March 19, 2025

The Honorable Mayor, Members of the City Council and Citizens
City of Denton
Denton, Texas

It is with great pleasure that we present to you a copy of the Annual Comprehensive Financial Report (ACFR) of the City of Denton (the City) for the fiscal year ended September 30, 2024. The purpose of the report is to provide the City Council, management, citizens, and other interested parties with detailed information concerning the City's financial condition.

THE REPORT

The Texas Local Government Code (§ 103.001) requires an annual audit for municipalities. In addition, the City Charter (Section 2.13) requires a Certified Public Accountant who, as of the end of the fiscal year, shall make an "independent audit of accounts" and prepare a report to the City Council and the City Manager. This document fulfills the above-mentioned requirements, and the independent auditor's opinion is included in the report for the fiscal year ended September 30, 2024.

The ACFR is presented in three main sections: Introductory, Financial, and Statistical. The Introductory Section includes this transmittal letter, the City's organizational chart, and a list of principal officials. The Financial Section includes the Management's Discussion and Analysis (MD&A), Basic Financial Statements, Required Supplementary Information, Combining and Individual Fund Financial Statements, along with the independent auditors' report. The Statistical Section and Other Supplementary Information include selected financial and demographic information, generally presented on a multi-year basis.

The responsibility for both the accuracy of the presented information and the completeness and fairness of the presentation of the data, including all disclosures, rests with the City, and is based upon a comprehensive framework of internal control established for this purpose. Because the cost of internal control should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance the financial statements are free of any material misstatements. To the best of our knowledge and belief, the enclosed data is accurate in all material respects and is reported in a manner designed to fairly present the results of our operations in each of the various funds reported by the City. All disclosures necessary to enable the reader to gain an understanding of the City's financial activities have been included.

The accounting firm of Weaver and Tidwell, L.L.P. has issued an unmodified opinion on the City of Denton's financial statements for the period ended September 30, 2024. As a recipient of federal and state grant awards, a separate audit is prepared to meet the requirements of the Single Audit Act Amendments of 1996 and related Uniform Guidance. As a part of the City's single audit, tests are conducted to determine that the City has complied with applicable laws and regulations related to federal awards.

Management's Discussion and Analysis (MD&A) immediately follows the independent auditors' report and provides a narrative introduction, overview, and analysis of the basic financial statements. The MD&A complements this letter of transmittal and should be read in conjunction with it.

CITY OF DENTON PROFILE

Denton distinguishes itself from other cities in North Texas through its vibrant arts and culture scene, robust university partnerships, dynamic community collaborations, and commitment to 100% renewable energy. Originally incorporated on September 26, 1866, Denton has evolved from a serene college town on the outskirts of the Dallas-Fort Worth metroplex into one of the fastest-growing cities in the United States, with a current

OUR CORE VALUES

Inclusion • Collaboration • Quality Service • Strategic Focus • Fiscal Responsibility

population of approximately 150,000. This figure is projected to reach 229,192 by 2040, according to U.S. Census Bureau forecasts. Denton combines a reverence for its history with an eagerness to innovate. The City of Denton is in the northern portion of the Dallas/Fort Worth Consolidated Metropolitan Statistical Area (CMSA). The City is a part of the Dallas/Fort Worth Metroplex and is situated at the apex of a triangle based by Dallas (37 miles to the southeast) and Fort Worth (35 miles to the southwest) providing excellent access to and from all parts of the area. The heart of the city's urban core is anchored by a vibrant cultural arts district within Downtown Denton as well as three university campuses. The community is also recognized for its commitment to sustainability and environmental stewardship, in addition to its focus on health and wellness, highlighted by over 5,000 acres of parkland, more than 60 hiking trails, and numerous recreational facilities.

CITY SERVICES AND ORGANIZATION OF THE GOVERNMENT

The City is a home rule city and operates under the Council-Manager form of government. The elected seven-member council consists of a Mayor and six Council Members. The Mayor and two Council Members are elected at large, while the remaining representatives are elected from single member districts. The City Council enacts local laws, determines policy, and adopts the annual budget, and the City Manager is the chief executive officer for the City.

The City provides a full range of general government services to its citizens including: public safety (police and fire protection); public works (construction and maintenance of highways, streets, and infrastructure); parks and recreation; library; planning and zoning; economic development; and general administrative services. The City's enterprise fund operations consist of a utility system, solid waste, and airport operations. The City's utility system provides electric, water, and wastewater services.

The internal service operations consist of Materials Management, Fleet Services, Risk Retention, Health Insurance, Engineering Services, Technology Services, Customer Service, Facilities, and Environmental Services funds. The Materials Management Fund accounts for the financing of Warehouse and Purchasing services which are provided to other City departments. The Fleet Services Fund accounts for the financing of goods and services provided by the municipal garage to other departments within the City. The Risk Retention Fund accounts for the accumulation of resources for the payment of workers' compensation, general liability claims, and insurance policies. The Health Insurance Fund accounts for administration of the self-insurance program for health coverage in the City. The Engineering Services Fund accounts for the provision of internal engineering services to various City operations and capital projects. The Technology Services Fund provides support for the various information and computer systems within the City. The Customer Service Fund accounts for the financing of customer service activities provided to the residents and businesses of the City on behalf of other departments within the City. The Facilities Management Fund is responsible for maintaining all city-owned facilities and vertical construction projects. The Environmental Services Fund accounts for the consolidated environmental-related services provided across the City. The financial statements presented include all government activities, organizations, and functions for which the City is financially accountable as defined by the Governmental Accounting Standards Board (GASB).

LOCAL ECONOMY

As the Dallas Ft. Worth Metroplex continues to grow, the City of Denton is seeing increased growth. In Fiscal year 2023-24, the City continued to see an increase in development and economic activity, resulting in strong property tax collection, sales tax collection, and an increase in return on investment (ROI) revenue from city utilities. Greater than one-third of the total General Fund revenue is generated from ad valorem taxes. As shown below, the 2024 certified value increased by 10.16% or \$1,958,758,443 (excluding TIRZ) from the 2023 certified value. Analysis of the increase shows there was approximately \$1.21 billion in new value added to the appraisal roll due to new growth and construction. The City received a certified total from the Denton County Appraisal District (DCAD) with only 1.04% of properties still under protest. The low amount of protested value helps create more certainty in the revenue forecast.

Below is a chart with a detailed breakdown of certified values:

	2023 Certified Total AV	2024 Certified Total AV	Increase (Decrease)	Percent Change	New Value
General Government	\$19,287,823,297	\$21,246,581,740	\$1,958,758,443	10.16%	\$1,211,067,354
Downtown TIRZ ¹	\$164,000,321	\$136,240,592	(\$27,759,729)	-16.93%	\$2,202
Westpark TIRZ ²	\$157,617,172	\$165,462,701	\$7,845,529	4.98%	\$35,711,809
Total	\$19,609,440,790	\$21,548,285,033	\$1,938,844,243	9.88%	\$1,246,781,365

¹ Downtown TIRZ – Reflects 90% of incremental value through FY 2039 per Ordinance No. 2010-316.

² Westpark TIRZ – Reflects 40% of incremental value through FY 2037 per Ordinance No. 2013-033.

Sales tax represents approximately 33.7% of overall revenue in the General Fund, sales tax is a significant revenue source that is dependent upon a variety of economic factors. For FY 2023-24, total sales tax revenues equaled \$57,074,842 which is \$1,168,502 or 2.09%, more than the prior year collections of \$55,906,341. The anticipated FY 2024-25 collections total \$60,841,793 which is 5.73% above the FY 2023-24 estimated collection. The chart below illustrates collections over the prior ten-year period with an estimate of collection in FY 2024-25.

From a budgetary basis, the General Fund received \$186.7 million in revenue and incurred \$189.0 million in expenses resulting in a decrease in fund balance of \$2.3 million.

The City of Denton’s not seasonally adjusted annual unemployment average rate remains below state and on par with national levels at an average 4.0 percent in 2024 which has slightly increased compared to 3.6 percent average in FY2022-23. The City of Denton issued 1,893 residential, commercial, multi-family building permits for FY2023-24, with an estimated value of \$1.4 billion (excluding City building, County buildings, schools, and churches). This compares to a total of 2,203 issued for FY2022-23 with an estimated value of \$1.4 billion. The overall permit numbers were down, primarily in single family residential, however values remain consistent due to an increase in multifamily housing.

The following two charts highlight the strength of the local economy over the last ten years by displaying the City of Denton’s unemployment rate compared to Texas and the United States and the taxable property values per capita in the City of Denton.

 Accessed 2-10-25

In fiscal year 2023-2024, the Rayzor Ranch mixed-use development in Denton experienced significant growth, enhancing both its residential and commercial offerings.

The Rayzor Ranch mixed-use development is located on both the north and south sides of US Highway 380 in Denton. Rayzor Ranch Marketplace, on the north side of the development, has constructed over 500,000 square feet of retail and commercial space. Sam's Club and Wal-Mart anchor the development that includes a Home Depot, as a recent tenant addition. The Town Center also includes the Embassy Suites Hotel and Convention Center described in more detail below. In addition, a new 300-unit multifamily project, the Village at Rayzor Ranch, opened in late 2019, and construction began in 2020 and opened in 2021, on the Residences at Rayzor Ranch, a 40-acre site that will include 215 town homes, 65 single family homes and 31 single-family homes. They began leasing three- and four-bedroom town homes this past summer. Portillo's, Salata and Pei Wei are new restaurant tenants at the Town Center. Recent developments include an At Home and Dick's Sporting Goods that have opened and a future 148,000 square foot and \$22.7 million Target store that is nearing completion.

Residential Developments:

Resia Rayzor Ranch:

- This 433-unit apartment community officially opened in December 2024, offering one-, two-, and three-bedroom apartments with modern amenities such as stainless-steel appliances, in-unit washers and dryers, and granite countertops. Residents can also enjoy a 24-hour fitness center, swimming pool, basketball court, and a forthcoming pickleball court.

Altera Rayzor Ranch:

- In October 2024, Wood Partners broke ground on a 192-unit multifamily community within Rayzor Ranch. This development will feature one-, two-, and three-bedroom layouts, with amenities including a resort-style pool, modern fitness facility, outdoor socializing spaces, and coworking areas. The project is expected to be completed by the third quarter of 2025.

Commercial Developments:

Target Store:

- A new 148,000-square-foot Target store, representing a \$22.7 million investment, is nearing completion within Rayzor Ranch. This addition will further enhance the retail offerings available to residents and visitors.

At Home:

- The home décor superstore opened a new location in September 2023 within the Rayzor Ranch Town Center. This addition has provided residents with a wide range of home furnishing options and has drawn shoppers from surrounding areas, contributing to increased retail activity.

During the fiscal years 2023-2024, Denton experienced significant industrial development, enhancing its economic landscape:

Longhorn Steakhouse

- In April 2024, Longhorn Steakhouse opened a new 5,780-square-foot restaurant at 2900 S I-35E, in front of Buc-ee's Travel Center.

Exeter Property Group:

- Constructed three industrial buildings at the northeast corner of Western Boulevard and Jim Christal Road, measuring 324,000, 421,000, and 1,076,000 square feet. Ariat International leased 500,000 square feet at 1011 Western Boulevard.

Holt Lunsford Commercial Investments:

- Secured \$32.7 million in August 2024 for the development of Denton Point III, IV, and V, totaling 451,856 square feet at 670-710 Masch Branch Road.

High Street Logistics Properties:

- Completed the Golden Point Industrial project, a 180,657-square-foot warehouse south of US 380 along I-35, with construction starting in November 2023 and completion expected by May 2024.

EastGroup Properties:

- Initiated construction of Denton Exchange 35 Industrial Facility in Q2 2024, comprising two Class A industrial buildings totaling approximately 243,859 square feet, with completion anticipated by Q4 2025.

Southwire Company:

- Announced a 100,000-square-foot expansion of its Denton facility, investing \$85.4 million over three years, with an expected valuation increase of over \$69 million and the creation of 95 new jobs.

Ironwood Realty Partners and Scannell Properties:

- Partnered on Denton Crossing @ I-35, a project encompassing approximately 1.2 million square feet of industrial speculative space along Western Boulevard. Buildings 1 and 2, totaling nearly 700,000 square feet, have been completed, with Buildings 3 and 4 adding 398,000 and 127,000 square feet, respectively.

The City of Denton uses various economic development tools including financial districts to improve and enhance infrastructure and encourage private investment in specific areas of the City. These development districts support development and revitalization and are commonly known as public improvement districts, tax increment reinvestment zones, or municipal management districts.

Denton currently has two active development districts:

- Tax Increment Reinvestment Zone Number One (Downtown TIRZ)
- Tax Increment Reinvestment Zone Number Two (Westpark TIRZ)

In the Downtown TIRZ area, the following projects are underway:

- **Fine Arts Theater:** The Denton City Council approved a \$1.6 million economic development agreement to help with renovations and redevelopment at the Fine Arts Theater of Denton. The Theatre will be a multiuse facility for live performances, movies, special festivals, concerts, and private rentals. The 9,900-square-foot theater has been part of downtown since 1877, when it opened as an opera house, then became part of the Texas movie theater chain in 1935 and then the Fine Arts Theater in 1957.
- **Roses Costumes:** Longtime Denton costume shop Rose Costumes moved into the former McNeill's space directly on the Downtown Square. The business received a \$50,000 downtown reinvestment grant.

Several projects, which will total over 3 million square feet, are currently underway in the Westpark Tax Increment Reinvestment Zone (TIRZ) and industrial area.

Westpark Industrial

- A 16-acre parcel, at 251 N Western Boulevard, will include two speculative buildings at just over 100,000 square feet each.

During the fiscal year 2023-2024, Denton experienced notable advancements in its tech and entrepreneurial sectors, significantly bolstered by initiatives from Stoke Denton and Texas Woman’s University’s (TWU) Center for Women Entrepreneurs (CWE).

AccelerateHER Program:

- In collaboration with TWU’s CWE, Stoke Denton concluded the fourth cohort of the AccelerateHER program in January 2024. This incubator supports women entrepreneurs by providing resources and education to fast-track their startups into scalable businesses. The 2023-2024 cohort comprised seven women who participated in weekly workshops and one-on-one mentorship sessions over five months. The program culminated in a virtual showcase, allowing each entrepreneur to present their business and growth strategies.

FlintConf 2024:

- In May 2024, Stoke Denton hosted FlintConf, Denton’s annual startup conference aimed at empowering the local economy, entrepreneurs, and creatives. The event featured various workshops, panel discussions, and networking opportunities, attracting a diverse group of attendees and fostering collaboration within the entrepreneurial community.

Global Entrepreneurship Week (GEW) 2023:

- From November 13-19, 2023, Stoke Denton celebrated GEW by organizing multiple events to support and inspire local entrepreneurs. The lineup included a fireside chat with Kari Meyercord-Westerman, owner of Thistle Creative Reuse; a virtual Coffee + Convo session with Heather Gregory, Executive Director of Stoke; a Denton Creative Mixer at Denton County Brewing Company; and the Denton Pitch Competition and Small Business Expo at Sunago Bell. These events collectively enhanced community engagement and provided valuable resources for business development.

Denton Pitch Competition:

- As part of GEW 2023, the Denton Pitch Competition offered local entrepreneurs a platform to present their business ideas to potential investors and partners. The event featured ten businesses pitching their concepts, with a total of 13 entrepreneurs participating in the accompanying Entrepreneur Expo. This initiative provided 28 hours of coaching to 17 entrepreneurs, fostering business growth and innovation within the community.

Coffee + Convo Sessions:

- Throughout the fiscal year, Stoke Denton hosted monthly “Coffee + Convo” sessions, totaling 11 events with 75 attendees. These informal gatherings facilitated discussions on various business topics, allowing entrepreneurs to share experiences, seek advice, and build networks within the local startup ecosystem.

These developments reflect Denton’s robust industrial growth during the 2023-2024 fiscal years, contributing to economic expansion and job creation.

FINANCIAL INFORMATION AND FINANCIAL POLICY

The City’s financial direction begins with the City’s Charter, which is the basis for all financial policies the City implements. The City maintains financial policies for general operations, which include policies for financial management and fund balances, budget compliance, debt issuance and management, accounts payable, water service, and purchasing, among others.

The City’s accounting records for general governmental operations are maintained on a modified accrual basis, with revenues being recorded when available and measurable, and expenditures being recorded when the liability is incurred. Proprietary (which includes Internal Service Funds) operations are maintained on the full accrual basis.

The City's Annual Operating Budget is proposed by the City Manager and approved by the City Council following public discussion. The City's Charter requires adoption of the City's budget no later than September 30th. The budget structure is organized by funds. Normally, funds are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations. The two types of funds utilized in the budget are Governmental and Proprietary (which includes Internal Service Funds). Budgetary control is maintained at the fund level by the Finance Department.

All legally required funds are budgeted annually by type, as follows:

- Governmental Funds
 - General Fund
 - General Debt Service Fund
 - Street Improvement Fund
 - Tourist and Convention Fund
 - Police Confiscation Fund
 - Catalyst Fund (formerly the Economic Development Investment Fund)*
 - Parks Gas Well Fund
 - Roadway Impact Fee Fund
 - Tree Mitigation Fund
 - Public Education Government (PEG) Fund
 - McKenna Trust Fund
 - Park Land Dedication and Development Trust Fund
 - Downtown Tax Increment Reinvestment Zone (TIRZ) Fund
 - Westpark Tax Increment Reinvestment Zone (TIRZ) Fund
 - Sustainability Framework Fund
 - Other Miscellaneous Special Revenue Funds
- Proprietary Funds
 - Electric Fund
 - Water Fund
 - Wastewater Fund
 - Solid Waste Fund
 - Airport Fund
 - Internal Service Funds
 - Customer Service Fund
 - Engineering Services Fund
 - Environmental Services Fund
 - Facilities Management
 - Fleet Management Fund
 - Health Insurance Fund
 - Materials Management Fund
 - Risk Retention Fund
 - Technology Services Fund

LONG-TERM FINANCIAL PLANNING

In conjunction with this document, interested parties are encouraged to read the City of Denton's FY 2024-25 Annual Budget document. This document details the City's strategic plan, long-term financial policies, program accomplishments, and other key initiatives. The document also includes the long-term financial forecasts for each of the major funds, and a summary of the assumptions that are included in these plans. In addition, the budget document provides an overview of the adopted Capital Improvement Program and planned future debt issuances. The Annual Budget can be accessed through the City's web site at www.cityofdenton.com and selecting Financial Transparency under the "Open Government" link.

RELEVANT FINANCIAL POLICIES

The City of Denton maintains reserve balances for emergencies. In the General Fund, the target reserve level is a minimum of 20% of budgeted expenditures with an additional 5% resiliency reserve for a combined total of 25% to provide stability and flexibility for the organization. As described in the accompanying ACFR document, the unassigned fund balance is \$42.1 million, or 22.3%, of the budgeted General Fund expenditures for the fiscal year ended September 30, 2024.

Beginning in FY 2011-12, the City adopted a policy which requires a minimum ending working capital balance (current assets minus current liabilities) of at least 8% of budgeted expenditures for the Electric, Water, Wastewater and Solid Waste Funds. If the working capital level should fall below the desired minimum, the City will implement necessary corrective action with a five-year plan to restore the working capital balance to 8% of budgeted expenditures.

Additionally, rate reserve levels were established for the Electric, Water, Wastewater, and Solid Waste Funds in FY 2011-12 according to the unique operational aspects of each utility. The rate reserve levels were most recently revised in FY 2020-21 based on the factors of revenue stability, expense and demand volatility, infrastructure age, debt levels and management plans for the use of these reserves. The rate reserve level is established at a range of 38% to 61% of expenses for the Electric Fund, at a range of 20% to 31% of expenses for the Wastewater Fund, at a range of 25% to 42% of expenses for the Water Fund, and at a range of 6% to 10% of expenses for the Solid Waste Fund. If the rate reserve level falls below the range, the City will implement the necessary corrective action within a five-year plan to restore the balances to the levels outlined above.

The City of Denton has adopted an Investment Policy which guides the investment of all City funds. In accordance with State law, the policy is reviewed annually by the City Council to ensure that public funds are being invested in a conservative and prudent fashion. In addition, the City also annually reviews and approves a Debt Management policy. The purpose of this policy is to provide general guidelines regarding the issuance of City debt and the use and limitation of such debt. The City complied with all aspects of the Investment and Debt Management policies during FY 2023-24.

MAJOR INITIATIVES

The City's Strategic Plan and Council specifically identified improving facility infrastructure as a major goal. In response to this goal, the FY 2024-25 Budget includes additional issuance of General Obligation Bonds. This increase in funding shows the City's continued commitment to facility infrastructure and equipment funding.

The combination of increased operating funding along with the issuance of debt shows the strong commitment to improving our infrastructure. In the future, the City staff will continue efforts to identify additional funding for facility infrastructure and equipment funding activities along with potential future debt issuances for street reconstruction to continue to improve the condition of the City's streets over the long term.

AWARDS AND ACKNOWLEDGEMENTS

The Government Finance Officers' Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City for its Annual Comprehensive Financial Report for the fiscal year ended September 30, 2023, for the thirty-seventh consecutive year. To be awarded the Certificate of Achievement in Financial Reporting, the City must publish an easily readable and efficiently organized Annual Comprehensive Financial Report. This report satisfies both generally accepted accounting principles and applicable legal requirements. The Certificate of Achievement is held for a period of one year only. We believe our current Annual Comprehensive Financial Report continues to meet the Certificate of Achievement requirements, and we are submitting it to GFOA to determine its eligibility for another certificate.

The City also received the GFOA award for Distinguished Budget Presentation for its fiscal year 2023-24 Annual Budget for the thirty-seventh consecutive year. To qualify for the Distinguished Budget Presentation Award, the City's budget document was judged according to its compliance with specific guidelines established by GFOA. These guidelines help ensure that Denton's budget is distinguished as an operations guide, financial plan, policy document, and communications device. The City has submitted its fiscal year 2024-25 Annual Budget to GFOA

to determine its eligibility for another certificate. We believe it continues to meet the Distinguished Budget Presentation Award criteria.

The City received a Certificate of Distinction from the Government Treasurers of Texas (GTOT). The distinction was received for developing an investment policy that meets the requirements of the Public Funds Investment Act and the standards for prudent public investing as established by the GTOT. The GTOT awards an estimated 38 distinctions annually, which the City has received nine times since 1999.

In 2024, City of Denton was awarded the Six Transparency Stars by the Texas Comptroller, which recognizes cities, counties, special purpose districts and school districts to provide easy online access to important financial data. The City of Denton is only one of five local government in Texas to receive all six transparency stars. Transparency Stars are granted and maintained on an ongoing basis.

We would like to thank the City Council for their strong leadership and support that helped make the presentation of this report possible. We would also like to thank the City Manager, Finance staff, department directors, division heads and especially the Accounting Division staff for their diligent efforts in the preparation of the annual financial report.

**City of Denton
Texas**

For its Annual Comprehensive
Financial Report
For the Fiscal Year Ended

September 30, 2023

Christopher P. Morill

Executive Director/CEO

Independent Auditor's Report

To the Honorable Mayor
and Members of the City Council of
the City of Denton, Texas

Report on the Audit of the Financial Statements

Opinions

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Denton, Texas (City), as of and for the year ended September 30, 2024, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City, as of September 30, 2024, and the respective changes in financial position and, where applicable, cash flows thereof and the respective budgetary comparison for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the City and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

The City's management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

The Honorable Mayor
and Members of the City Council of
the City of Denton, Texas

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists.

The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that management's discussion and analysis and required supplementary information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with GAAS, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

The Honorable Mayor and
Members of the City Council of
the City of Denton, Texas

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The combining and individual fund financial statements and schedules, as listed in the table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with GAAS. In our opinion, the combining and individual fund financial statements and schedules, as listed in the table of contents, are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information Included in the Annual Comprehensive Financial Report (ACFR)

Management is responsible for the other information included in the ACFR. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated March 19, 2025 on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

**CITY OF DENTON, TEXAS
MANAGEMENT'S DISCUSSION AND ANALYSIS
SEPTEMBER 30, 2024**

Introduction

The Management's Discussion and Analysis is designed to: (a) assist the reader in focusing on significant financial issues, (b) provide an overview of the City's financial activity, (c) identify changes in the City's financial position (its ability to address the next and subsequent years' challenges), (d) identify any material deviations from the financial plan (the approved budget), and (e) identify individual fund issues or concerns.

This narrative should be read in conjunction with the transmittal letter at the beginning of the report and the financial statements following this section.

Financial Highlights

- The assets and deferred outflows of the City exceeded its liabilities and deferred inflows at the close of the fiscal year ended September 30, 2024 by \$1,675,468,543 (net position), an increase of 8.16 percent from prior year net position. Of this amount, \$181,525,554 (unrestricted net position) may be used to meet the government's ongoing obligations to citizens and creditors.
- Net Pension Liability of the City is \$110,806,951, as compared to \$137,889,556 for the year ended September 30, 2023. Governmental Accounting Standards Board Statement No. 68, *Accounting and Financial Reporting for Pensions*, requires the City to report its net pension liability for participation in Texas Municipal Retirement System (TMRS) of the total Net Pensions Liability reported by the TMRS. For the year ended September 30, 2024, the City recorded a decrease in their portion of net pension liability of \$27,082,605, an increase in deferred pension inflows of \$3,048,948 and a decrease in deferred pension outflows of \$18,115,533.
- Governmental activities general and transfer revenues were \$224,097,580 as compared to \$212,974,155 for the year ended September 30, 2023. The increase of \$11,123,425 is primarily driven by an increase in investment income, sales tax revenues, and property tax. Business-type activity general revenues and transfers were \$29,203,943 compared to \$13,372,331 for the year ended September 30, 2023. The increase of \$15,831,612 is primarily driven by investment revenue and gain on sale of capital assets.
- Governmental funds reported combined ending fund balances of \$355,523,669 as of September 30, 2024 which is an increase of \$102,234,488 from fiscal year 2022-2023 ending fund balance total of \$253,289,181, primarily due to issuance of long-term debt and increased revenues.
- The City's primary General Fund resources are property taxes, sales tax, and franchise fees. These combined resources account for 88.6 percent of total General Fund revenues which increased 0.33 percent compared to the prior year.
- The City's long-term liabilities outstanding increased by \$271,253,340 in fiscal year 2023-2024. The increase is primarily attributable to an increase of \$360,420,000 of Certificates of Obligation and General Obligations Bonds Payable.

OVERVIEW OF THE FINANCIAL STATEMENTS

The Management's Discussion and Analysis is intended to serve as an introduction to the City of Denton's basic financial statements. The City's basic financial statements are comprised of three components: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide Financial Statements. The government-wide financial statements are designed to provide readers with a broad overview of the City's finances in a manner similar to a private-sector business.

The statement of net position presents information on all of the City's assets, liabilities, deferred inflows, and deferred outflows with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

CITY OF DENTON, TEXAS
MANAGEMENT'S DISCUSSION AND ANALYSIS (continued)
SEPTEMBER 30, 2024

The statement of activities presents information showing how the City's net position changed during the most recent fiscal year. All of the current year's revenues and expenses are considered regardless of when cash is received or paid. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave). Both the statement of net position and the statement of activities are prepared using the accrual basis of accounting as opposed to the modified accrual basis.

In the Statement of Net Position and the Statement of Activities, the City is divided into two kinds of activities:

- **Governmental activities.** Most of the City's basic services are reported here, including police, fire, libraries, development, public services and operations, public works, building inspection, technology services and general administration. Property taxes, sales taxes, and franchise fees finance most of these activities.
- **Business-type activities.** The City charges a fee to customers to cover the cost of services it provides. The City's utility systems (electric, water and wastewater), solid waste, and airport activities are reported here.

Fund Financial Statements. A fund is a grouping of related accounts used to maintain control over resources that have been segregated for specific activities or objectives. Fund financial statements provide detailed information about the most significant funds, not the City as a whole. Some funds are required to be established by state law or bond covenants. However, the City Council establishes many other funds to help control and manage money for particular purposes or to show that it is meeting legal responsibilities for using certain taxes, grants and other monies. The following illustration summarizes the major features of the City's financial statements. The City of Denton's funds are categorized as governmental, proprietary funds or fiduciary funds.

- **Governmental funds.** The majority of the City's basic services are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end that are available for spending. These funds are reported using an accounting method identified as the modified accrual basis of accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the City's general government operations and the basic services it provides. Governmental fund information helps the reader determine whether there are more or fewer financial resources that can be spent in the near future to finance the City's programs. By comparing information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements, readers may better understand the long-term impact of the government's near-term financing decisions. The relationship or differences between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds are detailed in a reconciliation following the fund financial statements.

The City of Denton maintains twelve governmental funds. Information is presented separately in the governmental funds balance sheet and in the governmental funds statement of revenues, expenditures, and changes in fund balances for the general fund, debt service fund, capital projects fund, and ARPA fund, all of which are considered to be major funds. Data from the other eight governmental funds are combined into a single, aggregated presentation. Individual fund data for seven of these non-major governmental funds, along with an aggregate of all other governmental funds, is provided in the form of combining statements elsewhere in this report.

- **Proprietary funds.** The City charges customers for certain services it provides, whether to outside customers or to other units within the City. These services are generally reported in proprietary funds. Proprietary funds are reported in the same manner that all activities are reported in the Statement of Net Position and the Statement of Activities. The City's enterprise funds are similar to the business-type activities that are reported in the government-wide statements but provide more detail and additional information, such as cash flows. The City's internal service funds are used to accumulate and allocate costs internally among the City of Denton's various functions. Both enterprise funds and internal service funds are components of proprietary funds.

CITY OF DENTON, TEXAS
MANAGEMENT'S DISCUSSION AND ANALYSIS (continued)
SEPTEMBER 30, 2024

The City of Denton maintains five enterprise funds. The City uses enterprise funds to account for its electric, water, wastewater, solid waste, and airport operations. The individual funds provide the same type of information as the government-wide financial statements, only in more detail. The City considers all enterprise funds to be major funds.

The City of Denton maintains nine internal service funds. The City uses internal service funds to account for materials management, fleet services, health insurance, risk retention, technology services, engineering services, customer service, facilities management, and environmental services. Because these services benefit both governmental and business-type functions, they have been included in both the governmental and business-type activities in the government-wide financial statements. Individual fund data for the internal service funds are provided in the form of combining statements in the combining and individual fund statements and schedules section of this report.

- **Fiduciary funds.** Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the City's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

Notes to the financial statements.

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other Information.

The combining nonmajor fund statements and individual fund schedules are presented immediately following the notes to the financial statements.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

As of September 30, 2024, the City's combined net position was \$1,675,468,543 of which \$502,144,527 can be attributed to governmental activities and \$1,173,324,016 attributed to business-type activities. This analysis focuses on the net position (Table 1) and changes in net position (Table 2) of the City's governmental and business-type activities.

The largest portion of the City's net position (79.4%) reflects its investment in capital assets (e.g., land, building, machinery and equipment), less any related debt used to acquire those assets that is still outstanding. The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

Governmental activities. Expenses for governmental activities reflect an increase of \$4.6 million over the prior year. Increases include \$4.1 million in General Government, \$7.9 million in Public Safety, \$2.5 million in interest expense, and \$1.7 million for Parks and Recreation, slightly offset by decreases of \$11.6 million in Public Works. The most significant governmental activities expense was in providing public safety, which incurred expenses of \$112,543,358. The largest expense for public safety is the cost of personnel, which totaled \$87,504,246. Last year the City added 17.0 new positions in public safety including 12.0 in the fire department, 3.0 in the animal service department, and 2.0 in the police department.

**CITY OF DENTON, TEXAS
MANAGEMENT'S DISCUSSION AND ANALYSIS (continued)
SEPTEMBER 30, 2024**

Governmental expenses were funded by revenues collected from a variety of sources, with the largest being from property taxes, which are \$106,555,772 for the fiscal year ended September 30, 2024. Governmental activities program revenues increased \$10.1 million over the prior year. Capital grants and contributions increased \$7.9 million from contributed asset revenues and American Rescue Plan Act (ARPA) funding for public works transportation and general government projects were completed. Operating grants and contributions increased \$2.4 million from funding for public safety and parks and recreation. Charges for Services decreased \$217 thousand from general government and parks and recreation. Governmental activities general revenues included an increase of \$14.4 million for property tax due to rising values and new construction. Sales tax increased \$1.2 million due to population and business growth. Investment income increased \$6.0 million due to rising interest rates. Transfers reflect a net \$870 thousand transfer out for governmental activities for the current year.

CITY OF DENTON, TEXAS
MANAGEMENT’S DISCUSSION AND ANALYSIS (continued)
SEPTEMBER 30, 2024

Business-type activities. Business-type activities increased the City’s net position by \$70,529,554. This accounts for 55.8% of the growth in the entity-wide net position. Total utility service revenues decreased by \$58.2 million. No rate adjustments for electric, water, and solid waste, however there was a rate increase of 11% for wastewater utilities in FY23-24. Electric charges for services decreased by \$61.9 million mainly due to a decrease in data center revenues. Water charges for services decreased by \$3.0 million as compared to the service charges from prior year. Wastewater charges increased by \$5.2 million compared to the prior year. Solid Waste charges for service increased by \$1.4 million compared to the prior year. Airport charges for goods and services increased by \$156 thousand. Water and Wastewater collected \$10.3 million and \$6.8 million in impact fees, respectively, reflecting a \$11.3 million decrease over the prior year. Capital contributions reflected an increase of \$7.9 million from the prior year, 65.6% of this increase relates to a year over year change in Wastewater utilities. The Airport gas well revenues contributed an additional \$239 thousand in revenue, a decrease of \$141 thousand from the prior year. Gas well revenues continue to decline as many wells in the City are being systematically plugged. Total enterprise funds operating costs, before depreciation, decreased \$64.8 million. Electric operating costs, before amortization and depreciation, account for 71.6 percent of total enterprise fund expenses. Cost decreases include purchase power costs of \$84.7 million from the prior year. Expenses for personnel services and administrative costs increased by \$0.8 million. Water expenses increased \$2.5 million from the prior year, due to an increase in materials and supplies by 5 percent and administrative costs by 10 percent from prior year. Wastewater expenses increased \$2.4 million, due to an increase in personnel, administrative costs, and maintenance and repair. Solid Waste expenses increased \$3.6 million from the prior year, due to increased personnel services and administrative costs of \$2.8 million.

FINANCIAL ANALYSIS OF THE GOVERNMENT’S FUNDS

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the City’s governmental funds is to provide information on near-term inflows, outflows, and balances of resources available to spend. Such information is useful in assessing the City’s financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government’s net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the City’s governmental funds reported a combined ending fund balance of \$355.5 million, an increase of \$102.2 million in comparison with the prior year. \$40.3 million constitutes unassigned fund balance, which is available for spending at the government’s discretion. The remainder of the

CITY OF DENTON, TEXAS
MANAGEMENT'S DISCUSSION AND ANALYSIS (continued)
SEPTEMBER 30, 2024

fund balance has been classified to indicate that it is not available for new spending because it has already been classified as restricted (\$252.5 million), committed (\$33.7 million), and assigned (\$28.9 million).

The General Fund is the chief operating fund of the City. At September 30, 2024, the unassigned fund balance of the General Fund was \$42.1 million, or 22.3% of budgeted general fund expenditures. Revenues were \$9.0 million higher compared to the previous year primarily due to increases in taxes of \$10.0 million, fees for service of \$2.8 million, and investment revenues of \$980 thousand, partially offset due to decrease in franchise fees of \$5.3 million and license and permits of \$487 thousand. The net change in General Fund expenditures was \$20.6 million higher compared to the previous year primarily due to increased costs related to personnel services and operations. Personnel costs increased \$16.1 million over the prior year which includes a 3% cost of living adjustment (COLA). Public safety increased \$6.2 million over the prior year due to the addition of 12.0 positions in the fire department, 3.0 positions in animal services department, and 2.0 positions in the police department.

At the end of the fiscal year, the Capital Projects Fund has a total fund balance of \$263.2 million, an increase of \$102.3 million. The total fund balance is made up of \$221.2 million in restricted funds, \$13.0 million in committed funds, and \$28.9 million in assigned funds, all for capital construction and acquisition. In 2024, the City received \$145.2 million of proceeds from the issuance of debt and recognized \$14.4 million current year of regional toll revenues from the Texas Department of Transportation, while expending \$97.4 million on construction and acquisition. In addition, the capital projects fund received \$16.1 million of transfers from other funding sources. The City also received approximately \$14.3 million in developer's contributed capital recorded in the government-wide financial statements. This is \$5.8 million more than in the prior year.

The Debt Service Fund has a total fund balance of \$1.4 million, all of which is restricted for the payment of debt service. As compared with the prior year results, the overall increase in the debt service fund balance of \$272 thousand. An increase of \$5.5 million in tax revenue was offset by an increase of \$4.3 million in principal and interest costs.

Proprietary funds. The City's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

Unrestricted net position at September 30, 2024 in proprietary funds is \$71.9 million for Electric, \$57.6 million for Water, \$28.2 million for Wastewater, \$11.1 million for Solid Waste, and \$1.6 million for the Airport fund. The results reflect decreases of the unrestricted net position in the Electric Fund of \$11.6 million, Wastewater of \$7.3 million, and Airport fund of \$1.1 million, partially offset by increases in the Water fund of \$4.9 million, and Solid Waste fund of \$479 thousand. Other factors concerning the finances of these funds have already been addressed in the discussion of the City of Denton's business-type activities.

BUDGETARY HIGHLIGHTS

Two amendments to adjust the City of Denton's Annual Program of Services were approved by Council. Council approved funding to provide for additional improvements and other administrative expenses. The additional funds increased the Health Fund by \$790,000 for increased health care costs and increased the Fleet Management Fund by \$710,000 for increased maintenance costs.

GENERAL FUND BUDGET TO ACTUAL HIGHLIGHT

For fiscal year 2024, General Fund actual expenditures (including transfers) on a budgetary basis were \$189.1 million compared to the final budget of \$189.1 million. The \$4.6 million favorable variance from a transfer expense was offset with increased costs of personnel services of \$4.4 million.

Actual revenues for the General Fund (including transfers and sale of capital asset) on a budgetary basis were \$186.7 million compared to the final budget of \$189.1 million. Included in the \$2.4 million unfavorable revenue variance was \$2.8 million of decreases in franchise fees, \$2.4 million of decreases in license and permits, and

CITY OF DENTON, TEXAS
MANAGEMENT'S DISCUSSION AND ANALYSIS (continued)
SEPTEMBER 30, 2024

\$1.0 million of decreases in intergovernmental revenue. These unfavorable variances were offset by \$4.6 million of transfers, \$1.7 million in investment revenue, \$1.0 million in taxes, and \$0.6 million in fines and forfeitures.

The City of Denton's General Fund unassigned fund balance at September 30, 2024 is \$42.1 million, or 22.3% of budgeted expenditures. Below is a listing of the ending unassigned balances for the prior year, as well as the fiscal year 2024 unassigned fund balance.

	Actual 9/30/2024	Actual 9/30/2023
Unassigned balance	\$42,077,084	\$44,600,382
% of final budgeted expenditures	22.3%	24.2%
Policy level	20% plus up to a 5% resiliency reserve	20% plus up to a 5% resiliency reserve

The largest revenue source of the General Fund's budget was the ad valorem tax. Denton's ad valorem tax rate is composed of two components. The first is the operations and maintenance component that is used to calculate revenue for the City's General Fund operations. The second component is the debt portion that is used to calculate revenue to pay the City's general debt service obligations. The Denton Central Appraisal District's certified appraisal roll shows an increase of 15.1% compared to the prior year certified value, which showed an increase of 16.0%. The current property tax year included \$1.02 billion of new growth and construction that was added to the tax rolls in Tax year 2024 as compared to Tax year 2023. The fiscal year 2024 ad valorem tax rate remained the same compared to fiscal year 2023 at \$0.560682 per \$100 of valuation.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital assets. At the end of fiscal year 2024, the City had \$2.5 billion invested in a broad range of capital assets, including police and fire equipment, buildings, park facilities, roads, bridges, electrical infrastructure, water and sewer lines, SBITA assets and lease assets (see Table 3 below). This amount represents a net increase (including additions and deductions) of \$228.5 million or 10.0% over the prior fiscal year.

These amounts do not include net unamortized premiums/(discounts) of \$107,052,584 nor net deferred gain/(loss) on refunding of (\$277,761).

During the fiscal year, the City issued three types of debt in June and July 2024. The first debt issuance included \$117.3 million in general obligation refunding bonds of which \$32.3 million was for business-type activities. Of this amount, \$82.3 million was issued to pay the costs of bond election capital improvements for streets, parks, library and public safety projects in the Capital Projects fund. The remaining \$35.4 million was issued to refund outstanding debt obligations. The second debt issuance included \$242.8 million (\$169.5 million of which is included as part of business-type activities) in certificates of obligation. The debt was issued to pay the costs of various capital improvements in the Capital Projects Fund (\$62.9 million), the Electric Fund (\$58.1 million), the Water Fund (\$55.7 million), the Wastewater Fund (\$51.8 million), the Solid Waste Fund (\$4.0 million), the Fleet

CITY OF DENTON, TEXAS
MANAGEMENT'S DISCUSSION AND ANALYSIS (continued)
SEPTEMBER 30, 2024

Fund (\$2.6 million) and the Technology Fund (\$7.1 million). The third debt issuance included \$31.4 million in utility system bonds.

Standard and Poor's Corporation has given both the City's General Obligation Bonds and Certificates of Obligation an "AA+" rating. Standard and Poor's Corporation has given the City's Utility System Revenue Bonds a rating of "A+." Fitch has given the City's General Obligation Bonds and the Certificates of Obligation a rating of "AA+." Fitch has given the City's Utility System Revenue Bonds a rating of "A". The City is permitted by Article XI, Section 5 of the State of Texas Constitution to levy taxes up to \$2.50 per \$100 of assessed valuation for general governmental services including the payment of principal and interest on general obligation long-term debt. The current ratio of tax-supported debt to certified assessed value of all taxable property is 2.9%.

Other long-term liabilities. The City maintains a self-insurance program for property, excess flood (for specific properties), general liability and excess general liability, aviation ground operations liability, auto liability and physical damage, public officials' liability, professional liability for EMT operations, employment practices liability, law enforcement professional liability, cyber, commercial crime, and workers' compensation. Private insurance companies cover claims for property loss on a per occurrence basis, except for specific perils, with deductibles that vary depending on location and property values, for workers' compensation losses over \$1,000,000 per occurrence, and general liability over \$500,000 per occurrence. The Risk Retention Fund has a reserve for claims and judgments of \$5.9 million outstanding at year-end. Other obligations include pension liabilities, accrued vacation pay, and sick leave. More detailed information about the City's long-term liabilities is presented in Note IV. G.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

While growth for the Denton community is expected to be moderate in the short term, demand for city services are expected to remain strong over the long term. The adopted budget includes a tax rate of \$0.585420 per \$100 valuation, an increase over the prior year attributed to the voter-approved 2023 Bond Program. While sales tax collections increased \$1.2 million compared to the prior fiscal year, 2025 Budget projects an increase of 5.25% from actual fiscal year 2024 sales tax revenue. Budgeted funding enhancements for fiscal year 2024 include \$5.1 million for general fund departments. The fiscal year 2024 Budget included 42 approved supplements for additional staff, increase in operating contracts and capital.

The unemployment rate for the City was 3.8 percent on September 30, 2024 compared to 4.0 percent as of September 30, 2023.

The fiscal year 2025 budget includes an Electric base rate increase of 1.50%, Water rate increase of 3%, Wastewater rate increase of 11%, and Solid Waste rate increase of 1.50% to fund current and future growth.

REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of the City's finances for all those with an interest in the City's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the City of Denton Finance Department, 215 E. McKinney, Denton, Texas 76201.

**CITY OF DENTON, TEXAS
RECONCILIATION OF THE BALANCE SHEET
OF GOVERNMENTAL FUNDS TO THE
STATEMENT OF NET POSITION
AS OF SEPTEMBER 30, 2024**

Exhibit IV

Total fund balances - governmental funds (Exhibit III)		\$ 355,523,669
Amounts reported for governmental activities in the statement of net position are different because:		
Capital assets used in governmental activities are not financial resources and therefore are not reported as assets in governmental funds. Includes capital assets of internal service funds.		786,807,451
Certain receivables will be collected next year but are not available soon enough to pay for the current period's expenditures and therefore are reported as deferred inflows of resources in the funds.		5,944,215
Deferred outflows of resources are not reported in the governmental funds. Includes deferred outflows of internal service funds:		
Deferred loss on refundings	\$ 105,253	
Deferred pension balances	45,190,269	
Deferred other post-employment benefits contributions	5,761,766	51,057,288
An internal charge to business-type activities is not recorded at the fund level.		1,565,023
Several internal service funds are used by the City's management to charge the costs of certain activities, such as insurance and fleet management, to individual funds. The assets, liabilities, deferred outflows, and deferred inflows of the internal service funds are included with governmental activities. Internal service fund balances not included in other reconciling items listed above or below:		
Current and other assets	\$ 54,240,241	
Liabilities	(38,660,675)	
Deferred inflows	(995,414)	14,584,152
Long-term balances, including bonds payable, are not due and payable in the current period and therefore are not reported as liabilities in the funds. Includes balances of internal service funds. Long-term liabilities and related balances at year-end consist of:		
General obligation bonds payable	\$ (328,400,000)	
Certificates of obligation payable	(193,855,000)	
Bond (premiums)/discounts	(38,270,941)	
Accrued interest on the bonds	(3,461,581)	
Capital leases payable	(173,686)	
Right-to-use liability	(5,277,849)	
Net Pension liability	(78,842,512)	
Total other post-employment benefits liability	(34,172,930)	
Compensated absences	(19,451,469)	(701,905,968)
Deferred inflows of resources are not reported in the governmental funds. Includes deferred outflows of internal service funds:		
Deferred pension balances and		
Deferred other post-employment benefits contributions		(11,431,303)
Total net position of governmental activities (Exhibit I)		\$ 502,144,527

The notes to the basic financial statements are an integral part of this exhibit.

¹Recreation Fund was absorbed into the General Fund this year
 The notes to the basic financial statements are an integral part of this statement.

**CITY OF DENTON, TEXAS
RECONCILIATION OF THE STATEMENT OF REVENUES,
EXPENDITURES, AND CHANGES IN FUND BALANCES
OF GOVERNMENTAL FUNDS TO THE STATEMENT
OF ACTIVITIES
FOR THE YEAR ENDED SEPTEMBER 30, 2024**

Exhibit VI

Net change in fund balances - total governmental funds (Exhibit V)	\$ 102,234,488
Amounts reported for governmental activities in the statement of activities are different because:	
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This amount represents the difference between capital outlay of \$102,098,775 and depreciation of \$29,622,696 (which is the net of overall governmental activities depreciation of \$34,487,513 less internal service fund depreciation of \$4,864,817).	72,476,079
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds. Such amounts are recorded in the funds when considered available.	1,502,097
The net effect of various miscellaneous transactions involving capital assets (i.e., SBITA, leases, sales, trade-ins and donations) is to decrease net position.	8,638,311
Bond proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net position. Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position. This is the amount by which proceeds exceeded payments.	(119,945,000)
Fund-level financials report costs related to bonds as expenditures; however, these are deferred and amortized on the government-wide financials.	(8,914,962)
Certain expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.	1,065,671
Internal service funds are used by management to charge the costs of certain activities, such as insurance and technology services, to individual funds. A portion of the net revenue (expense) of certain internal service funds is reported with governmental activities. The amount reported with business-type activities is (\$2,601,057).	(1,199,435)
Change in net position of governmental activities (Exhibit II)	\$ 55,857,249

The notes to the basic financial statements are an integral part of this statement.

CITY OF DENTON, TEXAS
NOTES TO BASIC FINANCIAL STATEMENTS
SEPTEMBER 30, 2024

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The City of Denton is a municipal corporation governed by an elected seven-member council consisting of a mayor elected at large and six councilpersons, four representing specific geographical districts and two elected at large. The City receives funding from state and federal government sources and must comply with the requirements of these funding source entities. However, the City is not included in any other governmental “reporting entity,” as defined in pronouncements by the Governmental Accounting Standards Board (GASB), as council members are elected by the public and have decision-making authority, the authority to levy taxes, the power to designate management, the ability to significantly influence operations, and primary accountability for fiscal matters.

The financial statements of the City have been prepared to conform to accounting principles generally accepted (GAAP) in the United States of America as applicable to state and local governments. Generally accepted accounting principles for local governments include principles prescribed by GASB, the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The following is a summary of the more significant policies.

A. Reporting Entity

An elected seven-member council consisting of a mayor and six councilpersons governs the City. As required by accounting principles generally accepted in the United States of America, these financial statements present the City (the primary government) and its component units, which are entities for which the City is considered to be financially accountable. Blended component units, although legally separate entities, are, in substance, part of the City's operations, and so data from these units are combined with data from the primary government. A discretely presented component unit, on the other hand, is reported in a separate column in the government-wide financial statements to emphasize it is legally separate from the City. The City had no component units, discretely presented or blended, at September 30, 2024.

B. Government-wide and Fund Financial Statements

The basic financial statements include both government-wide (based on the City as a whole) and fund financial statements. The reporting focus is either the City as a whole (government-wide financial statements) or major individual funds (within the fund financial statements). The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all non-fiduciary activities of the primary government. For the most part, the effect of inter-fund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The government-wide statement of activities demonstrates the degree to which the direct expenses of a functional category (public safety, public works, etc.) or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include (1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment; (2) grants and contributions that are restricted to meeting operational requirements of a particular function or segment; and (3) grants and contributions that are restricted to meeting the capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

The net cost (by function or business-type activity) is normally covered by general revenue (property taxes, sales taxes, franchise fees, interest income, etc.).

Separate fund financial statements are provided for governmental funds and proprietary funds. Major governmental funds and major enterprise funds are reported as separate columns in the fund financial statements. GASB Statement No. 34 sets forth minimum criteria (percentage of assets, liabilities, revenues or expenditures/expenses of either fund category and for the governmental and enterprise funds combined) for the determination of major funds. Non-major funds are combined in a column in the fund financial statements.

CITY OF DENTON, TEXAS
NOTES TO BASIC FINANCIAL STATEMENTS (continued)
SEPTEMBER 30, 2024

Internal service funds, which traditionally provide services primarily to other funds of the government, are presented in summary form as part of the proprietary fund financial statements. The financial statements of internal service funds are allocated (based on the percentage of goods or services provided) between the governmental and business-type activities when presented at the government-wide level.

The government-wide focus is more on the sustainability of the City as an entity and the change in aggregate financial position resulting from the activities of the fiscal period. The focus of the fund financial statements is on the major individual funds of the governmental and business-type categories, as well as the fiduciary funds (by category). Each presentation provides valuable information that can be analyzed and compared to enhance the usefulness of the information.

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund statements. Revenues are recorded when earned, and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund-level financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized and susceptible to accrual as soon as they are both measurable and available. Revenues are available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Any amounts collected beyond the 60 days are recorded as deferred inflows of resources. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

The City reports the following major governmental funds:

The general fund is the City's primary operating fund. All general tax revenues and other receipts that are not allocated by law or contractual agreement to some other fund are accounted for in this fund. From the fund are paid general operating costs, fixed charges and capital improvement costs that are not paid through other funds.

The debt service fund accounts for the accumulation of financial resources for the payment of principal, interest, and related costs on general long-term debt, paid primarily by taxes levied by the City. On a budgetary basis, the debt service fund also accounts for pass-through debt service payments from the self-supporting proprietary funds.

The capital projects fund accounts for financial resources used for the acquisition or construction of capital other than those recorded in the enterprise funds and internal service funds.

The ARPA fund accounts for the federal resources received by the City from the American Rescue Plan Act of 2021 and used for the programs as outlined by the plan.

Other governmental funds are a summarization of all of the non-major governmental funds.

The City reports the following major proprietary funds:

The City utility system is made up of three separate funds as follows:

The electric fund accounts for electrical utility services to the residents and commercial establishments of the City. Activities necessary to provide such services are accounted for in the fund, including, but not limited to, administration, operations, maintenance, finance, and related debt service.

CITY OF DENTON, TEXAS
NOTES TO BASIC FINANCIAL STATEMENTS (continued)
SEPTEMBER 30, 2024

The water fund accounts for water utility services to the residents and commercial establishments of the City. Activities necessary to provide such services are accounted for in the fund, including, but not limited to, administration, operations, maintenance, finance, and related debt service.

The wastewater fund accounts for sewer and storm water services to the residents and commercial establishments of the City. Activities necessary to provide such services are accounted for in the fund, including, but not limited to, administration, operations, maintenance, finance, and related debt service.

The City provides additional services through the following funds:

The solid waste fund accounts for the provision of solid waste services to the residents of the City. Activities necessary to provide such services are accounted for in the fund, including, but not limited to, administration, operations, maintenance, finance, and related debt service.

The airport fund accounts for the airport services to the public and is funded through operational and gas well revenues. Activities necessary to provide such services are accounted for in the fund, including, but not limited to, administration, operations, maintenance, and finance.

The City additionally reports the following funds:

Internal service funds are used to account for the financing of materials and services provided by one department of the City to other departments of the City on a cost-reimbursement basis.

The materials management fund accounts for the financing of the goods and services of the purchasing department as well as the management and inventory of the City warehouse activities.

The fleet services fund accounts for the financing of goods and services provided by the activities of the City garage and machine shop to other departments.

The health insurance fund accounts for the accumulation of resources for the self-insurance activities of the City for employee medical insurance as well as other employee insurance benefits including long-term disability, short-term disability, and dental and vision insurances.

The risk retention fund accounts for the accumulation of resources for the payment of activities associated with providing general liability insurance coverage and self-funded activities for City departments.

The technology services fund accounts for financing and management of technology equipment, software, and services such as programming, support, training, maintenance, and office services to City departments.

The engineering services fund accounts for providing engineering, real estate, public works inspection, and development review services primarily to City departments although some services are provided to and paid by external entities.

The customer service fund accounts for providing customer service activities to residents and businesses for City departments. Services include bill pay, utility service requests, connect/disconnect services, maintenance of customer accounts, utility billing, operator calls, collections, accounts receivable, and cash handling.

The facilities fund accounts for the maintenance of all city-owned facilities and vertical construction projects.

The environmental services fund accounts for the consolidated environmental-related services provided across the City.

CITY OF DENTON, TEXAS
NOTES TO BASIC FINANCIAL STATEMENTS (continued)
SEPTEMBER 30, 2024

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the City's electric, water, wastewater, solid waste, and airport funds are charges to customers for services. Operating expenses for the enterprise funds and internal service funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the City's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, then unrestricted resources as they are needed.

D. Budgetary Information

The City Council follows these procedures, as prescribed by City Charter, in establishing the budgets reflected in the financial statements:

1. Within the time period required by law, the City Manager submits to the City Council a proposed budget for the fiscal year beginning on the following October 1. The operating budget includes proposed expenditures and the means of financing them.
2. Public hearings are conducted prior to the adoption of the budget to obtain taxpayer comments.
3. The annual budget adopted by the City Council covers the general fund, non-major special revenue funds (Police Confiscation Fund, Tourist and Convention Fund, Gas Well Revenues Fund, Street Improvement Fund, and the Citizens' Park Trusts), the debt service fund, the enterprise funds, and internal service funds. The budget is legally enacted by the City Council through passage of an ordinance prior to the beginning of the fiscal year. The basic financial statements reflect the legal level of control, (i.e. the level at which expenditures cannot legally exceed the appropriated amount) which is established at the total fund level as approved by City Council.
4. The City Charter provides for the City Manager to transfer any part of the unencumbered appropriation balance or the entire balance thereof between programs or general classifications of expenditures within an office, department, agency, or organizational unit. (The City Council defines an organizational unit as set forth in Article VIII, Section 8.07 of the City Charter, to be a fund that has been appropriated by the City Council.) City Council approval is not required up to the fund level. The Charter also provides that at any time during the year, at the request of the City Manager, City Council may by resolution transfer any part of the unencumbered appropriation balance or the entire balance thereof from one office, department, agency, or organizational unit to another, as well as make any increases in fund appropriations.

Budgets are adopted on a basis for the governmental funds and the budgeted special revenue funds which are generally consistent with generally accepted accounting principles. Budgets for enterprise funds are prepared on the full accrual basis, except certain noncash transactions such as depreciation expense and amortization on debt issuance costs where it is not budgeted, and debt service payments where it is budgeted. Also, during the budgetary process, amounts are included in all fund budgets to recognize administrative transfers between funds for goods or services. These amounts are not included in the reporting of actual activity for the funds. For funds reporting required budget-to-actual comparisons, these administrative transfers are included as adjustments – budgetary basis.

Appropriations in all budgeted funds lapse at the end of the fiscal year even if they have related encumbrances. Encumbrances are commitments related to unperformed contracts for goods or services (i.e., purchase orders

CITY OF DENTON, TEXAS
NOTES TO BASIC FINANCIAL STATEMENTS (continued)
SEPTEMBER 30, 2024

and contracts). While all appropriations and encumbrances lapse at year end, valid outstanding encumbrances are re-appropriated against the subsequent year's budget, reducing the available appropriations for additional expenditures.

E. Assets, Liabilities and Net Position or Equity

1. Cash, cash equivalents and investments

The City's cash and cash equivalents are cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition. Investments are carried at fair value, except for the position in local government investment pools. Fair value is determined as the price at which two willing parties would complete an exchange.

The City uses a pooled cash and investment fund to hold and account for all the City's investments. For financial reporting purposes, the investment balances in the pooled fund are allocated back to the individual funds based on their respective share of the pooled total. Interest earned on investments is also allocated back and recorded directly to the individual funds monthly.

2. Receivables

Outstanding balances between funds are reported as "interfund receivables/payables." Any residual balances between governmental activities and business-type activities are reported in the government-wide statements as "internal balances."

Trade, property tax receivables, and municipal court receivables are shown net of an allowance for uncollectible accounts. The City accrues amounts for utility services provided in September, but not billed by September 30, 2024.

3. Inventories

Inventories of supplies are maintained at the City warehouse for use by all City funds and are accounted for by the consumption method. Cost is determined using a moving average method. No inventories exist in the governmental fund types.

4. Prepaid items

Certain costs applicable to future accounting periods are recorded as prepaid items. Most of these balances are due to payments into an account for energy settlements in the Electric Fund and health claims in the Employee Insurance Fund.

5. Other Assets

Certain costs applicable to future accounting periods are recorded as other assets. In a prior fiscal year, the City impaired its TMPA prepaid purchase power due to a permanent closure in generation and subsequent sale of the plant. The impaired amount was recorded as an Other Asset (regulatory) that will be fully amortized in FY 2025. See note IV.F. for more information on Other Assets and V.E. Agreement with TMPA for further information regarding TMPA.

6. Restricted assets

Certain proceeds of the City's governmental and proprietary fund general obligation bonds and certificates of obligation, as well as certain resources set aside for their repayment, are classified as restricted assets on the balance sheet because their use is limited by applicable bond covenants. Assets collected from impact fees are limited by state statute in use and shown as restricted on the balance sheet of the Water and Wastewater funds.

7. Capital assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items) are reported in applicable governmental or business-type activities columns in the government-wide financial statements and in the proprietary fund financial statements. The City

CITY OF DENTON, TEXAS
NOTES TO BASIC FINANCIAL STATEMENTS (continued)
SEPTEMBER 30, 2024

defines capital assets as assets with an initial, individual cost of more than \$15,000 and an estimated useful life more than one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value, which is the price that would be paid to acquire an asset with equivalent service potential at the acquisition date. Major outlays for capital assets and improvements are capitalized as projects are constructed.

Capital assets are depreciated using the straight-line method over the following useful lives:

<u>Assets</u>	<u>Years</u>
Buildings	40
Infrastructure	20 – 40
General improvements	10
Machinery and equipment	10 – 20
Furniture and office equipment	10
Computer equipment/software	3 – 10
Plant and equipment	5
Underground pipe	40
Water storage rights	50 – 100
Water recreation rights	50
Communication equipment	5
Vehicles	3 – 10
Leases	1 – 100
Subscription-based IT agreement	1 – 5

Renewals and betterments of property and equipment are capitalized, whereas normal repair and maintenance are charged to expense as incurred.

8. Compensated absences

The City allows full-time employees to accumulate unused vacation time without a maximum balance. Upon termination, accumulated vacation time up to 320 hours (480 for civil service fire employees) will be paid to an employee. Generally, sick leave is not paid upon termination except for civil service fire fighters and police officers. Firefighters and police officers accumulate unused sick leave for payout up to a maximum of 1080 hours and 720 hours, respectively. All other employees are paid only upon illness or other valid sick leave uses while employed by the City. Accumulated vacation and sick leave is accrued when incurred in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements but have not been paid this amount at the end of the fiscal year. The General Fund and Other Governmental Funds are used to record any payout expenditures of the governmental funds' employees and related liability, while proprietary fund payouts for their employees are recorded as reductions to the liabilities in those funds.

9. Arbitrage

Arbitrage involves the investment of the proceeds from the sale of tax-exempt bonds in taxable instruments and securities authorized by the Public Funds Investment Act (Texas Government Code, Chapter 2256) that yield a higher rate, resulting in interest revenue in excess of interest costs. Federal tax code requires that these excess earnings be rebated to the federal government. The Capital Projects Fund has been used in prior years to liquidate governmental funds' related liability. A liability was recorded at September 30, 2024 in the amount of \$93,858 for positive arbitrage payments related to the 2019 bond issuance.

CITY OF DENTON, TEXAS
NOTES TO BASIC FINANCIAL STATEMENTS (continued)
SEPTEMBER 30, 2024

10. Pensions

For purposes of measuring the net pension liability, pension-related deferred outflows and inflows of resources, and pension expense, information about the Fiduciary Net Position of the Texas Municipal Retirement System (TMRS) and the Firemen's Relief and Retirement Fund (FRRF) and additions to/deductions from TMRS's and the FRRF's Fiduciary Net Position have been determined on the same basis as they are reported by TMRS and the FRRF. For this purpose, plan contributions are recognized in the period that compensation is reported for the employee, which is when contributions are legally due. Benefit payments and refunds are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

11. Other post-employment benefits

The City participates in a single-employer, unfunded, defined benefit group-term life insurance plan operated by the Texas Municipal Retirement System (TMRS) known as the Supplemental Death Benefit Fund (SDBF). The City elected, by ordinance, to provide group-term life insurance coverage to both current and retired employees. The funding policy for the SDBF program is to assure that adequate resources are available to meet all death benefit payments for the upcoming year rather than prefunding. Benefit payments are treated as being equal to the City's yearly contribution for retirees. For purposes of measuring the total SDBF OPEB liability, related deferred outflows and inflows of resources, and expense, City specific information about its total SDBF liability and additions to/deductions from the City's total SDBF liability have been determined on the same basis as they are reported by TMRS. The SDBF expense and deferred (inflows)/outflows of resources related to SDBF, primarily result from changes in the components of the total SDBF liability. Most changes in the total SDBF liability will be included in SDBF expense in the period of the change. For example, changes in the total SDBF liability resulting from current-period service cost, interest on the Total OPEB Liability, and changes of benefit terms are required to be included in SDBF expense immediately. Changes in the total SDBF liability that have not been included in SDBF expense are required to be reported as deferred outflows of resources or deferred inflows of resources related to SDBF.

The City provides post-employment medical care (Medical OPEB) for retired employees through a single employer defined benefit medical plan. The plan provides medical benefits for eligible retirees, their spouses, and their dependents through the City's group health insurance plans. By providing retirees with access to the City's healthcare plans based on the same rates it charges to active employees, the City is in effect providing a subsidy to retirees. This implied subsidy exists because, on average, retiree healthcare costs are higher than active employee healthcare costs. By the City not contributing anything toward the plan in advance, the City employs a pay-as-you-go method through paying the higher rate for active employees each year. The City also contributes up to \$200 per month, based on years of service, toward the cost of retiree coverage. As an irrevocable trust has not been established, the plan is not accounted for as a trust fund. For this purpose, plan contributions are recognized in the period that the direct and indirect subsidies are paid by the City. Total OPEB liability, OPEB-related deferred outflows, and inflows of resources, and OPEB expense is based on the actuarial measurement dates.

12. Long-term obligations

In the government-wide financial statements and proprietary fund types in the fund financial statements, long-term obligations are reported as liabilities. Bond premiums and discounts are deferred and amortized over the life of the bonds. Bonds payable are reported net of the applicable bond premium or discount. Gain/loss on refunding are reported as deferred outflow/inflow and recognized as a component of interest expense over the remaining life of the old debt or life of the new debt, whichever is shorter.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

CITY OF DENTON, TEXAS
NOTES TO BASIC FINANCIAL STATEMENTS (continued)
SEPTEMBER 30, 2024

13. Fund equity

The City follows GASB Statement No. 54, “Fund Balance Reporting and Governmental Fund Type Definitions”, and in accordance with the statement, the classifications of governmental fund balances are presented as follows:

Nonspendable fund balances – include amounts not in a spendable form or are legally or contractually required to be maintained intact. Examples include inventory or endowments.

Restricted fund balance – include amounts that can be spent only for the specific purposes stipulated by external resource providers, creditors, grantors, and contributors or through enabling legislation.

Committed fund balance – include amounts that can be used only for the specific purposes determined by the City Council through an ordinance and may only be changed or lifted through another ordinance. The ordinance must either adopt or rescind the commitment, as applicable, prior to the last day of the fiscal year for which the commitment is made. The amount subject to the constraint may be determined in the subsequent period.

Assigned fund balance - comprise amounts intended to be used for specific purposes. Intent can be expressed by the City Council, or per the policy adopted by an ordinance by the City Council, the City Manager or the City Manager’s designee (assistant city manager) may also make an assignment. In governmental funds other than the general fund, assigned fund balance represents the amount that is not restricted or committed and, at a minimum, is intended for the purpose of that fund.

Unassigned fund balance – is the residual classification of the general fund and includes all amounts not constrained in the other classifications. Unassigned amounts are technically available for any purpose. The General Fund is the only fund to report a positive unassigned fund balance amount. However, other governmental funds may report a negative unassigned fund balance as necessary if expenditures incurred for specific purposes exceed the amounts restricted, committed, or assigned for those purposes.

When multiple categories of fund balance are available for expenditure and approved for use by the City Council, the City will start with the most restricted category and spend those funds first before moving down to the next category with available funds. Normally this would result in the use of restricted, then committed, then assigned, and lastly, unassigned fund balance.

14. Minimum fund balance policy

It is the goal of the City to achieve and maintain an unassigned fund balance in the General Fund equal to 20% of budgeted expenditures. An additional 5% resiliency reserve (25% combined total) may be maintained to safeguard against unusual financial circumstances or economic downturns.

15. Net position

Net position represents the difference between assets, deferred inflows, deferred outflows, and liabilities. Net investment in capital assets consists of capital assets net of accumulated depreciation and the outstanding balances of any borrowing spent for the acquisition, construction, or improvements of those assets. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the City or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

16. Deferred outflows and inflows of resources

In addition to assets, the statement of net position and/or balance sheet will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net assets that applies to future periods and will not be

CITY OF DENTON, TEXAS
NOTES TO BASIC FINANCIAL STATEMENTS (continued)
SEPTEMBER 30, 2024

recognized as an outflow of resources, either expenses or expenditures, until that time. The City reports the following items qualifying for this category:

- Deferred loss on refunding reported in the statements of net position - A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price and is amortized over the shorter of the life of the refunded or refunding debt.
- Deferred pension actuarial losses reported in the statement of net position – A deferred charge is recorded for the difference between actual experience and expected experience during the period between two actuarial valuations and is amortized over future periods.
- Deferred pension and other postemployment benefit plan contributions reported in the statement of net position – A deferred charge is recorded for pension contribution amounts paid by the City after the current year’s measurement date (December 2023) and will be fully recognized as a reduction of the respective liability in the next period on the next measurement date (December 2024).
- Deferred pension and other postemployment benefit plan actuarial assumption changes – A deferred charge is recorded for the difference due to assumption changes and amortized over future periods.

In addition to liabilities, the statement of net position and/or balance sheet will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net assets that applies to future periods and will not be recognized as an inflow of resources, or revenues, until that time. The City reports the following items qualifying for reporting in this category:

- Deferred gain on refunding reported in the statements of net position - A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price and is amortized over the shorter of the life of the refunded or refunding debt.
- Deferred pension excess earnings reported in the statement of net position – A deferred charge is recorded for the difference between actual investment earnings and expected investment earnings during the period and is amortized over future periods.
- Deferred pension and other postemployment benefit plan actuarial gains reported in the statement of net position – A deferred charge is recorded for the difference between actual experience and expected experience during the period between two actuarial valuations and is amortized over future periods.
- Deferred pension and other postemployment benefit plan actuarial assumption changes – A deferred charge is recorded for the difference due to assumption changes and amortized over future periods.
- Deferred amounts related to leases are reported for leases in which the City is the lessor – A deferred amount recorded to initially offset the total lease receivable recorded at lease commencement and is subsequently amortized as lease revenue over the life of the lease term.
- Deferred unavailable revenues reported on the balance sheet of the governmental funds – A deferred amount is recorded for the billed revenues not yet collected or available. These amounts are deferred and recognized as inflow of resources in the period the amounts become available.

17. Leases

A lease is defined as a contract conveying control of the right to use another entity’s nonfinancial asset as specified in the contract for a period of greater than one year, in an exchange or exchange-like transaction.

City as lessee

The City is currently a lessee for noncancelable leases of land, buildings, equipment, or other assets. The City recognized a lease liability and an intangible right-to-use leased asset (lease asset) in the Government-wide and Proprietary Fund financial statements. Reporting includes lease assets with

CITY OF DENTON, TEXAS
NOTES TO BASIC FINANCIAL STATEMENTS (continued)
SEPTEMBER 30, 2024

depreciable capital assets and lease liabilities with long-term liabilities. At the commencement of a lease, the City measured the lease liability at the present value of payments expected to be made over the course of the lease term. Subsequently, the lease liability is reduced by the principal portion of the lease payments. The lease asset is measured as the initial amount of the lease liability, adjusted for lease payments made at or before the lease commencement date, plus certain initial direct costs. Subsequently, the lease asset is amortized on a straight-line basis over the remaining lease term. Variable lease payments based on usage of the underlying assets are not included in the lease liability calculations but are recognized as outflows of resources in the period in which obligations are incurred.

Key estimates and judgments related to leases in which the City would be a lessee are as follows:

- The lease term includes the noncancelable period of the lease. Extension options are included in the lease term unless it is reasonably certain that they will not be exercised.
- The City uses the interest rate charged by the lessor as the discount rate. When the interest rate charged by the lessor is not provided, the City uses its estimated incremental borrowing rate as the discount rate for leases.
- Leases with payments depending on an index or rate, such as the Consumer Price Index or market rate, are initially measured using the index or rate as of the commencement of the lease term.
- Leases with periodic percentage payment increases or flat rate payment increases specified in the lease terms are included in the measurement of the lease liability.

The City monitors changes in circumstances requiring remeasurement of its leases and will remeasure the lease assets and liabilities if certain changes occur that are expected to significantly affect the amount of the lease liabilities.

City as lessor

The City is a lessor for noncancelable leases of land, buildings, and equipment. The City recognizes a lease receivable and a deferred inflow of resources in the Government-wide, Governmental, and Proprietary Fund financial statements. At the commencement of a lease, the City measures the lease receivable at the present value of payments expected to be received over the life of the lease term. Subsequently, the lease receivable is reduced by the principal portion of lease payments received. The deferred inflow of resources is measured as the initial amount of the lease receivable, adjusted for lease payments received at or before the lease commencement date. Subsequently, the deferred inflow of resources is recognized as revenue over the lease term.

Key estimates and judgements related to leases in which the City is a lessor are as follows:

- The lease term includes the noncancelable period of the lease. Extension options are included in the lease term unless it is reasonably certain that they will not be exercised.
- The City uses its incremental borrowing rate as the discount rate for leases.
- Leases with payments depending on an index or rate, such as the Consumer Price Index or market rate, are initially measured using the index or rate as of the commencement of the lease term.
- Leases with periodic percentage payment increases or flat rate payment increases specified in the lease terms are included in the measurement of the lease receivable.

The City monitors changes in circumstances requiring a remeasurement of its leases and will remeasure the lease receivables and deferred inflows of resources if certain changes occur that are expected to significantly affect the amount of the lease receivables.

18. Subscription-Based Information Technology Agreements (SBITA)

GASB 96 defines a SBITA as a contract that conveys control of the right to use another party's information technology (IT) software, alone or in combination with tangible capital assets, as specified in the contract for a period in an exchange or exchange-like transaction. The City recognizes a subscription liability and an intangible subscription right-of-use asset at the beginning of the subscription term if they have a term exceeding one year and the cumulative future payments on the contract exceed

CITY OF DENTON, TEXAS
NOTES TO BASIC FINANCIAL STATEMENTS (continued)
SEPTEMBER 30, 2024

\$100,000 unless the contract is considered a short-term SBITA. A SBITA asset is measured based on the net present value of subscription payments expected to be made during the subscription term, using the incremental borrowing rate, and is amortized using the straight-line method over the shorter of the subscription term or the useful life of the underlying IT assets. Remeasurement of a subscription liability occurs when there is a change in the contract term and/or other changes that are likely to have a significant impact on the subscription liability.

F. Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses/expenditures during the reporting period. Actual results could differ from those estimates.

II. RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

Explanation of certain differences between the governmental fund statement of revenues, expenditures and changes in fund balances and the government-wide statement of activities

An element of that reconciliation states, “Bond proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net position. Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position. This is the amount by which proceeds exceeded payments.” The details of this (\$119,945,000) difference are as shown on the following page:

Debt issued or incurred:	
Issuance of general obligation debt	\$ (85,380,000)
Issuance of certificates of obligation	(62,940,000)
Principal repayments:	
General obligation debt principal retirement	14,985,000
Certificates of obligation principal retirement	9,935,000
Refunded debt principal	3,455,000
Net adjustment to decrease net changes in fund balances - total governmental funds to arrive at changes in net position of governmental activities	\$ (119,945,000)

CITY OF DENTON, TEXAS
NOTES TO BASIC FINANCIAL STATEMENTS (continued)
SEPTEMBER 30, 2024

Another element of that reconciliation states, “The net effect of various miscellaneous transactions involving capital assets (i.e., subscription-based IT agreements, leases, sales, trade-ins and donations) is to decrease net position.” The details of this \$8,638,312 difference are as follows:

Net effect of transactions involving asset retirements/disposals	\$ (5,725,166)
Donations of capital assets increase net position in the statement of activities but do not appear in the governmental funds because they are not financial resources	14,363,478
Net adjustment to increase net changes in fund balances - total governmental funds	\$ 8,638,312

Another element of that reconciliation states, “Certain expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.” The details of the \$1,065,671 difference are as follows:

Change in:	
Net pension liability	\$ 14,285,109
Municipal pension - Deferred	
Contributions	1,914,583
Economic differences	2,685,845
Assumption changes	(2,314,226)
Actuarial gain/loss	(11,720,386)
Total Municipal pension - Deferred	(9,434,184)
OPEB liability	(2,496,559)
OPEB - Deferred	
Contributions	(72,817)
Economic differences	(246,461)
Assumption changes	2,007,097
Total OPEB - Deferred	1,687,819
Compensated absences	(1,758,268)
Accrued interest	(1,218,246)
Net adjustment to decrease net changes in fund balances - total governmental funds to arrive at changes in net position of governmental activities	\$ 1,065,671

CITY OF DENTON, TEXAS
NOTES TO BASIC FINANCIAL STATEMENTS (continued)
SEPTEMBER 30, 2024

III. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

A. Deficit Fund Equity

The Materials Management, Risk Retention, Engineering Services, Customer Service, Facilities and Environmental Services internal service funds had deficit net positions of (\$106,377), (\$4,362,791), (\$2,894,224), (\$1,919,461), (\$158,102) and (2,924,107), respectively, due to the implementation of GASB Statement No. 68 “*Accounting and Financial Reporting for Pensions-an amendment of GASB Statement No. 27*” and GASB Statement No.75 “*Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*”(OPEB) which resulted in an increase in the net pension liability and the total OPEB liability in the prior years during implementation.

IV. DETAILED NOTES ON ALL FUNDS

A. Deposits and Investments

In order to facilitate effective cash management practices, the operating cash of all funds is pooled into a common account for the purpose of increasing income through combined investment activities. At year-end, the City had \$396,992,872 in cash and cash equivalents of which \$8,400 is in petty cash.

The Public Funds Investment Act (Texas Government Code) authorizes the City to invest in obligations of the U.S. Treasury, U.S. agencies, fully collateralized repurchase agreements, public fund investment pools, SEC-registered no-load money market mutual funds, municipal securities of any state rated A or better, certificates of deposit (fully collateralized, insured, and standby letters of credit backed), and commercial paper rated not less than A-1 or P-1 with a stated maturity of no more than 365 days. The City’s investment policy may further restrict those investment options. The investments reported on September 30, 2024 were similar to those held during the fiscal year.

The City reports all investments in the financial statements at fair value. At September 30, 2024, the City’s investments carried a fair value of \$987,071,134 of which \$396,421,400 was in a local governmental investment pool which the City classifies in the financial statements as cash equivalents, resulting in \$590,649,734 of investment balances reported in the financial statements.

The City categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. GASB Statement No. 72, Fair Value Measurement and Application establishes an authoritative definition of fair value, sets a framework for measuring fair value, and requires additional disclosures about fair value measurements. The fair value hierarchy categorizes the inputs to valuation techniques used to measure fair value into three levels.

- Level 1 inputs are quoted prices (unadjusted) for identical assets or liabilities in active markets a government can access at the measurement date.
- Level 2 inputs are inputs, other than quoted prices included within Level 1, observable for an asset or liability, either directly or indirectly.
- Level 3 inputs are unobservable inputs for an asset or liability.

The fair value hierarchy gives the highest priority to Level 1 inputs and the lowest priority to Level 3 inputs. If a price for an identical asset or liability is not observable, a government should measure fair value using another valuation technique maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs. If the fair value of an asset or a liability is measured using inputs from more than one level of the fair value hierarchy, the measurement is considered to be based on the lowest priority level input significant to the entire measurement.

CITY OF DENTON, TEXAS
NOTES TO BASIC FINANCIAL STATEMENTS (continued)
SEPTEMBER 30, 2024

At September 30, 2024, the City had the following recurring fair value investments:

	<u>Fair Value Measurement Method</u>				Weighted Average Maturity (Days)
	9/30/2024	Quoted Prices in		Percent of Total Investments	
		Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)		
<u>Investments Measured at Amortization Cost:</u>					
TexSTAR - Investment Pool	\$ 239,542,609	\$ -	\$ -	24.27%	1
TexPool - Investment Pool	156,878,791	-	-	15.89%	1
<u>Investments by Fair Value Level:</u>					
Debt Securities:					
U.S. Treasury Securities	262,482,480	-	262,482,480	26.59%	402
U.S. Treasury Securities - Discount	4,917,885	-	4,917,885	0.50%	135
U.S. Agency Securities	214,715,673	-	214,715,673	21.75%	418
U.S. Agency Securities - Callable	39,867,850	-	39,867,850	4.04%	224
Commercial Paper	64,054,655	-	64,054,655	6.49%	99
Municipal Bonds - Coupon	4,611,191	-	4,611,191	0.47%	730
Total Investments	987,071,134	-	590,649,734		
Total Cash and Investments	\$ 987,071,134	\$ -	\$ 590,649,734		
Portfolio Weighted Average Maturity					218

Of the investments recorded at fair value, the U.S. treasuries, the U.S. agency securities, commercial paper, and municipal bonds are valued based upon observable inputs, including but not limited to, model prices for similar assets, benchmark yield curves, and matrix pricing.

Interest rate risk. In accordance with its investment policy, the City manages its exposure to declines in fair values due to interest rate fluctuations by limiting the weighted average maturity of its investment portfolio to less than twenty-four months.

Credit risk. The City’s investment policy limits investments to obligations of the United States of America and its agencies, investment quality obligations of the State of Texas (including agencies, municipalities, counties, and other political subdivisions) with a rating not less than AA, certificates of deposits and savings deposits (fully insured, collateralized, or standby letter of credit backed), fully collateralized repurchase agreements, local public fund investment pools with a dollar weighted average maturity of 60 days or less, U.S. government money market mutual funds with a dollar weighted average maturity of 60 days or less and a stable net asset value of \$1 for each share, and commercial paper that has a maturity of 270 days or less and a minimum rating of A-1, P-1, or an equivalent rating by at least two nationally recognized rating agencies. The City’s investments in TexSTAR and TexPool were rated “AAAm” by Standard & Poor’s, the highest rating a local government investment pool can achieve.

Custodial credit risk. This is the risk that in the event of a bank or counterparty failure, the City’s deposits may not be returned. The policy states that all bank deposits of City funds shall be secured by pledged collateral with a market value equal to no less than 102 percent of the principal plus accrued interest less an amount insured by FDIC. As of September 30, 2024, the bank balance for deposits was \$6,585,971 and was fully collateralized by the City’s third-party custodian, BNY Mellon.

Concentration of Credit Risk. The City’s investment policy minimizes the risk of potential loss by diversifying investment types according to the following limitations based on value: U.S. Treasury bills/notes/bonds (100%), U.S. Agencies and Instrumentalities (100%), State of Texas Obligations – including agencies and local governments (15%), local government investment pools (50% in government securities and 15% in prime securities), repurchase agreements (20%), certificates of deposit (35%), savings

CITY OF DENTON, TEXAS
NOTES TO BASIC FINANCIAL STATEMENTS (continued)
SEPTEMBER 30, 2024

deposits (15%), U.S. Money Market Mutual Funds (50%), callable U.S. Agencies and Instrumentalities (20%), and commercial paper (20%).

Local Government Investment Pools. During the year, the City invested in two public fund investment pools, TexSTAR and TexPool. The fair value of the position of TexSTAR is measured at net asset value, and the fair value of the position of TexPool is measured at amortized cost. Each pool's governing body is composed of individuals who are employees, officers, or elected officials of participants in the funds or who do not have a business relationship with the fund and are qualified to advise. Investment objective and strategies of the pools are to seek preservation of principal, liquidity and current income through investment in a diversified portfolio of short-term marketable securities. Pools offer same day access to investment funds, which may be redeemed daily. As the redemption period is only one day or less, the City classifies these balances in the financials as cash equivalent. The pools may only impose restrictions on redemptions in the event of a general suspension of trading on major securities markets, a general banking moratorium, or a national state of emergency affecting the pool's liquidity. The City has no unfunded commitments related to the investment pool.

Cash, cash equivalents and investments, at fair value are reported together on the financial statements. Investments, at fair value, by fund were as follows:

	General Fund	Debt Service	Capital Projects	Other Governmental Funds
Unrestricted investments	\$ 23,120,583	\$ 798,024	\$ 177,493,078	\$ 29,024,714

CITY OF DENTON, TEXAS
NOTES TO BASIC FINANCIAL STATEMENTS (continued)
SEPTEMBER 30, 2024

B. Property Tax Revenue

Property taxes attach as an enforceable lien on property as of January 1st. Taxes are levied on October 1st and are due and payable at that time; therefore, the legally enforceable claim arises on October 1st. A receivable is recorded at that time. All unpaid taxes levied October 1st become delinquent February 1st of the following year.

Property taxes at the fund level are recorded as receivables and revenue in the period they become available. Current-year revenues recognized are those Ad valorem taxes collected within the current period or soon enough thereafter to pay current liabilities, which are sixty days after year-end. All other outstanding receivables are adjusted from revenue and recognized as deferred inflows of resources for future collections. Current tax collections for the year ended September 30, 2024 were 99.54% of the tax levy. An allowance is provided for delinquent taxes not expected to be collected in the future.

At September 30, 2024, the City had a tax rate of \$0.560682 per \$100 valuation. Based upon the maximum Ad valorem tax of \$2.50 per \$100 valuation imposed by Texas Constitutional law, the City had a tax rate margin of \$1.939318. Additional revenues up to \$367,993,247 could be raised per year based on the current year's certified assessed value of \$18,975,394,789 before the limit is reached.

On December 7, 2010, the City Council approved a Tax Increment Financing Reinvestment Zone (TIRZ #1) for the purpose of dedicating the increase in tax revenues generated within the TIRZ district for development in the downtown area of the City for a total of 30 years. The tax increment to be paid is 100% of the increment in years 1-5, 95% in years 6-10, 90% in years 11-20, and 85% in years 21-30. In fiscal year 2024, the total assessed value of \$261,202,019 after supplemental adjustments for TIRZ #1 was an increase of \$181,845,165 over the base fiscal year 2011 assessed value and resulted in \$917,616 of property tax revenue recorded in the TIRZ Fund as part of All Other Special Revenue Funds.

On December 18, 2012, the City Council approved a Tax Increment Financing Reinvestment Zone (TIRZ #2) for the purpose of dedicating 40% of the increase in tax revenues generated within the TIRZ district for development in the Westpark Industrial District for a total of 25 years. In fiscal year 2023, the assessed value of \$394,162,688 after supplemental adjustments was an increase of \$394,043,230 over the base fiscal year 2014 assessed value and resulted in \$883,732 of property tax revenue recorded in the TIRZ Fund as part of All Other Special Revenue Funds. Denton County participates in the zone and based on their tax rate and a participation contribution of 40% of the County's tax rate, \$298,661 of property tax revenue was generated for Fiscal Year 2024.

The City created the Rayzor Ranch Public Improvement District No. 1 in 2014 for the undertaking and financing of public improvements authorized by Chapter 372 of the Texas Local Government Code. The project is located on the City's northern sector, east of Interstate 35, and encompasses approximately 229.693 contiguous acres. The estimated costs of the proposed public improvements total \$40 million. The authorized improvement costs will be apportioned 100% to the District. The method of assessment will impose equal shares of the costs of the proposed public improvements on parcels that are similarly benefited. No City property will be assessed, and the City will not be obligated to pay any assessments.

CITY OF DENTON, TEXAS

E. Interfund Receivables, Payables and Transfers

A summary of interfund receivables and payables (in thousands) at September 30, 2024, is as follows:

	Interfund Receivables:				Total
	Governmental Major Funds	Business-Type Major Funds			
Interfund Payables:	General Fund	Electric	Water	Wastewater	
Non-Major Governmental Funds	\$ 419	\$ -	\$ -	\$ -	\$ 419
Internal Service Funds	897	19,377	1,616	510	22,400
Total	<u>\$ 1,316</u>	<u>\$ 19,377</u>	<u>\$ 1,616</u>	<u>\$ 510</u>	<u>\$ 22,819</u>

CITY OF DENTON, TEXAS
NOTES TO BASIC FINANCIAL STATEMENTS (continued)
SEPTEMBER 30, 2024

The most significant interfund receivables and payables include the following:

<u>Interfund receivables</u>	<u>Interfund payables</u>	<u>Amount</u>
Electric fund	Internal service funds-materials management	\$ 19,377,000
Water fund	Internal service funds-materials management	1,616,000
General fund	Internal service funds-materials management	897,000
Wastewater fund	Internal service funds-materials management	510,000
General fund	Non-Major Governmental Funds	419,000
	Total:	<u>\$ 22,819,000</u>

The outstanding balances between the Electric, Water, Wastewater, and General Fund related to the Materials Management Fund are a result of the cash position in the Materials Management Fund due to inventory purchases. The outstanding balance between the General Fund and the Non-Major Governmental Funds is due to reimbursement timing from outside sources.

Transfers between funds (in thousands) during the year were as follows:

	Transfers Out:											
	Governmental Major Funds			Business-Type Major Funds							Internal Service Funds	Total
	General Fund	Capital Projects Fund	Non-Major Governmental Funds	Electric Fund	Water Fund	Wastewater Fund	Solid Waste	Airport Fund

The most significant transfers include the following:

<u>Transfers from fund</u>	<u>Transfers to fund</u>	<u>Amount</u>
Non-Major Gov't – Street Improvement Fund	Capital Projects	\$ 13,174,933
Internal Service Funds - Environmental Services	Business-type Major Funds (Water, Wastewater, and Solid Waste)	3,027,974
Other - SRF	Capital Projects	1,781,632
Business-type Major Funds (Electric, Water, and Wastewater)	Non-Major Gov't – Street Improvement Fund	1,345,000
General Fund	Other - SRF	1,078,102
General Fund	Capital Projects	1,050,502
Business-type Major Funds - Airport	Debt Service Fund	806,779
	Total:	<u>\$ 22,264,922</u>

CITY OF DENTON, TEXAS
NOTES TO BASIC FINANCIAL STATEMENTS (continued)
SEPTEMBER 30, 2024

Transfers from the Non-Major Governmental Fund – Street Improvement Fund and from the General Fund were to fund capital projects such as streets, building renovations, equipment, and park improvements. Transfers from Internal Service Funds - Environmental Services to Business-type Major Funds (Water, Wastewater, and Solid Waste) are a transfer of employee benefit liabilities for employees moving from the Business-type Major Funds to the newly created Environmental Services fund. Transfers from Other-Special Revenue Funds (SRF) were to fund road capital projects. Transfers from the Business-type Major Funds (Electric, Water, and Wastewater) to the Non-Major Governmental Fund – Street Improvement Fund were for bond savings costs related to the issuance of certificates of obligation, which fund street maintenance operations in the Street Improvements Fund. Transfers from General Fund to Special Revenue Funds were funding for our Ecological Devastation Catalyst Fund, Sustainability Fund, and a matching DUI Phlebotomy Grant. Transfers from Business-type Major Funds – Airport to the Debt Service Fund were to pay for Airport-related debt payments previously paid by property taxes.

F. Other Assets

In March 2010, the City issued Combination Tax & Electric Utility System Revenue Refunding Bonds, Series 2010 with a maturity of 15 years for prepaying certain contractual obligations to TMPA. The principal amount of the bonds was \$58,820,000 with a reoffering premium and other bond issuance costs of \$3,835,015 for a total of \$62,655,015. As the proceeds of this debt issuance were placed with Texas Municipal Power Agency (TMPA) and the City received an economic benefit over a period of years, an Other Asset was recorded in the Electric Fund Statement of Net Position in the amount of \$62,655,015. The City is amortizing the Other Asset over a period of 15 years with a half year convention the first and last years. See footnote V.E. for more information on TMPA.

In August 2014, the City issued General Obligation Refunding Bonds, Series 2014A with a maturity of 10 years for prepaying certain contractual obligations to TMPA. The principal amount of the bonds was \$11,570,000 with a reoffering premium and other bond issuance costs of \$1,848,651 for a total of \$13,418,651. As the proceeds of this debt issuance were placed with TMPA and the City received an economic benefit over a period of years, an Other Asset was recorded in the Electric Fund Statement of Net Position in the amount of \$13,418,651. The City amortized the Other Asset over a period of 10 years through September 2024.

In August 2015, the City issued General Obligation Refunding Bonds, Series 2015A with a maturity of 9 years for prepaying certain contractual obligations to TMPA. The principal amount of the bonds was \$2,955,000 with a reoffering premium and other bond issuance costs of \$462,133 for a total of \$3,417,133. As the proceeds of this debt issuance were placed with TMPA and the City received an economic benefit over a period of years, an Other Asset was recorded in the Electric Fund Statement of Net Position in the amount of \$3,417,133. The City amortized the Other Asset over a period of 9 years through September 2024.

In September 2017, the City impaired 37.9% of these Other Assets, for a total of \$26,930,415. This was due to TMPA closing its power generation operations to seasonal activities only. The impaired portion was recorded as a GASB 62 Regulatory Asset in Other Assets to be amortized over the existing timelines originally established, through mid-year of fiscal year 2025.

In June 2019, TMPA notified Electric Reliability Council of Texas (ERCOT) of the plan to move the generation plant, Gibbons Creek, to a status of decommissioned and retired. The official effective date was October 2019. In September 2019, the City impaired the remaining portion of the Other Asset. The remaining impaired portion of the original Other Assets were recorded as a GASB 62 Regulatory Asset in Other Assets to also be amortized over the existing timelines originally established, through mid-year of fiscal year 2025.

In February 2021, the State of Texas experienced unprecedented freezing temperatures that put pressure on the availability of electric power (the “Weather Event”). Due to the high demand for power during this period and the limited availability of the power, the purchase price for power increased dramatically during this period. These energy price increases resulted in utilities, including the Electric Fund of the City of Denton, needing to access financial reserves to make payment to ERCOT for the power purchased necessary to service their customers. Due to the unparalleled dollar amount of the purchased power, the City of Denton issued

CITY OF DENTON, TEXAS
NOTES TO BASIC FINANCIAL STATEMENTS (continued)
SEPTEMBER 30, 2024

\$140 million of commercial paper to provide temporary funding for immediate cash flow needs. In September 2021, the City issued \$141,990,000 of revenue refunding bonds to convert the outstanding commercial paper principal plus interest to debt to be paid over a period of 30 years. The Electric Fund recorded \$140,000,000 of this purchased power expense as a regulatory asset in Other Assets to be amortized over the period of 30 years, starting with fiscal year ending September 30, 2022.

Capitalized Interest-GASB Statement No. 89, “Accounting for Interest Cost incurred before the end of a Construction Period”, was implemented in FY 2022 to eliminate interest associated with the construction of capital assets. As these interest costs add to the full capitalized costs associated with the plant and infrastructure assets and provide an economic benefit over a period of years, a regulatory asset was established to continue capitalized interest for the Electric Fund. The regulatory asset recorded an addition of \$1,621,039 in FY 2022, \$2,007,873 in FY 2023, and \$3,163,428 in FY 2024. These amounts will be amortized over the life of related assets to align with the recovery of costs through rates.

To qualify to utilize GASB 62, the following must apply:

- The regulated business-type activity’s rate for regulated services provided to its customers are established by or are subject to approval of
- an independent, third-party regulator or by its own governing board empowered by statute or contract to establish rates that bind customers.
- The regulated rates are designed to recover the specific regulated business-type activity’s costs of providing the regulated services.

In view of the demand for the regulated services or products and the level of competition, direct and indirect, it is reasonable to assume that rates set at levels that will recover the regulated business-type activity’s costs can be charged to and collected from customers. This criterion requires consideration of anticipated changes in levels of demand or competition during the recovery period for any capitalized costs.

The City of Denton qualifies to utilize GASB 62 due to:

- State and local statutes empower the City of Denton City Council to establish retail rates.
- The City of Denton specific costs are recovered through City of Denton retail rates.

Current and projected customer demand support the recovery of City of Denton cost of service.

	Balance at October 1, 2023	Increases	Amortization	Balance at September 30, 2024	Years Remaining

For Internal Service funds, long-term liabilities are included as part of the above totals for governmental activities. Compensated absences payables and net pension liability balances and payments are based on the assignment of an employee within a fund. Other postemployment benefits are liquidated from the Health Insurance internal service fund with the retiree subsidy amounts paid predominantly by the General Fund. Claims payable represents an estimate of self-insured claims liability outstanding in the Health Insurance and Risk Retention internal service funds as well as one possible litigation payable in the Electric Fund. Subscription-Based IT Arrangements (SBITA) and Lease liabilities represent GASB 96 and GASB 87 entries, respectively.

CITY OF DENTON, TEXAS

Certificates of obligation	2.0 to 5.0	2021	2041	24,735,000	20,270,000
Certificates of obligation	4.0 to 5.0	2022	2044	12,565,000	10,340,000
Certificates of obligation	4.0 to 5.0	2023	2044	31,160,000	29,305,000
Certificates of obligation	4.0 to 5.0	2024	2044	73,270,000	73,270,000
Total certificates of obligation				<u>253,110,000</u>	<u>193,855,000</u>
Total general bonded debt				<u>\$ 656,565,000</u>	<u>\$ 522,255,000</u>

[These amounts do not include net unamortized premiums/ (discounts) of \$38,270,941 nor net deferred gain/ (loss) on refunding of (\$105,253).]

Proceeds of general obligation bonded debt are restricted to the uses for which they were approved in the bond elections or, in the case of a refunding issuance, to the uses for which the certificates of obligation were originally issued. The City Charter expressly prohibits the use of bond proceeds to fund operating expenses. The general obligations are collateralized by the full faith and credit of the City and, primarily, payable from property taxes.

In July 2024, the City issued \$117,630,000 (\$32,250,000 of which is included as part of business-type activities) in general obligation refunding bonds. Of this amount, \$82,280,000 was issued to pay the costs of bond election capital improvements for streets, parks, library, and public safety projects in the Capital Projects fund. The remaining \$35,350,000 was issued to refund outstanding debt obligations. The reacquisition price was below the net carrying amount of the old debt by \$159,218 (\$122,327 of which is reported as a deferred gain in business-type activities). This amount is being amortized over the remaining life of the refunded debt, which is the same as the life of the new debt issued. The current refunding was undertaken to reduce total debt service payments over 15 years by \$2,195,599 and resulted in a net present value savings of \$1,591,885.

In July 2024, the City issued \$242,790,000 (\$169,520,000 of which is included as part of business-type activities) in certificates of obligation. The debt was issued to pay the costs of various capital improvements

CITY OF DENTON, TEXAS
NOTES TO BASIC FINANCIAL STATEMENTS (continued)
SEPTEMBER 30, 2024

in the Capital Projects Fund (\$62,940,000), the Electric Fund (\$58,100,000), the Water Fund (\$55,675,000), the Wastewater Fund (\$51,775,000), the Technology Fund (\$7,765,000), the Solid Waste Fund (\$3,970,000), and the Fleet Fund (\$2,565,000).

In June 2024, the City issued \$31,395,000 in utility system bonds, all in the Electric fund. The debt was issued to cover excess purchase power costs.

On September 30, 2024, the City had no general obligation bonds or certificates of obligation considered defeased but still outstanding.

Business-type Revenue Bonds – Revenue bond debt at September 30, 2024, is comprised of the following issues:

Revenue Bonds	Interest Rate (%)	Issue Date	Final Maturity	Original Amount of Issue	Gross Principle Outstanding at September 30, 2024
Utility system	3.25 to 5.0	2017	2037	\$ 214,890,000	\$ 172,900,000
Utility system Refunding	0.27 to 2.7	2021	2051	141,990,000	134,715,000
Utility system	5.27	2024	2028	31,395,000	31,395,000
Total revenue bonds				<u>\$ 388,275,000</u>	<u>\$ 339,010,000</u>

[These amounts do not include net unamortized premiums/ (discounts) of \$14,668,491.]

The revenue bonds are collateralized by the revenue of the Denton utility system funds (System) and the related interest and sinking fund. The ordinance provides that the revenue of the System is to be used first to pay operating and maintenance expenses of the System and second to establish and maintain the revenue bond funds. Any remaining revenues may then be used for any lawful purpose. The ordinance also contains provisions, which among other items restrict the issuance of additional revenue bonds unless certain financial ratios are met. Management believes the City is in compliance with all significant requirements. The interest and sinking fund had a net position balance of \$20,951,942 as of September 30, 2024 and is restricted for debt service. On September 30, 2024, the City had no revenue bonds considered defeased but still outstanding.

[These amounts do not include net unamortized premiums/ (discounts) of \$105,043,492 nor net deferred gain/ (loss) on refunding of (\$277,761).]

Bonds Authorized and Unissued

General obligation bonds authorized but unissued as of September 30, 2024 amounted to \$257,135,000. When issued, the proceeds will be allocated to the applicable street, drainage, public safety, affordable housing, library, and parks projects.

All bonds were issued publicly through negotiated or competitive terms. There is a direct placement with the \$31,395,000 System revenue bond. There is no acceleration of maturity of the bonds in the event of default, and the City has never defaulted on the payment of bonds.

CITY OF DENTON, TEXAS
NOTES TO BASIC FINANCIAL STATEMENTS (continued)
SEPTEMBER 30, 2024

H. Landfill Closure and Post-Closure Cost

State and federal laws and regulations require the City to place a final cover on its Mayhill Road landfill site upon closure and to perform certain maintenance and monitoring functions at the site for thirty years after closure. Although closure and post-closure care costs will be paid only upon anticipated closure, the City reports a portion of these costs as an operating expense in each period based on landfill capacity used as of each balance sheet date. Based on an updated model created by a 2022 engineering study, total landfill closure and post-closure cost as of September 30, 2024 was \$56,929,792. The \$13,145,325 reported as landfill closure and post-closure care liability as of September 30, 2024 is a \$1,080,587 increase from the \$12,064,738 liability reported on September 30, 2023. This liability represents the cumulative amount incurred to date based on the use of 23.09% of the estimated capacity of the entire landfill at September 30, 2024. The change in estimated capacity decreased due to the remaining life increasing from updated Permit 1590B approval in August 2021.

Based on this estimate, the remaining potential estimated liability for closure and post-closure care of the entire landfill is \$43,784,467. The City will recognize the remaining estimated cost of closure and post-closure care as the remaining capacity is filled. These amounts are based on what it would cost to perform closure and post-closure care in 2024. Actual costs may fluctuate due to inflation, changes in technology, or changes in regulations. The landfill has a remaining life of 32 years, and the City expects to close the landfill in fiscal year 2056.

The solid waste fund has provided for a reservation and designation of cash and investments of \$15,528,231 at September 30, 2024 and anticipates increasing the reserve in future periods as the closure and post-closure activities are carried out.

I. Leases

The City is a lessor in various noncancelable leases of land, building, and equipment. During fiscal year 2024, the City recognized \$255,461 in lease revenue and \$50,602 in interest revenue.

As of September 30, 2024, the City's lease receivable balance of \$3,541,475 was comprised of the following:

Governmental Activities

One building lease with rents received totaling in \$16,659 during the fiscal year 2024, at an interest rate of .213%, with a remaining lease term of 7 years	\$ 107,285
--	------------

One equipment lease with rents received totaling in \$79,394 during the fiscal year 2024, at an interest rate of .582%, with a remaining lease term of 3 years	239,047
---	---------

One land leases with rents received totaling \$18,186 during the fiscal year 2024, at an interest rate of 1.882% with remaining lease terms of 45 years	858,617
--	---------

Business-type Activities

Various land leases with rents received totaling \$141,222 during the fiscal year 2024, at an interest rate of 1.473% to 3.053% to with remaining lease terms ranging from 10 to 45 years	2,336,527
	\$ 3,541,476

CITY OF DENTON, TEXAS
NOTES TO BASIC FINANCIAL STATEMENTS (continued)
SEPTEMBER 30, 2024

The lease receivables are expected to be received in subsequent years as follows:

Fiscal Year	Governmental Activities		Business-Type Activities	
	Principal	Interest	Principal	Interest
2025	\$ 96,195	\$ 18,269	\$ 165,383	\$ 38,818

	<u>\$ 1,158,900</u>	<u>\$ 521,322</u>	<u>\$ 2,382,576</u>	<u>\$ 315,986</u>

The City has various aeronautical leasing agreements for land leases (54 agreements, 5 Licenses, 72 buildings) and hangar space (27) at Denton Enterprise Airport. These qualify as regulated leases and are not included in the measurement of lease receivables, in accordance with the requirements of GASB Statement No. 87. The City recognized \$870,328 (Land Lease) and \$157,064 (Hangar Lease) in lease revenue during fiscal year 2024 for these leases, which have CPI increases that range from 1-5 years, dependent on the lease terms ranging from 1-30 years, with some leases having additional options that range from 5-20 years. As of October 1, 2024, the minimum payments expected to be received over the next five years is shown in the table below:

Fiscal Year	Amount
2025	\$ 990,761
2026	1,015,491
2027	1,050,948
2028	1,077,185
2029	1,109,501
	<u>\$ 5,243,886</u>

Additionally, on January 1, 2023, City of Denton, TX entered a 48-month lease as Lessee for the use of Employee Health Clinic. An initial lease liability was recorded in the amount of \$300,845. As of September 30, 2024, the value of the lease liability is \$173,686. The City of Denton, TX is required to make monthly fixed payments of \$6,018. The lease has an interest rate of 0.2130%. The value of the right to use asset as of September 30, 2024, of \$300,845 with accumulated amortization of \$131,619. The City has one extension option(s), each for 12 months.

J. Subscription-Based Information Technology Agreements (SBITA)

The City entered into SBITA contracts involving various desktop and server software, electronic workflows and document management software along with other departmental specific operations management systems to assist in operations. As of September 30, 2024, all SBITA have fixed, periodic, payments over the subscription periods, which range from 1 to 5 years and expire no later than fiscal year 2029. In addition, some of these agreements are cancellable with a 30 or 60-day notice. There are no commitments or outflows of resources related to SBITA that are not yet effective.

Texas Municipal Retirement Plan

Plan Description

The City of Denton participates as one of 901 plans in the defined benefit cash-balance plan administered by the Texas Municipal Retirement System (TMRS). TMRS is a statewide public retirement plan created by the State of Texas and administered in accordance with the TMRS Act, Subtitle G, Title 8, Texas Government Code (the TMRS Act) as an agent multiple-employer retirement system for employees of Texas participating cities. The TMRS Act places the general administration and management of the System with a six-member, Governor-appointed board of trustees; however, TMRS is not fiscally dependent on the State of Texas. TMRS issues a publicly-available annual comprehensive financial report obtainable at www.tmrs.com.

All eligible employees of the city are required to participate in TMRS.

Benefits Provided

TMRS provides retirement, disability, and death benefits. Benefit provisions are adopted by the governing body of the City, within the options available in the state statutes governing TMRS.

At retirement, the employee’s benefit is calculated based on the sum of the employee’s contributions with interest, and the city-financed monetary credits with interest. Employees may choose to receive their

retirement benefit in one of seven payment options. Employees may also choose to receive a portion of their benefit as a Partial Lump Sum Distribution in an amount equal to 12, 24, or 36 monthly payments, which cannot exceed 75% of the employee’s deposits and interest.

Upon retirement, the employee’s retirement benefits are calculated based on the sum of the employee’s contributions, with interest, and the City-financed monetary credits, with interest. City-financed monetary credits are composed of three sources: prior service credits, current service credits, and updated service credits.

- Prior service credit, granted by each city joining TMRS, is a monetary credit equal to the accumulated value of the percentage of prior service credit selected by the City, multiplied by an employee’s contributions that would have been made, based on the average salary prior to TMRS participation, for the number of months the employee was employed by the City before joining TMRS, accruing 3% annual interest and including the matching ratio adopted by the City.
- Current Service Credit is a monetary credit for service performed by an employee after the City joined TMRS and is based on a percent (200%) of the employee's total contributions and interest credits (commonly referred to as the City’s matching ratio). Each participating city designates the rate the employee contributions (7% for the City) and interest is credited on contribution balances annually at a guaranteed minimum 5% rate. Any change in the matching ratio would be applied prospectively.
- Updated Service Credits (USC) is an optional monetary credit granted on an annually repeated basis by the City, and it may increase an employee’s monthly retirement benefit. In calculating USC, TMRS looks at the changes in the employee’s salary over their career and any changes the City has made to its TMRS plan, such as the employee contribution rate or the City’s matching ratio. Although USC may increase the employee’s retirement benefit, USC does not affect the amount of contributions in an employee’s account or the amount an employee will receive if they refund.

The plan provisions also include an annually repeating basis cost of living adjustments for retirees equal to 70% of the change in the consumer price index. If an employee terminates employment and refunds their account, the employee will receive their total contributions, plus credited interest. The employee will not receive any of the city-financed monetary credits. An employee can retire at ages 60 and above with 5 or more years of service or with 20 years of service regardless of age. A member is vested after five years.

Employees Covered by Benefit Terms

At the December 31, 2023 valuation and measurement date, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefits	909
Inactive employees entitled to but not yet receiving benefits	929
Active employees	1,472
Total	3,310

Contributions

The contribution rates for employees in TMRS are either 5%, 6%, or 7% of employee gross earnings, and the city matching percentages are either 100%, 150%, or 200%, both as adopted by the City Council. Under the state law governing TMRS, the contribution rate for each city is determined annually by the actuary, using the Entry Age Normal (EAN) actuarial cost method. The City’s contribution rate is based on the liabilities created from the benefit plan options selected by the City and any changes in benefits or actual experience over time.

Employees for the City were required to contribute 7% of their annual gross earnings during the fiscal year. The contribution rates for the City were 18.15% and 18.94% in calendar years 2023 and 2024, respectively. The City’s contributions to TMRS for the year ended September 30, 2024, were \$21,790,165 and were equal to the required contributions.

CITY OF DENTON, TEXAS
NOTES TO BASIC FINANCIAL STATEMENTS (continued)
SEPTEMBER 30, 2024

Net Pension Liability

The City's Net Pension Liability (NPL) was measured as of December 31, 2023, and the Total Pension Liability (TPL) used to calculate the Net Pension Liability was determined by an actuarial valuation as of that date.

Actuarial Assumptions

The Total Pension Liability in the December 31, 2023 actuarial valuation was determined using the following actuarial assumptions:

Inflation	2.50% per year
Overall payroll growth	3.50% per year
Investment Rate of Return	6.75%, net of pension plan investment expense, including inflation

Salary increases were based on a service-related table. Mortality rates for active members are based on the PUB(10) mortality tables with the Public Safety table used for males and the General Employee table used for females. Mortality rates for healthy retirees and beneficiaries are based on the gender-distinct 2019 Municipal Retirees of Texas mortality tables. The rates for actives, healthy retirees and beneficiaries are projected on a fully generational basis by Scale UMP to account for future mortality improvements. For disabled annuitants, the same mortality tables for healthy retirees are used with a 4-year set-forward for males and a 3-year set-forward for females. In addition, a 3.5% and 3.0% minimum mortality rate are applied for males and females, respectively, to reflect the impairment for younger members who become disabled. The rates are projected on a fully generational basis by Scale UMP to account for future mortality improvements subject to the floor.

The actuarial assumptions were developed primarily from the actuarial investigation of the experience of TMRS over the four-year period from December 31, 2014 to December 31, 2018. They were adopted in 2019 and first used in the December 31, 2019 actuarial valuation. The post-retirement mortality assumption for healthy annuitants and Annuity Purchase Rate (APRs) are based on the Mortality Experience Investigation Study covering 2009 through 2011 and dated December 31, 2013. Plan assets are managed on a total return basis with an emphasis on both capital appreciation as well as the production of income in order to satisfy the short-term and long-term funding needs of TMRS.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of real rates of return for each major asset class in fiscal year 2023 are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return (Arithmetic)
Global Equity	35%	6.7%
Core Fixed Income	6%	4.7%
Non-Core Fixed Income	20%	8.0%
Real Return	12%	8.0%
Real Estate	12%	7.6%
Absolute Return	5%	6.4%
Private Equity	10%	11.6%
Total	100%	

CITY OF DENTON, TEXAS
NOTES TO BASIC FINANCIAL STATEMENTS (continued)
SEPTEMBER 30, 2024

Discount Rate

The discount rate used to measure the Total Pension Liability was 6.75%. The projection of cash flows used to determine the discount rate assumed that employee and employer contributions will be made at the rates specified in statute. Based on that assumption, the pension plan's Fiduciary Net Position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the Total Pension Liability.

Changes in the Net Pension Liability

	Increase (Decrease)		
	Total Pension Liability (a)	Plan Fiduciary Net Position (b)	Net Pension Liability (a) - (b)

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The following presents the net pension liability of the City, calculated using the discount rate of 6.75%, as well as what the City's net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (5.75%) or 1-percentage-point higher (7.75%) than the current rate:

	1% Decrease in Discount Rate (5.75%)	Current Discount Rate (6.75%)	1% Increase in Discount Rate (7.75%)
City's net pension liability	\$ 192,754,710	\$ 95,546,332	\$ 15,975,192

CITY OF DENTON, TEXAS
NOTES TO BASIC FINANCIAL STATEMENTS (continued)
SEPTEMBER 30, 2024

Pension Plan Fiduciary Net Position

Detailed information about the pension plan’s Fiduciary Net Position is available in the Schedule of Change in Fiduciary Net Position, by Participating City, separately issued TMRS financial report. That report may be obtained on the Internet at www.tmrs.com.

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the year ended September 30, 2024, the City recognized pension expense of \$22,731,061. This amount is included as part of personal services expenses.

At September 30, 2024, the City reported deferred outflows of resources and deferred inflows of resources related to TMRS pension from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between projected and actual investment earnings	\$ 13,878,371	\$ -
Contributions subsequent to the measurement date	18,506,744	-
Differences between expected and actual economic experience	10,295,447	-
Difference in assumption changes	-	3,259,932
Total	\$ 42,680,562	\$ 3,259,932

Reported as deferred outflows of resources, \$18,506,744 related to pensions resulting from contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability for the City’s fiscal year ending September 30, 2025. Other amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expense (income) as follows:

	For the Year Ended September 30,	Net Deferred Outflows/(Inflows)
2025		\$ 7,677,316
2026		7,137,181
2027		11,166,647
2028		(5,067,257)
Total		\$ 20,913,887

Denton Firemen's Relief and Retirement Plan

Plan Description

The City contributes to the retirement plan for firefighters in the Denton Fire Department known as the Denton Firemen’s Relief and Retirement Fund (the Fund). The Fund is a single employer, contributory, defined benefit plan. The benefit provisions of the Fund are authorized by the Texas Local Fire Fighters’ Retirement Act (TLFFRA). TLFFRA provides the authority and procedure to amend benefit provisions. The plan is administered by the Board of Trustees of the Denton Firemen’s Relief and Retirement Fund. The City does not have access to nor can it utilize assets within the retirement plan trust. The Fund issues a stand-alone report pursuant to GASB Statement No. 67, which may be obtained by writing the Denton Firemen’s Relief

CITY OF DENTON, TEXAS
NOTES TO BASIC FINANCIAL STATEMENTS (continued)
SEPTEMBER 30, 2024

and Retirement Fund at P.O. Box 2375, Denton, Texas 76202. See that report for all information about the plan fiduciary net position.

Benefits Provided

Firefighters in the Denton Fire Department are covered by the Denton Firemen’s Relief and Retirement Fund which provides service retirement, death, disability, and withdrawal benefits. These benefits fully vest after 20 years of credited service. Firefighters may retire at age 50 with 20 years of service. A partially vested benefit is provided for firefighters who terminate employment with at least 10 but less than 20 years of service. If a terminated firefighter has a partially vested benefit, the firefighter may retire starting on the date they would have both completed 20 years of service if they had remained a Denton firefighter and attained age 50. The present plan provides a monthly normal service retirement benefit, payable in a Joint and Two-Thirds to Spouse form of annuity, equal to 2.59% of Highest 36-Month Average Salary for each year of service.

A retiring firefighter who is at least age 52 with at least 22 years of service has the option to elect the Retroactive Deferred Retirement Option Plan (RETRO DROP) which will provide a lump sum benefit and a reduced monthly benefit. The reduced monthly benefit is based on the service and Highest 36-Month Average Salary as if the firefighter had terminated employment on their selected RETRO DROP benefit calculation date, which is no earlier than the later of the date the firefighter meets the age 52 and 22 years of service requirements and the date four years prior to the date the firefighter actually retires. Upon retirement, the employee will receive, in addition to the monthly retirement benefit, a lump sum equal to the sum of (1) the amount of monthly contributions the member has made to the Fund after the RETRO DROP benefit calculation date plus (2) the total of the monthly retirement benefits the member would have received between the RETRO DROP benefit calculation date and the date retired under the plan. There are no account balances. The lump sum is calculated at the time of retirement and distributed as soon as administratively possible.

There is no provision for automatic postretirement benefit increases. The Fund has the authority to provide, and has periodically in the past provided, ad hoc postretirement benefit increases.

Employees Covered by Benefit Terms

In the December 31, 2023 actuarial valuation, the following numbers of members were covered by the Fund:

Inactive employees or beneficiaries currently receiving benefits	96
Inactive employees entitled to but not yet receiving benefits	8
Active employees	236
Total	340

Contributions

The contribution provisions of the Fund are authorized by TLFFRA. TLFFRA provides the authority and procedure to change the amount of contributions determined as a percentage of pay by each firefighter and a percentage of payroll by the City.

The contribution policy of the Denton Firemen’s Relief and Retirement Fund requires contributions equal to 12.6% of pay by the firefighters, the rate elected by the firefighters according to TLFFRA. The City began contributing in December 2017 according to a new City funding policy. The ordinance defining it includes an actuarially determined contribution rate over a closed 25-year amortization period, a contribution rate of 18.5% for several years, a minimum rate standard, and City review and approval of each actuarial valuation. The December 31, 2023 actuarial valuation includes the assumption the City contribution rate will be 18.5% over the unfunded liability amortization period. The costs of administering the plan are paid from the Fund assets. The City’s contributions to the Fund for the year ended September 30, 2024 were \$5,530,963.

Ultimately, the funding policy also depends upon the total return of the Fund’s assets, which varies from year to year. Investment policy decisions are established and maintained by the board of trustees. For the calendar year ending December 31, 2023, the money-weighted rate of return on pension plan investments was 9.31%.

CITY OF DENTON, TEXAS
NOTES TO BASIC FINANCIAL STATEMENTS (continued)
SEPTEMBER 30, 2024

This measurement of the investment performance is net of investment-related expenses, reflecting the effect of the timing of the contributions received and the benefits paid during the year.

While the contribution requirements are not actuarially determined, state law requires that each change in plan benefits adopted by the Fund must first be approved by an eligible actuary, certifying the contribution commitment by the firefighters and the assumed city contribution rate together provide an adequate contribution arrangement. Using the entry age actuarial cost method, the plan’s normal cost contribution rate is determined as a percentage of payroll. The excess of the total contribution rate over the normal cost contribution rate is used to amortize the plan’s unfunded actuarial accrued liability (UAAL). The number of years needed to amortize the plan’s UAAL is actuarially determined using an open, level percentage of payroll method.

Net Pension Liability

The City of Denton’s net pension liability was measured as of December 31, 2023, and the total pension liability used to calculate the net pension liability was determined based on the actuarial valuation as of December 31, 2023.

Total pension liability	\$ 167,333,614
Plan fiduciary net position	<u>152,072,995</u>
City's net pension liability	\$ 15,260,619
Plan fiduciary net position as a percentage of the total pension liability	90.9%

Actuarial Assumptions

The total pension liability in the December 31, 2023, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.50%	
Overall payroll growth	3.00%, plus promotion, step and longevity increases that vary by service	
Investment Rate of Return	6.75%, net of pension plan investment expense, including inflation	

Mortality rates were based on the PubS-2010 (public safety) total dataset mortality tables employees and for retirees (sex distinct), projected for mortality improvement generationally using the projection scale MP-2019.

The long-term expected rate of return on pension plan investments is reviewed for each biennial actuarial valuation and was determined using a building-block method in which expected future net real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These components are combined to produce the long-term expected rate of return by weighting the expected future net real rates of return by the target asset allocation percentage (currently resulting in 4.96%) and by adding expected inflation (2.5%). In addition, the final 6.75% assumption was selected by rounding down and thereby reflects a reduction of 0.71% for adverse deviation.

CITY OF DENTON, TEXAS
NOTES TO BASIC FINANCIAL STATEMENTS (continued)
SEPTEMBER 30, 2024

The target allocation and expected arithmetic net real rates of return for each major asset class are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return (Arithmetic)</u>
Equities		
Large Cap Domestic	40.0%	6.00%
Small/Mid Cap Domestic	10.0%	6.50%
International Developed	10.0%	6.50%
Alternatives		
Master Limited Partnerships	8.0%	6.50%
Real Estate	15.0%	4.00%
Fixed Income	15.0%	1.00%
Cash	2.0%	0.00%
Total	<u>100.0%</u>	
Weighted Average		4.96%

Discount Rate

The discount rate used to measure the total pension liability was 6.75%. No projection of cash flows was used to determine the discount rate because the December 31, 2023 actuarial valuation showed expected contributions would pay the normal cost and amortize the unfunded actuarial accrued liability (UAAL) in seven years. Because of the seven-year amortization period of the UAAL, the pension plan’s fiduciary net position is expected to be available to make all projected future benefit payments of current active and inactive members. Therefore, the long-term expected rate of return on pension plan investments of 6.75% was applied to all periods of projected benefit payments as the discount rate to determine the total pension liability.

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The following presents the net pension liability of the City of Denton, calculated using the discount rate of 6.75%, as well as what the city’s net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (5.75%) or 1-percentage-point higher (7.75%) than the current rate:

	<u>1% Decrease in Discount Rate (5.75%)</u>	<u>Current Discount Rate (6.75%)</u>	<u>1% Increase in Discount Rate (7.75%)</u>
City's net pension liability	\$ 36,978,441	\$ 15,260,619	\$ (2,822,645)

Pension Plan Fiduciary Net Position

The plan fiduciary net position reported above is the same as reported by the Fund. Detailed information about the plan fiduciary net position is available in the Fund’s separately issued audited financial statements, which are reported using the economic resources measurement focus and the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America. Revenues are recorded when earned, and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Investments are reported at fair value, the price that would be recognized to sell an asset in an orderly transaction between market participants at the measurement date.

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the year ended September 30, 2024, the City recognized a pension expense of \$1,761,084. Amounts recognized in the fiscal year represent changes between the current and prior year measurement dates. At September 30, 2024, the City reported deferred outflows of resources and deferred inflows of resources related to the Fund from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Net difference between projected and actual earnings on pension plan investments	\$ 443,898	\$ -
Contributions subsequent to the measurement date	4,149,284	-
Changes of assumptions	1,816,395	-
Differences between expected and actual experience	9,102,264	164,565
Total	<u>\$ 15,511,841</u>	<u>\$ 164,565</u>

Deferred outflows of resources related to pensions resulting from contributions subsequent to the measurement date of \$4,149,284. will be recognized as a reduction of the net pension liability for the measurement year ending December 31, 2024, and the City's fiscal year ending September 30, 2025.

CITY OF DENTON, TEXAS
NOTES TO BASIC FINANCIAL STATEMENTS (continued)
SEPTEMBER 30, 2024

Other amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expense (income) as follows:

For the Year Ended September 30,	Net of Deferred Outflows Minus Deferred Inflows
2025	\$ 603,586
2026	1,636,232
2027	4,215,649
2028	865,562
2029	1,305,048
Thereafter	2,571,915
Total	\$ 11,197,992

B. Post-employment Benefits Other than Pensions (OPEB)

The City of Denton provides for two post-employment benefit (OPEB) plans; one provides for post-employment medical care through a single-employer, defined benefit medical plan (Medical OPEB), and the other is the Texas Municipal Retirement System Supplemental Death Benefits Fund (TMRS SDBF), a single-employer defined benefit OPEB plan. Both plans are described in detail following.

Aggregate amounts for the two OPEB plans are as follows:

	Medical OPEB	TMRS SDBF	Total
OPEB liability	\$ 45,653,463	\$ 4,146,417	\$ 49,799,880
Deferred outflows of resources	\$ 7,289,024	\$ 946,282	\$ 8,235,306
Deferred inflows of resources	11,614,379	1,435,188	13,049,567
OPEB expense	3,496,457	179,938	3,676,395

Medical Benefits

Plan Description

The City of Denton provides post-employment medical care (OPEB) for retired employees through a single-employer defined benefit medical plan. The plan provides medical benefits for eligible retirees, their spouses and dependents through the City's group health insurance plans, which covers both active and retired members. The benefits, benefit levels, and contribution rates are recommended annually by the City management as part of the budget process. Any changes in rate subsidies for retirees are approved by the City Council. Since an irrevocable trust has not been established, the plan is not accounted for as a trust fund. The plan does not issue a separate financial report.

Benefits Provided

The City provides post-employment medical, dental, and vision care benefits to its retirees. To be eligible for benefits, an employee must qualify for retirement under the Texas Municipal Retirement System or the Denton Firemen's Relief and Retirement Plan. Retirees must make a one-time irrevocable decision to choose benefits at the time of retirement, after which their eligibility for the benefits ceases. However, retirees can move between plans and can add and drop dependents based on qualifying events.

All medical care benefits are provided through the City's self-insured health plan. The benefit levels are the same as those afforded to active employees.

CITY OF DENTON, TEXAS
NOTES TO BASIC FINANCIAL STATEMENTS (continued)
SEPTEMBER 30, 2024

Employees Covered by the Benefit Terms

In the December 31, 2023, actuarial valuation, the following number of employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefits	247
Active employees	<u>1,689</u>
Total	1,936

Funding Policy

The plan premium rates are recommended annually by City management and approved by the City Council as part of the annual budget. The retiree's contribution is the full amount of the actuarially determined blended premium rate less a subsidy dependent upon years of service at retirement. By providing retirees with access to the City's healthcare plans based on the same rates it charges to active employees, the City is in effect providing a subsidy to retirees. This implied subsidy exists because, on average, retiree health care costs are higher than active employee healthcare costs. By the City not contributing anything toward this plan in advance, the City employs a pay-as-you-go method through paying the higher rate for active employees each year. The City contributes \$40 per month for each five-year increment of service, up to \$200 per month, toward the cost of retiree coverage. The full cost for dental and vision is paid by the retiree. Retirees are required to enroll in Medicare Part B once eligible (age 65) and are moved into a fully-insured Medicare Supplement plan at that time. The same City contribution level applies to the supplement.

Medical OPEB Liability

The City's medical OPEB liability of \$45,653,463 was measured as of December 31, 2023, the same date as the actuarial valuation.

Actuarial Methods and Assumptions

The medical OPEB liability in the December 31, 2023 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement date, unless otherwise specified.

CITY OF DENTON, TEXAS
NOTES TO BASIC FINANCIAL STATEMENTS (continued)
SEPTEMBER 30, 2024

Significant method and assumptions used for this fiscal year valuation were as follows:

Actuarial Assumptions

Valuation date	December 31, 2023
Actuarial cost method	Individual Entry-Age Normal Method
	1.84% as of December 31, 2021
Discount Rate	4.05% as of December 31, 2022
	3.77% as of December 31, 2023
Inflation rate	2.50% per annum
Projected salary increases	3.60% to 11.85% for TMRS, including inflation
	3.00% to 9.18% for Fire, including inflation
Healthcare trend rates	Initial rate of 7.20% declining to an ultimate rate of 4.25% after 15 years
Mortality	<p>TMRS: For healthy retirees, the gender-distinct 2019 Municipal Retirees of Texas mortality tables are used. The rates are projected on a fully generational basis using the ultimate mortality improvement rates in the MP tables to account for future mortality improvements.</p> <p>Firefighters: The gender-distinct PubS-2010 (safety employees) total data set mortality are used. The rates are projected on a fully generational basis using the projection scale MP-2019.</p>
Participation Rates	<p>65% for employees retiring at age 65 or older;</p> <p>45% for employees retiring between the ages of 50 and 64;</p> <p>5% for employees retiring between the ages of 45 and 49;</p> <p>0% for employees retiring before the age 45.</p>

Changes in the Medical OPEB Liability

	<u>Total Medical OPEB Liability</u>
Balance at 12/31/2022	\$ 41,482,438
Changes for the year:	
Service cost	2,538,726
Interest	1,687,421
Difference between expected and actual experience	(920,557)

TMRS Supplemental Death Benefit Fund

Plan Description

The City of Denton voluntarily participates in the Texas Municipal Retirement System Supplemental Death Benefits Fund (TMRS SDBF). The SDBF is a defined benefit group-term life insurance Other Postemployment Benefit (OPEB) plan as defined by GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*. No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB Statement No. 75. It is established and administered in accordance with the TMRS Act identically to the City’s pension plan.

Benefits Provided

The SDBF provides group-term life insurance to City employees who are active members in TMRS, including retirees. The City Council opted into this system via an ordinance, and may terminate coverage under and discontinue participation in, the SDBF by adopting an ordinance before November 1st of any year to be effective the following January 1st.

Payments from this fund are similar to group-term life insurance benefits and are paid to the designated beneficiaries upon the receipt of an approved application for payment. The death benefit for active employees provides a lump-sum payment approximately equal to the employee’s annual salary (calculated based on the employee’s actual earnings for the 12-month period preceding the month of death). The death benefit for retirees is considered an “other postemployment benefit” (OPEB) and is a fixed amount of \$7,500. As the SDBF covers both active and retiree participants with no segregation of assets, the SDBF is considered to be an unfunded OPEB plan.

Employees Covered by the Benefit Terms

In the December 31, 2023 actuarial valuation, the following number of employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefits	696
Inactive employees entitled to but not yet receiving benefits	259
Active employees	1,472
Total	2,427

CITY OF DENTON, TEXAS
NOTES TO BASIC FINANCIAL STATEMENTS (continued)
SEPTEMBER 30, 2024

Contributions

The City contributes to the SDBF at a contractually required rate as determined by an annual actuarial valuation, which was 0.28% for 2024 and 0.28% for 2023, of which 0.10% for 2024 and 0.10% for 2023, represented the retiree-only portion for each year, as a percentage of annual covered payroll. The rate is equal to the cost of providing one-year term life insurance. The funding policy for the SDBF program is to assure that adequate resources are available to meet all the death benefit payments for the upcoming year; the intent is not to prefund retiree term life insurance during employees’ entire careers. The City’s contribution to the SDBF for two years ended September 30, 2024 and 2023 were \$377,550 and \$300,164 respectively, representing contributions for both active and retiree coverage, which equaled the required contribution each year.

Actuarial Methods and Assumptions

The SDBF OPEB liability in the December 31, 2023 actuarial valuation was determined using the following actuarial assumptions:

	12/31/2023
Inflation rate	2.50% per annum
Discount rate	3.77%
Actuarial cost method	Entry Age Normal Method
Projected salary increases	3.60% to 11.85% including inflation

Salary increases were based on a service-related table. Mortality rates for active members, retirees, and beneficiaries were based on the following:

Mortality rates for active members, retirees, and beneficiaries were based on the gender-distinct 2019 Municipal Retirees of Texas mortality tables. The rates are projected on a fully generational basis by scale UMP to account for future mortality improvements. For disabled annuitants, the gender-distinct 2019 Municipal Retirees of Texas mortality tables are used with a 4-year set forward for males and a 3-year set forward for females. In addition, a 3.5% and 3% minimum mortality rate is applied to reflect the impairment for younger members who became disabled for males and females, respectively. The rates are projected on a fully generational basis by scale UMP BB to account for the future mortality improvements subject to the floor. Administrative expenses for the SDBF are paid through the TMRS Pension Trust Fund and are wholly accounted for under the provisions of GASB Statement No. 68.

Changes in assumptions reflect the annual change in the municipal bond rate. The actuarial assumptions used in the December 31, 2023 valuation were based on the results of an actuarial experience study for the period December 31, 2014 to December 31, 2018.

Discount Rate

The SDBF program is treated as an unfunded OPEB plan because the SDBF trust covers both actives and retirees, and the assets are not segregated for these groups. As such, a single discount rate of 2.77% was used to measure the SDBF OPEB Liability. Because the plan is essentially a “pay-as-you-go” plan, the single discount rate is equal to the prevailing municipal bond rate. The source of the municipal bond rate was fixed-income municipal bonds with 20 years to maturity that include only federally tax-exempt municipal bonds as reported in Fidelity Index’s “20-year Municipal GO AA Index” as of December 31, 2023.

CITY OF DENTON, TEXAS

SEPTEMBER 30, 2024

Sensitivity of the SDBF OPEB Liability to Changes in the Discount Rate

The following schedule shows the impact of the SDBF OPEB liability if the discount rate used was 1% less than (2.77%) and 1% greater than (3.77%) the discount rate that was used (4.77%) in measuring the medical OPEB liability:

	1% Decrease <u>(2.77%)</u>	Current Discount Rate <u>(3.77%)</u>	1% Increase <u>(4.77%)</u>
Total SDBF OPEB liability	\$ 4,978,454	\$ 4,146,417	\$ 3,499,598

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources Related to OPEBs

On September 30, 2024, the City reported a liability of \$4,146,417 for its Total SDBF OPEB liability. The total SDBF liability was determined by an actuarial valuation as of December 31, 2023. For the year ended September 30, 2024, the City recognized SDBF OPEB expense of \$179,938. There were no changes of benefit terms that affected measurement of the Total SDBF Liability during the measurement period.

Changes in the SDBF OPEB Liability

	<u>Total SDBF OPEB Liability</u>
Balance at 12/31/2022	\$ 3,732,019
Changes for the year:	
Service cost	146,216
Interest	151,640

Benefit payments	<u>(121,847)</u>
Net changes	<u>414,398</u>
Balance at 12/31/2023	<u>\$ 4,146,417</u>

Total OPEB liability as a percentage of covered payroll was 3.40%.

CITY OF DENTON, TEXAS
NOTES TO BASIC FINANCIAL STATEMENTS (continued)
SEPTEMBER 30, 2024

At September 30, 2024, the City reported deferred outflows of resources and deferred inflows of resources related to other SDBF post-employment benefits from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual economic experience	\$ 58,205	\$ 133,893
Changes in actuarial assumptions	610,377	1,301,295
Contributions subsequent to the measurement date	277,700	-
Totals	\$ 946,282	\$ 1,435,188

Other amounts reported as deferred outflows of resources related to SDBF OPEB will be recognized in OPEB expense as follows:

For the Year Ending September 30,	Net Deferred Outflows/(Inflows)
2025	\$ (111,313)
2026	(173,450)
2027	(281,012)
2028	(226,747)
2029	25,919
Total	\$ (766,603)

C. Deferred Compensation Plan

The City offers its employees a deferred compensation plan created in accordance with Internal Revenue Code Section 457. For the calendar years 2023 and 2024 the plan, available to all permanent City employees, permitted them to defer, until future years, up to \$22,500 and \$23,000 respectively. Employees who are age 50 or older may contribute an additional amount of \$7,500, with the total not to exceed \$30,500 in 2024. Employees who are within three years of retirement eligibility may elect to participate in a catch-up provision allowed by Section 457, which has an annual maximum contribution amount of \$45,000 in 2023 and \$46,000 in 2024. The withdrawal of deferred compensation funds is only available to employees by loan, termination, retirement, death, or unforeseeable emergency.

All amounts of compensation deferred under the plan, all property and rights purchased with those amounts, and all income attributable to those amounts, property or rights are, until paid or made available to the employee or other beneficiary, solely the property and rights of the employees. Accordingly, the assets and associated liability of the plan are not included in the City's financial statements.

It is the opinion of the City's legal counsel that the City has no liability for losses under the plan.

D. Self-insurance Plan

The City has established a self-insurance plan for liability and workers' compensation claims in the Risk Retention Fund. Accrued claims payable include provisions for claims reported and claims incurred but not reported. The provision for reported claims is determined by estimating the amount which will ultimately be

CITY OF DENTON, TEXAS
NOTES TO BASIC FINANCIAL STATEMENTS (continued)
SEPTEMBER 30, 2024

paid for each claimant. The provision for claims incurred but not yet reported is estimated based on actuarial studies.

It is the policy of the City of Denton not to purchase commercial insurance for workers' compensation claims. Commercial liability insurance coverage is purchased for general liability, aviation ground operations liability, auto liability and physical damage, public officials' liability, professional liability for EMT operations, employment practices liability, law enforcement professional liability, cyber, and commercial crime (employee theft and dishonesty).

Additionally, excess insurance is purchased for general liability, flood (for specific properties), and workers' compensation exposures. The City reports liabilities when it is probable that a loss has occurred, and the amount of that loss can be reasonably estimated to meet the deductible for the policy. Liabilities include an amount for claims that have been incurred but not reported. Because actual claim liabilities depend on such complex factors as inflation, changes in legal doctrines, and damage awards, the process used in computing claims liability does not necessarily result in an exact amount.

In January 2008, the City started a self-insured group employee health insurance plan. Claims are paid from the Health Insurance Fund, which has an annually negotiated stop loss provision.

The City's costs associated with the self-insurance plans are interfund transactions. Accordingly, they are treated as operating revenues of the Internal Service Risk Retention Fund and Health Insurance Fund and operating expenditures (expenses) of the other funds and employee payroll deductions.

Claims liabilities are re-evaluated periodically to take into consideration the settlement of claims, new claims, and other factors. As of September 30, 2024, the estimated value of these liabilities was \$9,201,570. Changes in balances of claims liabilities during fiscal years 2023 and 2024 were as shown as follows:

	Claims Liability Beginning of Fiscal Year	Claims and Change in Estimates	Claim Payments	Claims Liability End of Fiscal Year
Worker's Compensation				
2024	\$3,052,113	\$1,656,528	\$1,120,035	\$3,588,606
2023	\$2,877,836	\$1,485,823	\$1,311,546	\$3,052,113
General Liability				
2024	\$1,802,160	\$ 842,957	\$ 379,140	\$2,265,977
2023	\$1,506,465	\$ 567,336	\$ 271,641	\$1,802,160
Health Insurance				
2024	\$3,951,994	\$27,455,602	\$28,060,609	\$3,346,987
2023	\$2,514,110	\$28,357,238	\$26,919,354	\$3,951,994

On September 30, 2024, the City of Denton had a negative unrestricted net position of \$4,362,791 in the Risk Retention Fund and an additional positive net position of \$853,025 in the Health Insurance Fund for payment of claims, both in addition to the liability balances recorded. There were no significant reductions in insurance coverage from coverage in the prior year, and the amount of settlements did not exceed insurance coverage in the current year or in any of the past three fiscal years.

CITY OF DENTON, TEXAS
NOTES TO BASIC FINANCIAL STATEMENTS (continued)
SEPTEMBER 30, 2024

E. Commitments and Contingencies

Agreement with TMPA

In 1976, the City, along with the cities of Bryan, Greenville, and Garland, Texas (the Cities) entered into a Power Sales Contract with the Texas Municipal Power Agency (TMPA). TMPA was created through concurrent ordinances of the Cities and is governed by a Board of Directors consisting of eight members, two appointed by the governing body of each city. Under the terms of the agreement, TMPA agreed to construct or acquire electric generating plants to supply energy and power to the Cities for a period of not less than 35 years. The Cities in turn agreed to purchase all future power and energy requirements in excess of the amounts generated by their systems from TMPA at prices intended to cover operating costs and retirement of debt. In the event that revenues were insufficient to cover all costs and retire the outstanding debt, each of the cities guaranteed a portion of the unpaid debt based, generally, upon the pro rata share.

TMPA, a municipal corporation, is governed by a Board of Directors consisting of eight members. The governing body of each of the four Cities appoints two members to the Board. An affirmative vote of five Directors, plus a weighted majority vote based on the respective energy usage of the Cities, is required for major decisions.

The City pays TMPA a pro-rated monthly charge based on the City's contractual portion of TMPA's annual fixed operating costs and debt service payments, which is currently 21.3%. As of September 30, 2024, total TMPA long-term debt outstanding was approximately \$206,717,000, all of which was transmission debt and has no effect on the term of the contract. All outstanding generation debt was paid off on September 1, 2018.

Effective September 1, 2016, TMPA and the Member Cities entered into a Joint Operating Agreement (JOA). In general, the purposes of the JOA include: (i) funding TMPA operations such as mine reclamation, transmission service, and plant decommissioning following expiration of the Power Sales Contract (PSC); (ii) subject to certain exceptions, requiring Member City approval for the issuance of new debt, the execution of certain significant contracts, and the sale of property exceeding \$10 million in value; (iii) specifying provisions for determining how costs of TMPA and proceeds from the sale of assets are to be allocated among the Member Cities; (iv) providing for the establishment by TMPA of reserve funds for the decommissioning of the plant and the indemnification of TMPA Board Members and Member City officials, employees, contractors, and agents; and (v) dividing the operations of TMPA into three business functions (mine, generation, and transmission) and requiring separate budgets and books for each business function.

The PSC provides upon dissolution of TMPA, the assets of TMPA automatically being transferred to the Member Cities, with each Member City receiving an undivided interest in the assets of TMPA in proportion to the amount paid by the Member City to TMPA. The JOA requires TMPA to periodically make this calculation for each business unit and sets out formulas for making these calculations. Under the JOA, these ownership calculations are relevant not only to the allocation of assets upon dissolution of TMPA, but also to the allocation of certain proceeds from the sale of assets, and in some cases, the allocation of TMPA costs.

At the request of a majority of the Member Cities, TMPA is required by the JOA to transfer a divided interest in the transmission system to each Member City. Under this partition process, the objective is for each City to receive ownership of transmission facilities in the vicinity of the Member City, and in proportion to the Member City's ownership interest in the transmission business. Any such transfer of transmission assets must be in compliance with relevant bond covenants, including those requiring defeasance of all or a portion of transmission debt.

The JOA included a reclamation plan for the mine, required the development of a decommissioning plan, and set out standards for environmental remediation. TMPA is required to comply with these plans and standards.

Under the JOA, in discharging its contractual obligations, including mine reclamation, decommissioning, transmission service, environmental remediation, indemnification, and other obligations, TMPA is rendering services to the Member Cities. The JOA obligates each Member City to pay the cost of these services, and to collect rates and charges for electric service sufficient to enable it to pay to TMPA all amounts due under the

CITY OF DENTON, TEXAS
NOTES TO BASIC FINANCIAL STATEMENTS (continued)
SEPTEMBER 30, 2024

JOA for these services. The City's payment obligations under the JOA are payable exclusively from such electric utility revenues and constitute an operating expense of the electric system.

Unless terminated earlier through the mutual consent of all parties, the JOA remains in effect until the dissolution of TMPA and the winding up of its affairs.

Effective September 1, 2016, the JOA was amended (Amendment No. 1). The primary purposes of the amendment were to authorize the sale of Gibbons Creek and the sale of the Southern 345 kV Transmission System and to authorize the issuance of refunding bonds in connection with such sales. As the sale contemplated by Amendment No. 1 did not occur, by its own terms, Amendment No. 1 ceased to have any force or effect. Effective September 22, 2017, the JOA was amended a second time (Amendment No. 2). The purposes of this amendment are to: continue TMPA's authority to issue mine reclamation bonds as had been contemplated in Amendment No. 1; revise the dates on which the separate budgets of the JOA become effective; authorize TMPA to sell certain mining and transmission assets, provided the sales do not exceed in value certain financial thresholds, and provided the sales comply with bond covenants; and allow for an extension to the term of the PSC, applicable only to the cities notifying TMPA of the extension, in order to complete a period of seasonal operation in 2018, or such other period of time as desired by the notifying cities. Pursuant to this provision, the City extended the PSC from September 1, 2018, to September 30, 2018, in order to complete the period of 2018 seasonal operation. As of September 30, 2018, the PSC had expired for all member cities.

On September 17, 2019 the JOA was amended (Amendment No. 3). The amendment defined portions specific to the generation business that had been tied to the expired PSC and clarified all board members may vote on matters involving decommissioning and the sale of the plant. It exempted financial commitments related to bonding from the requirement to obtain approval of all Member Cities relating to certain budget increases. This is to address concerns by the Attorney General of Texas that a potential situation could arise where a Member City could interfere with TMPA's existing bond deposit requirement obligations ("bond reserve equivalent") should that obligation require a 20% increase over the previous year's budget. The amendment also allows for the sale of mine tracts only after the completion of mine reclamation. This would permit the sale of a mine tract subject to bonding provided that the conveyance reserves easements, leases, or other property rights are reserved to enable TMPA to complete reclamation.

On November 12, 2019 the JOA was amended (Amendment No. 4). This amendment modified the agreement to make it unambiguous that in the event that all mining assets are sold, all Member Cities shall remain responsible for the costs of closing the mining operation according to each's percentage share and that these are included: "all obligations are discharged with respect to mine reclamation bonds, surety bonds, banking agreements, letters of credit, and other financial commitments related to providing financial security or assurance for TMPA's mine reclamation responsibilities." Additionally, it modified the agreement by removing the cap on sales of the mining assets and allowed for the sale of the mine as a whole.

Effective September 26, 2017, Gibbons Creek transitioned into a seasonal operations mode, operating during the summer months only (May-September). Due to the significant decline in service utility of the generation assets, such assets were deemed largely impaired as of September 30, 2017. On June 1, 2019, the TMPA Board of Directors voted to permanently retire the generation facility. The City also wholly impaired its TMPA prepaid purchase power due to the retirement and had a remaining balance Effective September 26, 2017, Gibbons Creek transitioned into a seasonal operations mode, operating during the summer months only (May-September). Due to the significant decline in service utility of the generation assets, such assets were deemed largely impaired as of September 30, 2017. On June 1, 2019, the TMPA Board of Directors voted to permanently retire the generation facility. The City also wholly impaired its TMPA prepaid purchase power due to the retirement and had a remaining balance recorded of \$2,088,510 in Other Assets in the Electric fund that will be fully amortized as of March 31, 2025. See note IV.F. for more information.

In 2019, TMPA issued a request for proposal involving only the sale of generation assets. Proposals were received in August 2019, and TMPA entered into negotiations with one of the proposers. On December 10, 2020, the TMPA Board of Directors approved a fully negotiated Asset Purchase Agreement (APA) with

CITY OF DENTON, TEXAS
NOTES TO BASIC FINANCIAL STATEMENTS (continued)
SEPTEMBER 30, 2024

Gibbons Creek Environmental Redevelopment Group LLC (GCERG). As required by the TMPA Joint Operating Agreement, each TMPA member city was required to approve the APA. On January 26, 2021, the City Council approved the APA with GCERG. On February 10, 2021, TMPA and GCERG closed on the sale of the Gibbons Creek Steam Generation Plant and property. Through the sale, GCERG acquired 6,200 acres including the plant, CCR (coal combustion residuals) units, and reservoir. GCERG must decommission the plant and remediate all CCR units to TCEQ/EPA standards. GCERG provides independent financial security to TMPA for remediation/decommissioning and post closure activities and certain land use limits imposed on CCR containing parcels. The City’s Electric fund had a liability recorded for TMPA’s decommissioning obligation of \$21,167,124 as of September 30, 2020. As part of the sale of Gibbons Creek, the City paid \$6,037,368 of this liability in February 2021. The remaining liability of \$15,129,756 was recognized as a gain in other non-operating revenues. This sale to GCERG only includes the generation assets and TMPA retained the approximate 11,000 acres associated with the mine land and all transmission assets.

On July 15, 2021 the TMPA Board of Directors authorized the Gibbons Creek Lignite Mine with approximately 11,000 acres to be sold. The sale finalized in December 2021. The City received its portion of the sale in the amount of \$15,174,089 which was recorded as revenues in the Electric fund for the fiscal year ending September 30, 2022. Following the closing, TMPA will continue to conduct mine reclamation activities pursuant to a reclamation easement that will remain in effect until all bonded areas are released from bond.

Selected financial statement information of TMPA is as follows:

	September 30	
	(Unaudited)	
	2024	2023
	(000s)	(000s)

Financial statements for TMPA are available from the TMPA website www.texasmpa.org.

Power Purchase Agreements

Following is a list of power purchase agreements in effect as of the publication date of these financial statements. The information provided is all that is allowed under the confidentiality provision(s) of the agreements.

Whitetail Wolf Ridge Wind - In 2009, the city entered into a power purchase agreement for 30 MW of firm energy and associated renewable energy credits from Whitetail Wolf Ridge Wind, LLC, a subsidiary of NextEra Energy Power Marketing, LLC. The power purchase agreement expired on January 1, 2024.

Santa Rita Wind - In 2016, the city entered into a 20-year power purchase agreement with Santa Rita Wind, LLC, a subsidiary of Invenergy, LLC. Under the agreement, which is scheduled to end April 2038, the city will purchase 150 MW of wind generation and environmental attributes. Commercial operation date was April 1, 2018.

CITY OF DENTON, TEXAS
NOTES TO BASIC FINANCIAL STATEMENTS (continued)
SEPTEMBER 30, 2024

Bluebell Solar Energy - In 2015, the city entered into a 20-year power purchase agreement with Bluebell Solar Energy, LLC, a subsidiary of NextEra Energy, Inc. Under the agreement, which is scheduled to end November 2038, the city will purchase 30 MW of solar energy and environmental attributes. Commercial operation date was November 1, 2018.

Engie Long Draw Solar - In 2018, the city entered into a 15-year power purchase agreement with Engie Long Draw Solar, LLC, a subsidiary of Engie, LLC. Under the agreement, which is scheduled to end June 2035, the city will purchase 75 MW of solar generation and environmental attributes. Commercial operation date was December 29, 2020.

Bluebell Solar II Energy - In 2018, the city entered into a 15-year power purchase agreement with Bluebell Solar II Energy, LLC, a subsidiary of NextEra Energy, Inc. Under the agreement, the City will purchase 100 MW of solar generation and environmental attributes. Commercial operation date was December 28, 2020.

Samson Solar - In 2018, the City of Denton entered into a 15-year power purchase agreement with Samson Solar Energy, LLC. Under the agreement, which was scheduled to end in 2037, the city would purchase 75 MW of solar generation and environmental attributes. Samson Solar Energy LLC alleged various Force Majeure events that impacted the project and ultimately defaulted on the agreement. While the company was in default of its obligations, the company sent notice to terminate the agreement to the City of Denton. The City is currently in legal proceedings to recover all of its damages.

Yellow Viking Solar – In 2024, the city entered into a 15-year power purchase agreement with Yellow Viking Development One, LLC. Under the agreement, which is scheduled to end in December 2041, the city will purchase 100 MW of solar generation and environmental attributes. The expected commercial operation date is on or before December 31, 2026.

Encumbrances

As discussed in note I.D., Budgetary information, encumbrances are utilized to the extent necessary to assure effective budgetary control and accountability and to facilitate effective cash planning and control. At year end the total amount encumbered in governmental funds expected to be honored upon performance by the vendor in the next year were as follows:

General Fund	\$ 6,950,590
Capital Projects Fund	55,141,545

F. Tax Abatements

The City enters into economic development incentive agreements with entities to promote development and redevelopment within the City, stimulate commercial activity, generate additional sales tax, and enhance the property tax base and economic vitality of the City. Some agreements provide for an abatement of property taxes, while others provide for a rebate of a portion of sales and use tax or a portion of ad valorem (property) tax, as established per the agreements. The incentives are performance-based, and the City generally expects to receive increased revenue because of the agreements. These incentive agreements require approval by a City Council ordinance and are authorized under Chapter 312 (Property Redevelopment and Tax Abatement Act) of the Texas Tax Code and Chapter 380 of the Texas Local Government Code.

Property Tax Abatements

Tax abatements under Chapter 312 of the Texas Tax Code allow the City to designate tax reinvestment zones and negotiate tax abatement agreements with applicants. In 1990, the City Council adopted a resolution setting guidelines and criteria for granting abatements in the reinvestment zones which specifically notes incentives are limited to companies which create new wealth and do not adversely affect existing businesses operating

CITY OF DENTON, TEXAS
NOTES TO BASIC FINANCIAL STATEMENTS (continued)
SEPTEMBER 30, 2024

within the City. The City is required to renew/adopt a Tax Abatement Policy every two years in accordance with Chapter 312 of the Texas Tax Code. The last policy was adopted in May of 2024. The abatement agreements authorize the appraisal districts to reduce the assessed value of the taxpayer's property by a percentage specified in the agreement, and the taxpayer will pay taxes on the lower assessed value during the term of the agreement. For the fiscal year ended September 30, 2024, the City abated property taxes totaling \$171,658 under this program, as detailed in the following agreements:

- Peterbilt – In 2016, a 70% tax abatement agreement for a term of eight years was granted to Peterbilt Motors on new capital investments, including the construction of a new stand-alone 102,000 square foot building. In the event of a failure to meet the conditions of the agreement, an increased assessed value of real property of at least \$18.5 million, the agreement provides for a full refund of all abatements previously granted plus interest. Peterbilt met the \$18,500,000 required threshold for tax year 2023. The abatement amounted to \$122,949.
- West Gate Business Park (WGBP) – In 2016, a 60% tax abatement agreement for a term of ten years was granted to WGBP on new capital investments only to include Buildings 2 and 3 in the business park. WGBP could receive an additional 10% abatement for the location of a supplier to an existing primary industry and/or an additional 5% for the location of a national headquarters for a total abatement of up to 75%. In the event of a failure to meet the conditions of the agreement, an increased assessed value of real property of at least \$3 million, the agreement provides for a full refund of all abatements previously granted plus interest. The abatement amount for the current fiscal year was \$48,709.

The City has an additional abatement agreement not listed above for Tyson Sales and Distribution. The grantee has contracted their expansions in the current economic climate and did not meet the timely completion requirements in the Agreement for the construction of the facility. The Agreement was terminated.

Chapter 380 Agreements

The City Council has the authority under Chapter 380 of the Texas Local Government Code to grant or loan City funds to accomplish specific economic development goals. These incentives are considered on a case-by-case basis. The City has target industry sectors for recruitment that will be given priority consideration: aviation/aerospace, advanced manufacturing, renewable energy, research and development, information technology, supply chain for existing primary employers, and significant consumers of municipal utilities. Consideration may also be given for projects causing infill redevelopment or other desirable development objectives and/or any other activity which the City Council determines meets a specific public purpose for economic development.

Eight agreements are based on the contribution in sales, property, and/or hotel tax. For the fiscal year ended September 30, 2024, the City rebated sales taxes totaling \$4,490,313, property taxes totaling \$776,675 (\$210,047 of which was paid out of the Westpark TIRZ No. Two), and hotel occupancy taxes totaling \$1,034,845.

Two active agreements are based on Job-based and Expansion/Relocation/Headquarter Grants. For the fiscal year that ended September 30, 2024, the City did not provide any cash grant reimbursements for Job-based Grants for Expansion/relocation Grants this fiscal year as detailed in the following agreements:

- Unicorn Lake – In 2004, an agreement was approved for Unicorn Lake, an urban-style mixed-use development. The grantee receives one-third of the City sales tax, or 0.5%, generated by the project for a maximum of fifteen years as reimbursement for public improvement costs related to the project not to exceed \$6,664,901 plus accrued interest. The tax rebates initiated in 2010 and will terminate in 2025. The tax rebate amount for the current fiscal year was \$89,555.
- Rayzor Ranch – In 2007, an agreement was approved for the Rayzor Ranch mixed-use development. The 410-acre project will have over one million square feet of retail and will be built in two phases.

CITY OF DENTON, TEXAS
NOTES TO BASIC FINANCIAL STATEMENTS (continued)
SEPTEMBER 30, 2024

The agreement provides a sales tax reimbursement of one half of the City sales tax, or 0.75%, generated by the project for public improvement costs, which include the widening of a state highway bisecting the project. The grantee will receive a maximum of \$20 million over a 15-year term for phase one and a maximum of \$48 million over a term of 20 years for phase two. An additional 15% of the City sales tax, or 0.225%, was added to both phases to offset the hotel and convention center costs until \$5 million is reached. In the current fiscal year, the tax rebate amount for phase one was \$1,835,724 and the tax rebate amount for phase two was \$1,342,087.

- Golden Triangle Mall – In 2011, an agreement was approved for a major renovation of the Golden Triangle Mall. A threshold of a minimum \$45 to \$65 million was required as an investment into the property to receive a one-half share of the sales tax resulting from the renovations, less a monthly mall baseline amount established at \$95,898. The total grant payments may not exceed 15.83% of the required investment. GTM Development has invested \$49.5 million in the development. Tenant investments in the property amounted to \$8.8 million, for a total invest of \$58.3 million. Based on this total investment the total grant payment should not exceed \$9.2 million. The tax rebates initiated in 2016 and will terminate in 2035. The tax rebate amount for the current fiscal year was \$13,840.
- Mayday Manufacturing – In 2012, an agreement was approved for Mayday Manufacturing/Tailwind Technologies for the relocation of the business and expansion of a manufacturing facility. The agreement provides a 75% tax rebate on the increment of property tax revenue generated above the base valuation for a period of ten years. In the event of a failure to meet the conditions of the agreement, an increased assessed value of real property of at least \$3 million, the agreement provides for a 50% refund of all rebates previously granted. The tax rebate amount for the current fiscal year was \$36,356.
- West Gate Business Park (WGBP) – In 2015, an agreement was approved for West Gate Business Park (WGBP) for industrial development and provided for a 70% rebate of increased City property tax revenue generated for a period of ten years. WGBP includes three multi-tenant buildings totaling 413,000 square feet of new industrial/manufacturing space in the City. In 2016 the agreement was amended to include a 70% rebate on Building 1 improvements and to add a one-time grant payment in the amount of \$50,000. The tax rebate amount for the current fiscal year was \$55,888.
- WinCo Foods – In 2015, an agreement was approved for WinCo Foods for a \$135 million, 800,000 square foot distribution facility expected to create 165 jobs with an annual payroll of around \$7.2 million. In the event of a failure to meet the conditions of the agreement, the agreement provides for a 20-50% refund of all rebates previously granted, depending on the timing of a failure. WinCo received reimbursement for infrastructure financing from Water and Wastewater funds and a local sales and use tax grant for the construction and equipping of the facility in prior fiscal years, completing those portions of the agreement. The active portion of the agreement provides for the following:
 - A grant equal to 100% of the incremental property tax generated by the property and paid into the Tax Increment Fund by both the City and the County, paid annually until the full reimbursement of the project costs for public improvements is reached. The tax rebate amount out of the Westpark TIRZ No. Two for the current fiscal year was \$210,047 with \$156,991 being the City portion of the tax rebate and \$53,056 being the County portion of the tax rebate.
 - A grant equal to 60% of City property taxes attributable to improvements resulting in an increase of assessed value of real property improvements and tangible personal property, paid annually until full reimbursement of the project costs for public improvements is

CITY OF DENTON, TEXAS
NOTES TO BASIC FINANCIAL STATEMENTS (continued)
SEPTEMBER 30, 2024

reached. Once this full reimbursement is reached, the 60% property tax rebate will continue for a period of four years as long as the increase in investment in improvements is \$50 million excluding purchase price of the property. The tax rebate amount for the current fiscal year was \$236,261.

- O'Reilly Hotel Partners Denton – In 2015, an agreement was approved for O'Reilly Hotel Partners Denton for a convention center with a hotel and restaurant located in the Rayzor Ranch Town Center. The agreement includes a 100% rebate of the property tax (excluding land, inventory, vehicles, and supplies), hotel occupancy tax, and sales tax generated by the project. The term is for a maximum of 25 years or a combined principal (\$28 million) and interest (\$26 million) amount of \$54 million is reached, whichever comes first. The agreement also includes 100% rebate of the construction sales tax up to \$850,000, then 50% thereafter. The construction sales tax rebate portion of the agreement was completed in fiscal year 2017-2018. In the event of a failure to meet the conditions of the agreement, the agreement provides for a 100% refund of all rebates granted in the previous year. The sales tax, property tax, and hotel occupancy tax rebate amounts for the current fiscal year were \$81,461, \$238,123, and \$1,034,845, respectively.
- Buc-ee's Travel Center – In 2015, an agreement was approved for Buc-ee's Travel Center. The agreement provides a sales tax reimbursement of one half of the City sales tax, or 0.75%, generated from businesses located within the property boundaries for a five-year period. At the conclusion of the sales tax reimbursement term, the City has agreed to a one-time cash grant payment of \$2 million minus the total sales tax previously reimbursed, only if the grantee has not received a full \$2 million in sales tax reimbursements. In addition, at the conclusion of the sales tax reimbursement term, the agreement provides a sales tax reimbursement infrastructure grant of one half of the City sales tax, or 0.75%, generated by the Buc-ee's Travel Center and developed outparcels that contain sit-down restaurants or retail establishments for a period of twenty years. The City has also agreed to pay the grantee one quarter of the City sales tax, or 0.375%, generated by outparcels not included in the previously mentioned infrastructure grant, including fast food restaurants and drive-through uses. The tax rebate amount for the current fiscal year was \$1,127,646.
- TeamOfDefenders– In 2020 an agreement was approved for TeamOfDefenders. The agreement consists of a performance-based five-year expansion grant up to \$50,000 to be provided as a reimbursement of actual costs. In addition, the company was awarded a stratified Job-based Grant based on annual wages of new employees, not to exceed \$29,500. They were awarded an additional \$500 residency bonus for new employees, not to exceed \$27,000. The total incentive package is not to exceed \$106,500. The Job-based Grant initiated in 2020, but there were no new jobs added this fiscal year. There was not an Expansion Grant payment made for the current fiscal year.
- Safran– In 2021 an agreement was approved for Safran. The agreement consists of a performance-based five-year expansion grant up to \$50,000 to be provided as a reimbursement of actual costs. In addition, the company was awarded a stratified Job-based Grant based on annual wages of new employees, not to exceed \$101,500. They were awarded an additional \$300 residency grant for new resident employees and \$700 bonus for new established resident employees, not to exceed \$23,625. The total incentive package is not to exceed \$175,125. No payments were made in fiscal year 2023-2024.
- Southwire Company, LLC-In 2024 an agreement was approved for Southwire. The company is North America's leading manufacturer of wire and cable used in the distribution and transmission of electricity. Southwire was awarded a 10-year, performance-based Chapter 380 agreement for a 50% incremental rebate incentive, total not to exceed \$1,955,100, for a 100,000 square foot expansion of their current facility. The company is leveraging \$85.4 million dollars over the next three years and

CITY OF DENTON, TEXAS
NOTES TO BASIC FINANCIAL STATEMENTS (continued)
SEPTEMBER 30, 2024

anticipates an increase in valuation of over \$69 million in expansion and modernization efforts. A total of 95-net new jobs will be added at the campus in Denton.

- Fine Arts Theater of Denton, LLC- In 2024 an agreement was approved for Fine Arts Theater of Denton for the rehabilitation and renovation of the 1934 historic Fine Arts Theater that is located on the Denton Downtown Square. The theater's functionality extends beyond film screenings and is envisioned as a multi-use venue, capable of hosting film festivals, concerts, live performances, and private event rentals. The theatre renovation represents a capital investment of \$9.1 million. Two Downtown Tax Increment Reinvestment Zone (TIRZ) No. One grants were approved for a total of \$1.6 million. TIRZ Grant 1 includes a total of \$1,076,366 to pay down the construction loan principal to the required amount for the bank loan. TIRZ Grant 2 is an operation annual grant of \$544,503 for shortfall between net profit and debt service. Fifteen jobs will be created by the project.

The City has five additional Chapter 380 property and sales tax rebates, as well as Expansion/Relocation/Headquarter and Job-based Grants that will come online in future fiscal years. Those agreements include Enginetech, and Bloomfield Homes. Currently, the City is in the process of terminating the Agreement with DynaGrid, as the company did not locate their principal place of business within the corporate limits of the City of Denton, as required per the Agreement.

G. Litigation

Various claims and lawsuits are pending against the City. In accordance with GAAP, those judgments considered “probable” are accrued, while those claims and judgments considered “reasonably possible” are disclosed but not accrued. In the opinion of City management and legal counsel, the maximum amount of all significant claims considered reasonably possible, excluding condemnation proceedings is approximately \$500,000 as of September 30, 2024. Potential losses after insurance coverage on all probable claims and lawsuits will not have a material effect on the City's financial position as of September 30, 2024.

H. Subsequent Events

The City has evaluated all events or transactions that occurred after September 30, 2024 up through the date the financial statements were issued.

The Water Utilities Department applied for and received approval for \$195,845,000 in funding from the Texas Water Development Board (TWDB) State Water Implementation Fund for Texas (SWIFT) program. In December 2024, the City received \$10,135,000 which relates to the first issuance out of the 5-year financing plan.

I. New Accounting Pronouncements

The Governmental Accounting Standards Board (GASB) issued the following statement which became effective for the fiscal year ending September 30, 2024.

Statement No. 99 “Omnibus 2022” - This Statement is intended to enhance comparability in accounting and financial reporting and to improve consistency of authoritative literature by addressing (1) practice issues that have been identified during implementation and application of certain GASB Statements and (2) accounting and financial reporting for financial guarantees. The requirements of this Statement are effective for fiscal years beginning after June 15, 2023 and was implemented by the City in fiscal year 2024.

Statement No. 100 “*Accounting Changes and Error Corrections - An Amendment of GASB Statement No. 62*” - This statement to enhance accounting and financial reporting requirements for accounting changes and error corrections to provide more understandable, reliable, relevant, consistent, and comparable information for making decisions or assessing accountability. The requirements of this

CITY OF DENTON, TEXAS
NOTES TO BASIC FINANCIAL STATEMENTS (continued)
SEPTEMBER 30, 2024

Statement are effective for fiscal years beginning after June 15, 2023 and were implemented by the City in fiscal year 2024.

The following statements for the GASB are effective for future fiscal years ending as listed below. The City is in the process of reviewing and evaluating these statements and their potential impact on the City's financial statements.

Statement No. 101 "*Compensated Absences*" - This statement is intended to better meet the information needs of financial statement users by updating the recognition and measurement guidance for compensated absences. That objective is achieved by aligning the recognition and measurement guidance under a unified model and by amending certain previously required disclosures. The requirements of this Statement are effective for fiscal years beginning after December 31, 2023, and is effective for the City's fiscal year ending September 30, 2025.

Statement No. 102 "*Certain Risk Disclosures*" - This Statement requires a government to assess whether a concentration or constraint makes the primary government reporting unit or other reporting units that report a liability for revenue debt vulnerable to the risk of a substantial impact. Additionally, this Statement requires a government to assess whether an event or events associated with a concentration or constraint that could cause the substantial impact to have occurred, have begun to occur, or are more likely than not to begin to occur within 12 months of the date the financial statements are issued. The requirements of this Statement are effective for fiscal years beginning after June 15, 2024.

Statement No. 103 "*Financial Reporting Model Improvements*" - will improve key components of the financial reporting model to enhance its effectiveness in providing information that is essential for decision making and assessing a government's accountability. The Statement also addresses certain application issues. The requirements of this Statement are effective for fiscal years beginning after June 15, 2025.

Statement No. 104 "*Disclosure of Certain Capital Assets*" - will provide users of government financial statements with essential information about certain types of capital assets to be disclosed separately in the capital assets note disclosures, such as lease and subscription assets. The Statement also requires for additional disclosures for capital assets held for sale. The requirements of this Statement are effective for fiscal years beginning after June 15, 2025.

2018	14,931,800	14,931,800	-	86,832,074	17.20%
2019	16,035,042	16,035,042	-	94,158,313	17.03%
2020	17,562,597	17,562,597	-	101,964,029	17.22%
2021	17,794,920	17,794,920	-	101,641,023	17.51%
2022	18,471,103	18,471,103	-	105,519,237	17.50%
2023	19,140,875	19,140,875	-	109,581,543	17.47%
2024	21,790,165	21,790,165	-	121,846,875	17.88%

Notes to Schedule:

Actuarial determined contribution rates are calculated as of December 31st and become effective in January, 13 months later. Contributions above do not include contributions into the supplemental death benefit fund.

Methods and assumptions used to determine contribution rate for 2024:

Actuarial Cost Method	Entry Age Normal
Amortization Method	Level Percentage of Payroll, Closed
Remaining Amortization Period	22 Years (longest amortization ladder)
Asset Valuation Method	10 Year Smoothed Market; 12% Soft Corridor
Inflation	2.50%
Salary Increases	3.60% to 11.85% including inflation
Investment Rate of Return	6.75%
Retirement Age	Experience-based table of rates vary by age. Last updated for the 2023 valuation pursuant to and experience study of the period ending 2022.
Mortality	Post-retirement: 2019 Municipal Retirees of Texas Mortality Tables. Male rates are multiplied by 103% and female rates are multiplied by 105%. The rates are projected on a fully generational basis by the most recent Scale MP-2021 (with immediate convergence). Pre-retirement: PUB(10) mortality tables, with the 110% Public Safety table used for males and the 100% General Employees table used for females. The rates are projected on a fully generational basis by the most recent Scale MP-2021 (with immediate convergence).
Other	There were no benefit changes during the year

2023	4,804,198	4,804,198	-	25,968,636	18.50%
2024	5,530,963	5,530,963	-	29,897,097	18.50%

Notes to Schedule:

Annual required contributions are not actuarially determined. In accordance with city ordinance since 2017, the City has contributed to the Firemen's Relief and Retirement Fund at the rate of 18.5%, the assumed actuarial valuation rate over the unfunded liability amortization period.

While the contribution requirements are not actuarially determined, state law requires an actuary certify the assumed City contribution rate is adequate. Methods and assumptions used to contribution adequacy in the December 31, 2021 actuarial valuation:

Actuarial Cost Method	Entry Age
Amortization Method	Level Percentage of Payroll, Open
Remaining Amortization Period	9.1 Years
Asset Valuation Method	5-year smoothing
Inflation	2.50%
Salary Increases	3.00% annual general compensation increase plus promotion, step, and longevity increases which average 1.98% per year over a 30-year career
Investment Rate of Return	6.75%, net of pension plan investment expense, including inflation
Retirement Age	Average expected age at retirement of 57
Mortality	PubS-2010 (public safety) total dataset mortality tables for employees and for retirees (sec distinct), projected for morality improvement generationally using the projection scale MP-2019

¹Schedule is intended to present information for ten years. Additional years of information will be presented as they become available.

²There are no assets accumulated in a trust that meets the criteria in Paragraph 4 of GASB Statement No. 75 to pay related benefits.

Methods and assumptions used to determine contribution rate for 2024:

Actuarial cost method	Entry-Age Normal
Discount rate	3.77% (Based on the Fidelity Index's "20-Year Municipal GO AA Index" rates as of December 31, 2023.) The prior year discount rate was 4.05%.
Inflation rate	2.50%
Projected salary increases	3.60% to 11.85% for TMRS and 3.00% to 9.18% for Fire, including inflation
Demographic assumptions	Based on the experience study covering the four-year period ending December 31, 2023 as conducted for the Texas Municipal Retirement System (TMRS) and the assumptions used in the December 31, 2023 actuarial valuation for the Denton Firemen's Relief and Retirement Fund.
Healthcare trend rates	Initial rate of 7.20% declining to an ultimate rate of 4.25% after 15 years.
Mortality	TMRS: For healthy retirees, the gender-distinct 2019 Municipal Retirees of Texas mortality tables are used, with male rates multiplied by 103% and female rates multiplied by 105%. The rates are projected on a fully generational basis by the most recent Scale MP-2021 (with immediate convergence). Fire: For healthy retirees, the gender-distinct PubS-2010 (safety employees) total data set mortality tables are used. The rates are projected on a fully generational basis using the project scale MP-2019.
Participation rates	65% for employees retiring at age 65 or older; 45% for employees retiring between the ages of 50 and 64; 5% for employees retiring between the ages of 45 and 49; 0% for employees retiring before the ages of 45.

¹Schedule is intended to present information for ten years. Additional years of information will be presented as they become available.

²There are no assets accumulated in a trust that meets the criteria in Paragraph 4 of GASB Statement No. 75 to pay related benefits.

Methods and assumptions used to determine contribution rate for 2024:

Inflation rate	2.50% per annum 2.50% per annum
Discount rate	3.77% (as of December 31, 2023.) The prior year discount rate was 6.50%.
Actuarial cost method	Entry Age Normal
Projected salary increases	3.60 % to 11.85%, including inflation.
Retirees' share of benefit-related costs	\$0
Administrative expenses	All administrative expenses are paid through the Pension Trust and accounted for under reporting requirements under GASB No. 68.
Mortality rates - service retirees	For healthy retirees, the gender-distinct 2019 Municipal Retirees of Texas mortality tables are used, with male rates multiplied by 103% and female rates multiplied by 105%. The rates are projected on a fully generational basis by the most recent Scale MP-2021 (with immediate convergence).
Mortality rates - disabled retirees	2019 Municipal Retirees of Texas Mortality Tables with a 4 year set-forward for males and a 3 year set-forward for females. In addition, a 3.5% and 3% minimum mortality rate will be applied to reflect the impairment for younger members who become disabled for males and females, respectively. The rates are projected on a fully generational basis using the ultimate mortality improvement rates in the MP-2021 (with immediate convergence) to account for future mortality improvements subject to the floor.

Adjustments - Budgetary Basis are pass-through debt service payments budgeted as transfers in from enterprise and internal service funds.

Other Financing Sources (Uses) related to refunding are adjusted out as they are non-budgeted items reducing future debt service payments.

NONMAJOR GOVERNMENTAL FUNDS

SPECIAL REVENUE FUNDS

Special revenue funds are used to account for specific revenues that are legally restricted to expenditures for particular purposes.

Community Development Block Grant (CDBG) – to account for the operations of projects utilizing Community Development Block Grant Funds. Such revenues are restricted to expenditures for specified projects by the Department of Housing and Urban Development.

Criminal Justice – to account for revenue received from the State of Texas Criminal Justice Division and other grants administered by the police department.

Police Confiscation – to account for revenues received from confiscated goods. Expenditures are restricted to enhancing law enforcement.

Tourist and Convention – to account for taxes received from hotel and motel occupancy for the purpose of promoting tourism.

Street Improvement – to account for street maintenance and improvement activities.

Gas Well Revenues – to account for the receipt of royalty, pooling, tax, and lease revenue related to park gas wells.

Citizens' Park Trusts – to account for several small trust funds that are for park development.

All Other – to account for miscellaneous special revenue sources that are required to finance specific activities.

INTERNAL SERVICE FUNDS

Internal Service Funds account for the financing of goods or services provided by one department for another.

The City has the following Internal Service Funds:

Materials Management Fund – to account for the financing of goods and services provided by the Materials Management operations of purchasing and warehouse to other City departments. Purchasing is responsible for procuring goods and services for City departments, and the warehouse maintains an inventory of materials and supplies used by City departments. Warehouse items are billed to other departments.

Fleet Services Fund – to account for the financing of goods and services provided by the Municipal Garage and Machine Shop to other City departments. Municipal Garage and Machine Shop billings include cost of parts and labor and administrative charges. Actual costs include depreciation on the building, improvements, machinery, and equipment used to provide the service.

Health Insurance Fund – to account for the accumulation of resources for the self-insurance activities of the City for employee medical insurance as well as other employee insurance benefits including long-term disability, short-term disability, dental insurance, and vision insurance.

Risk Retention Fund – to account for the accumulation of resources for the payment of activities associated with providing general liability insurance coverage and self-funded activities for City operations.

Technology Services Fund – to account for the accumulation of resources to provide computer services such as programming, support, training, maintenance, and office services to City departments.

Engineering Services Fund – to account for providing engineering, real estate, public works inspection, and development review services primarily to internal City departments although some services are provided to external entities.

Customer Service Fund – to account for providing customer service activities to residents and businesses for City departments. Services include bill pay, utility service requests, connect/disconnect services, maintenance of customer accounts, utility billing, operator calls, collections, accounts receivable, and cash handling.

Facilities Fund – to account for the maintenance of all city-owned facilities and vertical construction projects.

Environmental Services Fund – to account for the consolidated environmental-related services provided across the City.

STATISTICAL SECTION

This part of the City of Denton’s annual comprehensive financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the city’s overall financial health.

Contents

Financial Trends

These schedules contain trend information to help the reader understand how the city’s financial performance and well-being have changed over time. (Tables 1 – 4)

Revenue Capacity

These schedules contain information to help the reader assess the city’s most significant local revenue source, the property tax. These tables do not include the Electric fund information due to confidentiality of information necessary for competitive rates. (Tables 5 – 8)

Debt Capacity

These schedules present information to help the reader assess the affordability of the city’s current level of outstanding debt and the city’s ability to issue additional debt in the future. (Tables 9 – 12)

Demographic and Economic Information

These schedules offer demographic and economic indicators to help the reader understand the environment within which the city’s financial activities take place. (Tables 13 – 14)

Operating Information

These schedules contain service and infrastructure data to help the reader understand how the information in the city’s financial report relates to the services the city provides and the activities it performs. (Tables 15 – 17)

Sources: Unless otherwise noted, the information in these schedules is derived from the annual comprehensive financial reports for the relevant year.

Ratio of direct and overlapping funded debt to the City's taxable assessed valuation			9.85%
Per capita overlapping funded debt			12,030

Source: Hilltop

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the city. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the City of Denton. This process recognizes that, when considering the City of Denton's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping government.

¹The percentage of overlapping debt applicable is estimated using taxable assessed property values. Applicable percentages were estimated by determining the portion of the overlapping government's taxable assessed value that is within the City of Denton's boundaries and dividing it by the overlapping government's total taxable assessed value.

(concluded)

Source: Various city departments

¹The City did less route and seal of the concrete pavement and more clean and seal of asphalt pavement during the year. The drop in # of cutouts and crack seal maintenance was due to resources being allocated to other projects and programs.

²These numbers were impacted from the COVID19 pandemic. The Water Park did not open during this year.

³The City started only sending a crew out once a week to work on potholes as opposed to have a dedicated crew to potholes.

⁴Implemented an irrigation schedule in FY23-24.
