Janie McLeod  
Community Events Coordinator

Dear Janie,

This is a request for Exception to the Noise Ordinance for our event. Our event is called, Walk4Water. We are raising money to drill water wells in Tanzania, East Africa and in Haiti. The Singing Oaks Church of Christ is the organizer of this event. It will happen on Sunday October 29 from noon to 5pm at the South Lake Park. I am not sure about the decibels to request but we only need amplification for light music off an iPhone and for instructions and announcements to the crowd about the walk.

We plan to walk around the inside of the park as a group carrying some water cans to simulate what it is like to walk for water in Africa. We will return for hot dogs, refreshments and time of fellowship.

The money raised will be used to drill deep water wells that provide clean water for thousands of people in Africa and Haiti. This in turn helps to prevent many diseases and deaths there.

Sincerely,

Bob Bentley
