Wheeled Trommel

The McCloskey® 733 trommel screeners are high production machines with a 160° radial fines conveyor and an oversize end conveyor for extensive stockpiling capabilities. The 733 boasts a 174HP engine powering the world's highest capacity mobile trommel.

With a 33ft long drum – allowing the material longer time on the screening surface – and a range of drum options, the 733 offers an unrivalled high quality

product in a variety of industries including construction and demolition, topsoil, compost, waste recycling, and many other large screening applications.

Available as a wheeled mobile unit and McCloskey provides numerous custom drum and feeder options that are offered to meet each customer's unique requirements.

Features

- 7'x33' heavy duty trommel drum
- Wheeled mobility
- 130 kW (174 hp) engine
- Integrated hydraulic folding stockpiling conveyors
