Subchapter 5: Use Regulations

5.2 Table of Allowed Uses 5.2.2 Organization of Table

cross-referenced in the last column of Table 5.2-A: *Table of Allowed Uses*. Uses marked with a "+" following the "P" or "S" in a zoning district indicates that use-specific standards apply to that use type in that zoning district. For example, "P+" indicates that a use is permitted by-right, but that additional standards apply in that zoning district.

5.2.2 Organization of Table

In Table 5.2-A: *Table of Allowed Uses*, land uses are classified into general use categories and specific uses based on common functional, product, or physical characteristics such as the type and amount of activity, the type of customers or residents, how goods or services are sold or delivered, and site conditions. This classification provides a systematic basis for assigning present and future land uses into appropriate zoning districts.
