

The Solid Waste and Recycling Department won the GReen3 Award for Excellence in Environmental Education and Outreach from the North Texas Corporate Recycling Association. The award recognizes the annual Scout Day event that provides scouts, their families, and youth from the entire Denton community a hands-on learning experience which highlights the many innovative resource conservation practices at ECO-W.E.R.C.S. Resource Recovery Park.

Solid Waste and Recycling and Pratt Industries, the City's recycling partner, also received an honorable mention for Best Recycling Partnership for implementing curbside carton recycling. Residents can now place their cartons in their curbside cart along with paper, cardboard, plastic, metals, and glass.
