SCHEDULE RG

RESIDENTIAL RENEWABLE ENERGY SERVICE RIDER

(Effective 10/01/165)

APPLICATION

Applicable to any Customer for all electric service used for residential purposes in an individual private dwelling or an individually metered apartment, supplied at one point of delivery and measured through one meter. This rate is not applicable to resale service in any event, or to temporary, standby, or supplementary service.

In light of additional costs associated with the Residential Renewable Energy Service Rider and to mitigate potential risk to ratepayers, any participant in the Residential Renewable Energy Service Rider must be, at the time this rider is applied for and continuing while such rider is in effect, a customer in good standing of all Denton Municipal Utilities, including Solid Waste services. Unless legal review procedures have been invoked in good faith regarding the obligation, a customer in good standing for the purpose of this Rate Rider is defined as a customer not owing any unpaid utility or solid waste debt obligation that is over forty-five (45) days past due to the City of Denton, Texas during the previous 12 months.

PRIMARY SERVICE DISCOUNT

Customers who receive service at secondary voltage (GL1) shall receive no Energy Charge discount. Customers utilizing City owned and operated facilities and transformation equipment and who are metered at primary voltage (GL2) shall receive an Energy Charge discount of 0.1¢/kWh. Customers who own, operate, and maintain all facilities necessary to receive three-phase primary voltage service and all transformation facilities required for conversion to utilization voltage (GL3) shall receive an Energy Charge discount of 0.3¢/kWh. The City shall own, operate and maintain all metering facilities, either at primary or secondary voltage.

TYPE OF SERVICE

The City will supply single-phase service (or three-phase service if available at the point of delivery) at sixty (60) cycles and at any standard voltages available from the City's distribution system through one standard transformation. Additional contractual arrangements between the City and the Customer, subject to the Special Facilities Rider, may be required where service of the type desired by the Customer is not available at the point of service.

PAYMENT

The due date for the payment of the bill for utility services shall not be less than ten (10) business days after issuance.

SCHEDULE TGS

GENERAL SERVICE TIME OF USE

(Effective 10/01/165)

APPLICATION

Applicable to any customer having a minimum demand of 250 kVA for all electric service supplied at one point of delivery and measured through one meter, with the City providing all facilities necessary to receive primary voltage service. Customers electing this rate must remain on this rate for a minimum of twelve (12) continuous billing months. This rate is not applicable to resale service in any event, or to temporary, standby, or supplementary service.

In light of additional costs associated with the General Service Time of Use rate and to mitigate potential risk to ratepayers, any participant in the General Service Time of Use rate must be, at the time this rate is applied for and continuing while such rate is in effect, a customer in good standing of all Denton Municipal Utilities, including Solid Waste services. Unless legal review procedures have been invoked in good faith regarding the obligation, a customer in good standing for the purpose of this Rate Rider is defined as a customer not owing any unpaid utility or solid waste debt obligation that is over forty-five (45) days past due to the City of Denton, Texas during the previous 12 months.

NET MONTHLY RATE

plus;		
(5)	Energy Cost Adjustment Charge	See Schedule ECA
plus;		
(6)	Transmission Cost Recovery Factor	See Schedule TCRF

MINIMUM BILLING

For each billing period, the Customer shall be obligated to pay the following charges as a minimum, whether or not any energy was actually used:

(1) The Facility Charge,

plus;

(2) The Off-Peak Demand Charge,

plus;

(3) The On-Peak Demand Charge

DEFINITION OF ON-PEAK HOURS

The City's on-peak hours, for the purpose of this rate schedule, are designated as being from 2:00 P.M. to 7:00 P.M. each Monday through Friday, for the months of June through September excluding Independence Day and Labor Day. The City's on-peak hours may be changed from time to time.

DEFINITION OF OFF-PEAK HOURS

The City's system (off-peak) hours, for the purpose of this rate schedule, shall be all hours not designated as on-peak hours.

DETERMINATION OF ON-PEAK DEMAND

The demand used in calculating the On-Peak Demand Charge for the billing period shall be the greater of: (1) the kVA actual demand supplied during the fifteen (15) minute period of maximum use each month during on-peak hours as recorded by the City's demand meter, or (2) one hundred percent (100%) of the actual maximum on-peak demand similarly determined during the billing months of June through September in the twelve (12) months immediately preceding the current month. The On Peak Demand Charge will be applied to each billing period.

DETERMINATION OF OFF-PEAK DEMAND

The demand used in calculating the Off-Peak Demand Charge for the billing period shall be the actual kVA demand supplied during the fifteen (15) minute period of maximum use during off-peak hours each month as recorded by the City's demand meter. The Off-Peak Demand Charge will be applied to each billing period.

DETERMINATION OF DEMAND BILLING FOR CUSTOMERS WITH NO PEAK DEMAND HISTORY DURING OFF-PEAK MONTHS

If the Customer is new or does not have a history of on-peak use for June through September, and elects to accept service on the TGS rate, the Customer's billed demand shall be the off-peak demand billed at the GSL demand rate. The off-peak demand will be billed every month at the GSL rate until the customer establishes a separate on-peak and off-peak demand during an on-peak month. At this time, both on-peak and off-peak demand will then begin billing at the TGS rate.

PRIMARY SERVICE DISCOUNT

Customers who receive service at secondary voltage (TG1) shall receive no Energy Charge discount. Customers utilizing City owned and operated facilities and transformation equipment and who are metered at primary voltage (TG2) shall receive an Energy Charge discount of 0.1¢/kWh. Customers, who own, operate and maintain all facilities necessary to receive three-phase primary voltage service and all transformation facilities required for conversion to utilization voltage (TG3) shall receive an Energy Charge discount of 0.3¢/kWh. The City shall own, operate and maintain all metering facilities, either at primary or secondary voltage.

ENERGY CHARGE

Billing for the Energy Charge shall be based on actual kWh consumption during the billing period.

$$\text{Energy Charge} = \text{kWh} \times \text{kWh Rate}$$

TYPE OF SERVICE

The City will supply single-phase service (or three-phase service if available at the point of delivery) at sixty (60) cycles and at any standard voltages available from the City's distribution system through one standard transformation. Additional contractual arrangements between the City and the Customer, subject to the Special Facilities Rider, may be required where service of the type desired by the Customer is not available at the point of service.

PAYMENT

The due date for the payment of the bill for utility services shall not be less than ten (10) business days after issuance.

SCHEDULE G2

LOCAL GOVERNMENT SERVICE SMALL

(Effective 10/01/165)

APPLICATION

Applicable to any local City, County or School District having a maximum demand of less than 21.0 kW in each of the previous twelve (12) months for all electric service supplied at one point of delivery and measured through one meter. If the demand in any month equals or exceeds 21.0 kW, billing will be made under the Rate Schedule G1 and Customer must remain on the G1 rate for a minimum of twelve (12) billing periods. This rate is not applicable to resale service in any event, or to temporary, standby or supplementary service.

MINIMUM BILLING

For each billing period, the Customer shall be obligated to pay the following charges as a minimum, whether or not any energy was actually used:

- (1) Facility Charge,
- plus;
- (2) Demand Charge

DETERMINATION OF DEMAND

The demand used in calculating the Demand Charge for the billing period shall be the greater of: (1) The actual kW demand supplied during the fifteen (15) minute period of maximum use during the current month as determined by City's demand meter; or (2) not less than 50% of the highest monthly actual demand determined during the billing months of May through October in the twelve (12) months immediately preceding the current month.

ENERGY CHARGE

Billing for the Energy Charge shall be based on actual kWh consumption during the billing period.

$$\text{Energy Charge} = \text{kWh} \times \text{kWh Rate}$$

TYPE OF SERVICE

The City will supply single-phase service (or three-phase service if available at the point of delivery) at sixty (60) cycles and at any standard voltages available from the City's distribution system through one standard transformation. Additional contractual arrangements between the City and the Customer, subject to the Special Facilities Rider, may be required where service of the type desired by the Customer is not available at the point of service.

PAYMENT

The due date for the payment of the bill for utility services shall not be less than ten (10) business days after issuance.

SCHEDULE WK

WEEKEND SERVICE (Effective 10/01/165)

APPLICATION

Applicable to any commercial and industrial user whose maximum demand load occurs during the period from Thursday at 12 midnight through Sunday at 12 midnight and does not experience a demand load during the period from Sunday 12 midnight through Thursday 12 midnight that exceeds 80% of the maximum demand load. Customers who violate the 80% requirement more than four (4) times during the month, or more than twice on the same day of the week, during the months of June through September, are ineligible for service under this rate for twelve (12) months.

This rate is not applicable to resale service in any event, or to temporary, standby or supplementary service except in conjunction with applicable rider.

SCHEDULE EGR

ECONOMIC GROWTH RIDER

(Effective 10/01/165)

PURPOSE

The purpose of this rider is to facilitate local economic growth and expand the ad valorem tax base of the City of Denton.

AVAILABILITY

This rider is available to the Customers who:

- (1) Receive service from Rate Schedules GSL or TGS; and
- (2) Pay City of Denton ad valorem tax; and
- (3) Receive no electric service discounts other than those specifically defined in the GSL or TGS rate schedules.

APPLICATION

This rider is available to electric service supplied at any one location. It is for firm electric service applicable to new and existing Customers as described below, over a five (5) year period. This rider is available to the following classes of Customers:

- (1) New customers whose electric service represents demand not previously served by the City at any location in the City's service area in the last twelve (12) months, where such metered demand will be in excess of 1,000 kVA and customer load factor must be greater than the DME system load factor, as estimated and mutually agreed upon by the DME General Manager and the customer.
- (2) Existing customers served under Rate Schedules GSL or TGS who increase their prior existing metered demand by 1,000 kVA and customer load factor must be greater than the DME system load factor. This increase shall be verified by sub-metering (at the Customers expense) the additional load. If sub-metering is not possible, at the discretion of the General Manager, the increase may be verified by comparing a three-month rolling average of the new level of demand to the prior demand averaged for corresponding months. During periods in which this verification method cannot be applied, the General Manager and the Customer may develop a mutually agreed-upon formula to estimate the base and additional demand levels.

In light of additional costs associated with the Economic Growth Rider and to mitigate potential risk to ratepayers, any participant in the Economic Growth Rider must be, at the time this rider is applied for and continuing while such rider is in effect, a customer in good standing of all Denton Municipal Utilities, including Solid Waste services. Unless legal review procedures have been invoked in good faith regarding the obligation, a customer in good standing for the purpose of this Rate Rider is defined as a customer not owing any unpaid utility or solid waste debt obligation that is over forty-five (45) days past due to the City of Denton, Texas during the previous 12 months.

NET MONTHLY RATE

The Customer shall be charged under the appropriate applicable rate schedules with the exception that the monthly billing demand (for GSL) or system demand and on-peak demand (for TGS) will be adjusted in accordance with the following table:

<u>Time Period</u>	<u>Reduction to Billing Demand</u>
First Year	50%
Second Year	40%
Third Year	30%
Fourth Year	20%
Fifth Year	10%

CONTRACT PERIOD

The term of the contract will be for five (5) years.

SCHEDULE GIP

GREENSENSE INCENTIVE PROGRAM

(Effective 10/01/16⁶⁵)

PROGRAM SUMMARY

The objective of the GreenSense Incentive Program (“Program”) is to reduce energy demand and consumption by promoting energy conservation, thereby reducing the utility bills of Denton Municipal Electric (DME) customers, reducing the peak load of the DME’s electric system, reducing emissions in the state, and promoting energy conservation. The Program offers incentives, in the form of credits on the electric service bills of DME retail customers. Cash incentives may be paid to retail customers for the installation of photovoltaic applications.

In light of additional costs associated with the GreenSense Incentive Program and to mitigate potential risk to ratepayers, any participant in the GreenSense Incentive Program must be, at the time this program is applied for and continuing while such program is in effect, a customer in good standing of all Denton Municipal Utilities, including Solid Waste services. Unless legal review procedures have been invoked in good faith regarding the obligation, a customer in good standing for the purpose of this Rate Rider is defined as a customer not owing any unpaid utility or solid waste debt obligation that is over forty-five (45) days past due to the City of Denton, Texas during the previous 12 months.

Program applicants will be able to qualify for multiple incentives simultaneously, unless specified in the individual guidelines. A separate application may be necessary for each incentive. The Program will be in effect each fiscal year beginning on October 1, until the allotted funding is depleted or until cancellation of the program by DME. At the time the funds are depleted, no additional applications for participation will be accepted until the next fiscal year.

Qualifying applicants must receive electric service from DME. The Program guidelines and payments are subject to change by DME without prior notice. DME may, at any time, discontinue the Program without prior notice. The current program guidelines may be found in the GreenSense Incentive Program Manual located at www.dmepower.com.

SCHEDULE ECA

ENERGY COST ADJUSTMENT (Effective 10/01/165)

The Energy Cost Adjustment (ECA) rate shall be set by the Public Utilities Board (PUB). The ECA rate shall be reviewed on a quarterly basis and adjusted as defined below to recover the variable cost of energy delivered to customers and to maintain DME in a financially sound position.

ENERGY COST ADJUSTMENT BALANCING ACCOUNT CALCULATION

The ECA Balancing Account shall be calculated using the following formula:

$$\text{ECA Balancing Account} = (\text{Actual plus Projected ECA revenue}) - (\text{Projected Energy Cost})$$

Where:

$$\text{Projected Energy Cost} = (\text{Actual plus Projected cumulative cost of fuel}) + (\text{Actual plus Projected cumulative variable purchased energy cost}).$$

The General Manager, Denton Municipal Electric (DME) or his/her designee shall calculate the ECA Balancing Account monthly. In the event that the ECA Balancing Account calculated during the last month of each fiscal quarter (December, March, June, and September) is over/under collected by \$5,000,000 or more during the next quarter, the General Manager, DME or his/her designee may recommend to the PUB any actions to maintain DME in a financially sound position.

ENERGY COST ADJUSTMENT CALCULATION

$$\text{ECA} = [(\text{Projected Energy Cost}) + (\text{ECA Balancing Account})] / (\text{Projected kWh sales})$$

ENERGY COST ADJUSTMENT CHARGE

The Energy Cost Adjustment Charge shall be based on actual kWh consumption during the billing period.

$$\text{Energy Cost Adjustment Charge} = \text{kWh} \times \text{ECA rate}$$

Residential Time-Of-Use (Schedule RTOU):

$$\text{Super-Peak ECA Charge} = \text{kWh} \times [\text{ECA} + (\text{ECA} \times 53.5\%)]$$

$$\text{On-Peak ECA Charge} = \text{kWh} \times \text{ECA rate}$$

$$\text{Off-Peak ECA Charge} = \text{kWh} \times [\text{ECA} - (\text{ECA} \times 48.8\%)]$$

SCHEDULE RCA

RENEWABLE COST ADJUSTMENT (Effective 10/01/165)

The Renewable Cost Adjustment (RCA) rate shall be set by the Public Utilities Board (PUB). The RCA rate shall be reviewed on a quarterly basis and adjusted as defined below to recover the cost of renewable energy delivered to customers. Renewable energy cost includes the Energy Cost Adjustment Charge (see Schedule ECA) plus the cost of Renewable Energy Credits (REC) purchased.

RENEWABLE COST ADJUSTMENT BALANCING ACCOUNT CALCULATION

The RCA Balancing Account shall be calculated using the following formula:

$$\text{RCA Balancing Account} = (\text{Actual plus Projected RCA revenue}) - (\text{Projected Renewable Energy Cost})$$

Where:

$$\text{Projected Renewable Energy Cost} = (\text{Actual plus Projected cumulative ECA cost}) + (\text{Actual plus Projected REC cost})$$

During the last month of each fiscal year quarter (December, March, June, and September), the DME General Manager or his/her designee shall calculate the RCA Balancing Account. In the event that the RCA Balancing Account calculated during the last month of each fiscal quarter is over/under collected by \$100,000 or more during the next quarter, the General Manager or his/her designee may recommend to the PUB any actions to maintain DME in a financially sound position.

RENEWABLE COST ADJUSTMENT CALCULATION

$$\text{RCA} = \text{ECA} + [(\text{Projected Renewable Energy Cost}) / (\text{Projected kWh sales})]$$

Where:

$$\text{Projected Renewable Energy Cost} = \text{Actual} + \text{Projected REC cost}$$

RENEWABLE COST ADJUSTMENT CHARGE

The Renewable Cost Adjustment Charge shall be based on actual kWh consumption during the billing period.

$$\text{Renewable Cost Adjustment Charge} = \text{kWh} \times \text{RCA rate}$$

Residential Time-Of-Use (Schedule RTOU):

$$\text{Super-Peak RCA Charge} = \text{kWh} \times [\text{RCA} + (\text{RCA} \times 53.5\%)]$$

$$\text{On-Peak RCA Charge} = \text{kWh} \times \text{RCA rate}$$

$$\text{Off-Peak RCA Charge} = \text{kWh} \times [\text{RCA} - (\text{RCA} \times 48.8\%)]$$

SCHEDULE TCRF

TRANSMISSION COST RECOVERY FACTOR

(Effective 10/01/165)

The Transmission Cost Recovery Factor (TCRF) rate shall be set by the Public Utilities Board (PUB) ~~effective October 1, 2014~~. ~~Thereafter, T~~he TCRF rate shall be reviewed on a ~~monthly quarterly~~ basis and adjusted ~~by the Public Utilities Board~~ as defined below to recover the costs of transmission service within the boundaries of the Electric Reliability Council of Texas (ERCOT) region which are billed and charged to Denton Municipal Electric (DME). Transmission rates included in the TCRF shall be the net Transmission Cost of Service (TCOS) billed to DME as calculated, which net TCOS is also billed and distributed to all ERCOT utilities by ERCOT; as such TCOS rates are approved by the Public Utility Commission of Texas (PUCT).

TRANSMISSION COST RECOVERY FACTOR BALANCING ACCOUNT CALCULATION

The TCRF shall be calculated using the following formula:

TCRF Annual Billing = (Actual monthly net TCOS billing amounts charged by ERCOT transmission service providers to DME) + (Projected Increases or Decreases PUCT-approved TCOS billing amount charges to ERCOT utilities)

During the last month of each fiscal year quarter (December, March, June, and September), ~~T~~he General Manager, DME, or his/her designee shall calculate the TCRF Balancing Account ~~monthly~~. The TCRF billed amount will be calculated ~~monthly quarterly~~ and adjusted accordingly by annualizing the PUCT-approved TCOS billing amounts for the current calendar year. The total TCRF Annual Billing shall be allocated to DME's various rate classes based on projected kWh sales for that rate class. The TCRF charge will be developed by DME for each applicable customer billing schedule herein, based on projected kWh sales for billing schedules without a demand component and on monthly peak kW for billing schedules with a demand component.

TRANSMISSION COST RECOVERY FACTOR CALCULATION

TCRF Rate Class Allocation Amount = [(TCRF Annual Billing) x (Projected Rate Class kWh Usage)] / (Total Projected Usage for all Rate Classes).

TRANSMISSION COST RECOVERY FACTOR CHARGE

The Transmission Cost Recovery Factor Charge shall be based on projected kWh consumption for each rate class:

RATE

Residential	kWh x TCRF Rate
General Service Small	kWh x TCRF Rate
General Service Medium	kW x TCRF Rate
General Service Large	kVA x TCRF Rate
General Service Time of Use	kVA x TCRF Rate
Local Government Service Small	kWh x TCRF Rate
Local Government Service	kW x TCRF Rate
Weekend Service	kW x TCRF Rate
Temporary Service	kWh x TCRF Rate
Athletic Field	kWh x TCRF Rate
Traffic Lighting	kWh x TCRF Rate
Non-Traffic Lighting	kWh x TCRF Rate
Unmetered School Zone/Crossing	kWh x TCRF Rate
Unmetered Security Camera	kWh x TCRF Rate
Unmetered Wi-Fi Devices	kWh x TCRF Rate

SCHEDULE DGR

DISTRIBUTED GENERATION FROM RENEWABLE SOURCES RIDER

(Effective 10/01/165)

APPLICATION

This Rider is available to any retail customer receiving electric service under a DME electric rate schedule who owns and operates an on-site generating system powered by a renewable resource capable of producing power, and who interconnects with the DME electric system. Renewable energy technology is any technology that exclusively relies on an energy source that is naturally regenerated over a short time and derived directly or indirectly from the sun or wind. A renewable energy technology does not rely on energy resources derived from fossil fuels, waste products from fossil fuels, or waste products from inorganic sources. This Rider applies to a Customer-owned generating system that primarily offsets part or all of the Customer's electric service provided by DME. If the Customer-owned generating system larger than 50kW or if the system's primary purpose is to sell energy to the grid and not offset the Customer's consumption, special arrangements and contract may be necessary.

In light of additional costs associated with the Distributed Generation From Renewable Sources Rider and to mitigate potential risk to ratepayers, any participant in the Distributed Generation From Renewable Sources Rider must be, at the time this rider is applied for and continuing while such rider is in effect, a customer in good standing of all Denton Municipal Utilities, including Solid Waste services. Unless legal review procedures have been invoked in good faith regarding the obligation, a customer in good standing for the purpose of this Rate Rider is defined as a customer not owing any unpaid utility or solid waste debt obligation that is over forty-five (45) days past due to the City of Denton, Texas during the previous 12 months.

CONDITIONS OF SERVICE

All charges, character of service, and terms and conditions of the electric rate schedule under which the Customer receives service shall apply except as expressly altered by this Rider.

The Customer shall comply with the current DME technical requirements for distributed generation interconnection. The Customer shall obtain approval from DME before the Customer energizes the customer's on-site generating system or interconnects it with the DME electric system. The Customer shall submit to DME a completed interconnection application form and signed Standard Agreement for Interconnection and Parallel Operation of Distributed Generation Agreement. The minimum term of an Agreement under this Rider is one year, extended automatically unless terminated by either party with sixty days advance written notice

The Customer is responsible for the costs of interconnecting with the DME electric system, including transformers, service lines, or other equipment determined necessary by DME for safe installation and operation of the Customer's equipment with the City's system. The Customer is responsible for any costs associated with required inspections and permits.

METERING

Metering under this Rider shall be performed by a single meter capable of registering the flow of electricity in two directions (delivered and received) to determine the Customer's net energy flow.

RATE

Beginning in a billing period after a Customer receives approval to interconnect the Customer's on-site generating system from the City of Denton; all energy generated by the Customer's system and delivered to the DME electric system will be considered renewable energy. The Customer shall be billed for all energy delivered by DME to the Customer under the approved residential rates.

For any generation delivered by the Customer's system to the DME system up to the amount of energy delivered by DME to the Customer, the City shall credit the Customer's account for the energy generated as follows:

$$\begin{aligned} \text{Generation Credit} = & [(\text{kWh delivered from the Customer's approved system}) \\ & \times (\text{Customer's base electric service rate})] + [(\text{kWh delivered from the} \\ & \text{Customer's approved system}) \times (\text{RCA rate})] \end{aligned}$$

For all energy delivered by the Customer's system to the DME system that exceeds the amount of energy delivered by DME to the Customer, the City shall credit the Customer's account for the energy generated as follows:

$$\begin{aligned} \text{Excess Generation Credit} = & (\text{kWh delivered from the Customer's system}) \\ & \times \text{RCA rate (see Schedule RCA).} \end{aligned}$$

Any Billing Period Credit shall be applied to the utility charges due from the Customer to the City of Denton for the billing period.

INDEMNIFICATION

The Customer operating the renewable distributed generation system indemnifies DME and holds DME harmless for all damages and injuries to DME, the Customer, or others arising out of Customer's use, ownership or operation of Customer's distributed generation facilities in parallel with DME's system. Customer is solely responsible for providing adequate protection for operating in parallel with DME's system in such a manner that faults or other disturbances on the DME system do not cause damage to the Customer's distributed generation equipment.

SCHEDELE IWG

INDEPENDENT WHOLESALE GENERATOR

(Effective 10/01/165)

APPLICATION

The Independent Wholesale Generator (IWG) rate is applicable to non-renewable generating installations of ten (10) MW or less interconnected to and operating in parallel with DME's distribution system, for the sole purpose of delivering the net output (gross output minus auxiliary load and step up transformer loses) of said generating installation to the Electric Reliability Council of Texas (ERCOT) transmission grid for sale in the ERCOT wholesale power market. DME will interconnect the IWG pursuant to the terms of the DME standard Agreement for Interconnection and Parallel Operation of Independent Wholesale Generation. Other services or special requirements for interconnection of a specific generating facility not included in the DME standard Agreement for Interconnection and Parallel Operation of Independent Wholesale Generation, requested by the IWG Customer, or required by DME may be provided pursuant to negotiation and agreement by both the IWG Customer and DME. The provision of said additional services or requirements shall be recorded in the form of an addendum to the DME standard Agreement for Interconnection and Parallel Operation of Independent Wholesale Generation.

TERMS AND CONDITIONS OF SERVICE

At a minimum, the IWG Customer shall comply with the current DME technical requirements for independent wholesale generation interconnection specified in the DME standard Agreement for Interconnection and Parallel Operation of Distributed Generation. The IWG Customer may not begin construction of its facilities until an Agreement for Interconnection and Parallel Operation of Distributed Generation has been signed by both the IWG Customer and the City of Denton. The IWG Customer shall obtain approval from DME before the IWG Customer begins operation of its generating system or interconnects it with the DME electric system. The IWG Customer is responsible for any costs associated with required City of Denton and/or DME inspections and permits.

PRE-INTERCONNECTION STUDIES

DME may, at its sole discretion perform pre-interconnection studies DME or the City of Denton deems appropriate, which may include, but are not restricted to, a service study, coordination study, emissions impact study, and utility system impact study. In instances where such studies are deemed necessary, the scope of such studies shall be based on the characteristics of the particular IWG generation system to be interconnected, DME's distribution system at the specified proposed location(s), and environmental characteristics of the Denton County area. Such studies will also determine whether the electric interconnection can be made consistent with safe and reliable operation of DME's distribution system. The cost of such analysis will be the responsibility of the IWG Customer. A cost estimate will be provided and agreed to by the IWG Customer prior to DME or the City performing the studies.

SYSTEM MODIFICATIONS

The IWG Customer will be required to install, operate, and maintain in good order and repair, and without cost to DME, all facilities required by DME for the safe operation of the IWG system in parallel with DME's electric system. The IWG Customer's IWG system shall be installed, operated, and maintained by the IWG Customer at all times in conformity with good electrical practice and shall comply with the National Electric Code, the National Electric Safety Code, any applicable local codes and any applicable DME service standards included in the DME Agreement for Interconnection and Parallel Operation of Independent Wholesale Generation

Any modifications or additions to DME's electrical system caused by the addition of the Customer's IWG system will be solely at the IWG Customer's expense. However, the IWG Customer will not acquire any ownership in these facilities. The modifications and additions may include, but are not restricted to, the upgrading of transformer insulation levels and lightening arrester ratings, the replacement of circuit breakers due to increased fault current levels, additional protective relaying and any additional metering. Further, DME may require that a communications channel(s) be installed at the IWG Customer's expense as part of the relay protection, remote control, remote metering, SCADA telemetry, and/or direct voice contact between DME and the IWG Customer.

RATE

The IWG Customer shall be subject to special contract arrangements and the rates charges to the Customer may consist of a minimum monthly Facility Charge plus a monthly distribution charge plus a monthly distribution line loss charge. These charges shall be calculated as follows:

Monthly Facility Charge:

The IWG Customer shall pay DME a monthly facility charge sufficient to compensate DME for its investment in special facilities dedicated exclusively to providing the IWG Customer service and/or that are necessary to ensure that the quality of service provided to other customers is not adversely affected pursuant to the requirements of the SYSTEM MODIFICATION provisions set forth above. The minimum monthly facility charge shall be \$69,065.55.

Distribution Delivery Charge:

The IWG Customer shall pay DME a monthly distribution delivery charge equal to \$2.06 times the IWG Customer's delivery demand. The IWG Customer's delivery demand shall be the greatest of the IWG Customer's maximum 15 minute net capacity output as measured at the IWG Customer's IWG site, the minimum billing kW shall be as established in the DME Agreement for Interconnection and Parallel Operation of Independent Wholesale Generation, or 1,500 kW.

Distribution Line Loss Charge:

The IWG Customer shall pay DME a monthly distribution line loss charge equal to the applicable monthly Energy Cost Adjustment (ECA) charge (see schedule ECA) times monthly energy losses. Monthly energy losses shall be calculated as the metered monthly kilowatt-hour output of the IWG Customer's IWG generating unit(s) as measured at the IWG Customer's IWG site times five (5.0) percent.

Generator Auxiliary Load Standby Charge:

The IWG Customer shall pay the DME General Service Large rate for any electric service used by the IWG Customer to serve generator auxiliary load as a result of demand and energy requirements placed upon DME resulting from planned or forced outage of the IWG Customer's IWG generation unit(s).

Electric Service to Structures and Other Facilities Other than Generator Auxiliary Load:

All charges, character of service, and terms and conditions of the applicable City of Denton electric rate schedule(s) under which the IWG Customer receives DME electric service for structures or other facilities not specifically supplying auxiliary service directly to its generating unit(s) shall apply except as expressly altered by this Rider.

SCHEDULE CGR

COMMERCIAL RENEWABLE ENERGY SERVICE RIDER

(Effective 10/01/165)

This Rider defines the manner by which commercial customers may purchase predetermined 1000 kWh blocks of energy or 100% of actual energy consumption from renewable resources by substituting the Renewable Cost Adjustment Charge (see Schedule RCA) in lieu of the Energy Cost Adjustment (see Schedule ECA) specified in their applicable rate Schedule.

APPLICATION

This Rider is applicable to any non-residential Customer receiving service under rate schedules GSS, GSM, GSL, G1, TGS, or WK at one point of delivery and measured through one meter. This Rider is not applicable to resale service in any event, or to temporary, standby, or supplementary service.

In light of additional costs associated with the Commercial Renewable Energy Service Rider and to mitigate potential risk to ratepayers, any participant in the Distributed Commercial Renewable Energy Service Rider must be, at the time this rider is applied for and continuing while such rider is in effect, a customer in good standing of all Denton Municipal Utilities, including Solid Waste services. Unless legal review procedures have been invoked in good faith regarding the obligation, a customer in good standing for the purpose of this Rate Rider is defined as a customer not owing any unpaid utility or solid waste debt obligation that is over forty-five (45) days past due to the City of Denton, Texas during the previous 12 months.

NET MONTHLY RATE

A customer eligible for service under this Rider may elect to purchase renewable energy at the Renewable Cost Adjustment Charge, determined in accordance with Schedule RCA. Said customer may elect to purchase 1000 kWh blocks of energy at the RCA rate, with the remainder of the customer's energy use charged at the ECA rate or to purchase all energy used at the RCA rate. All other charges contained in the customer's applicable rate Schedule shall continue to apply, as specified in said Schedule. Said customer's energy charge shall be calculated as follows.

Either:

Total Energy Charge = $[(Y \times 1000 \text{ kWh}) \times \text{RCA}] + \{[(\text{Total Energy Used}) - (Y \times 1000 \text{ kWh})] \times \text{ECA}\}$

Where:

Customer has elected to purchase a portion of its energy consumption at the RCA and:

Y= Number of 1000 kWh RCA blocks elected by said customer

Or:

Total Energy Charge = Total Energy Used x RCA

Where:

Customer has elected to purchase its entire energy consumption at the RCA

TERMS OF SERVICE

To exercise the energy supply choice made available by this Rider, an eligible customer must enter into a separate written agreement with Denton Municipal Electric that specifies either a specific number of 1000 kWh energy blocks to be purchased at the Renewable Cost Adjustment Charge or specifies that 100% of said customer's monthly energy consumption is to be purchased at the Renewable Cost Adjustment Charge. The minimum term for a Schedule CGR agreement shall be 12 months.

This Rider replaces the Energy Cost Adjustment Charge for participating customers.

SCHEDULE SFR

SPECIAL FACILITIES RIDER

(Effective 10/01/16~~5~~)

- (1) All service shall be offered from available facilities. If a customer service characteristic requires facilities and devices not normally and readily available at the location which the customer requests service, the total cost incurred by DME for all facilities installed, buried, relocated and/or removed shall be the responsibility of the Customer and subject to a special contract entered into between DME and the Customer. This contract shall be signed by both parties prior to the DME providing service to the Customer.
- (2) Billing for services beyond the delivery of electricity, utilized by the Customer, may be subject to a special contract entered into between DME and the Customer. This contract shall be signed by both parties prior to DME providing service to Customer.

SCHEDULE DFR

DARK FIBER (Effective 10/01/165)

APPLICATION

Service is available to any customer to the extent there is any excess capacity respecting Denton Municipal Electric's fiber optic cable facilities, within the area served by Denton Municipal Electric's ("DME") distribution system, for the purpose of point-to-point dark fiber optic cable connectivity intended for the transport of high-speed data.

MONTHLY RATE

(1) Fiber Mileage Charge	\$400 per fiber pair/mile, per month; and
(2) Building Presence Charge	\$180 per location, per month
Total Fiber Rate	\$580 per fiber pair/mile, per month, per location

RATE GUIDELINES

- (1) The minimum quantity of fiber to be leased shall be one (1) fiber pair. All fiber pairs furnished to the customer shall consist of two (2) fibers.
- (2) The minimum Fiber Mileage Charge is for one (1) fiber pair/mile.
- (3) After the first mile, Fiber Mileage Charge will be charged in increments of the nearest one-tenth (0.1) mile.
- (4) All costs associated with ingress to a customer's location from the DME right-of-way shall be billed directly to the customer, and are not included in the Fiber Mileage Charge and the Building Presence Charge and shall be paid to Denton Municipal Electric within fifteen (15) calendar days from the date of issuance of the bill.
- (5) The Fiber Mileage Charge calculation is based upon the actual fiber pair distance along the DME distribution system rights-of-way. The Fiber Mileage Charge is not based upon any other method of calculation. The Fiber Mileage Charge is not based upon any distance determination, such as the distance the crow flies, or from point-to-point.
- (6) The Fiber Mileage Charge distance shall be capped at two (2) times the direct point-to-point distance.
- (7) DME dark fiber by customer cannot conflict with existing private fiber and/or communications company in any specific area.
- (8) All costs associated for new point-to-point fiber spot networks where DME does not already have fiber installed are to be borne up-front by the customer; including installation costs, testing cost and any right-of-way or easement procurement costs.

DISCOUNTS

Special discounts will be applied for fiber pairs to the same location, and for fiber pairs for long-term contracts in the amounts as shown in the table below. The discount applicable to a customer shall not be a cumulative total of all the discounts offered. The discount any customer is entitled to shall be the largest single discount applicable to that customer's service.

Discount Type	Discount		Discount Type	Discount
<u>Term of Lease</u>	%		<u>Number of Fibers</u>	%
5-7 Years	30%		1-2 Fibers /Mileage Charge	0%
8-10 Years	45%		3-6 Fibers/ Mileage Charge	9.7%
			7-12 Fibers/Mileage Charge	19%
			12 or more Fibers/Mileage Charge	28.7%

TYPE OF SERVICE

The City shall furnish, install, maintain, and deliver only point-to-point dark fiber connectivity for the purpose of transporting high-speed data with a maximum loss of no more than 9.0 dB.

PAYMENT

Bills are due when rendered and become past due if not paid within fifteen (15) calendar days from date of issuance.

TERM OF LEASE CONTRACT

All dark fiber lease contracts shall be for a minimum term of five (5) years.

SECTION 2. The Assistant City Manager for Utilities is hereby authorized to expend funds to authorize credits to DME customers on their electric service bills and further to authorize cash incentives for the installation of photovoltaic systems in accordance with the form and type set forth in Schedule GIP, as the installation of energy efficient upgrades is in the best interest of the City of Denton, Texas, as such will reduce energy demand and consumption, reduce the peak load of the DME's electric system, reduce emissions in the state, and promote energy conservation, which are all public purposes of the City.

SECTION 3. All ordinances or parts of ordinances in force when the provisions of this ordinance became effective which are inconsistent, or in conflict with the terms or provisions contained in this ordinance are hereby repealed to the extent of any such conflict.

SECTION 4. If any section, subsection, paragraph, sentence, clause, phrase or word in this ordinance, or application thereof to any person or circumstances is held invalid by any court of competent jurisdiction, such holding shall not affect the validity of the remaining portions of this ordinance, and the City Council of the City of Denton, Texas, hereby declares it would have enacted such remaining portions despite any such invalidity.

SECTION 5. This ordinance and the rates herein adopted shall become effective, charged, and applied to all electric services rendered by Denton Municipal Electric, and all energy usage by customers of Denton Municipal Electric effective with the first billing issued on and after October 1, 20165; and a copy of said rates shall be maintained on file in the Office of the City Secretary of the City of Denton, Texas.

Facility Charge

PAYMENT

Bills are due when rendered, and become past due if not paid within fifteen (15) calendar days from date of issuance.

SPECIAL FACILITIES

All services which require special facilities in order to meet Customer's service requirements shall be provided, subject to the Special Facilities Rider.

VOLUME CHARGE

Billing for the water consumption shall be based on the consumption during the billing period.

Formula:

Gallons consumption \times Rate per 1,000 gallons
1,000

COMMERCIAL/INDUSTRIAL WATER RATES UNDER DROUGHT CONTINGENCY PLAN
CONDITIONS – ORDINANCE NO. 2014-109.

Under Stage 2 drought conditions, Commercial/Industrial customers shall be charged a 10% surcharge penalty for water usage above 80% of prior billing volumes per account per thirty (30) days.

Under Stage 3 drought conditions, Commercial/Industrial customers shall be charged a 20% surcharge penalty for water usage above 70% of prior billing volumes per account per thirty (30) days.

SCHEDULE WFH

METERED WATER FROM FIRE HYDRANT (Effective 10/01/16)

APPLICATION

Applicable for all water taken through a fire hydrant or other direct distribution line source at one location for private or commercial use not associated with fire fighting. Customers must complete, sign, and agree to all terms and conditions stated in the "Fire Hydrant Meter Use Agreement."

DEPOSIT \$1,100 per meter

User shall place a deposit each time a City's hydrant meter(s) is requested. The deposit will be returned when meter is returned and final bill is paid.

NET RATE

Volume Charge \$5.20 per 1,000 gallons

Monthly volume shall be computed by subtracting the beginning meter reading from the ending meter reading divided by 1,000, and multiplied times the volume charge, upon the monthly return of the meter to the Water Department for reading. Per the "Fire Hydrant Meter Use Agreement", failure by the Customer to return the meter to water utilities by the 3rd day of each month for reading, results in acceptance by the Customer to pay a monthly billing equal to 100,000 gallons of water usage for the month.

Facility Charge \$106.40 per bill

PAYMENT

Bills are due when rendered, and become past due if not paid within fifteen (15) calendar days from date of issuance.

COMMERCIAL/INDUSTRIAL WATER RATES UNDER DROUGHT CONTINGENCY PLAN CONDITIONS – ORDINANCE NO. 2014-109.

Under Stage 2 and Stage 3 drought conditions, use of water from fire hydrants limited to fire fighting, essential distribution system maintenance, and related activities. All other water use from fire hydrants will be by special permit only.

SCHEDULE WW

WHOLESALE TREATED WATER SERVICE TO UPPER TRINITY REGIONAL WATER DISTRICT (Effective 10/01/16)

APPLICATION

Applicable to all wholesale treated water sales from the City of Denton, Texas to the Upper Trinity Regional Water District (UTRWD)

Not applicable for temporary, standby, or supplementary service.

MONTHLY CHARGES

The monthly charge for service shall be expressed as a facility charge, a volume price per 1,000 gallons and a demand price per million gallons per day (MGD) of demand.

(WW2/WW3)	(1) Facility Charge	\$264.20	272.15	per bill
	(2) Water Volume Rate gallons	\$0.55	0.57	per 1,000
(WD2/WD3)	(3) Subscribed Demand Rate	\$611.20	4629.540	per MGD (Annual) 12 (Paid Monthly)

*Full Payment of Annual Water Demand Adjustments:

As determined in the last month of each fiscal year (September), if any outstanding or unpaid annual water demand adjustment charges exist, they shall be included in their entirety on the monthly billing for the following month of October. Water demand adjustment charges shall be billed and payable in full, in accordance with the bill payment delinquency provisions provided for below.

MINIMUM BILLING

The minimum monthly billing shall be the sum of the monthly facility charge plus the monthly subscribed demand rate charge.

WATER DEMAND

The demand will be billed on a monthly basis at the Water Demand Rate for the subscribed MGD water demand level. Annual water demand charges will be retroactively adjusted up beginning in June for each water year, if anytime during the fiscal year the actual peak demand required, as established by the highest rate of flow controller setting for any one day during the fiscal year, is greater than the peak demand subscribed during the fiscal year.

BILL PAYMENT DELINQUENCY

Bills shall be due and payable when rendered. Bills are considered delinquent if not paid within twenty (20) calendar days of the date a bill for service is rendered. There shall be a ten (10%) percent per annum interest charge on the amount due, from the date when due until paid, if not paid within twenty (20) calendar days of the date a bill for service is rendered.

SCHEDULE WRW

SPECIAL FACILITIES RIDER

(Effective 10/01/~~4516~~)

All service shall be offered from available facilities. If a Customer service request for a special or unusual service not otherwise provided for by the water rate ordinance, and/or requires facilities or devices which are not normally and readily available at the location at which the Customer requests the service, then the City shall provide the service subject to the requirements of paragraph 2 of this Rider.

The total cost of all facilities required to meet the Customer's special requirements, which are incurred by the City in connection with rendering the service shall be subject to a special contract entered into between the Water Utility Department and the Customer. This contract shall be signed by both parties prior to the City providing the requested service to the Customer.

SPECIAL CONDITIONS RIDER

(Effective 10/01/~~4516~~)

If a special condition or circumstance exists not otherwise provided for by the water rate ordinance, then the City shall have the authority to provide for the special condition subject to the requirements of paragraph 2 of this Rider.

Any billing adjustments in connection with any special condition or circumstance shall be at the discretion of the Director of Water Utilities or his designee.

SECTION 2. All ordinances or parts of ordinances in force when the provisions of this ordinance became effective which are inconsistent or in conflict with the terms of provisions contained in the amended schedule of rates hereby enacted by this ordinance, are hereby repealed to the extent of any such conflict.

SECTION 3. If any section, subsection, paragraph, sentence, clause, phrase or word in this ordinance, or application thereof to any person or circumstances is held invalid by any court of competent jurisdiction, such holding shall not affect the validity of the remaining portions of this ordinance, and the City Council of the City of Denton, Texas, hereby declares it would have enacted such remaining portions despite any such invalidity.

SECTION 4. The Schedule of Rates herein adopted shall be effective, charged and applied to all water consumption occurring on and after October 1, 20152016; and a copy of said rates, fees, and charges shall be maintained on file in the Office of the City Secretary of Denton, Texas.

PAYMENT

Application and Vehicle Permit fee is due in full before first disposal at Pecan Creek Water Reclamation Plant Septage Transfer Station. Bills are due when rendered, and become past due if not paid within fifteen (15) calendar days from date of issuance.

VOLUME CHARGE

Billing for the septage volume contained in the septage hauling tank, shall be based on the full tank volume only.

TERMS AND RENEWAL

Permits are issued annually, beginning Dec. 1, and are effective from Jan. 1 or the date of issuance, whichever is later, through Dec. 31 of the same calendar year. The permit application process should be initiated and fees should be paid as early as possible during the last quarter of each calendar year for the upcoming calendar year so that adequate time is available for review and processing of the application. Submittal of applications by Dec. 1 will eliminate the possibility of permits being issued after Jan. 1. All permits issued under this schedule shall be valid for up to one calendar year from the date of issuance. All permits issued during each calendar year will expire on the last day of that calendar year.

COLLECTION AND TRANSPORTATION SERVICES PERMIT (Effective 10/01/1516)

Any person, entity, or business engaged in the collection and transport of waste, recyclables, or other materials as classified within this rate schedule, and operating within the City of Denton must possess a current permit issued from the City prior to providing collection and transportation services. Any private container located within the City of Denton for use in waste and recyclables collection services is required to be permitted.

Permits for collection and transportation services are required for, but are not limited to, the following wastes and recyclables classifications:

- Municipal Solid Waste
- Special Waste
- Medical Waste
- Hazardous Waste
- Restaurant Oil and Grease
- Grease & Grit Trap Waste
- Commercial and Industrial Recyclable Materials – containerized and baled
- Residential Recyclable Materials
- Construction and Demolition (C&D) materials, recyclables, reuseables, and discarded C&D materials
- Waste and recyclable collection service providers operating in newly annexed areas, or contract service providers for the city
- Refuse or recyclables that the City does not collect and transport.

The person shall apply for a permit from the city, and shall pay the required application fees at the time of permit application. All permits are non-transferable and are granted as non-exclusive service permits. Granting permits will be at the discretion of the City to meet the needs of the community. The permit applicant must pay the required fees, and meet all permit requirements prior to the issuance of a permit. Applicants with a Texas Commission of Environmental Quality (TCEQ) poor compliance history may not be permitted.

All non-City of Denton container owners (roll-off containers, self contained compactors) are required to annually pay the per cubic yard container fee to the City of Denton for each container, that is at least 1 cubic yard in size, located within Denton's city limits.

Applicants will qualify to be permitted as 'Small Operators' if they have four or fewer service locations within the City of Denton, and operate two vehicles or less, within the City of Denton, including trailers, of which each vehicle does not have a Gross Vehicle Weight Rating (GVWR) of more than 14,000 pounds.

Granting of Permit

As a condition of granting a permit, the person or entity receiving such permit (permittee) agrees to execute and comply with all requirements of the service agreement, carry specific types and amounts of insurance, submit reports, and pay the necessary fees by the specified due date. Following the granting of a permit, permit stickers shall be issued by the City and shall be placed

by the permittee on all vehicles operating within the city limits of Denton and upon all containers placed within the City limits of Denton. Collection and transportation vehicles operating in Denton, and containers set in Denton are required to display a current and valid calendar year permit decal at all times. If decals are lost by the permittee, and are not visible on their vehicles or containers, then the vehicles and/or containers must be re-permitted by the permittee, and all appropriate fees paid, prior to the vehicles or containers being placed in service within Denton's city limits. The City of Denton is not responsible for lost decals.

Exclusions

Individuals living within the City limits of Denton, and hauling personal materials, wastes, or recyclables from their primary living residence are exempt from this requirement.

Any person, who transports applicable materials three or fewer times per year, shall register with the City on the forms provided for that purpose. No annual service fees are required, but registration and permitting through the City is required.

Right-of-Way Fee		
Per Cubic Yard, per Container, per Month (if applicable)	Paid Monthly	\$4.00
Waste manifests per book of 100		\$40.00

Service providers desiring to provide services in more than one service category are required to complete permit documentation and pay the applicable fees for each service category they desire to provide within Denton's City limits. All fees paid are nonrefundable.

Application, service, and container fees are payable at the time of application submittal. Right-of-way usage fees are due and payable prior to setting a container in the right-of-way. Service and container fees are non-transferable between vehicles and containers, and are unit specific.

Container fees apply to each container placed by the permittee within the City limits of Denton, and non-City owned containers serviced by the City, but do not apply to City of Denton owned containers. Containers are defined as any refuse containment equipment that are at least one cubic yard in size, which can be lifted and emptied using a special vehicle designed for that use, i.e. which are not emptied manually. Container fees are established for each cubic yard of container capacity, per container, as listed within the Fees section. All containers require a container permit fee regardless if the container is or is not placed on the ground.

Permitting and fees are applicable and due for all businesses hauling baled recyclables generated from businesses located within Denton's City limits.

Permittees currently permitted, and choosing not to reapply for and make payment for a new collection and transportation services permit by December 31st, for the upcoming calendar year beginning January 1st will be assessed an additional \$500 fee upon permitting or may not be granted a permit by the City of Denton. If all permit fees are not paid prior to December 31st, all unpermitted containers will be removed from their service provider locations beginning January 1st by the City of Denton. Collection of these containers by the service provider requires that the time and materials charges incurred by City staff to relocate these containers must be reimbursed to the City by the service provider, prior to the City's release of these containers.

Violations / 'No Operations' Declaration

A business which has not been permitted by the City to operate within the City limits of Denton; or has been suspended by the City from operating within the City limits of Denton, Texas shall be charged a sum of up to \$500.00 per day by the City, for each day of violation of this ordinance, if the provider violates the 'No Operations' requirement prior to receipt of a City of Denton permit, or during any suspension of a permit period. Each day of illegal operations during a 'No Operations' period is considered a separate violation and the service provider is subject to being charged a sum of up to \$500.00 for each day of violation. Following the receipt of a 'No Operations' declaration and prior to a service provider being reinstated to legally operate within the City limits of Denton, the service provider must meet with the City staff to update their application and agreement and make payment of all monies owed to the City.

If a service provider operates a vehicle within Denton's City limits which has not been permitted, uses a container which has not been permitted, operates any piece of equipment with an expired permit, performs some other permit violation, does not make payment of the appropriate fees in a timely manner, the city will issue a 'No Operations' declaration to the service provider, and assess all applicable permit violation fees. Once a service provider has been issued a 'No Operations' declaration from the City, all services to be provided within Denton's City limits are required to cease. Non-permitted containers may be collected by the City and stored until collection, storage, and permitting fees associated with each container are paid to the City of Denton. Following a meeting with the City staff, and the payment of all monies owed the City, the status of the permit will be determined.

Revocation of Services & Non-Renewal of Permits

If the City finds any requirement of the permit has been violated, or observes service providers operating within Denton's City limits without current permits, the City may institute a 'No Operations' declaration. Additionally, the City may revoke or not renew the service provider's permit, thereby requiring the service provider to cease all operations within the City limits of Denton.

Reclassification of Recyclables

Recyclables containing ten (10%) percent or more contamination, as determined by the City, will be considered refuse, and its collection may not be provided by service providers permitted under this ordinance. This material shall be reclassified as refuse and will be collected by the City of Denton. The General Manager, Solid Waste Services or his designee, will make the final determination on whether stored recyclables contain excessive contamination, which at the City's determination, may cause the reclassification of these materials to municipal solid waste (MSW), thereby negating the ability of a service provider to transport this material within Denton's City limits under their operating permit pursuant to this ordinance.

The City of Denton has the authority to inspect the contents of any container located within Denton's City limits in order to determine the materials content of the container, so as to ensure compliance with the contamination requirements, which shall not exceed 10%.

Terms and Renewal

Permits are issued annually, beginning December 1, and are effective from January 1, or the date of issuance, whichever is later, through December 31 of the same calendar year. The permit application process should be initiated and fees should be paid as early as possible during the last quarter of each calendar year for the upcoming calendar year so that adequate time is available for review and processing of the application. All collection and transportation permits shall be valid for up to one calendar year from the date of issuance. All permits issued during a calendar year will expire on the last day of that calendar year.

SOLID WASTE & RECYCLING SERVICES DEFINITIONS & ADDITIONAL DETAILS

(Effective 10/01/2016)

Household Hazardous Waste

Residential and multi-family household chemicals should not be placed in your refuse container. They include pesticides, herbicides, cleaning chemicals, paints, oils, etc. Residents shall contact Customer Service to receive curbside collection. The chemicals should be kept in their original containers and placed where requested by the Customer Service staff.

Electronic Equipment

Televisions, monitors, video displays, laptops, similar electronic devices, and certain appliances containing CRT, LED, LCD, plasma, and other electronic displays will be charged fees for the collection, processing, recycling, and disposal of these items.

Residential Remodeling

Residential remodeling materials include, but are not limited to; lumber, brick, fencing, drywall, and other construction materials. No materials shall exceed 8 feet in length. If the customer has over 4 cubic yards of remodeling materials for collection, the customer is required to utilize a City refuse container of adequate size to contain the materials and maintain a collection service frequency of at least once per month.

Residential customers may be provided commercial containers and services at the published commercial rates. Temporary containers may be placed on residential property for up to 30 days.

Special Event - Clearstream Services

1 - 10 Clearstream Containers
11 - 19 Clearstream Containers
20 - 30 Clearstream Containers
Delivery Charge (If Applicable)

\$0.00	\$25.00
\$0.00	\$45.00
\$0.00	\$90.00
\$0.00	\$80.00

There is no Delivery Charge if the Clearstream supplies are picked up and returned by the customer to Solid Waste & Recycling. If the materials are not transported by the Customer the Delivery Charge will apply.

Commercial Cart Collections

In areas where commercial cart collection service is available, small quantity waste generators (one cubic yard or less of refuse per week) may contract for weekly cart service. All refuse must be placed in the cart, and the cart set out for collection no later than 7:00 a.m. on the scheduled collection day. A maximum of four carts will be provided; two refuse and two recycling.

Commercial Delivery / Relocation / Inaccessible / Exchange Fee / Extra Service

A fee will be charged for container delivery, relocation, inaccessibility, exchange, or extra collection services.

Commercial Same-Day Service Fee

The Solid Waste Department Customer Service personnel must receive commercial on-demand service requests prior to 11:00 a.m. in order to provide same day collection service.

Commercial Deposit Fee

A service deposit is required for commercial containers. Payments to the City that are not received by the due date will result in the customer's deposit being increased during the next billing cycle. The deposit increase will be based upon the customer's billing history. To continue receiving service, the customer is required to remit the previous service balance owed and the increased deposit charges. The General Manager of Solid Waste and Recycling Services, or designee, may adjust the deposit based upon the review of the customer's credit history and other criteria.

Shared Commercial Containers

Shared commercial container customers must have at least one cubic yard of service per customer per week. The use of shared commercial containers shall be determined by the Solid Waste & Recycling staff.

Commercial Service Requirements

Equipment Uses - All equipment furnished by the City shall at all times be considered the property of the City, and not private property. Customers shall not modify the equipment or use it for any purpose other than as set forth herein. The City shall repair, as necessary, the equipment furnished. The customer, however, agrees to be solely responsible for any damages to or loss of equipment resulting from any negligent acts or misuse by the customer, customer's agents, employees, or invitees. The City may temporarily replace the size and/or type of equipment contracted with one or more pieces of equipment of equivalent capacity for the purposes of repairing the equipment. Customer agrees that the equipment is in the customer's care, custody, and control at all times.

Equipment Location

Customers shall provide an accessible location for the equipment that is safe and provides adequate and legal clearance. Customers will be solely responsible for providing access to the equipment at all times and shall not be relieved of payment of any charges for services contracted for, but not provided by the City because of the customer's failure to maintain continuous specified access to the equipment. The equipment location requires a minimum of 4 feet of clearance around all sides of the equipment, if equipment is not located within an enclosure constructed to the City's standards. No container shall be set closer than 4 feet to any structure. The drive path that the City's service truck takes on the customer's premises must provide a minimum clearance on each side of the City's truck of at least 2 feet. Overhead clearance of 25 feet is required for roll-off containers, and 20 feet for front and side load containers. Failure of the customer to provide and maintain these minimum clearances will result in a discontinuation of their service until full clearance access is provided, and will require the customer to pay any and all damage claims, public and private, resulting from servicing the container. Services required to place the container at another location will be charged to the customer.

Container Weight Limits

Loaded side-load containers shall not exceed a total weight of one ton. Loaded front-load containers shall not exceed a total weight of two tons. Any front load or side load container weighed by the City's staff while on the City vehicle's route, and found to contain excess weight, shall be emptied by the customer to a weight level which is less than or equal to the maximum weight limit for the type of container stated earlier in this paragraph, prior to being serviced. All fines for overweight roll-off container loads, are the financial responsibility of the customer and shall be solely paid by the customer.

Special Wastes

Acceptance of special waste is subject to Federal and State laws and regulations, and the City of Denton has the right to refuse to accept or collect special waste at their discretion. Charges for the collection and disposal of special waste, approved by the General Manager of Solid Waste and Recycling, will be established based on the type of special waste and the regulatory requirements for collection and disposal of the waste

Unsecured Loads

In compliance with State regulations, solid waste loads that are not adequately secured to prevent the material from spilling will be charged an Unsecured Load Fee.

Sand, Soil, Rock, and Aggregate Material Sales

The Solid Waste Department may sell excess sand, soil, rock, and aggregate materials to the public. Pricing for these materials will be established by the General Manager, Solid Waste and Recycling at a rate to fully recover costs. Sales tax shall be added to the sales price.

Salvaged Materials

Materials offered for sale at the Second Chance Store will be sold at the approximate salvage value.

Landfill Surcharge

The current State of Texas assesses a landfill surcharge per (30 TAC 330.602), the surcharge is a pass-through charge collected on behalf of the State of Texas. Any additional assessment or fees established by a governmental entity will be added to the disposal rates and assessed on all waste delivered to the landfill.

Miscellaneous

Should any other fees and/or charges be established by any other authorized governmental entity, those fees and/or charges will be added to the monthly rate stated hereinabove in order that the City shall recover those additional costs from the customer.

Other collection and processing services may be provided at fees established by the department, and approved by the General Manager. The fees established will recoup the cost of service, including special and administrative services provided.

Indemnification and Hold Harmless

Customer shall defend, indemnify and hold the City harmless from any and all claims at the service location, and any and all claims made by any other person having an interest in the property situated at the service location, for any loss, damage or deterioration of the pavement, surface, subsurface materials, or similar facilities at the service location by reason of use thereof by the City's trucks that are used to service the equipment. Customer further agrees to release, indemnify, defend and hold harmless the City of Denton, Texas, from and against any and all claims of damages related to the furnishing of solid waste and recycling services performed by the City in servicing single- and multi-family living facilities as well as commercial entities.

SECTION 2. The General Manager of Solid Waste and Recycling of the City of Denton, or designee, is hereby authorized to deny the use of the City of Denton landfill to any customer who provides false information regarding the origin of, or the composition of the solid waste delivered for disposal to the landfill; or for safety violations committed by a customer within the landfill; or for non-compliance with verbal and written instructions provided to the customer by Solid Waste and Recycling Department personnel at the landfill; or for nonpayment of delinquent funds owed by the customer to the City of Denton, Texas; or for any violation of the law committed by the customer within the landfill; or for any non-compliance by the customer with the Texas Commission on Environmental Quality regulations or policies; or for any non-compliance by the customer with the City of Denton's Code of Ordinances or rules; or for any violation of the written landfill rules by the customer as posted by the Solid Waste and Recycling Department at the entrances to the landfill, from time to time.

SECTION 3. It is in the public interest that the provisions of Sections 26-3, 26-4, 26-5, 26-7, 26-8(a), and 26-9 of Article I of Chapter 26 of the City of Denton Code of Ordinances shall expressly apply to City of Denton Solid Waste and Recycling services.

SECTION 4. All ordinances or parts of ordinances in force when the provisions of this ordinance became effective which are inconsistent, or in conflict with the terms or provisions contained in this ordinance are hereby repealed to the extent of any such conflict.

SECTION 5. If any section, subsection, paragraph, sentence, clause, phrase, or word in this ordinance, or the application thereof to any person or under any circumstances is held invalid by any court of competent jurisdiction, such holding shall not affect the validity of the remaining portions of this ordinance, and the City Council of the City of Denton, Texas, hereby declares it would have enacted such remaining portions despite any such invalidity.

SECTION 6. This ordinance shall become effective, charged, and applied to all solid waste and recycling services rendered by the City of Denton on and after October 1, 2016; and a copy of said rates, fees, and charges shall be maintained on file in the Office of the City Secretary of Denton, Texas.

Memorandum

Date: July 26, 2016

To: Chuck Springer, Director of Finance

From: Christine Taylor

Subject: Fee Schedule Changes

As part of the budget process this year the Parks and Recreation Department is proposing increased aquatic fees. The increased fees will only impact the users of the services, instead of the general tax payers, helping prevent an increase in taxes for all citizens. Proposed fee changes have been approved by the Parks, Recreation and Beautification Board and will be presented to Council on the consent agenda on September 20, 2016.

Specifically, fees are adjusted as follows:

Natatorium Pass Fee Changes

- Family (Resident/Non Resident)
 - 1 Month from \$40.00/\$60.00 will no longer be available
 - Season from \$120.00/\$140.00 will no longer be available
 - Annual from \$250.00/\$270.00 will no longer be available

Water Park Fee Changes
