ARTICLE 2 – BASIC DESIGN PHASE SERVICES

2.1 GENERAL

- 2.1.1 The CM@Risk, to further the interests of the City, will perform the services required by, and in accordance with this Contract, to the satisfaction of the City's Designated Project Manager, exercising the degree of care, skill and judgment a professional construction manager performing similar services in Denton, Texas would exercise at such time, under similar conditions. The CM@Risk will, at all times, perform the required services consistent with sound and generally accepted construction management and construction contracting practice. The services being provided under this Contract will not alter any real property owned by the City.
- 2.1.2 Program Evaluation: As a participating member of the Project Team, the CM@Risk will provide to the City and Design Professional a written evaluation of the Project and Project Budget, with recommendations as to the appropriateness of each.
- 2.1.3 Project Meetings: The CM@Risk will attend Project Team meetings which may include, but are not limited to, regular Project management meetings, Project workshops, special Project meetings, construction document rolling reviews and partnering sessions.

- 2.1.4 The CM@Risk will provide design phase services described herein, in a proactive manner and consistent with the intent of the most current Drawings and Specifications. The CM@Risk will promptly notify the City in writing whenever the CM@Risk determines that any Drawings or Specifications are inappropriate for the Project and/or cause changes in the scope of Work requiring an adjustment in the cost estimate, Project Schedule, GMP Proposals and/or in the Contract Time for the Work, to the extent such are established.
- 2.1.5 The CM@Risk, when requested by the City, will attend, make presentations, and participate as may be appropriate in public agency and or community meetings, germane to the Project. The CM@Risk will provide drawings, schedule diagrams, budget charts and other materials describing the Project, when their use is required or apropos in any such public agency meetings.

2.2 CONSTRUCTION MANAGEMENT PLAN

- 2.2.1 The CM@Risk will prepare a Construction Management Plan (CMP), which shall include the CM@Risk's professional opinions concerning: (a) safety and logistics planning and associated training requirements; (b) Project Milestone dates and the Project Schedule, including the broad sequencing of the design and construction of the Project; (c) investigations, if any, to be undertaken to ascertain subsurface conditions and physical conditions of existing surface and subsurface facilities and underground utilities; (d) alternate strategies for fast-tracking and/or phasing the construction; (e) the number of separate subagreements to be awarded to Subcontractors and Suppliers for the Project construction; (f) permitting strategy; (g) construction quality control; (h) a commissioning program; (i) the cost management plan, control estimates, schedule of values, and basis of the model; (j) information management systems; and, (k) a matrix summarizing each Project Team member's responsibilities and roles.
- 2.2.2 The CM@Risk may add detail to its previous version of the CMP to keep it current throughout the design phase, so that the CMP is ready for implementation at the start of the construction phase. The update/revisions may take into account (a) revisions in Drawings and Specifications; (b) the results of any additional investigatory reports of subsurface conditions, drawings of physical conditions of existing surface and subsurface facilities and documents depicting underground utilities placement and physical condition, whether obtained by the City, Design Professional, or the CM@Risk; (c) unresolved permitting issues, and significant issues, if any, pertaining to the acquisition of land and right of way; (d) the fast-tracking if any of the construction, or other chosen construction delivery methods; (e) the requisite number of separate bidding documents to be advertised; (f) the status of the procurement of long-lead time equipment (if any) and/or materials; and (g) funding issues identified by the City.

2.3 PROJECT SCHEDULE

- 2.3.1 The fundamental purpose of the "Project Schedule" is to identify, plan, coordinate, and record the tasks and activities to be performed by all of the Project Team members and then for the Project Team to utilize that Deliverable as a basis for managing and monitoring all member's compliance with the schedule requirements of the Project. Each Project Team member is responsible for its compliance with the Project Schedule requirements. The CM@Risk will, however, develop and maintain the "Project Schedule" on behalf of and to be used by the Project Team based on input from the other Project Team members. The Project Schedule will be consistent with the most recent revised/updated CMP. The Project Schedule will use the Critical Path Method (CPM) technique, unless required otherwise, in writing by the City. The CM@Risk will use scheduling software to develop the Project Schedule that is acceptable to the City. The Project Schedule shall be presented in graphical and tabular reports as agreed upon by the Project Team. If Project phasing as described below is required, the Project Schedule will indicate milestone dates for the phases once determined.
- 2.3.2 The Project Schedule shall include a Critical Path Method (CPM) diagram schedule that shall show the sequence of activities, the interdependence of each activity and indicate the Critical Path.
- 2.3.2.1 The CPM diagram schedule shall be in Days and indicate duration, earliest and latest start and finish dates for all activities, and total Float times for all activities except critical activities. The CPM diagram shall be presented in a time scaled graphical format for the Project as a whole.
- 2.3.2.2 The CPM diagram schedule shall indicate all relationships between activities, with no constraints (only schedule logic) driving dates and the Critical Path.
- 2.3.2.3 The activities making up the schedule shall be in sufficient detail to assure that adequate planning has been done for proper execution of the Work and such that it provides an appropriate basis for monitoring and evaluating the progress of the Work. Further, activities shall be included for, without limitation, any and all City franchised or private utilities required to be temporarily or permanently demolished, relocated or installed; design, procurement, furnishing and installing of equipment, information technology systems, security systems, furnishings, and other City improvements (whether installed by the CM@Risk or the City) required for the Work to be completely functional as intended. These Owner Activities will be shown in the schedule with the appropriate precursor and successor activities necessary for monitoring and evaluating the progress of the Owner Activities
- 2.3.2.4 The CPM diagram schedule shall be based upon activities which would coincide with the schedule of values, but the Project Schedule is not required to be cost-loaded.

- 2.3.2.5 The CPM diagram schedule shall show all submittals associated with each work activity and the review time for each submittal.
- 2.3.2.6 The schedule shall show Milestones, including Milestones for all City-furnished information, utilities and improvements when those Milestones are interrelated with the CM@Risk activities.
- 2.3.2.7 The schedule shall include a critical path activity that reflects anticipated weather delays during the performance of the contract. The duration shall reflect the average climatic range and usual industrial conditions prevailing in the locality of the site. Weather data shall be based on information provided by the National Weather Services or other approved source.
- 2.3.3 The Project Schedule shall consider the City's and the other stakeholders' occupancy requirements showing portions of the Project having occupancy priority, and Contract Time.
- 2.3.4 Float time shall be as prescribed below:
 - 2.3.4.1 The total Float within the overall schedule, is not for the exclusive use of either the City or the CM@Risk, but is jointly owned by both and is a resource available to and shared by both parties as needed to meet contract milestones and the Project completion date.
 - 2.3.4.2 The CM@Risk shall not sequester shared Float through such strategies as extending activity duration estimates to consume available Float, using preferential logic, or using extensive crew/resource sequencing, etc. Since Float time within the schedule is jointly owned, no time extensions will be granted nor delay damages paid until a delay occurs which extends the Work beyond the Substantial Completion date.
 - 2.3.4.3 Since Float time within the schedule is jointly owned, it is acknowledged that City-caused delays on the Project may be offset by City-caused time savings (i.e., critical path submittals returned in less time than allowed by the contract, approval of substitution requests and credit changes which result in savings of time to the CM@Risk, etc.). In such an event, the CM@Risk shall not be entitled to receive a time extension or delay damages until all City-caused time savings are exceeded, and the Substantial Completion date is also exceeded.
- 2.3.5 The Project Schedule will be updated and maintained by the CM@Risk throughout the design phase such that it will not require major changes at the start of the construction phase to incorporate the CM@Risk's plan for the performance of the construction phase Work. The CM@Risk will provide updates and/or revisions to the Project Schedule for use by the Project Team, whenever required, but no less often than at the monthly Project Team meetings. The CM@Risk will include with such submittals a narrative describing its analysis of the progress achieved to-date vs. that planned, any concerns regarding delays or potential delays, and any recommendations regarding mitigating actions.
- 2.3.6 Project Phasing: If phased construction is deemed appropriate and the City and Design Professional approve, the CM@Risk will review the design and make recommendations regarding the phased issuance of Construction Documents to facilitate phased construction of the Work, with the objective of reducing the Project Schedule and/or Cost of the Work. The CM@Risk will take into consideration such factors as natural and practical lines of work severability, sequencing effectiveness, access and availability constraints, total time for completion, construction market conditions, labor and materials availability, and any other factors pertinent to saving time and cost.

2.4 DESIGN DOCUMENT REVIEWS

- 2.4.1 The CM@Risk will evaluate periodically the availability of labor, materials/equipment, building systems, cost-sensitive aspects of the design; and other factors that may impact the cost estimate, GMP Proposals and/or the Project Schedule.
- 2.4.2 The CM@Risk will recommend, in conjunction with the Project Team, those additional observations and testing of existing improvements; as well as environmental, surface and subsurface investigations that, in its professional opinion, are required to provide the necessary information for the CM@Risk to construct the Project. Before initiating construction operations, the CM@Risk may request additional investigations in their GMP Proposal to improve the adequacy and completeness of the existing improvements and site condition information and data made available with the Construction Documents.
- 2.4.3 The CM@Risk will meet with the Project Team as required to review designs during their development. The CM@Risk will familiarize itself with the evolving documents through the various design phases. The CM@Risk will proactively advise the Project Team and make recommendations on factors related to construction costs, and concerns pertaining to the feasibility and practicality of any proposed means and methods, selected materials, equipment and building systems, and, labor and material availability. The CM@Risk will furthermore maintain a project decision and trend log as design develops and advise the Project Team on proposed site improvements, excavation and foundation considerations, as well as concerns that exist with respect to coordination of the Drawings and Specifications. The CM@Risk will recommend cost effective alternatives.
- 2.4.4 The CM@Risk will routinely conduct constructability and biddability reviews of the Drawings and Specifications as necessary to satisfy the needs of the Project Team. The reviews will attempt to identify all discrepancies and inconsistencies in the Construction Documents especially those related to clarity, consistency, and coordination of Work of

Subcontractors and Suppliers.

- 2.4.4.1 Constructability Reviews: The CM@Risk will evaluate whether (a) the Drawings and Specifications are configured to enable efficient construction; (b) design elements are standardized; (c) construction efficiency is properly considered in the Drawings and Specifications; (d) module/preassembly design are prepared to facilitate fabrication, transport and installation; (e) the design promotes accessibility of personnel, material and equipment and facilitates construction under adverse weather conditions; (f) sequences of Work required by or inferable from the Drawings and Specifications are practicable; and (g) the design has taken into consideration efficiency issues concerning access and entrance to the site, laydown, and storage of materials, staging of site facilities, construction parking, and other similar pertinent issues.
- 2.4.4.2 Biddability Reviews: The CM@Risk will check cross-references and complementary Drawings and sections within the Specifications, and in general evaluate whether (a) the Drawings and Specifications are sufficiently clear and detailed to minimize ambiguity and to reduce scope interpretation discrepancies; (b) named materials and equipment are commercially available and are performing well or otherwise, in similar installations; (c) Specifications include alternatives in the event a requirement cannot be met in the field; and (d) in its professional opinion, the Project is likely to be subject to differing site conditions.
- 2.4.4.3 The results of the reviews will be provided to the City in formal, written reports clearly identifying all discovered discrepancies and inconsistencies in the Drawings and Specifications with notations and recommendations made on the Drawings, Specifications, and other documents. If requested by the City, the CM@Risk will meet with the City and Design Professional to discuss any findings and review reports.
- 2.4.4.4 The CM@Risk's reviews will be from a contractor's perspective, and though it will serve to reduce the number of Requests for Information (RFIs) and changes during the construction phase, responsibility for the Drawings and Specifications will remain with the Design Professional and not the CM@Risk.
- 2.4.5 Notification of Variance or Deficiency: It is the CM@Risk's responsibility to assist the Design Professional in ascertaining that, in the CM@Risk's professional opinion, the Construction Documents are in accordance with applicable laws, statutes, ordinances, building codes, rules and regulations. If the CM@Risk recognizes that portions of the Construction Documents are at variance with applicable laws, statutes, ordinances, building codes, rules and regulations, it will promptly notify the Design Professional and City in writing, describing the apparent variance or deficiency. However, the Design Professional is ultimately responsible for the compliance with those laws, statutes, ordinances, building codes, rules and regulations.
- 2.4.6 Alternate Systems Evaluations: The Project Team will routinely identify and evaluate using value engineering principles any alternate systems, approaches, design changes that have the potential to reduce Project construction costs and operational costs, while still delivering a quality and functional product. If the Project Team agrees, the CM@Risk in cooperation with the Design Professional will perform a cost/benefit analysis of the alternatives and submit such in writing to the Project Team. The Project Team will decide which alternatives will be incorporated into the Project. The Design Professional will have full responsibility for the incorporation of the alternatives into the Drawings and Specifications. The CM@Risk will include the cost of the alternatives into the cost estimate and any GMP Proposals.
- 2.4.6.1 For major Alternative System Evaluations, the CM@Risk is encouraged to provide (1) a detailed description of the difference between the requirements of the current design and the proposed changes, and comparative advantages and disadvantages of each; (2) the impact of the proposal upon construction plus operational costs and the CM@Risk's schedule; (3) a list of the projects to the extent known, where the proposal was previously used in similar circumstances, and the owner's results of that experience; and (4) any other information reasonably necessary to fully evaluate the proposal.
- 2.4.6.2 One of the City's goals is an energy efficient, sustainable Project, and therefore the CM@Risk shall participate in interactive work sessions when scheduled by the Design Professional for the purpose of identifying the viable, environmentally responsible alternatives for the Work, evaluating the relative merits of each, and assisting the City with selecting the preferred alternative(s) to be incorporated into the Project.

2.5 COST ESTIMATES

- 2.5.1 CM@Risk will work with the Design Professional to provide an initial, baseline cost model/estimate for the project within forty-five (45) Days after NTP. Unless otherwise agreed by both parties, within fourteen (14) Days after receipt of the documents for the various phases of design/milestones shown in the most current Project Schedule, the CM@Risk shall provide a complete and detailed cost estimate and a written review of the documents. Each cost estimate should include all cost categories necessary for delivery of a fully functional Project except items agreed to be furnished and installed by the City, and the Owner's Contingency included in the GMP Proposal identified in Exhibit "C" attached. This estimate will be referred to as the Control Estimate. In addition, each Control Estimate shall include the following:
- 2.5.1.1 A list of all documents used in preparation of the Control Estimate, identified by title, date and originator;
- 2.5.1.2 A list of the clarifications and assumptions made by the CM@Risk in the preparation of the Control Estimate, including assumptions made, to supplement the information provided by Design Professional and contained in the Drawings and Specifications;

- 2.5.1.3 A summary of the estimated Cost of the Work organized by trade categories or systems (as mutually agreed in advance);
- 2.5.1.4 A summary report showing variances of the current summary line item totals from those in the previous Control Estimate (if any);
- 2.5.1.5 A detailed estimate of the Cost of the Work in the same format as the previous Control Estimate (if any); and
- 2.5.1.6 A detailed report showing variances of quantities, unit costs and line item totals from the previous Control Estimate (if any).
- 2.5.2 The Design Professional and CM@Risk shall reconcile any disagreements on the estimate to arrive at an agreed Control Estimate for that phase of design. If no consensus is reached, the City will make the final determination. If any Control Estimate submitted to the City exceeds previously accepted Control Estimate, or the City's then current Project Budget, the CM@Risk shall make appropriate recommendations of methods and materials to the City and Design Professional that it can demonstrate will bring the project back in line with the Project Budget.
- 2.5.3 In between Control Estimates, the CM@Risk shall periodically provide a cost tracking report which identifies, by line item, the order of magnitude of cost impact(s) due to, without limitation, design development, value engineering, scope changes, or changes in the marketplace. It shall be the responsibility of the CM@Risk to keep the City and Design Professional informed as to the trend changes in costs relative to the most recently approved Control Estimate and the City's budget.
- 2.5.4 If requested by the City, the CM@Risk shall prepare a preliminary "cash flow" projection based upon the latest Control Estimate and the most current CM@Risk's schedule to assist the City in the financing process.

2.6 GUARANTEED MAXIMUM PRICE (GMP) PROPOSALS

- 2.6.1 GMP Proposal Format and Timing
 - 2.6.1.1 The proposed GMP for the entire Work (or portions thereof) will be presented in a format acceptable to the City (see Exhibit "C" attached). CM@Risk must verify with the City the current Exhibit C requirements and procedures when entering into these services.
 - 2.6.1.2 The City may request a GMP Proposal for all or any portion of the Project and at any time during the design phase. Any GMP Proposals submitted by the CM@Risk will be based on and consistent with the most current Control Estimate and cost tracking report at the time of the request, and include updated information for any new clarifications or new assumptions upon which the GMP Proposal(s) are based.
- 2.6.2 Guaranteed Maximum Price is comprised of the following not-to-exceed cost reimbursable or lump sum amounts defined below.
 - 2.6.2.1 The Cost of the Work is a fixed lump sum.
 - 2.6.2.2 The General Conditions Costs are a firm fixed lump sum amount included as a Cost of the Work and that will include bonds and insurance premiums based on the full contract price for construction.
 - 2.6.2.3 The Construction Fee is 5.75 % of the Cost of the Work.
 - 2.6.2.4 CM@Risk's Contingency is an amount the CM@Risk may use under the following conditions: (1) at its discretion for increases in the Cost of the Work, or (2) with written approval of the City for increases in General Condition Costs. CM@Risk's Contingency is assumed to be a direct project cost so will receive all markups at the time of GMP submission. Under no circumstance is the CM@Risk's Construction Contingency to be used by the Owner for increases in the scope, quality or quantity of the Work; nor by the CM@Risk for correcting nonconforming Work; Work items discovered during the Construction Phase not to be coordinated among the Subcontractor's scope of work due to an oversight of the CM@Risk; or similar CM@Risk's errors or omissions.
 - 2.6.2.5 Taxes, if applicable, are deemed to include all sales, use, consumer, and other taxes which are legally enacted when negotiations of the GMP were concluded, whether or not yet effective or merely scheduled to go into effect. Taxes are actual costs and are included as a Cost of the Work.
- 2.6.3 Owner's Contingency are funds to be used at the discretion of the Owner to cover any increases in Project costs that result from Owner directed changes or unforeseen site conditions. Owner's Contingency will be added to the GMP amount provided by the CM@Risk, the sum of which will be the full contract price for construction. Markups for Construction Fee and taxes will be applied by the CM@Risk at the time that Owner's Contingency is used.
- 2.6.4 GMPs are cumulative including CM@Risk Contingency. The amount of CM@Risk Contingency for each GMP amendment will be negotiated separately and shall reflect the CM@Risk's risk from that point in the project forward.
- 2.6.5 The CM@Risk will prepare its GMP in accordance with the City's request for GMP Proposal requirements based on the

most current completed plans and specifications at that time. The CM@Risk shall provide a list of drawings and specifications upon which its proposed GMP is based. These documents will be identified as the GMP Plans and Specifications.

- 2.6.6 An updated/revised Project Schedule will be included with any GMP Proposal(s) that reflects the GMP Plans and Specifications. Any such Project Schedule updates/revisions will continue to comply with the requirements of paragraph 2.3.
- 2.6.7 Allowances and/or CM@Risk's Contingency savings resulting from a lower actual project cost than anticipated by the CM@Risk remaining at the end of the project will revert to City.
- 2.6.7.1 GMP Proposal(s) Review and Approval
- 2.6.7.2 The CM@Risk will meet with the City and Design Professional to review the GMP Proposal(s) and the written statement of its basis. As part of the statement of basis, the CM@Risk shall identify and justify any costs that are significantly different than the latest cost estimate provided by the CM@Risk. In the event the City or Design Professional discovers inconsistencies or inaccuracies in the information presented, the CM@Risk will make adjustments as necessary to the GMP Proposal, its basis or both.
- 2.6.7.3 The City upon receipt of any GMP proposal from the CM@Risk, may submit the GMP Plans and Specifications to an independent third party or to the Design Professional for review and verification. The third party or Design Professional will develop an independent estimate of the Cost of the Work and review the Project Schedule for the associated scope of the GMP Proposals.
- 2.6.7.4 If the CM@Risk GMP Proposal is greater than the independent third party or Design Professional's estimate, the City may require the CM@Risk to reconfirm its GMP Proposal. The CM@Risk will accept the independent third party's or Design Professional's estimate for the Cost of Work as part of his GMP or present a report within seven days of a written request to the City identifying, explaining, and substantiating the differences. The CM@Risk may be requested to, or at its own discretion, submit a revised GMP Proposal for consideration by the City. At that time, the City may do one of the following.
- (a) Accept the CM@Risk original or revised GMP Proposal, if within the City's budget, without comment.
 - (b) Accept the CM@Risk original or revised GMP Proposal that exceeds the City's budget and indicate in writing to the CM@Risk that the Project Budget has been increased to fund the differences.
 - (c) Reject the CM@Risk's original or revised GMP Proposal because it exceeds the City's budget, and/or the independent third parties or Design Professional's estimate, in which event, the City may terminate this Contract and/or elect to not enter into a separate contract with the CM@Risk for the construction phase associated with the scope of Work reflected in the GMP Proposal.
- 2.6.7.5 If during the review and negotiation of GMP Proposals design changes are required, the City will authorize and cause the Design Professional to revise the Construction Documents to the extent necessary to reflect the agreed-upon assumptions and clarifications contained in the final approved GMP Proposal. Such revised Construction Documents will be furnished to the CM@Risk. The CM@Risk will promptly notify the Design Professional and City in writing if any such revised Construction Documents are inconsistent with the agreed-upon assumptions and clarifications.

2.7 MAJOR SUBCONTRACTOR AND MAJOR SUPPLIER SELECTIONS

- 2.7.1 The selection of major Subcontractors and major Suppliers may occur prior to submission of a GMP Proposal. Major Subcontractors may be selected based on qualifications or a combination of qualifications and price. Subcontractors shall not be selected based on price alone. Except as noted below, the selection of major Subcontractors/Suppliers is the responsibility of the CM@Risk. In any case, the CM@Risk is solely responsible for the performance of the selected Subcontractors/Suppliers.
- 2.7.1.1 The CM@Risk will prepare a Subcontractor/Supplier selection plan and submit the plan to the City for approval. This subcontractor selection plan shall identify those subcontractor trades anticipated to be pre-qualified by qualifications and competitive bid in accordance with Section 2.7.2 and subcontractor trades will not be pre-qualified through a formalized qualifications-based selection process (competitively bid only). The subcontractor selection plan must be consistent with the selection requirements included in this Contract and the provisions of Chapter 2269 of the Texas Government Code.
- 2.7.2 Selection by qualifications and competitive bid - The CM@Risk shall apply the subcontractor selection plan in the evaluation of the qualifications of a Subcontractor(s) or Supplier(s) and provide the City with its process to prequalify prospective subcontractors and suppliers. All Work for major Subconsultants and major Suppliers shall then be competitively bid to the prequalified Subcontractors. Competitive bids may occur prior to or after the GMP Proposal(s).
- 2.7.2.1 The CM@Risk will develop Subcontractor and Supplier interest, submit the names of a minimum of three qualified Subcontractors or Suppliers for each trade in the Project for approval by the City and solicit bids for the various Work categories. If there are not three qualified Subcontractors/Suppliers available for a specific trade or there are extenuating circumstances warranting such, the CM@Risk may request approval by the City to submit less than three names. Without prior written notice to the City, no change in the recommended Subcontractors/Suppliers will be allowed.

- 2.7.2.2 If the City objects to any nominated Subcontractor/Supplier or to any recommended self-performed Work bidding opportunities for good reason, the CM@Risk will nominate a substitute Subcontractor/Supplier that is acceptable to the City.
- 2.7.2.3 The CM@Risk will advertise and distribute Drawings and Specifications, and when appropriate, conduct a prebid conference with prospective Subcontractors and Suppliers.
- 2.7.2.4 If the CM@Risk or a Related Party desires to self-perform certain portions of the Work, it will request to be one of the approved Subcontractor bidders for those specific bid packages. The CM@Risk's bid will be due to the City one full business day before the date and time specified for the other subcontractors' bids to be due, and then evaluated in accordance with the process identified below. If events warrant and the City concurs that in order to ensure compliance with the Project Schedule and/or cost, or if a Subcontractor is terminated the CM@Risk may self-perform Work without re-bidding the Work.
- 2.7.2.5 If after the CM@Risk having followed the stipulations in this Agreement, any of the costs to be reimbursed are contemplated to arise from a transaction between the CM@Risk and a Related Party, the CM@Risk shall notify the Owner of the specific nature of the contemplated transaction, including the identity of the related party and the anticipated cost to be incurred, before any such transaction is consummated or cost incurred. If the Owner, after such notification, authorizes the proposed transaction in writing, then the cost incurred shall be included as a cost to be reimbursed, and the CM@Risk shall procure the Work, equipment, goods, or service, from the Related Party, as a Subcontractor. If the Owner fails to authorize the transaction in writing, the CM@Risk shall procure the Work, equipment, goods, or service from some person or entity other than a Related Party.
- 2.7.2.6 The CM@Risk shall request the pre-qualified subcontractors to provide a detailed bid for the services requested. The subcontractor bid, provided on the subcontractors' letterhead or the CM@Risk's bid form, shall contain sufficient information (i.e. assumptions, clarifications, exclusions and/or unit costs/amounts) to allow an evaluation of the reasonableness of bid costs. The CM@Risk shall receive, open, record and evaluate the bids. The apparent low bidders will be interviewed to determine the responsiveness of their proposals. In evaluating the responsiveness of bid proposals the CM@Risk, in addition to bid price, may consider the following factors: past performance on similar projects, financial soundness; qualifications and experience of personnel assigned, quality management plan, approach or understanding of the Work to be performed, and performance schedule to complete the Work. The final evaluation of Subcontractor/Supplier bids will be done with the City Representative in attendance to observe and witness the process. The CM@Risk will resolve any Subcontractor/Supplier bid withdrawal, protest or disqualification in connection with the award at no increase in the Cost of the Work.
- 2.7.2.7 Any portion of the CM@Risk's evaluation of Subcontractor and supplier bids by the CM@Risk may be attended by the Design Professional and City, at their option, and they will be given complete access to all aspects of the process. Such participation by the Design Professional and City, or their receipt of copies of Subcontractors' and suppliers' bids and proposals shall not impose any burden of review or analysis on them or relieve the CM@Risk of its sole responsibility for the CM@Risk's, Subcontractors' and suppliers' performance under this Agreement.
- 2.7.3 The CM@Risk will be required to prepare two different reports on the subcontracting process.
- 2.7.3.1 Within fifteen Days after each major Subcontractor/Supplier bid opening process, the CM@Risk will prepare a report for the City's review and approval identifying the recommended Subcontractors/Supplier for each category of Work. The report will provide (a) the name of the recommended Subcontractor/Supplier and the amount of the Subcontractor/Supplier bid for each subagreement, (b) the sum of all recommended Subcontractor/Supplier bids received, (c) a copy of the bids received from each Subcontractor, and (d) trade work and its cost that the CM@Risk intends to self-perform, if any.
- 2.7.3.2 Upon completion of the Subcontractor/Supplier bidding process, the CM@Risk shall submit a summary report to the City of the entire Subcontractor/Supplier selection process. The report will indicate, by bid process, all Subcontractors/Suppliers contacted to determine interest, the Subcontractors/Suppliers solicited, the bids received, and costs negotiated, and the recommended Subcontractors/Suppliers for each category of Work.
- 2.7.4 The approved Subcontractors/Suppliers will provide a Schedule of Values that reflects their final accepted bid proposal, which will be used to create the overall Project Schedule of Values.
- 2.7.5 If after receipt of sub-bids or after award of Subcontractors and Suppliers, the City objects to any nominated Subcontractor/Supplier or to any self-performed Work for good reason, the CM@Risk will nominate a substitute Subcontractor or Supplier, preferably, if such option is still available, from those who submitted Subcontractor bids for the Work affected. Once such substitute Subcontractors and Suppliers are consented to by the City, the CM@Risk's proposed GMP for the Work or portion thereof will be correspondingly adjusted to reflect any higher or lower costs from any such substitution.
- 2.7.6 Promptly after receipt of the Notice of Intent to Award, the City will conduct a pre-award conference with the CM@Risk and other Project Team members. At the pre-award conference, the CM@Risk will (a) review the nominated slate of Subcontractors and Suppliers and discuss any concerns with or objections that the City has to any nominated Subcontractor or Supplier; (b) discuss City concerns relating to any proposed self-performed Work; (c) review the CM@Risk's proposed Contract Price for the Work during the construction phase; (d) discuss the conditions, if any, under which the City will agree to leave any portion of the remaining CM@Risk Contingency within the Contract Price for the construction phase Work; (e) resolve possible time frames for the Date

of commencement of the Contract Time for the construction phase Work; (f) schedule the pre-construction conference; and (g) discuss other matters of importance.

ARTICLE 3 – PERIOD OF SERVICES

- 3.1 The design phase services described in this Contract will be performed by CM@Risk in accordance with the most current update/revised Project Schedule. Failure on the part of the CM@Risk to adhere to the Project Schedule requirements for activities for which it is responsible will be sufficient grounds for termination of this Contract by the City.
- 3.1.1 Upon failure to adhere to the approved schedule, City may provide written notice to CM@Risk that it intends to terminate the Agreement unless the problem cited is cured, or commenced to be cured, within three days of CM@Risk's receipt of such notice.
- 3.2 If the date of performance of any obligation or the last day of any time period provided for herein should fall on a Saturday, Sunday, or holiday for the City, then said obligation will be due and owing, and said time period will expire, on the first day thereafter which is not a Saturday, Sunday or legal City holiday. Except as may otherwise be set forth herein, any performance provided for herein will be timely made if completed no later than 5:00 p.m. (Denton time) on the day of performance.

ARTICLE 4 – CONTRACT AMOUNT AND PAYMENTS

4.1 CONTRACT AMOUNT

- 4.1.1 Based on the design phase services fee proposal submitted by the CM@Risk and accepted by the City (which by reference is made a part of this Contract); the City will pay the CM@Risk a lump sum fee in the amount of \$495,000.00.

Additional services and allowances, as described in subsection 4.3: \$90,000

Total Contract Amount, not to exceed, **\$585,000**

4.2 PAYMENTS

- 4.2.1 Requests for monthly payments by the CM@Risk for design phase services will be submitted in a form acceptable to the City and will be accompanied by a progress report, detailed invoices and receipts, if applicable. Any requests for payment will include, as a minimum, a narrative description of the tasks accomplished during the billing period, a listing of any Deliverables submitted, and copies of any Subconsultants' requests for payment, plus similar narrative and listings of Deliverables associated with their Work. Payment for services negotiated as a lump sum shall be made in accordance with the percentage of work completed during the preceding month. Services negotiated as a not-to-exceed fee will be paid in accordance with the work effort expended on that service during the preceding month.
- 4.2.2 The CM@Risk will pay all sums due Subconsultants for services and reimbursable expenses within 10 calendar days after the CM@Risk has received payment for those services from the City. In no event will the City pay more than 95 percent of the Contract Amount until final acceptance of all design phase services, and award of the final approved GMP for the entire Project by City Council.
- 4.2.3 **THE CM@RISK AGREES THAT NO CHARGES OR CLAIMS FOR COSTS OR DAMAGES OF ANY TYPE WILL BE MADE BY IT FOR ANY DELAYS OR HINDRANCES BEYOND THE REASONABLE CONTROL OF THE CITY DURING THE PROGRESS OF ANY PORTION OF THE SERVICES SPECIFIED IN THIS CONTRACT. SUCH DELAYS OR HINDRANCES, IF ANY, WILL BE SOLELY COMPENSATED FOR BY AN EXTENSION OF TIME FOR SUCH REASONABLE PERIOD AS MAY BE MUTUALLY AGREED BETWEEN THE PARTIES. IT IS UNDERSTOOD AND AGREED, HOWEVER, THAT PERMITTING THE CM@RISK TO PROCEED TO COMPLETE ANY SERVICES, IN WHOLE OR IN PART AFTER THE DATE TO WHICH THE TIME OF COMPLETION MAY HAVE BEEN EXTENDED, WILL IN NO WAY ACT AS A WAIVER ON THE PART OF THE CITY OF ANY OF ITS LEGAL RIGHTS HEREIN.**
- 4.2.4 If any service(s) executed by the CM@Risk is abandoned or suspended in whole or in part, for a period of more than 180 days through no fault of the CM@Risk, the CM@Risk is to be paid for the services performed prior to the abandonment or suspension.

4.3 ADDITIONAL DESIGN PHASE SERVICES

- 4.3.1 The following additional services may be required for the successful completion of this Project. If approved by the City, the project may be broken into multiple GMP's. The cost for additional services required for multiple GMP's will be a lump sum fee in the amount of \$90,000.00 for each additional GMP package. CM@Risk recognizes that City might have to obtain City Council approval for additional amounts.
- 4.3.2 If additional services are not used, remaining funds will revert back to the City.

ARTICLE 5 - CITY'S RESPONSIBILITIES

- 5.1 The City, at no cost to the CM@Risk, will furnish the following information:
 - 5.1.1 One copy of data the City determines pertinent to the work. However, the CM@Risk will be responsible for searching the records and requesting information it deems reasonably required for the Project.
 - 5.1.2 All available data and information pertaining to relevant policies, standards, criteria, studies, etc.
 - 5.1.3 The name of the City employee or City's representative who will serve as the Project Manager during the term of this Contract. The Project Manager has the authority to administer this Contract and will monitor the CM@Risk's compliance with all terms and conditions stated herein. All requests for information from or decisions by the City on any aspect of the work or Deliverables will be directed to the Project Manager.
- 5.2 The City additionally will:
 - 5.2.1 Contract separately with one or more design professionals to provide architectural and/or engineering design services for the Project. The scope of services for the Design Professional will be provided to the CM@Risk for its information. The CM@Risk will have no right, to limit or restrict any changes of such services that are otherwise mutually acceptable to the City and Design Professional.
 - 5.2.2 Supply, without charge, all necessary copies of programs, reports, drawings, and specifications reasonably required by the CM@Risk except for those copies whose cost has been reimbursed by the City.
 - 5.2.3 Provide the CM@Risk with adequate information in its possession or control regarding the City's requirements for the Project.
 - 5.2.4 Give prompt written notice to the CM@Risk when the City becomes aware of any default or defect in the Project or non-conformance with the Drawings and Specifications, or any of the services required hereunder. Upon notice of failure to perform, the City may provide written notice to CM@Risk that it intends to terminate the Agreement unless the problem cited is cured, or commenced to be cured, within three days of CM@Risk's receipt of such notice.
 - 5.2.5 Notify the CM@Risk of changes affecting the budget allocations or schedule.
- 5.3 The City's Project Manager will have authority to approve the Project Budget and Project Schedule, and render decisions and furnish information the City's Project Manager deems appropriate to the CM@Risk.

ARTICLE 6 – CONTRACT CONDITIONS

6.1 PROJECT DOCUMENTS AND COPYRIGHTS

- 6.1.1 City Ownership of Project Documents: All work products (electronically or manually generated) including but not limited to: cost estimates, studies, design analyses, Computer Aided Drafting and Design (CADD) digital files, and other related documents which are prepared specifically in the performance of this Contract (collectively referred to as Project Documents) are to be and remain the property of the City and are to be delivered to the Project Manager before the final payment is made to the CM@Risk. Nonetheless, in the event these Projects Documents are altered, modified or adapted without the written consent of the CM@Risk, which consent the CM@Risk will not unreasonably withhold, the City agrees to hold the CM@Risk harmless to the extent permitted by law, from the legal liability arising out of and or resulting from the City's alteration, modification or adaptation of the Project Documents.
- 6.1.2 CM@Risk to Retain Copyrights: The copyrights, patents, trade secrets or other intellectual property rights associated with the ideas, concepts, techniques, inventions, processes or works of authorship developed or created by the CM@Risk, its Subconsultants or personnel, during the course of performing this Contract or arising out of the Project will belong to the CM@Risk, but will remain available for use by the City for this Project under the terms of this Contract.
- 6.1.3 License to City for Reasonable Use: The CM@Risk hereby grants, and will require its Subconsultants to grant, a license to the City, its agents, employees, and representatives for an indefinite period of time to reasonably use, make copies, and distribute as appropriate the Project Documents, works or Deliverables developed or created for the Project and this Contract. This license will also include the making of derivative works. In the event that the derivative works require the City to alter or modify the Project Documents, then paragraph 6.1.1 applies.
- 6.1.4 Documents to Bear Seal: When applicable and required by state law, the CM@Risk and its Subconsultants will endorse by a Texas professional seal all plans, works, and Deliverables prepared by them for this Contract.

6.2 COMPLETENESS AND ACCURACY OF CM@RISK'S WORK

- 6.2.1 The CM@Risk will be responsible for the completeness and accuracy of its reviews, reports, supporting data, and other design phase Deliverables prepared or compiled pursuant to its obligations under this Contract and will at its sole own

expense correct its work or Deliverables. Any damage incurred by the City as a result of additional construction cost caused by such willful or negligent errors, omissions or acts shall be chargeable to the CM@Risk to the extent that such willful or negligent errors, omissions and acts fall below the standard of care and skill that a professional CM@Risk in Denton, Texas would exercise under similar conditions. The fact that the City has accepted or approved the CM@Risk's work or Deliverables will in no way relieve the CM@Risk of any of its responsibilities under the Contract, nor does this requirement to correct the work or Deliverable constitute a waiver of any claims or damages otherwise available by law or Contract to the City. Correction of errors, omissions and acts discovered on architectural or engineering plans and specifications shall be the responsibility of the Design Professional.

6.3 ALTERATION IN CHARACTER OF WORK

- 6.3.1 In the event an alteration or modification in the character of Work or Deliverable results in a substantial change in this Contract, thereby materially increasing or decreasing the scope of services, cost of performance, or Project Schedule, the Work or Deliverable will nonetheless be performed as directed by the City. However, before any altered or modified Work begins, a Change Order or amendment will be approved and executed by the City and the CM@Risk. Such Change Order or amendment will not be effective until approved by the City.
- 6.3.2 Additions to, modifications, or deletions from the Project provided herein may be made, and the compensation to be paid to the CM@Risk may accordingly be adjusted by mutual agreement of the contracting parties.
- 6.3.3 No claim for extra work done or materials furnished by the CM@Risk will be allowed by the City except as provided herein, nor will the CM@Risk do any work or furnish any material(s) not covered by this Contract unless such work or material is first authorized in writing. Work or material(s) furnished by the CM@Risk without such prior written authorization will be the CM@Risk's sole jeopardy, cost, and expense, and the CM@Risk hereby agrees that without prior written authorization no claim for compensation for such work or materials furnished will be made.

6.4 DATA CONFIDENTIALITY

- 6.4.1 As used in the Contract, data means all information, whether written or verbal, including plans, photographs, studies, investigations, audits, analyses, samples, reports, calculations, internal memos, meeting minutes, data field notes, work product, proposals, correspondence, and any other similar documents or information prepared by or obtained by the CM@Risk in the performance of this Contract.
- 6.4.2 The parties agree that all data, including originals, images, and reproductions, prepared by, obtained by, or transmitted to the CM@Risk in connection with the CM@Risk's performance of this Contract is confidential and proprietary information belonging to the City to the extent allowed by Texas law.
- 6.4.3 The CM@Risk will not divulge data to any third party without prior written consent of the City. The CM@Risk will not use the data for any purposes except to perform the services required under this Contract. These prohibitions will not apply to the following data:
 - 6.4.3.1 Data which was known to the CM@Risk prior to its performance under this Contract unless such data was acquired in connection with work performed for the City.
