AGENDA INFORMATION SHEET

DEPARTMENT: Capital Projects/Engineering/Public Works

ACM: Cassandra Ogden

DATE: June 6, 2023

SUBJECT

Receive a report, hold a discussion and give staff direction regarding the City of Denton and Texas Department of Transportation (TxDOT) collaboration including efforts relating to safety and planning measures.

BACKGROUND

On April 18, former Council Member Davis gave a two-minute pitch requesting a work session to discuss traffic safety along West US 380 along with the TxDOT collaboration with the City of Denton including efforts relating to safety and planning measures.

The City of Denton Capital Projects/Engineering/Public Works Departments work in collaboration with the Texas Department of Transportation (TxDOT) on several items including:

- Monthly Coordination Meetings to review Development, Engineering, and Enforcement related questions
- Monthly On-System Meetings to go over all projects TxDOT has in planning/design and construction to coordinate
- Monthly presentation from ITS to the Mobility Committee regarding projects in design and construction
- Regular correspondence as needed between City staff and Area Engineer
- Regular correspondence on permits for work to be performed in TxDOT ROW
- Regular project specific meetings for City utility relocations in advance of TxDOT widenings (typically, biweekly such as I-35)

TxDOT will present to City Council the efforts they take to provide for the safety and planning measures for the City of Denton and surrounding areas including statistics and an overview of safety and construction projects being completed in the City.
