C. In addition to any other remedy available, the City may deduct from any amounts owed to the Contractor, or otherwise recover, any amounts paid for items in excess of the Contractor's current prices on orders by others for like deliverables under similar terms of purchase.

EXHIBIT 5

20. **WARRANTY – TITLE:** The Contractor warrants that it has good and indefeasible title to all deliverables furnished under the Contract, and that the deliverables are free and clear of all liens, claims, security interests and encumbrances. The Contractor shall indemnify and hold the City harmless from and against all adverse title claims to the deliverables.

21. **WARRANTY – DELIVERABLES:** The Contractor warrants and represents that all deliverables sold the City under the Contract shall be free from defects in design, workmanship or manufacture, and conform in all material respects to the specifications, drawings, and descriptions in the Solicitation, to any samples furnished by the Contractor, to the terms, covenants and conditions of the Contract, and to all applicable State, Federal or local laws, rules, and regulations, and industry codes and standards. Unless otherwise stated in the Solicitation, the deliverables shall be new or recycled merchandise, and not used or reconditioned.

A. Recycled deliverables shall be clearly identified as such.

B. The Contractor may not limit, exclude or disclaim the foregoing warranty or any warranty implied by law; and any attempt to do so shall be without force or effect.

C. Unless otherwise specified in the Contract, the warranty period shall be at least one year from the date of acceptance of the deliverables or from the date of acceptance of any replacement deliverables. If during the warranty period, one or more of the above warranties are breached, the Contractor shall promptly upon receipt of demand either repair the non-conforming deliverables, or replace the non-conforming deliverables with fully conforming deliverables, at the City's option and at no additional cost to the City. All costs incidental to such repair or replacement, including but not limited to, any packaging and shipping costs shall be borne exclusively by the Contractor. The City shall endeavor to give the Contractor written notice of the breach of warranty within thirty (30) calendar days of discovery of the breach of warranty, but failure to give timely notice shall not impair the City's rights under this section.

D. If the Contractor is unable or unwilling to repair or replace defective or non-conforming deliverables as required by the City, then in addition to any other available remedy, the City may reduce the quantity of deliverables it may be required to purchase under the Contract from the Contractor, and purchase conforming deliverables from other sources. In such event, the Contractor shall pay to the City upon demand the increased cost, if any, incurred by the City to procure such deliverables from another source.

E. If the Contractor is not the manufacturer, and the deliverables are covered by a separate manufacturer's warranty, the Contractor shall transfer and assign such manufacturer's warranty to the City. If for any reason the manufacturer's warranty cannot be fully transferred to the City, the Contractor shall assist and cooperate with the City to the fullest extent to enforce such manufacturer's warranty for the benefit of the City.

22. **WARRANTY – SERVICES:** The Contractor warrants and represents that all services to be provided the City under the Contract will be fully and timely performed in a good and workmanlike manner in accordance with generally accepted industry standards and practices, the terms, conditions, and covenants of the Contract, and all applicable Federal, State and local laws, rules or regulations.

A. The Contractor may not limit, exclude or disclaim the foregoing warranty or any warranty implied by law, and any attempt to do so shall be without force or effect.

B. Unless otherwise specified in the Contract, the warranty period shall be at least one year from the Acceptance Date. If during the warranty period, one or more of the above warranties are breached, the Contractor shall promptly upon receipt of demand perform the services again in accordance with above standard at no additional cost to the City. All costs incidental to such

EXHIBIT 5

additional performance shall be borne by the Contractor. The City shall endeavor to give the Contractor written notice of the breach of warranty within thirty (30) calendar days of discovery of the breach warranty, but failure to give timely notice shall not impair the City's rights under this section.

C. If the Contractor is unable or unwilling to perform its services in accordance with the above standard as required by the City, then in addition to any other available remedy, the City may reduce the amount of services it may be required to purchase under the Contract from the Contractor, and purchase conforming services from other sources. In such event, the Contractor shall pay to the City upon demand the increased cost, if any, incurred by the City to procure such services from another source.

23. ACCEPTANCE OF INCOMPLETE OR NON-CONFORMING DELIVERABLES: If, instead of requiring immediate correction or removal and replacement of defective or non-conforming deliverables, the City prefers to accept it, the City may do so. The Contractor shall pay all claims, costs, losses and damages attributable to the City's evaluation of and determination to accept such defective or non-conforming deliverables. If any such acceptance occurs prior to final payment, the City may deduct such amounts as are necessary to compensate the City for the diminished value of the defective or non-conforming deliverables. If the acceptance occurs after final payment, such amount will be refunded to the City by the Contractor.

24. RIGHT TO ASSURANCE: Whenever one party to the Contract in good faith has reason to question the other party's intent to perform, demand may be made to the other party for written assurance of the intent to perform. In the event that no assurance is given within the time specified after demand is made, the demanding party may treat this failure as an anticipatory repudiation of the Contract.

25. STOP WORK NOTICE: The City may issue an immediate Stop Work Notice in the event the Contractor is observed performing in a manner that is in violation of Federal, State, or local guidelines, or in a manner that is determined by the City to be unsafe to either life or property. Upon notification, the Contractor will cease all work until notified by the City that the violation or unsafe condition has been corrected. The Contractor shall be liable for all costs incurred by the City as a result of the issuance of such Stop Work Notice.

26. DEFAULT: The Contractor shall be in default under the Contract if the Contractor (a) fails to fully, timely and faithfully perform any of its material obligations under the Contract, (b) fails to provide adequate assurance of performance under Paragraph 24, (c) becomes insolvent or seeks relief under the bankruptcy laws of the United States or (d) makes a material misrepresentation in Contractor's Offer, or in any report or deliverable required to be submitted by the Contractor to the City.

27. TERMINATION FOR CAUSE: In the event of a default by the Contractor, the City shall have the right to terminate the Contract for cause, by written notice effective ten (10) calendar days, unless otherwise specified, after the date of such notice, unless the Contractor, within such ten (10) day period, cures such default, or provides evidence sufficient to prove to the City's reasonable satisfaction that such default does not, in fact, exist. In addition to any other remedy available under law or in equity, the City shall be entitled to recover all actual damages, costs, losses and expenses, incurred by the City as a result of the Contractor's default, including,

EXHIBIT 5

without limitation, cost of cover, reasonable attorneys' fees, court costs, and prejudgment and post-judgment interest at the maximum lawful rate. Additionally, in the event of a default by the Contractor, the City may remove the Contractor from the City's vendor list for three (3) years and any Offer submitted by the Contractor may be disqualified for up to three (3) years. All rights and remedies under the Contract are cumulative and are not exclusive of any other right or remedy provided by law.

28. TERMINATION WITHOUT CAUSE: The City shall have the right to terminate the Contract, in whole or in part, without cause any time upon thirty (30) calendar days' prior written notice. Upon receipt of a notice of termination, the Contractor shall promptly cease all further work pursuant to the Contract, with such exceptions, if any, specified in the notice of termination. The City shall pay the Contractor, to the extent of funds Appropriated or otherwise legally available for such purposes, for all goods delivered and services performed and obligations incurred prior to the date of termination in accordance with the terms hereof.

29. FRAUD: Fraudulent statements by the Contractor on any Offer or in any report or deliverable required to be submitted by the Contractor to the City shall be grounds for the termination of the Contract for cause by the City and may result in legal action.

30. DELAYS:

A. The City may delay scheduled delivery or other due dates by written notice to the Contractor if the City deems it is in its best interest. If such delay causes an increase in the cost of the work under the Contract, the City and the Contractor shall negotiate an equitable adjustment for costs incurred by the Contractor in the Contract price and execute an amendment to the Contract. The Contractor must assert its right to an adjustment within thirty (30) calendar days from the date of receipt of the notice of delay. Failure to agree on any adjusted price shall be handled under the Dispute Resolution process specified in paragraph 49. However, nothing in this provision shall excuse the Contractor from delaying the delivery as notified.

B. Neither party shall be liable for any default or delay in the performance of its obligations under this Contract if, while and to the extent such default or delay is caused by acts of God, fire, riots, civil commotion, labor disruptions, sabotage, sovereign conduct, or any other cause beyond the reasonable control of such Party. In the event of default or delay in contract performance due to any of the foregoing causes, then the time for completion of the services will be extended; provided, however, in such an event, a conference will be held within three (3) business days to establish a mutually agreeable period of time reasonably necessary to overcome the effect of such failure to perform.

31. INDEMNITY:

A. Definitions:

- i. "Indemnified Claims" shall include any and all claims, demands, suits, causes of action, judgments and liability of every character, type or description, including all reasonable costs and expenses of litigation, mediation or other alternate dispute resolution mechanism, including attorney and other professional fees for: (1) damage to or loss of the property of any person (including, but not limited to the City, the Contractor, their respective agents, officers, employees and subcontractors; the officers, agents, and employees of such subcontractors; and third parties); and/or (2) death, bodily injury, illness, disease, worker's compensation, loss of services, or loss of income or wages to any person (including but not limited to the agents, officers and employees of the City,

42. **GRATUITIES:** The City may, by written notice to the Contractor, cancel the Contract without liability if it is determined by the City that gratuities were offered or given by the Contractor or any agent or representative of the Contractor to any officer or employee of the City of Denton with a view toward securing the Contract or securing favorable treatment with respect to the awarding or amending or the making of any determinations with respect to the performing of such contract. In the event the Contract is canceled by the City pursuant to this provision, the City shall be entitled, in addition to any other rights and remedies, to recover or withhold the amount of the cost incurred by the Contractor in providing such gratuities.

Any willful violation of this section shall constitute impropriety in office, and any officer or employee guilty thereof shall be subject to disciplinary action up to and including dismissal. Any violation of this provision, with the knowledge, expressed or implied, of the Contractor shall render the Contract voidable by the City. The Contractor shall complete and submit the City's Conflict of Interest Questionnaire.

44. **INDEPENDENT CONTRACTOR:** The Contract shall not be construed as creating an employer/employee relationship, a partnership, or a joint venture. The Contractor's services shall be those of an independent contractor. The Contractor agrees and understands that the Contract does not grant any rights or privileges established for employees of the City of Denton, Texas for the purposes of income tax, withholding, social security taxes, vacation or sick leave benefits, worker's compensation, or any other City employee benefit. No waiver by either the Contractor or the City of any one or more events of default by the other party shall operate as, or be construed to be, a permanent waiver of any rights or obligations under the Contract, or an express or implied acceptance of any other existing or future default or defaults, whether of a similar or different character.

47. **MODIFICATIONS:** The Contract can be modified or amended only by a writing signed by both parties. No pre-printed or similar terms on any the Contractor invoice, order or other document shall have any force or effect to change the terms, covenants, and conditions of the Contract.

48. **INTERPRETATION:** The Contract is intended by the parties as a final, complete and exclusive statement of the terms of their agreement. No course of prior dealing between the parties or course of performance or usage of the trade shall be relevant to supplement or explain any term used in the Contract. Although the Contract may have been substantially drafted by one party, it is the intent of the parties that all provisions be construed in a manner to be fair to both parties, reading no provisions more strictly against one party or the other. Whenever a term defined by the Uniform Commercial Code, as enacted by the State of Texas, is used in the Contract, the UCC definition shall control, unless otherwise defined in the Contract.

49. **DISPUTE RESOLUTION:**

A. If a dispute arises out of or relates to the Contract, or the breach thereof, the parties agree to negotiate prior to prosecuting a suit for damages. Either party may make a written request for a meeting between representatives of each party within fourteen (14) calendar days after receipt of the request or such later period as agreed by the parties. Each party shall include, at a minimum, one (1) senior level individual with decision-making authority regarding the dispute. The purpose of this and any subsequent meeting is to attempt in good faith to negotiate a resolution of the dispute. If, within thirty (30) calendar days after such meeting, the parties have not succeeded in negotiating a resolution of the dispute, they will proceed directly to mediation as described below. Negotiation may be waived by a written agreement signed by both parties, in which event the parties may proceed directly to mediation as described below.

B. If the efforts to resolve the dispute through negotiation fail, or the parties waive the negotiation process, the parties may select, within thirty (30) calendar days, a mediator trained in mediation skills to assist with resolution of the dispute. Should they choose this option; the City and the Contractor agree to act in good faith in the selection of the mediator and to give consideration to qualified individuals nominated to act as mediator. Nothing in the Contract prevents the parties from relying on the skills of a person who is trained in the subject matter of the dispute or a contract interpretation expert. If the parties fail to agree on a mediator within thirty (30) calendar days of initiation of the mediation process, the mediator shall be selected by

EXHIBIT 5

the Denton County Alternative Dispute Resolution Program (DCAP). The parties agree to participate in mediation in good faith for up to thirty (30) calendar days from the date of the first mediation session. The City and the Contractor will share the mediator's fees equally and the parties will bear their own costs of participation such as fees for any consultants or attorneys they may utilize to represent them or otherwise assist them in the mediation.

All issues arising from this Contract shall be resolved in the courts of Denton County, Texas and the parties agree to submit to the exclusive personal jurisdiction of such courts. The foregoing, however, shall not be construed or interpreted to limit or restrict the right or ability of the City to seek and secure injunctive relief from any competent authority as contemplated herein.

Any void provision shall be deemed severed from the Contract and the balance of the Contract shall be construed and enforced as if the Contract did not contain the particular portion or provision held to be void. The parties further agree to reform the Contract to replace any stricken provision with a valid provision that comes as close as possible to the intent of the stricken provision. Re: Contract #6067 (Load Profiler Services) and PicoTera Systems

Aug. 24, 2016

Dear Rebecca,

This letter is for the files of the City of Denton regarding contract #6067 for Load Profiler Services.

In order to better support our customers, we have established a company (PicoTera Systems, LLC) specifically to support enterprise software deployment and services like the ones in contract #6067.

High Performance SmarteBuilding, LLC (SmarteBuilding) is continuing to focus on deploying and supporting embedded energy management systems in buildings.

I am the Chairman & CEO of both companies.

We established PicoTera Systems in order to address two issues:

- 1) We have found that the nature of the two types of business require different technical and support teams and the legal and contracting needs are different for these two types of business, and
- 2) We wanted to address some concerns of other embedded energy management system vendors that having SmarteBuilding provide Load Profiler types of services directly to utilities potentially gives SmarteBuilding an unfair advantage with respect to potential commercial building customers.

Therefore, since contract #6067 (Load Profiler Services) is a hosted deployment of enterprise software, we would prefer to assign the contract to PicoTera Systems, LLC in order to better support the City of Denton for this project. I have included PicTera System's W-9 in this email.

Best regards,

Michael K. Cation

13. Provide details to support the evaluation criteria, including experience and delivery.

- A. Project Schedule (FACTOR: 10%).** Ability to timely start and complete project. This includes the schedule to complete project and may include ability to meet required milestones of completion. For supplies, the estimated delivery after receipt of order.

SmarteBuilding has a high degree of confidence in its ability to start and complete the project in a timely manner. In part, this is due to the fact that the requested Load Profiler service appears to be virtually identical in functionality to a service that SmarteBuilding is currently providing to Austin Energy for a customer base that is approximately 10x the size of what is being requested in the RFP.

Because of this, SmarteBuilding makes the following recommendation: If SmarteBuilding is eventually considered for the award of this contract – prior to any actual contract award – SmarteBuilding suggests that Denton Municipal Electric provide a copy of customer and meter data (in the same format that would be used by the operational system) to SmarteBuilding for testing purposes. SmarteBuilding will use its existing Load Profiler system and make any configuration adjustments needed to process the data and then review the running system with representatives from the City of Denton and Denton Municipal Electric. SmarteBuilding will do this at no cost and no obligation to the City of Denton and Denton Municipal Electric.

The intent of this exercise is to remove any unknowns or “surprises” that would otherwise not be discovered until the project was underway. This exercise should only take approximately one calendar week and should not impact the stated project schedule in the RFP. However, it should significantly reduce the project risk to both the City of Denton and to SmarteBuilding.

SmarteBuilding used this technique with the deployment that was done for Austin Energy. A fully functional system was up and running prior to official execution of the contract. This greatly reduced the project risk to both Austin Energy and SmarteBuilding and was such a positive experience for both parties that SmarteBuilding would like to use this same approach with the City of Denton.

- B. Compliance with specifications, quality, reliability, characteristics to meet stated or implied needs (FACTOR 30%).** Compliance with the stated specification(s) coupled with the quality and reliability of the goods and services such as fitness for use that meets or exceeds

EXHIBIT E

SmarteBuilding - Proposal for Load Profiler Services

Owner's expectations and the characteristics of the product or service that bear on its ability to meet the stated/implied needs.

Reviewing the functional system that SmarteBuilding proposes to bring up on the test data prior to any contract award will help to insure that all parties have the same expectation with regard to the specifications and system performance as it pertains to the scope of work in the RFP.

Scope of Work Items from RFP	SmarteBuilding Assessment
Whether contractor has developed the software or it is out of the box product, customization will be required.	Colors, logos and user interface style are already designed to be easily customizable.
User-Friendly Phone App and web-portal with easy, seamless access to all services/links: Outage Management System, Pay Bill, Account access, etc.	System already has both a phone web-app and a PC-based web-app. Phone app is designed for simple use and the PC app is designed for more sophisticated analysis.
-- OMS will need integration to Schneider Electric's Responder - multispeak web-based interface	System already interfaces to a number of web services and has configuration utilities to support integration with additional services such as Responder.
-- Pay Bill and other services will require links and shared credentials (Paymentus and MyUsage)	System already interfaces to a number of web services and has configuration utilities to support integration with additional services such as Responder.
DME branding	Colors, logos and user interface style are already designed to be easily customizable.
Daily interval data drop, preferred web services - if not, must be able to merge from two databases	System is capable of incorporating data from web services, file downloads, and merging multiple database sources.
View load profiles for any date range selected	This is a feature of the current system.
Examine profiles in 15 min, 30 min, hour, day, week, month, year	This is a feature of the current system.
Compare historical usage to current usage	This is a feature of the current system.
Overlay weather data on the profile to determine if usage is weather related	This is a feature of the current system.
Aggregate or compare the profiles for any grouping of facilities	This is a feature of the current system. Note that this capability is exposed in two ways: 1) in an interface that is used internally at the utility that supports grouping of meters and/or customers, and 2) in an interface that is designed to be used by customers that restricts their view to only their accounts
Access to a number of feedback options: daily/monthly reports in form of text/email	This is a feature of the current system.
Color coordinate for TOU accounts	Reporting by type of account – for example, Time Of Use, or Demand, Non-Demand, Net Metering, etc. is a feature of the current system.
Conduct 'what-if' analysis to determine actual savings from various load reduction or peak shaving activities	This is a feature of the current system.
(Residential) rate engine to model TOU costs based on load profile	This is a feature of the current system. Note that this capability exists for all rate classes in the system (not just residential) – and can handle demand, non-demand, time of use, solar and other typical utility rate structures.
Customer setup should include building information: square	This is a feature of the current system. The system

footage, energy efficiency upgrades, etc. (or tie into County records)	supports both bulk import from county tax records (typically in something similar to comma separated value format) as well as allows users to input their own data. SmarteBuilding has found in the past that county tax records are not always up-to-date and that it is important to allow both the utility and utility customers to update the information in the system.
Export consumption data in common data formats (Excel)	This is a feature of the current system.
Capabilities to include multiplier data and future water usage display Estimated Users: Residential – 45,000, Commercial – 5,500, Industrial - 150	The current system is handling a customer base approximately 10x larger than this. Therefore, SmarteBuilding does not anticipate any capacity issues.
Training to be provided to staff and customers (either on-site or remotely)	SmarteBuilding can do both. SmarteBuilding recommends that initial training sessions be on-site at Denton Municipal Electric.
Comprehensive rate engine to model any rate or tariff to calculate costs based upon actual load profile Internal Users expected: 5	This is a feature of the current system.

- C. **Indicators of Probable Performance under contract (FACTOR: 10%).** Indicators of probable performance under the contract to include: past vendor performance, financial resources and ability to perform, experience or demonstrated capability and responsibility, references, and the vendor's ability to provide reliable maintenance agreements and support.

The SmarteBuilding deployment at Austin Energy has been very successful and the references at Austin Energy can speak to past vendor performance, experience, demonstrated capability and responsibility, and SmarteBuilding's level of support.

- D. **Price, Total Cost of Ownership (FACTOR: 50%).** The price of the items, to include total cost of ownership, such as installation costs, life cycle costs, and warranty provisions.

SmarteBuilding provides Load Profiler as a service. Therefore there are no traditional up-front hardware or software licensing purchase costs. SmarteBuilding has dedicated space and network bandwidth in a data center and operates all server software, hardware, file-system storage, network services, and backup resources as part of the service price. The intent is that customers such as the City of Denton and Denton Municipal Electric don't have any "surprise" additional costs to deploying a Load Profiler solution.

Our existing customer references can also speak to this issue and relate what their experience has been with SmarteBuilding.
