Purchasing Supervisor City of  
Denton Procurement 901 B  
Texas St.  
Denton, TX 76209

Dear Ms. Christian:

Kroll, LLC ("Kroll"), will provide City of Denton ("the City") the appraisal services described within this agreement ("Agreement").

## Purpose of the Engagement

The purpose of this engagement is to provide the City a property insurance appraisal for the City's use in connection with its internal analysis of its insurance needs with respect to the identified property. Our analysis will be dated as of the last day of our site inspection. Our opinion is intended to assist the City in making informed business decisions; it is not a recommendation. Any decisions relating to insurance coverage shall remain the City's responsibility and be made solely at its discretion.

Kroll will provide the City a property appraisal process that will fulfill the following needs:

- Provide accurate insurable replacement cost values for all properties.
- Provide proper identification of basic construction, occupancy, protection, and exposure (COPE) data for each structure valued.

## Engagement Scope

We will research and report the insurable value (our "Opinion") of certain City property. The City currently owns approximately 200 buildings/facilities/structures/properties, including but not limited to:

- Parks facilities, including a natatorium and water park
- Municipal Airport
- Wastewater operations (includes a wastewater treatment plant)
- Water utility operations (includes 2 water production plants)

- Solid waste operations (residential and commercial collection, recycling, landfill)
- Electric operations, including the Denton Energy Center and electric substations • 3 libraries

- 8 fire stations, a fire drill tower, and an outdoor classroom
- Police department, including a training center and firing range
- Animal shelter
- City office facilities, service/maintenance center, and warehouses

### ***Description of Identified Property***

These property classifications will be included in the engagement:

- 1) Buildings
- 2) Personal property

Assets not identified above will be excluded from the engagement.

If the City's insurance policy excludes coverage of specific property classifications, in part or whole, the City should notify us in writing prior to beginning the engagement if those assets should be excluded.

We will work with the City during the engagement to further refine the scope of the identified property to be included in the engagement, if applicable. Depending on the nature and extent of changes in the scope of the engagement we may need to revise our fee.

### ***Definition of Insurable Value***

We will develop our opinion of insurable value as the replacement cost value (RCV), defined as the estimated amount required to reproduce a property entirely at one time, in like kind and quality, in accordance with current market prices for labor, materials, and manufactured equipment; contractors' overhead and profit; and fees, but without provisions for overtime, bonuses for labor, or premiums for materials and equipment.

In estimating insurable value, we will allow for national building codes; however, we will not consider any construction codes imposed by state or local municipalities, ordinances, or other legal restrictions, nor will we consider the cost of demolition in connection with reconstruction or the cost of removal of destroyed property.

### ***Valuation Methodology***

Our appraisal will rely solely on the cost approach because the market and income approaches are not applicable for the purpose of this engagement.

## Scope of Work

We anticipate this engagement will include the following:

1. Conduct an onsite appraisal of all City-owned properties, including machinery and equipment, contents (including furniture and office equipment).
2. Assist, upon request, in providing support for proof of loss to insurance carrier(s) in the event of a significant loss involving stated values.
3. Identify and establish values for newly acquired, constructed, or renovated properties to establish insurable values and include them in an updated property schedule.
4. All insurance valuations, including desk updates, new construction, acquisitions, and renovations, to include the following:
  - Cost of reproduction new ○ Machinery and equipment (M&E) ○ Contents (e.g., furniture, office equipment) ○ Year built
  - Address
  - Building construction type ○ Number of floors ○ Roof construction type ○ Square footage
  - Fire devices present (e.g., sprinklers, extinguishers, standpipe hose systems) and smoke alarm systems
  - Assigning location codes, descriptions, and/or grouping of properties as desired by City (e.g., by department, Home Business Unit [HBU], location)
5. An estimate of the insurable value of each facility's machinery and equipment (M&E) and contents (e.g., office furniture, business machines, computer equipment) using a modeling approach and provide a valuation on a replacement cost and an actual cash value basis.
6. Presentation of Findings - Prepare and present a final report, including an analysis of financial impact and recommendations to Risk Management, Executive Management, and other parties as determined by the City.

## Buildings

We will utilize a full-scope segregated cost approach including an inspection of each building to identify construction data that will be used in the valuation process. During inspection of the premises, we will calculate each building's area and perimeter by measuring the structure, through an analysis of the as-built blueprints, or from other verified sources; identify and record data of the major construction components (type of structure, walls, roof, etc.); determine the construction class; record data of major service systems (electrical, plumbing, security, elevators, heating, ventilation, cooling, etc.); photograph the building; and record the GPS coordinates. The insurable value of each building and the related construction, occupancy, protection, and exposure data obtained during the inspection will be reported on an itemized basis.

## Secondary Cope Information

Kroll will gather and report specific secondary cope information for each structure. These items are included as follows:

- 1. Roof Sheathing Attachment
- 2. Opening Protection
- 3. Roof Geometry
- 4. Roof Age/Condition
- 5. Roof Covering
- 6. Roof Anchoring
- 7. Cladding Type (exterior)
- 8. RMS Construction

## Personal Property

We will develop an opinion of the insurable value of personal property through use of a modeling approach, which relies on our proprietary database containing data from thousands of detailed equipment inventories we have performed. The model develops the insurable value of each building’s personal property on the basis of building occupancy and square footage. The model can be altered to account for above- or below- average density of personal property. A single insurable value will be reported for each building’s personal property.

This Agreement is subject to and incorporates the **Terms and Conditions** attached as **Exhibit A**.
