each year. Employees must be permitted to use paid sick leave for their own illness, injury or other health-related needs, including preventive care; to assist a family member (or person who is like family to the employee) who is ill, injured, or has other health-related needs, including preventive care; or for reasons resulting from, or to assist a family member (or person who is like family to the employee) who is a victim of, domestic violence, sexual assault, or stalking. Additional information on contractor requirements and worker protections under the EO is available at <https://www.dol.gov/agencies/whd/government-contracts>.

Unlisted classifications needed for work not included within the scope of the classifications listed may be added after award only as provided in the labor standards contract clauses (29CFR 5.5 (a) (1) (iii)).

The body of each wage determination lists the classifications and wage rates that have been found to be prevailing for the type(s) of construction and geographic area covered by the wage determination. The classifications are listed in alphabetical order under rate identifiers indicating whether the particular rate is a union rate (current union negotiated rate), a survey rate, a weighted union average rate, a state adopted rate, or a supplemental classification rate.

Union Rate Identifiers

A four-letter identifier beginning with characters other than ""SU"", ""UAVG"", ?SA?, or ?SC? denotes that a union rate was prevailing for that classification in the survey. Example: PLUM0198-005 07/01/2024. PLUM is an identifier of the union whose collectively bargained rate prevailed in the survey for this classification, which in this example would be Plumbers. 0198 indicates the local union number or district council number where applicable, i.e., Plumbers Local 0198. The next number, 005 in the example, is an internal number used in processing the wage determination. The date, 07/01/2024 in the example, is the effective date of the most current negotiated rate.

Union prevailing wage rates are updated to reflect all changes over time that are reported to WHD in the rates in the collective bargaining agreement (CBA) governing the classification.

Union Average Rate Identifiers

The UAVG identifier indicates that no single rate prevailed for those classifications, but that 100% of the data reported for the classifications reflected union rates. EXAMPLE: UAVG-OH-0010 01/01/2024. UAVG indicates that the rate is a weighted union average rate. OH indicates the State of Ohio. The next number, 0010 in the example, is an internal number used in producing the wage determination. The date, 01/01/2024 in the example, indicates the date the wage determination was updated to reflect the most current union average rate.

A UAVG rate will be updated once a year, usually in January, to reflect a weighted average of the current rates in the collective bargaining agreements on which the rate is based.

Survey Rate Identifiers

The ""SU"" identifier indicates that either a single non-union rate prevailed (as defined in 29 CFR 1.2) for this classification in the survey or that the rate was derived by computing a weighted average rate based on all the rates reported in the survey for that classification. As a weighted average rate includes all rates reported in the survey, it may include both union and non-union rates. Example: SUFL2022-007 6/27/2024. SU indicates the rate is a single non-union prevailing rate or a weighted average of survey data for that classification. FL indicates the State of Florida. 2022 is the year of the survey on which these classifications and rates are based. The next number, 007 in the example, is an internal number used in producing the wage determination. The date, 6/27/2024 in the example, indicates the survey completion date

for the classifications and rates under that identifier.

?SU? wage rates typically remain in effect until a new survey is conducted. However, the Wage and Hour Division (WHD) has the discretion to update such rates under 29 CFR 1.6(c)(1).

State Adopted Rate Identifiers

The ""SA"" identifier indicates that the classifications and prevailing wage rates set by a state (or local) government were adopted under 29 C.F.R 1.3(g)-(h). Example: SAME2023-007 01/03/2024. SA reflects that the rates are state adopted. ME refers to the State of Maine. 2023 is the year during which the state completed the survey on which the listed classifications and rates are based. The next number, 007 in the example, is an internal number used in producing the wage determination. The date, 01/03/2024 in the example, reflects the date on which the classifications and rates under the ?SA? identifier took effect under state law in the state from which the rates were adopted.

WAGE DETERMINATION APPEALS PROCESS

1) Has there been an initial decision in the matter? This can be:

- a) a survey underlying a wage determination
- b) an existing published wage determination
- c) an initial WHD letter setting forth a position on a wage determination matter
- d) an initial conformance (additional classification and rate) determination

On survey related matters, initial contact, including requests for summaries of surveys, should be directed to the WHD Branch of Wage Surveys. Requests can be submitted via email to davisbaconinfo@dol.gov or by mail to:

Branch of Wage Surveys
Wage and Hour Division
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

Regarding any other wage determination matter such as conformance decisions, requests for initial decisions should be directed to the WHD Branch of Construction Wage Determinations. Requests can be submitted via email to BCWD-Office@dol.gov or by mail to:

Branch of Construction Wage Determinations
Wage and Hour Division
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

2) If an initial decision has been issued, then any interested party (those affected by the action) that disagrees with the decision can request review and reconsideration from the Wage and Hour Administrator (See 29 CFR Part 1.8 and 29 CFR Part 7). Requests for review and reconsideration can be submitted via email to dba.reconsideration@dol.gov or by mail to:

Wage and Hour Administrator
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

The request should be accompanied by a full statement of the interested party's position and any information (wage payment data, project description, area practice material, etc.) that the requestor considers relevant to the issue.

3) If the decision of the Administrator is not favorable, an interested party may appeal directly to the Administrative Review Board (formerly the Wage Appeals Board). Write to:

Administrative Review Board
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210.

END OF GENERAL DECISION"

EXHIBIT X – COST of the WORK

X.1 Costs to Be Reimbursed

X.1.1 The term Cost of the Work shall mean costs necessarily incurred by the CM@Risk in the proper performance of the Work. The Cost of the Work shall include only the items set forth in Sections X.1 through X.7.

X.1.2 Where, pursuant to the Contract Documents, any cost is subject to the City's prior approval, the CM@Risk shall obtain such approval in writing prior to incurring the cost.

X.1.3 Costs shall be at rates not higher than the competitive prices paid at the place of the Project, except with prior approval of the City.

X.2 Labor Costs

X.2.1 Wages for labor in the direct employ of the CM@Risk in the performance of the Work at the rates set forth in the GMP.

X.2.1.1 Pursuant to Chapter 2258, Texas Government Code, all contractors and any Subcontractor involved in the construction of a public work project shall pay not less than the prevailing rates as per diem wages in the locality at the time of construction to all laborers, workmen and mechanics employed by them in the execution of this contract. CM@Risk shall assure that these requirements are met for the Project and shall insure that every contract or subcontract relating to the Work requires, on behalf of City, that the prevailing wage rates be paid.

X.2.1.2 The CM@Risk shall be provided an applicable Department of Labor Wage Rate Determination for use on the Project required by Chapter 2258.022, Texas Government Code. In the event the City does not provide this Labor Wage Rate Determination, the CM@Risk shall request it in writing in a timely manner, so as not to delay the CM@Risk's initial subcontractor procurement process during preconstruction. The CM@Risk shall, if requested by the City, assist the City in conducting a survey of the wages paid, by labor class, on projects of a similar type in a similar location.

X.2.2 Wages or salaries of the CM@Risk's supervisory and administrative personnel when stationed at the site and performing Work, with the City's prior approval.

X.2.2.1 Charges for CM@Risk's personnel, when stationed at the field office and engaged exclusively in the performance of the Work, or other personnel as CM@Risk and City may mutually agree, as provided and set forth in the GMP.

X.2.3 Wages and salaries of the CM@Risk's supervisory or administrative personnel engaged at factories, workshops or while traveling, in expediting the production or transportation of materials or equipment required for the Work, but only for that portion of their time required for the Work.

X.2.4 Costs paid or incurred by the CM@Risk, as required by law or collective bargaining agreements, for taxes, insurance, contributions, assessments and benefits and, for personnel not covered by collective bargaining agreements, customary benefits such as sick leave, medical and health benefits, holidays, vacations and pensions, but not merit bonuses or profit-sharing provided such costs are based on wages and salaries included in the Cost of the Work under Sections X.2.1 through X.2.3. Charges for such costs shall not exceed the CM@Risk's actual cost and, as a result, when computing amounts chargeable for such costs CM@Risk shall give proper consideration to what portion of such charges are solely attributable to the Work and the effect of any annual or other periodic limitations on any such charges.

X.2.5 The rates set forth in the GMP shall remain unchanged throughout the duration of this Agreement, unless the parties execute a Change Order.

X.2.6 Notwithstanding the rates shown in the GMP to be used by the CM@Risk for progress billings, the City shall have the right to audit the CM@Risk's actual labor costs, burdens, and related expenditures before final payment, and adjust the City's payment to the CM@Risk for variations found accordingly.

X.3 Subcontract Costs

Payments made by the CM@Risk to Subcontractors in accordance with the requirements of the subcontracts properly entered into under this Agreement.

X.4 Costs of Materials and Equipment Incorporated in the Completed Construction

X.4.1 Costs, including temporary storage and transportation of materials and equipment incorporated, or to be incorporated, in the completed construction.

X.4.2 Costs of materials described in the preceding Section X.4.1 in excess of those actually installed but required to provide allowance for waste and for spoilage. Unused excess materials, if any, shall be properly stored at the site, or in accordance with the City's instructions, provided to the City at the completion of the Work or, at the City's option, shall be sold by the CM@Risk. Any amounts realized from such sales shall be credited to the City as a deduction from the Cost of the Work. CM@Risk shall use its best efforts and judgment to avoid purchasing excess materials without the prior approval of the City.

X.5 Costs of Other Materials and Equipment, Temporary Facilities and Related Items

X.5.1 Costs, including transportation and maintenance, of all materials, supplies, equipment, temporary facilities and hand tools (not owned by the workers) consumed in the performance of the Work. Any such items used but not consumed, which were paid for by the City, shall become property of the City and shall be delivered to the City upon completion of the Work in accordance with instructions furnished by the City. If the City elects, however, the CM@Risk shall purchase any items from the City at a purchase price equal to the original cost charged to the City, less the reduction in fair market value resulting directly from any use of such item in connection with the Work or such other price which is mutually acceptable for the City and the CM@Risk. Upon demand by the City, the CM@Risk shall furnish the City with any information and documentation necessary to verify the period of time for which items were used in connection with the Work.

X.5.2 Rental charges of all necessary machinery and equipment, exclusive of hand tools, not used at the site of the Work, whether rented from the CM@Risk or others, including installation, minor repairs and replacements, dismantling, removal, transportation and delivery costs thereof. Such rental charges shall not exceed the amount set forth in in the GMP, attached hereto and made part hereof. In the absence of any appropriate rental amount set forth in the GMP, rental charges shall be consistent with those generally prevailing in the location of the Project. The CM@Risk shall obtain bids for all machinery and equipment to be rented from no less than three (3) responsible suppliers other than the CM@Risk itself, or an Affiliate as defined herein. The City shall, with the advice of the CM@Risk and CM@Risk, determine which bid is to be accepted. In no event shall the CM@Risk be entitled to reimbursement for any cumulative total of rental charges in connection with any single piece of machinery or equipment in excess of sixty percent (60%) of its fair market value as of the date that such machinery or equipment is first put into service in connection with the Work. The CM@Risk shall pay any excess rental charges. CM@Risk shall disclose to the City and CM@Risk if any rental arrangements include a lease to purchase component as a result of which rental payments chargeable to City as costs are applied, in whole or in part, to CM@Risk's acquisition

of such rented equipment, in which event the rental rate otherwise provided for shall be reduced by fifty percent (50%).

X.5.3 Costs of removal of debris from the site of the Work and its proper and legal disposal.

X.5.4 Costs of the CM@Risk's site office, including reproduction costs, electronic communications and data connections at the site, postal and parcel express delivery charges, documented petty cash expenses of the site office as well as general office equipment and supplies.

X.5.5 Costs of materials and equipment suitably stored off the site at a mutually acceptable location, with the City's prior approval, when stored and maintained in compliance with the Contract Documents.

X.6 Miscellaneous Costs

X.6.1 That portion of insurance and bond premiums that can be directly attributed to and required by this Agreement. Expenses shall be substantiated by documentation in form of substance satisfactory to City. Such premiums shall be adjusted at the Final Acceptance of the Work to reflect the final Contract Price.

X.6.2 Sales, use, or similar taxes, imposed by a governmental authority, which are related to the Work and for which the CM@Risk is liable.

X.6.3 Fees and assessments for the building permit, and for other permits, licenses, and inspections, for which the CM@Risk is required by the Contract Documents to pay.

X.6.4 Fees of testing laboratories for tests required by the Contract Documents; except those related to nonconforming Work other than that which payment is permitted under the Contract Documents.

X.6.5 Royalties and license fees paid for the use of a particular design, process, or product, required by the Contract Documents, and provided such royalties, fees, and other costs are not excluded by provisions of the Contract Documents.

X.6.6 Costs of document reproductions and delivery charges.

X.6.7 That portion of the reasonable expenses of the CM@Risk's personnel incurred while traveling in discharge of duties connected with the Work, when in compliance with Exhibit Y – General Conditions Costs.

X.6.8 The cost of travel more than 100 miles from the site by; and commercial lodging, rental housing and meals for the CM@Risk's supervisory personnel properly and reasonably incurred in the performance of the Work is "Travel and Subsistence". Travel and Subsistence incurred in accordance with the CM@Risk's written personnel policy for actual and verifiable relocation and temporary living expenses of personnel required for the Work, in case it is necessary to relocate such personnel from locations further than one hundred (100) miles from the site, when approved by the City in advance and in writing, and not in excess of the line item amount shown for this purpose in the GMP.

X.7 Other Costs and Emergencies

X.7.1 Other costs incurred in the performance of the Work, with the City's prior written approval.

X.7.2 Costs incurred in taking action to prevent threatened damage, injury, or loss, in case of an emergency

affecting the safety of persons and property, to the extent not (1) caused by the CM@Risk, a subcontractor, or anyone for whom either is responsible, or (2) capable of being prevented through timely notice of an unsafe condition to the City.

X.7.3 Costs of repairing or correcting damaged or nonconforming Work executed by the CM@Risk, Subcontractors, or suppliers, provided that such damaged or nonconforming Work resulted from causes other than the fault, negligence, or neglect of the CM@Risk or its subcontractors, vendors or suppliers in whole or in part, or, failure of CM@Risk or its subcontractors, vendors or suppliers to comply with all of the requirements of the Contract Documents or the failure of the CM@Risk's personnel to adequately supervise the Work of the Subcontractors or suppliers, and only to the extent that the cost of repair or correction is not recoverable by the CM@Risk from insurance, Subcontractors or suppliers.

X.7.4 The losses included in Section X.7.3, may include settlements made with the prior written consent and approval of City. No such losses and expenses shall be included in the Cost of the Work for the purpose of determining CM@Risk's Fee unless such loss requires substantial reconstruction and CM@Risk is placed in charge thereof. In such event, CM@Risk shall be paid for profit and overhead in an amount calculated by the percentage identified in the Contract Documents, for Changes to the Work of the cost of any such reconstruction, provided such substantial reconstruction is not: (i) required due to the fault or negligence of the CM@Risk or failure of CM@Risk to comply with all of the requirements of the Contract Documents; or (ii) incidental reconstruction, which for purposes of this Section X.7.4 is hereby deemed to mean any reconstruction involving a cost of less than One Thousand Dollars (\$ 1,000).

Electronic Record and Signature Disclosure

ELECTRONIC RECORD AND SIGNATURE DISCLOSURE

From time to time, City of Denton (we, us or Company) may be required by law to provide to you certain written notices or disclosures. Described below are the terms and conditions for providing to you such notices and disclosures electronically through your DocuSign, Inc. (DocuSign) Express user account. Please read the information below carefully and thoroughly, and if you can access this information electronically to your satisfaction and agree to these terms and conditions, please confirm your agreement by clicking the 'I agree' button at the bottom of this document.

Getting paper copies

At any time, you may request from us a paper copy of any record provided or made available electronically to you by us. For such copies, as long as you are an authorized user of the DocuSign system you will have the ability to download and print any documents we send to you through your DocuSign user account for a limited period of time (usually 30 days) after such documents are first sent to you. After such time, if you wish for us to send you paper copies of any such documents from our office to you, you will be charged a \$0.00 per-page fee. You may request delivery of such paper copies from us by following the procedure described below.

Withdrawing your consent

If you decide to receive notices and disclosures from us electronically, you may at any time change your mind and tell us that thereafter you want to receive required notices and disclosures only in paper format. How you must inform us of your decision to receive future notices and disclosure in paper format and withdraw your consent to receive notices and disclosures electronically is described below.

Consequences of changing your mind

If you elect to receive required notices and disclosures only in paper format, it will slow the speed at which we can complete certain steps in transactions with you and delivering services to you because we will need first to send the required notices or disclosures to you in paper format, and then wait until we receive back from you your acknowledgment of your receipt of such paper notices or disclosures. To indicate to us that you are changing your mind, you must withdraw your consent using the DocuSign 'Withdraw Consent' form on the signing page of your DocuSign account. This will indicate to us that you have withdrawn your consent to receive required notices and disclosures electronically from us and you will no longer be able to use your DocuSign Express user account to receive required notices and consents electronically from us or to sign electronically documents from us.

All notices and disclosures will be sent to you electronically

Unless you tell us otherwise in accordance with the procedures described herein, we will provide electronically to you through your DocuSign user account all required notices, disclosures, authorizations, acknowledgements, and other documents that are required to be provided or made available to you during the course of our relationship with you. To reduce the chance of you inadvertently not receiving any notice or disclosure, we prefer to provide all of the required notices and disclosures to you by the same method and to the same address that you have given us. Thus, you can receive all the disclosures and notices electronically or in paper format through the paper mail delivery system. If you do not agree with this process, please let us know as described below. Please also see the paragraph immediately above that describes the consequences of your electing not to receive delivery of the notices and disclosures electronically from us.
