

Declaration of an Emergency

File #: 6344

Requisition #: 132533

Date: _____

Vendor: Weisinger, Inc.

Commodity/Service: Lake Ray Roberts Water Plant Transfer Pump #2 Repair

Estimated expenditure for the above commodity or service: \$ 60,000.00

Initial all entries below that apply to the proposed purchase, under the Purchasing Procedures as passed by City Council. (More than one entry may apply.)

1. X Emergency situations, including procurements necessary to protect the public health or safety or in response to a public calamity;
2. _____ A procurement necessary because of unforeseen damage to public equipment, machinery, or other property;

Brief Description/Justification for exception:

Ray Roberts Water Plant Transfer Pump Station has three (3) vertical turbine pumps to pump filtered water to the plant's six (6) million gallon clearwell. All of the pumps were installed during the construction of the water treatment plant in 2002. In 2016, Pump #3 was pulled, inspected and repaired due to loss of pumping capacity and efficiency. Pump #2 was pulled and inspected in September, 2016. According to the inspection report the pump needs to be rehabilitated to extend the service life and regain the pumping capacity and efficiency. In the event another pump were to fail during summer, the water plant will face difficulty in supplying and meeting the system demand. Long lead time for the repair requires the staff to initiate the pump rehabilitation work immediately in order to re-install the pump before summer. Preliminary estimate to repair the pump is in the amount of \$54,376.00 and the staff expects the final cost not to exceed \$60,000. Texas Local Government Code 252.022(a)(2) provides an exemption from competition for procurements necessary to preserve or protect the public health or safety of the municipality's residents.
