

City of Denton Open Data

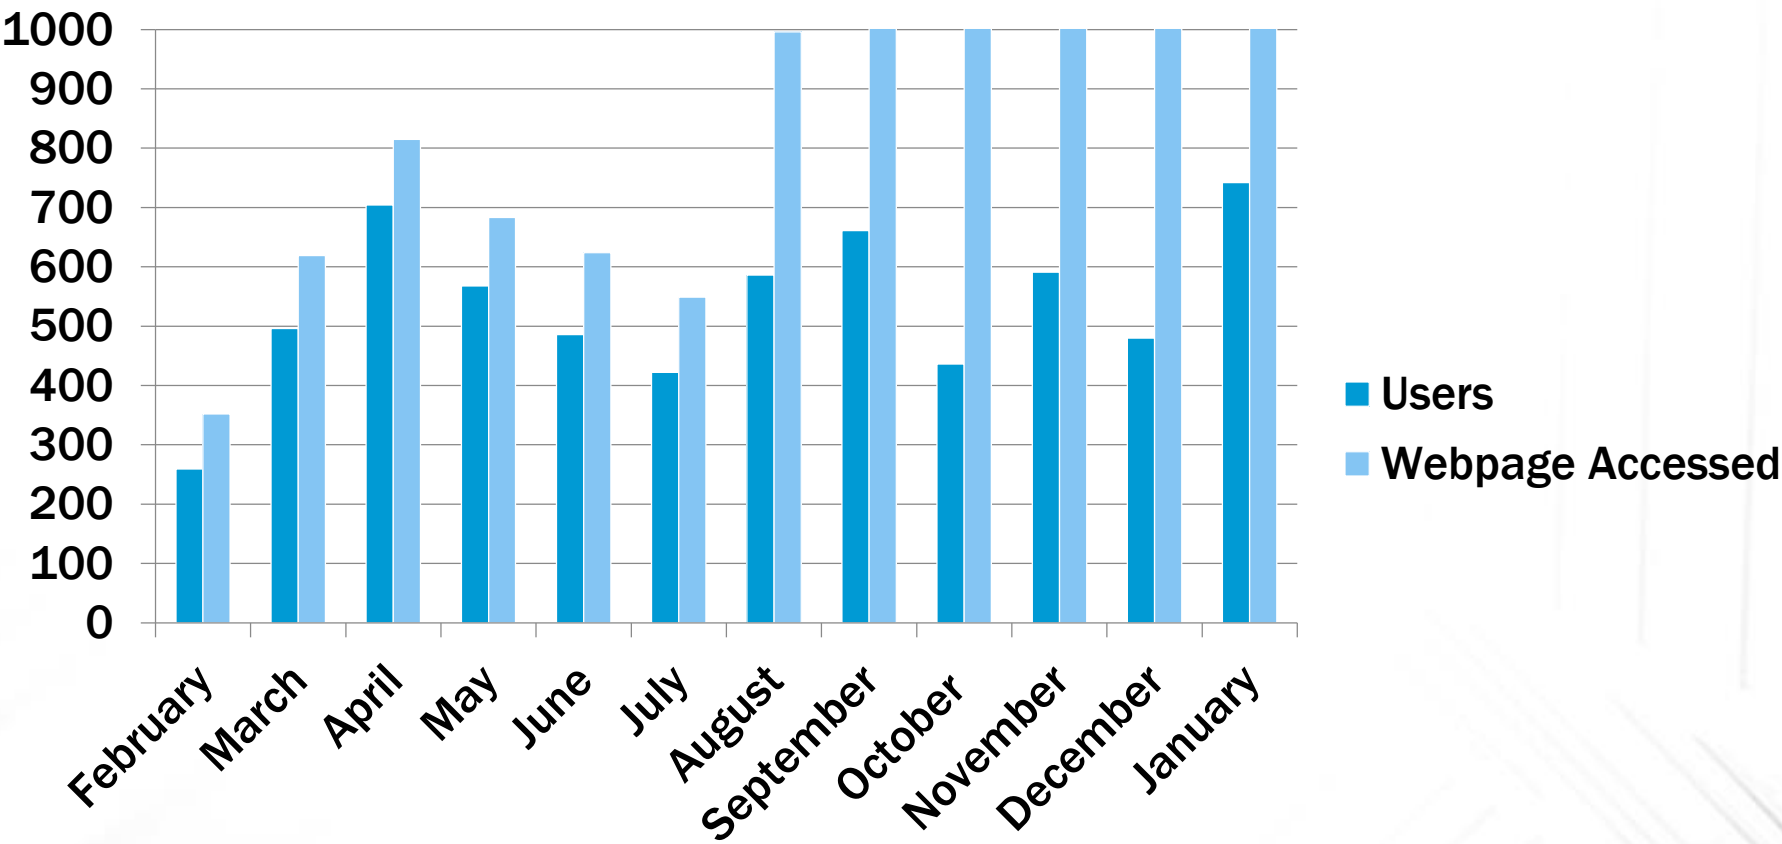

Agenda

- Open Data Update
- Open Data Portal
- Open Data Usage
- Performance Management Dashboard

Open Data Updates

- Since August 2016, added 87 new datasets for a total 157 data sets.
- Key data sets include crime and budget.
- In partnership with UNT, held our first open data portal event on February 4, 2017 called Denton Bedouins.

City of Denton Open Data Usage

Performance Management Dashboard

Track Progress

- Update data regularly and automatically recalculate KPIs as new data is added
- Visualize changes in the KPIs over time to see if progress is trending in the right direction
- Group multiple measures into categories and specific focus areas, e.g. public safety, public infrastructure , etc.

Provide Context

- Promote transparency by making dashboards and goals public-facing
- Openly display the trend or progress of the KPIs over time
- Provide supplemental content, such as a narrative, or additional data to paint a complete picture of the goal and current situation
