Reason(s) supporting your appeal: (If appropriate, give the page number of the source that supports your claim.)

According to the question, "first" is implying that the benefits of CRR follows an order (1,2,3...)

In the textbook, "first" is only used as a lead in word, ~~no~~ and does not imply that CRR benefits follow an order. To support this, the textbook does not use the word second, third, etc. The textbook uses "another benefit" when addressing CRR benefits. The use of the word first in the question defies the intent of the textbook.

Continue on back of this form as needed.

Therefore, A, the creation of a safer environment, ~~the~~ is also a correct answer.

Summary... the textbook states the benefits of CRR and does not imply they must follow an order.

The question is implying that there is an order, which is incorrect.
